## Strategic Report For the year ended 31 December 2021

The Directors present the Strategic Report for the year ended 31 December 2021.

#### **Business Review**

GKN Automotive Limited is an intermediate holding company within the Melrose Industries PLC group which holds investments in GKN Driveline entities. The Company receives royalty income from certain entities within the GKN Automotive division and employs part of GKN Automotive's senior management and functional leadership team.

The Company's Income Statement for the financial year shows a profit after taxation of £54,413,000 (2020: profit of £9,279,000). Net assets for the year are £400,800,000 (2020: £273,495,000). This is principally due to changes in the valuation of the pension schemes. The financial position of the Company is considered satisfactory and the Company continues to receive the ongoing support of Melrose Industries PLC group.

The Company's turnover increased to £204,548,000 (2020: £190,856,000) due to an increase in royalty charges to GKN Automotive entities. Dividend income also increased to £247,735,000 (2020: £14,745,000).

During the year the annual impairment review of the Company's investments in subsidiaries and other undertakings identified that following a dividend payment to the Company the net asset value of certain investments in other group companies had fallen below the value at which they were held and an impairment charge of £146,752,000 has been recognised in the financial results for 2021 (2020: impairment £12,000). A trading loss of £41,243,000 (2020: loss of £6,217,000) was incurred as the company was unable to recover all its expenditures from other GKN companies.

The Company's future development is to continue to hold investments in GKN Automotive entities.

### **Principal Risks and Uncertainties**

From the perspective of the Company, the principal risks and uncertainties are integrated with the principal risks of the Melrose Industries PLC Group and are not managed separately. Accordingly, the principal risks and uncertainties of the Melrose Industries PLC Group, which include those of the Company, are discussed on pages 42 to 49 of the Group's 2021 annual report which does not form part of this report.

#### **Key Performance Indicators**

The Company's operations are managed on a divisional basis. For this reason, the Company's Directors believe that analysis using key performance indicators for the Company is not necessary or appropriate for an understanding of the development, performance or position of the business of the Company. The development, performance and position of GKN Automotive, which includes this Company, is discussed on pages 30-31 of the Group's 2021 annual report which does not form part of this report.

The address to obtain the Group accounts is available in note 18 on page 32.

Strategic Report (continued)
For the year ended 31 December 2021

### Section 172(1) Statement for GKN Automotive Limited (the "Company") for the year ended 31 December 2021

This statement is made pursuant to sections 414CZA and 426B of The Companies (Miscellaneous Reporting) Regulations 2018, and summarises how the directors of the Company have had regard to the matters set out in section 172(1)(a) to (f) of the Companies Act 2006 when performing their duties during the year ended 31 December 2021 (the "Financial Year"). This statement also contains the information required by paragraphs 11B and 11C, Part 4, Schedule 7, Large and Medium-sized Companies Regulations 2008 (which requires the directors to summarise how the Company's actions taken during the Financial Year have encouraged engagement with suppliers, customers and others in a business relationship with the Company).

### **Background & Purpose of the Company**

The Company is part of the wider GKN Automotive business, a global tier 1 supplier to the automotive industry. GKN Automotive manufactures and supplies conventional and electrified drivetrain components for the world's leading vehicle manufacturers. GKN Automotive employs approximately 24,000 people and operates from 20 countries. GKN Automotive is owned by Melrose Industries PIc ("Melrose"), an investor in manufacturing businesses, which is headquartered in the UK. The board of directors of the Company is made of five members of the GKN Automotive Executive Committee and four directors appointed by Melrose.

The Company carries on head office and certain central functions for the wider GKN Automotive business, and holds certain intellectual property rights which it licenses to other GKN Automotive companies worldwide. The Company operates from offices in London and the Midlands, UK. To a significant degree, the activities of the Company are inextricably linked to the activities of the wider GKN Automotive business.

How the directors have had regard to the matters set out in section 172(1)(a) to (f) when performing their duty under section 172 of the Companies Act 2006

Section 172 of the Companies Act 2006 requires that the directors act in a way that they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to (a) the likely consequences of any decision in the long term, (b) the interests of the company's employees, (c) the need to foster the company's business relationships with suppliers, customers and others, (d) the impact of the company's operations on the community and the environment, (e) the desirability of the company maintaining a reputation for high standards of business conduct, and (f) the need to act fairly as between members of the company. This statement considers the matter set out in section 172(1)(a) to (f) in turn.

### a) The likely consequences of any decision in the long term

The Company operates within the wider management structure of the GKN Automotive business. The GKN Automotive Executive Committee is responsible for the strategic management and oversight of the GKN Automotive business as a whole and for the taking of decisions which are material to the GKN Automotive business in the short, medium and long term. During 2021, the GKN Automotive Executive Committee and the Company's directors: (a) continually reviewed the performance of the GKN Automotive business against its competitors and the automotive market generally; (b) continually assessed the likely future development of the automotive market, including in particular the impact of electrification and technological disruption; (c) prepared and agreed a 5 year business plan for the GKN Automotive business; and (d) approved a number of significant strategic investments to ensure that the GKN Automotive business remains competitive in the future.

