STATEMENT BY THE CHAIRMAN

I have to report yet again new records achieved by the Company! Regrettably these arose from the unprecedented storms of January and February, which were much more widespread than in 1987, which resulted in a massive number of claims being submitted in a very short period of time.

These disasters have served to demonstrate the strength of the Company in responding to them, and I wish to pay a special tribute to the Claims Staff who rose to the challenge so magnificently and were able to process all claims with a minimum of delay.

The storms alone were not responsible for the huge upsurge in claims made. There has been a significant increase in the incidence of subsidence and theft and vandalism claims are also higher. Investigation of these last two categories has shown that in many cases they could have been avoided if only simple precautions had been taken or if vigilance had been greater.

The total number of claims received during the year was 7055, compared with 3438 in 1988/89 and 4746 in 1987/88. The claims have been estimated at £5,050,183 of which £1,769,875 falls to be paid by us with the balance being covered by reinsurance.

Despite a steady growth in premium income, the incidence of these claims has not surprisingly resulted in an underwriting loss this year but after including our investment income an overall profit has been achieved.

The grants to Connexional Funds recommended to the Annual General Meeting this year will be £207,545 compared with £566,834 in 1988/89.

Competition in the insurance markets continues to increase and in order to maintain our own growth we have increased our activities in marketing and have appointed a Development Underwriter. We have also become members of the Insurance Ombudsman Bureau.

There has been a gratifying growth in the home policy account and in the expectation of this continuing we will be offering payment of premiums by instalments from this autumn. We will also be introducing a special new offer to Methodist Church members.

Having had some three years experience of the new Financial Services Act we have reviewed our membership of FIMBRA and have decided to withdraw from it in order to continue offering life and pensions business; we have become appointed representatives of the Guardian Royal Exchange. To assist us with these changes we have strengthened our staff with the appointment of a specialist in the field of life and pensions.

Throughout the year I have been most ably supported by Mr. H. W. Tuckey my Vice Chairman to whom I am most grateful, and I also wish to thank my fellow directors for their contributions and support.

As mentioned previously we have been ferociously rewarded this year particularly of the strength and loyalty of our staff at all levels. On behalf of the Board and Shareholders I am privileged to take this opportunity to say a heartfelt "thank you" to the General Manager, all the Staff, our Representatives and Superintendent Ministers for their loyal service and to our insurance intermediaries for their support throughout this difficult year.

R. H. Church, Chairman

REPORT OF THE DIRECTORS

The directors submit the Annual Report and Accounts of the Company for the year ended 30 June 1990.

PROFIT AND DIVIDEND

The Profit and Loss Account on page 5 shows the profit for the year.

The directors recommend a dividend for the year of 10 pence share.

The directors propose to transfer £100,000 to General Reserve.

NOTES ON THE ACCOUNTS

1 ACCOUNTING POLICIES

A Disclosure Requirements

The accounts have been prepared in compliance with Section 258 and Schedule 8 of the Companies Act 1985, and in accordance with the statement of recommended practice on accounting for insurance business issued by the Association of British Insurers

B Premium Income

- 1 Direct premiums written relate to business inception during the year
- 2 Unearned premiums represent that proportion of premiums written in the year to 30 June which relate to periods from 1 July to the subsequent dates of expiry of the policies, and have been computed as follows:
 - (i) Direct business - on a daily pro-rata basis, net of reinsurance premiums
 - (ii) Inwards Treaty business - as provided for in the respective treaty contracts

C Claims Outstanding

Provisions for notified claims as at 30 June each year are determined on an individual case basis after taking into account related handling expenses, expected recoveries, anticipated inflation and trends in settlements. Estimates made are based on the information available at the time. Provision is also made in respect of claims incurred but not reported at 30 June. Any differences between original claims provisions and subsequent re-estimates or settlements are reflected in the underwriting results of the year in which claims are re-estimated or settled.

D Investment Income

Investment income includes interest accrued to 30 June on deposits but no credit is taken for ordinary dividends and income arising on fixed interest securities other than those received in the year, and is stated before any deductions for income tax, and after adding back tax credits available on distributions.

E Capital Expenditure

11 PENSION COSTS

The Company operates a pension scheme providing benefits based on final pensionable pay. The assets of the scheme are held separately from those of the Company, being invested with an insurance company under a Grouped Funding policy. Contributions to the scheme are charged to the profit and loss account so as to spread the cost of pensions over employees' working lives with the Company. The contributions are determined by a qualified actuary on the basis of triennial valuations using the discontinuance target funding method. The most recent valuation was as at 1 January 1990. The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increase in salaries and pensions. It was assumed that the investment returns would be 8.5% per annum, that salary increases would average 7% per annum and that present and future pensions would increase at the rate of 4% per annum.

The pension charge for the period was £45,571 (1989-1988 £12,124).

The most recent actuarial valuation showed that the market value of the scheme's assets was £674,100 and that the actuarial value of those assets represented 99% of the benefits that had accrued to members, after allowing for expected future increases in earnings. The actuary's recommendations are under consideration by the directors.

12 TRANSACTIONS WITH OFFICERS

At 30 June 1990 the amounts outstanding in respect of transactions, arrangements and agreements with officers of the Company (other than directors) were:

	Number of Officers	1990	1989
		£	£
House purchase loans	2	33,000	33,000
Other loans	3	<u>15,741</u>	<u>15,741</u>

13 EMPLOYEES' EMOLUMENTS

One employee received emoluments within the scale £30,001 to £35,000.

14 EXCHANGE

The rate of exchange used for converting Pire Puntis was IR£1.0824.

REPORT OF THE AUDITORS

To the members of the Methodist Insurance P.L.C.

We have audited the accounts set out on pages 5 to 11 in accordance with Auditing Standards.

In our opinion the accounts have been properly prepared in accordance with the provisions of the Companies Act 1985 applicable to insurance companies.