The directors' primary focus is on the creation of long term value for its ultimate shareholder, Melrose. Melrose's stated strategy is to invest in and manage its businesses as if it intends to own them forever, whilst acting with integrity, honesty, transparency and decisiveness, and it is this culture and approach which the GKN Automotive Executive Committee and the directors of the company take in all their decision making. For example, all major business decisions are made on the basis of approved business plans, which set out the anticipated financial consequences and benefits of the decision in the long term.

### b) The interests of the company's employees

The Company's employees principally work from its offices in London and the West Midlands. They are a small but crucial part of the wider GKN Automotive workforce, of approximately 24,000 employees, based in 20 countries. GKN Automotive places the interests of its employees at the heart of its decision making. Reflecting this, the Company continually engages with its employees and with the employees of the wider GKN Automotive business in order to ensure that their voice is heard. GKN Automotive measures employee engagement through an annual employee engagement survey, the results of which are shared with the GKN Automotive Executive Committee and the Company's directors, and are used to inform decision making. The Company's target is to increase employee engagement year-on-year.

During the year, the GKN Automotive Executive Team, including the majority of the directors, held monthly calls with approximately 250 of the most senior employees from across the GKN Automotive business, including 17 employees of the Company. The purpose of these calls was to cascade information to these employees (including information on the economic

## Strategic Report (continued) For the year ended 31 December 2021

factors affecting the performance of GKN Automotive) which is then further cascaded to their teams, and to provide an opportunity for questions and feedback to the GKN Automotive Executive Team. This is a key way in which the directors can have regard to the interests of GKN Automotive employees in its decision making. The GKN Automotive Executive Team,

including most of the directors, also visited numerous GKN Automotive plants and facilities and held 'town-hall' meetings which were an opportunity for the views of employees to be heard.

GKN Automotive has a central HR function, who are responsible for managing interactions with GKN Automotive employees, including the employees of the Company. Whilst the Company does not operate a share incentive scheme, employees are encouraged to be involved in GKN Automotive's performance through other reward and incentive initiatives that are managed by the HR function, from long-term incentive plans designed to incentivise long term value creation, to bonus schemes linked to GKN Automotive's annual financial performance. The HR function are also managing a talent review process to ensure that GKN Automotive's and the Company's talented employees are given the support that they need to successfully further their careers.

GKN Automotive operates a confidential external whistleblowing hotline where employees can report any concerns anonymously. Feedback from this hotline was reviewed by the Executive Committee (including most of the directors) during 2021. The Company engages in specific consultation regarding material decisions affecting its employees.

GKN Automotive and the Company employ a number of measures for providing employees systematically with information on matters of concern to them as employees. These include: (a) CEO and management conference calls; (b) intranet and e-mail announcements; (c) information placed on notice boards; and (d) line-manager communication and team meetings. Although the Company (as distinct from other parts of GKN Automotive), does not have a unionized workforce or recognise any trade union, the Company is represented by at the GKN Automotive European Works Council by an elected representative for the UK.

### c) The need to foster the company's business relationships with suppliers, customers and others

### Customers

Although the Company does not itself manufacture or sell products, its activities include customer relationship management activities for GKN Automotive as a whole. GKN Automotive's customers comprise 90% of the world's vehicle manufacturers and over 50% of new cars feature GKN Automotive systems and solutions.

With such a small concentration of large customers, it is critical to the future success of GKN Automotive that we build and maintain deep, long-lasting and committed relationships with our customers, and maintain a high degree of customer intimacy. We do this through our dedicated customer account teams, which interface with our customers on a daily basis and are responsible for day to day management.

In addition, the directors of the Company including the Chief Executive Officer and the Chief Commercial Officer, regularly meet with GKN Automotive's customers in order to discuss future strategy, commercial opportunities, investment and technology trends.

All material decisions taken by GKN Automotive and by the Company, involve consideration of their impact on relationships with our customers. GKN Automotive's Chief Commercial Officer, who is a director of the Company, is responsible for all customer relationships globally and regularly reports to the GKN Automotive Executive Committee and to the board on the status of day-to-day relationships with customers and the impact of decision making on customer relationships. Customer scorecards, which set out our customers' assessment of our performance, are also regularly reviewed and reported on.

### Suppliers

GKN Automotive has a diverse range of indirect suppliers of both direct and indirect goods and services. Maintaining strong relationships with our suppliers is vital to the future success of GKN Automotive. We build our relationships with our suppliers based on: (a) open dialogue and transparent decision-making; (b) setting clear expectations of our suppliers; (c) continuous supplier relationship management, through our dedicated Commodity Purchasing Managers; (d) regular information exchange through our SOP processes; and (e) supplier quality reviews and audits.

### Other Stakeholders

In addition to the stakeholders considered elsewhere in this statement, the directors also have regard to the impact of their decisions on other stakeholders, including government and regulators, third parties with whom the Company deals, and potential future employees and students.

## Strategic Report (continued) For the year ended 31 December 2021

### d) The impact of the company's operations on the community and the environment

Corporate social responsibility is a key strategic focus for GKN Automotive. Our focus derives from the fact that not only is it the right thing to do, but also because it is increasingly a consideration for GKN Automotive's customers when they are awarding business. Both our customer scorecards, and our customer sourcing decisions, increasingly include environmental

### Strategic Report (continued)

For the year ended 31 December 2021

and social considerations in their assessment. That continues to inform decision making throughout GKN Automotive and within the Company.

GKN Automotive's corporate social responsibility strategy includes consideration of: (i) social issues (including regulatory compliance, ethical procurement and equality and inclusion); (ii) environmental issues (including the reduction of carbon emissions, improved manufacturing processes, and product lifecycle management) and (iii) workplace and community issues, (including health & safety, community volunteering, fundraising activities and sponsorship).

Within the Company, we supported a range of charitable and social initiatives throughout the year, including raising funds to support the family of a GKN Automotive employee who was seriously injured in a road traffic accident, with the Company matching all funds raised by employees.

### e) The desirability of the company maintaining a reputation for high standards of business conduct

GKN Automotive's reputation as an honest and ethical supplier is crucial to our future success. Our customers' policies require that they only source from suppliers which have the highest ethical standards, and failing to meet those standards could severely damage our business. The directors therefore continually have regard to this in their decision making. Specifically, it informs decisions as to how we manage and train our employees, whether to enter into new markets, deal with customers or suppliers, or employ (or retain the employment of) certain individuals.

GKN Automotive has a code of conduct known as the GKN Automotive Code. The code is a key part of GKN Automotive's compliance and governance arrangements and sets out the standards of behaviour expected of the Company and its employees. We summarise this behaviour as 'Doing the Right Thing', which includes treating people with dignity, respecting the rights of others, speaking up when we see behaviour which is wrong, and promoting honest and proper conduct. We also cascade our ethical standards to our suppliers, via our Supplier Code of Conduct, which sets out the minimum ethical standards expected from all GKN Automotive suppliers. The Supplier Code of Conduct forms part of our terms and conditions with our suppliers and requires that they maintain high ethical standards, refrain from engaging in any bribery and corruption, engaging in forced or bonded labour, comply with health and safety laws and all laws and regulations in the countries in which they operate.

GKN Automotive engages external audit firms to monitor and verify both financial and non-financial performance and controls. This includes a range of audits, including health and safety audits, to which the Company is subject.

During the year the directors also improved the investment in new online training packages covering Competition Law Compliance and Anti-Bribery & Corruption, to maintain the high standards of employee training in these areas.

### f) The need to act fairly as between members of the company

The Company has only one member, GKN Automotive Holdings Limited, which is indirectly 100% owned by Melrose Industries plc. During the year there was therefore no actual or potential conflict between the interests of any members of the Company.

Approved by the Board on 28 September 2022 and signed on its behalf by:

R Fioroni Director

Registration number: 00034104

### Directors' Report For the year ended 31 December 2021

### **Directors of the Company**

The Directors who held office during the year and up to the date of approval of the Financial Statements unless otherwise stated, were as follows:

L D Butterworth
R Fioroni
M J Gabriel
T Minel
J C F Crawford
G E Barnes
G D Morgan
M J Richards
J Webb
C Wyatt (appointed 31 December 2021)

### Research and Development

The Company does not undertake significant research and development work.

#### Dividends

No interim dividend was paid for the year ended 31 December 2021 (2020: £nil). The Directors have not proposed a final dividend for the year ended 31 December 2021 (2020: £nil).

### Financial risk management

The Company's operations expose it to a variety of financial risks including the effects of credit risk. As a subsidiary of Melrose Industries PLC all the Company's funding is provided through a fellow subsidiary via a current account. The overarching Group policies in relation to external risks, including interest rate risk, price risk, credit risk, cash flow risk, foreign exchange risk and liquidity risk, all of which are managed centrally by Melrose Industries PLC, are set out in the annual report of that company.

### **Future Outlook**

The automotive industry is undergoing massive change as powertrains evolve to adapt to new demands. The Automotive division is well positioned to benefit from this change. Alternative energy vehicles are expected to dominate the landscape over the next decade and the division is seeing exciting opportunities in new markets. The Company's future development position is set out in the Business Review section of the Strategic Report on page 3.

### Goina concern

The Financial Statements have been prepared on a going concern basis, with net assets at 31 December 2021 of £400,800,000 (2020 net assets: £273,495,000) and net current assets of £149,978,000 (2020: £187,629,000). The company continues to receive the ongoing support of Melrose Industries PLC.

As part of their consideration of going concern the Directors have reviewed the Company's future cash forecast and profit projections. These show that the Company expects to be able to operate for 12 months from the date of the approval of these financial statements. Accordingly, the financial statements have been prepared on the going concern basis.

The Company is a subsidiary of Melrose Industries PLC, a global manufacturing and engineering group. The 2021 Annual Report of Melrose Industries PLC disclosed covenant headroom of £3.0bn (2020: £1.6 billion). The Group has modelled a severe but plausible downside scenario against future cash forecasts over a three-year period. Throughout this scenario the Group would continue in operation and be able to meet its liabilities as they fall due.

The Melrose Group has been impacted by the COVID 19 global pandemic. Whilst the implications from this do not directly affect the Company, they will affect other Group subsidiaries and therefore recoverability of intercompany receivables. No group entities either have, or are likely to, default. No receivables have been provided against.

The longer term impact of COVID 19 remains uncertain and the impacts of the pandemic on trading conditions could be more prolonged or severe than that which the Directors have considered in the scenarios described above.

### **Directors' Indemnities**

The Company has indemnified one or more Directors of the Company against liability in respect of proceedings bought by third parties, subject to the conditions set out in the Companies Act 2006. Such qualifying third-party indemnity provision was in force throughout the year and at the date of this report.

## Directors' Report (continued) For the year ended 31 December 2021

### **Directors' Responsibilities Statement**

The Directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Financial Statements for each financial year. Under that law the Directors have elected to prepare the Financial Statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 Reduced Disclosure Framework.

Under company law the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these Financial Statements, the Directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards, subject to any material departures disclosed and explained in the financial statements; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Detail on how the Directors have considered the needs of the various key stakeholders in the business (employees, suppliers, customers and others) is set out in the Strategic Report.

The auditor's responsibilities in relation to the accounts are set out in their report on page 9.

### **Disclosure of Information to Auditor**

In the case of each of the persons who were Directors of the Company at the date when this report was approved:

- so far as each of the Directors is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- each of the Directors has taken all the steps that he/she ought to have taken as a Director to make himself/herself
  aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provision of s418 of the 2006 Companies Act.

### **Auditor**

Deloitte LLP is deemed to be reappointed as the Company's auditor under section 487(2) of the Companies Act 2006.

Approved by the Board on 28 September 2022 and signed on its behalf by:

R Fioroni Director

Registration number: 00034104

### Independent auditor's report to the members of GKN Automotive Limited

### Report on the audit of the financial statements

#### Opinion

In our opinion the financial statements of GKN Automotive UK Limited:

- give a true and fair view of the state of the company's affairs as at 31st December 2021 and of its profit for the year then
  ended:
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework".
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- · the Income statement;
- · the balance sheet;
- · the statement of changes in equity;
- and the related notes 1 to 19.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

### Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## Independent auditor's report to the members of GKN Automotive Limited (continued) For the year ended 31 December 2021

### Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: <a href="https://www.frc.org.uk/auditorsresponsibilities">www.frc.org.uk/auditorsresponsibilities</a>. This description forms part of our auditor's report.

### Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory framework that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These
  included UK Companies Act, pension legislation, tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty.

As a result of performing the above, we identified the greatest potential for fraud in the revenue recognition around occurrence, and our specific procedures performed to address it are described below:

- Obtaining sales listing and agreeing it to the invoices raised during the year;
- Testing a sample of revenue items and agreeing it to their respective invoices and consequently to bank statements where payment has been received subsequently;
- Reviewing contractual agreement with other Group entities; and
- Testing the design and implementation of key controls.

We discussed among the audit engagement team regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

## Independent auditor's report to the members of GKN Automotive Limited (continued) For the year ended 31 December 2021

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance.

### Report on other legal and regulatory requirements

### Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report has been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

### Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

### Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Notes to the Financial Statements**

For the year ended 31 December 2021

### 1. Accounting Policies and presentation

GKN Automotive Limited is a private company limited by shares and is incorporated under the Companies Act 2006 and domiciled in the UK, and registered in England and Wales with the registered number 00034104. Its registered office is 1<sup>ST</sup> Floor, 2100 The Crescent, Birmingham Business Park, Birmingham, B37 7YE, UK.

The Company's significant accounting policies, which have been consistently applied, are summarised below.

### General Information and Basis of preparation

The financial statements (the "statements") of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) under Financial Reporting Standard 101, "Reduced Disclosure Framework" (FRS 101). These statements have been prepared on a going concern basis under the historical cost method except where other measurement bases are required to be applied under IFRS as set out below, and in accordance with the Companies Act 2006.

These statements have been prepared using all standards and interpretations required for financial periods beginning 1 January 2021. No standards or interpretations have been adopted before the required implementation date.

Exemptions from the requirements of IFRS have been applied in the preparation of these financial statements, in accordance with FRS 101.

These financial statements are separate financial statements. The Company is exempt from the preparation and delivery of consolidated financial statements, because it is included in the group accounts of Melrose Industries. The group accounts of Melrose Industries are available to the public and can be obtained as set out in note 18.

The following exemptions have been applied in accordance with FRS 101, as the relevant disclosure is contained in the Group Financial Statements of Melrose Industries PLC (details can be obtained as disclosed in note 18):

- Paragraphs 45(b) and 46 to 52 of IFRS 2, 'Share-based payment' (details of the number and weighted-average exercise prices of share options, and how the fair value of goods or services received was determined)
- IFRS 7, 'Financial Instruments: Disclosures'
- Paragraphs 91 to 99 of IFRS 13, 'Fair value measurement' (disclosure of valuation techniques and inputs used for fair value measurement of assets and liabilities)
- IFRS 15 'Revenue from Contracts with Customers'

The following exemptions have been applied in accordance with FRS 101:

- Paragraph 38 of IAS 1, 'Presentation of financial statements' comparative information requirements in respect of:
  - (i) paragraph 79(a)(iv) of IAS 1;
  - (ii) paragraph 73(e) of IAS 16 Property, plant and equipment;
  - (iii) paragraph 118(e) of IAS 38 Intangible assets

The following paragraphs of IAS 1, 'Presentation of financial statements':

- 10(d), (statement of cash flows)
- 10(f) (a balance sheet as at the beginning of the preceding period when an entity applies an accounting policy retrospectively or makes a retrospective restatement of items in its financial statements, or when it reclassifies items in its financial statements),
- 16 (statement of compliance with all IFRS),
- 38A (requirement for a minimum of two primary statements, including cash flow statements),
- 38B-D (additional comparative information),
- 40A-D (requirements for a third balance sheet)
- 111 (cash flow statement information), and
- 134-136 (capital management disclosures)
- IAS 7, 'Statement of cash flows'
- Paragraph 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors' (requirement for the disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective)
- Paragraph 17 of IAS 24, 'Related party disclosures' (key management compensation)
   The requirements in IAS 24, 'Related party disclosures' to disclose related party transactions entered into between two or more members of a group.

The following paragraphs of IAS 36:

Paragraphs 130 (f)(ii) and (f)(iii)

## Notes to the Financial Statements (continued) For the year ended 31 December 2021

### 1. Accounting policies and presentation (continued)

Paragraphs 134 d-f

Paragraphs 135 c-e

The following paragraphs of IFRS 16

Paragraph 52

- The second sentence of Paragraph 89
- Paragraph 90
- Paragraph 91
- Paragraph 93

### Going concern

The Financial Statements have been prepared on a going concern basis, with net assets at 31 December 2021 of £400,800,000 (2020 net assets: £273,495,000), as set out in the directors' report on page 7.

As part of their consideration of going concern the Directors have reviewed the Company's future cash forecast and profit projections. These show that the Company expects to be able to operate for 12 months from the date of the approval of these financial statements. Accordingly, the financial statements have been prepared on the going concern basis.

The Company is a subsidiary of Melrose Industries plc, a global manufacturing and engineering group. The 2021 Annual Report of Melrose Industries PLC disclosed covenant headroom of £3bn (2020: £1.6 billion). The Group has modelled a severe but plausible downside scenario against future cash forecasts over a three-year period. Throughout this scenario the Group would continue in operation and be able to meet its liabilities as they fall due.

### **Exemption from preparing group accounts**

The Company has taken advantage of the exemption provided by Section 400 of the Companies Act 2006 and has not prepared group accounts.

### Foreign currencies

Items included in the financial statements of the Company are measured using the currency of the primary economic environment of operation, determined having regard to the currency which mainly influences turnover and input costs. The financial statements are presented in "Pounds Sterling" (£), which is also the Company's functional currency.

Transactions are translated at exchange rates approximating to the rate ruling on the date of the transaction except in the case of material transactions when actual spot rate may be used where it more accurately reflects the underlying substance of the transaction. Assets and liabilities denominated in foreign currencies are translated at the exchange rates ruling at the balance sheet date. Such transactional exchange differences are taken into account in determining profit or loss before tax.

### Presentation of the income statement

FRS 101 is not fully prescriptive as to the format of the income statement. Line items and subtotals have been presented on the face of the income statement in addition to those required under FRS 101.

Operating profit is profit before discontinued operations, taxation and finance costs. In order to achieve consistency and comparability between reporting periods, operating profit is analysed to show separately the results of normal trading performance and individually significant charges and credits. Such items arise because of their size or nature and comprise:

- asset impairment and restructuring charges which arise from events that are significant to the Company;
- changes in the fair value of derivative financial instruments and material currency translation movements arising on intra-group funding;
- income from investments in subsidiaries;
- the impact of annual impairment review of investments; and
- · gains or losses on disposal of investments in subsidiaries.

Net financing costs are analysed to show separately interest payable, Interest receivable and other net financing charges. Other net financing charges include the interest charge on net defined benefit plans, specific changes in fair value on cash flow hedges and unwind of discounts on fair value amounts established on business combinations.

## Notes to the Financial Statements (continued) For the year ended 31 December 2021

### 1. Accounting policies and presentation (continued)

### Revenue recognition

#### Turnover

Turnover represents income receivable from other Melrose Industries PLC Group companies for general services provided and is measured at the fair value of the consideration receivable which generally equates to the invoices amount excluding sales taxes.

### Interest payable / Receivable

Interest income and expense are recognised when it is probable that the economic benefits will flow to and from the Company and the amount of revenue / expense can be measured reliably. Interest income and expense is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset / liabilities to that asset's net carrying amount on initial recognition.

#### **Financial instruments**

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are recorded in arrangements where payments, or similar transfers of financial resources, are unavoidable or guaranteed.

Financial assets and liabilities are measured initially at fair value. Borrowings are measured initially at fair value which usually equates to proceeds received and includes transaction costs. Borrowings are subsequently measured at amortised cost.

Cash and cash equivalents comprise cash on hand and demand deposits, and overdrafts together with highly liquid investments of less than 90 days maturity. Other financial assets comprise investments with more than 90 days until maturity. Unless an enforceable right of set-off exists and there is an intention to net settle, the components of cash and cash equivalents are reflected on a gross basis in the balance sheet.

Other financial assets and liabilities, including short term receivables and payables, are initially recognised at fair value and subsequently measured at amortised cost less any impairment provision unless the impact of the time value of money is considered to be material.

### Derecognition of financial assets and liabilities

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

### Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and impairment charges.

### Cost

Cost comprises the purchase price plus costs directly incurred in bringing the asset into use. Where assets are in the course of construction at the balance sheet date they are classified as capital work in progress. Transfers are made to other asset categories when they are available for use.

### Depreciation

Depreciation is not provided on capital work in progress. In the case of all other categories of property, plant and equipment, depreciation is provided on a straight-line basis over the course of the financial year from the date the asset is available for use.

Depreciation is applied to specific classes of asset so as to reduce them to their residual values over their estimated useful lives, which are reviewed annually.

## Notes to the Financial Statements (continued) For the year ended 31 December 2021

### 1. Accounting policies and presentation (continued)

The range of depreciation lives used are: Plant, machinery, fixtures and fittings and leasehold improvements – up to 15 years Office equipment and computers – up to 5 years Vehicles and cars – up to 5 years

### Right of use assets

Right-of-use assets are depreciated over the shorter period of the lease term and the useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset.

### Intangible assets

Intangible assets are stated at cost less accumulated amortisation and impairment charges.

Research expenditure is written off as incurred. Development expenditure is also written off, except where the directors are satisfied as to the technical, commercial and financial viability of individual projects or where there is a contractual right to be remunerated for the engineering design and development costs relating to a programme. In such cases, the identifiable expenditure is capitalised as an intangible asset and amortised over the period during which the Company is expected to benefit. Provision is made for any impairment.

### Investments in subsidiaries and other undertakings

Investments in subsidiaries and other undertakings are held at cost less accumulated impairment losses.

#### **Taxation**

Current tax and deferred tax are recognised in the income statement unless they relate to items recognised directly in other comprehensive income when the related tax is also recognised in other comprehensive income. The tax expense represents the sum of the tax currently payable and deferred tax.

### Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting date.

A provision is recognised for those matters for which the tax determination is uncertain but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the Company supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

### Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levled by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

## Notes to the Financial Statements (continued)

For the year ended 31 December 2021

### 1. Accounting policies and presentation (continued)

Current tax and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Full provision is made for deferred tax on all temporary differences resulting from the difference between the carrying value of an asset or liability in the consolidated financial statements and its tax base. The amount of deferred tax reflects the expected manner of realisation or settlement of the carrying amount of the assets and liabilities using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax assets are reviewed at each balance sheet date and are only recognised to the extent that it is probable that they will be recovered against future taxable profits.

### Pensions and post-employment benefits

The Company's pension arrangements comprise various defined benefit and defined contribution schemes. Contributions to externally funded defined benefit schemes are based on the advice of independent actuaries or in accordance with the rules of the schemes.

The Company also operates a number of defined contribution and defined benefit arrangements which provide certain employees with defined post-employment healthcare benefits.

The Group accounts for all post-employment defined benefit schemes through recognition of the schemes' surpluses or deficits on the balance sheet at the end of each year. Remeasurement of defined benefit plans is included in other comprehensive income. Current and past service costs, curtailments and settlements are recognised within operating profit. Interest charges on net defined benefit plans are recognised in other net financing charges.

For defined contribution arrangements the cost charged to the income statement represents the Group's contributions to the relevant schemes in the year in which they fall due.

### Impairment

Property, plant and equipment, investments in subsidiaries and intangible assets are reviewed at least annually for indications of impairment. Impairments are charged to the income statement. Similarly, where assets, property, plant and equipment haves been impaired and subsequent reviews demonstrate the recoverable value is in excess of the impaired value an impairment reversal is recorded. The amount of the reversal cannot exceed the theoretical net book amount at the date of the reversal had the item not been impaired. Impairment reversals are credited to the income statement against the same line item to which the impairment was previously charged.

### **Leasehold Property**

Leasehold property which is not subject to IFRS 16 (either due to the lease being of low value or short length) is not capitalised and is treated as an operating lease. Lease payments made under operating leases are recognised as an expense on a straight-line basis over the whole of the lease term (i.e. a rent-free period does not mean an expense free period).

Where a lease is subject to IFRS 16 the Company recognises a right of use asset and a corresponding lease liability. These are measured at the present value of the lease payments not paid at the commencement date and are discounted using the rate implicit in the lease. Right of use assets are depreciated over the shorter of the lease term and the useful economic life of the underlying asset as defined above.

## Notes to the Financial Statements (continued) For the year ended 31 December 2021

1. Accounting policies and presentation (continued)

Standards, revisions and amendments to standards and interpretations issued but not yet adopted The Company does not intend to adopt any standard, revision or amendment before the required implementation date. At the date of authorisation of these financial statements, there have been no standards which has not been applied in these financial statements that were in issue but not yet effective.

During the year amendments were issued to IFRS 9, IAS 39, IFRS 7 and IFRS 4, however these did not affect the Company.

### Critical accounting judgements & key sources of estimation uncertainty

The Company's significant accounting policies are set out above. The preparation of financial statements, in conformity with IFRS, requires the use of accounting judgements and estimates that may affect the amounts of assets and liabilities at the balance sheet date and reported profit and earnings for the year. The Directors base these estimates, judgements and assumptions on a combination of past experience, professional expert advice and other evidence that is relevant to the particular circumstance.

### **Accounting Judgements**

In the process of applying the Group's accounting policies, management has made judgements in some areas. The Directors do not consider that any judgments made in these accounts meet the criteria to be considered significant accounting judgments under IAS 1.

### **Estimates and assumptions**

Any estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under circumstances, the result of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The Directors do not consider that any accounting estimates in these accounts meet the criteria to be considered key sources of estimation uncertainty under IAS 1.

## Notes to the Financial Statements (continued) For the year ended 31 December 2021

### 2. Turnover

		Europe £'000	Asia £'000	North America £'000	Total £'000

### **Notes to the Financial Statements (continued)** For the year ended 31 December 2021

### 5. Taxation (continued)

The rate of UK corporation tax for the year ended 31 December 2021 was 19%. The Finance Act 2021, which was substantively enacted on 24 May 2021 and enacted on 10 June 2021, included an increase in the UK corporation tax rate to 25% with effect from 1 April 2023. As this change had been enacted at the balance sheet date, the closing deferred tax balances have been re-measured using the 25% rate to the extent that the deductible or taxable temporary differences will reverse post 1 April 2023.

Accumulated impairment	•		
At 1 January 2021	332,302	3,959	336,261
Impairment charges	146,752	•	146,752
At 31 December 2021	479,054	3,959	483,013
Net book amount at 31 December 2021	189,304	<i>;</i>	189,304
Net book amount at 31 December 2020	286,741		286,741

The subsidiary and other undertakings in which the Company held 20% or more of the nominal value in any class of share at 31 December 2021 are disclosed in note 19.

The additions relate to the acquisition from another GKN Automotive entity of a group company in Thailand.

Following a dividend payment to the Company the net assets of Driveline Mexico (UK) Limited were below the carrying value of the investment and so an impairment charge of £146,752,000 (2020: £12,000) has been recognised in these financial statements.

### 10. Trade and other receivables

·	2021	2020
<u> </u>	£'000 .	£'000
Trade receivables	191	6,713
Amounts owed by Group undertakings	25,360	27,837
Prepayments	5,092	6,740
Other receivables	9,408	545
Indirect taxes recoverable	1,386	4,362
Current Account with GKN Enterprise Limited	326,875	184,711
	368,312	230,908

There is no provision against other receivable categories and no receivables arising from contracts with customers were written off during the year.

Amounts owed from other Group undertakings are unsecured and accumulate interest in a range between 0% and 4%. They have no fixed date of repayment and are repayable on demand.

## Notes to the Financial Statements (continued)

For the year ended 31 December 2021

### 11. Trade and other payables

	2021	2020
Current	£'000	£'000
Redeemable preference shares	50	. 50
Amounts owed to suppliers and customers	16,751	9,975
Amounts owed to Group undertakings	34,483	18,379
Accruals and deferred income	26,626	29,152
Loan account with GKN Industries Ltd	139,313	. 8
•	217,223	57,564
Non-current	· ·	•
Loan account with GKN Industries Ltd		139.302

Amounts owed to Group undertakings are unsecured, interest free and have no fixed date of repayment and are repayable on demand. Amount owed to GKN Industries Ltd are unsecured, accrue interest at a rate of LIBOR +2%, and are repayable on 31 December 2022. In January 2022 the rate was changed from LIBOR to SONIA.

Amounts owed to suppliers and customers includes lease finance liability of £5,542,000 (2020: £1,889,000).

### Preference shares

The cumulative redeemable preference shares, which do not carry voting rights, were issued at par for cash consideration. Shareholders are entitled to receive dividends, based upon the redemption yield on the 2.5% Index Linked Gilt 2016 and increased each year in line with the movement in Retail Price Index. The dividends are currently accrued from the period of 31 December 2001 and have not been paid due to the lack of distributable reserves.

The preference shareholders have priority over the other shareholders on winding up. The Preference shares were redeemable on 29 November 2015 at par together with a premium of 50p per share increased by the percentage increase in the Retail Price Index between the date of issue and the date of redemption.

## 12. Provisions

·	· · · · · · · · · · · · · · · · · · ·	2021	2020
·· · · · · · · · · · · · · · · · · · ·		£'000	£'000
Dilapidations provision		. 151	
Total provisions		151	

During the year the Company entered into a new office lease. This provision represents remediation costs at the end of the lease and is based upon a professional valuation. If no break clause is exercised in the interim we expect the liability to be settled in 2031.

### 13. Share capital

	Issued and I	Issued and Fully Paid

Ordinary shares of £1 each	462,939	462,939	

## Notes to the Financial Statements (continued)

For the year ended 31 December 2021

### 14. Post-employment obligations

Post-employment obligations as at the year-end comprise:	 £'000	£'000
Pensions	71,495	(84,131)

The Company's pension arrangements comprise a defined benefit and defined contribution scheme. The Company's defined benefit pension scheme is funded with the scheme assets held in trustee administered funds

During 2019 the previous GKN Group pensions schemes were split into four separate schemes. The schemes containing past and present GKN Automotive employees were allocated to GKN Automotive Limited. The schemes are funded plans, closed to new members and closed to future accrual in 2017. The Company's defined benefit pension arrangements provide benefits to members in the form of an assured level of pension payable for life.

The level of benefits provided typically depends on length of service and salary levels in the years leading up to retirement. Pensions in payment are generally updated in line with inflation. The schemes are closed to new entrants.

The valuation of the plan was based on a full actuarial valuation as of 30 June 2019, updated to 31 December 2021 by independent actuaries. The present value of the defined benefit obligation and the related service cost elements were measured using the projected unit credit method.

### (a) Defined benefit schemes - significant judgements, assumptions and estimates

### **Key assumptions:**

	2021	. 2020
·	%	%
Rate of increase in pensionable salaries (past/future)	n/a	n/a
Rate of increase in payment and deferred pensions	2.7/3.1	2.8/2.1
Discount rate (past/future service)	2.0	2.0
Inflation assumption (past/future service)	2.7	2.1
Rate of increase in medical costs:		
Initial/long term	6.0/4.8	5.4/5.4

In prior years, separate assumptions for past and future service in relation to the UK pension scheme. However, following the closure to future accrual from 1 July 2017, this is no longer relevant.

Mortality assumptions as at 31 December 2021 were based on the Self-Administered Pension Scheme ("SAPS") "S3PA" base tables with scheme-specific adjustments. The same basis was used in 2020.

The following table shows the future life expectancy of individuals age 65 at the year end and the future life expectancy of individuals aged 65 in 20 years time.

		2021	2020
		Years	Years
Male today	 1.2	21.3	21.2
Female today		24.3	23.8·
Male in 20 years time		22.2	22.5
Female in 20 years time		25.7	25.3

### **Notes to the Financial Statements (continued)**

For the year ended 31 December 2021

### 14. Post-employment obligations (continued)

### Assumption sensitivity analysis

The impact of a one percentage point movement in the primary assumptions (longevity: 1 year) on the defined benefit obligations as at 31 December 2021 is set out below:

		•	Liabilities
<u> </u>			 £'000
Discount rate +0.1ppts			(16,500)
Discount rate -0.1 ppts			17,500
Rate of inflation +0.1ppts		p	12,100
Rate of inflation -0.1ppts			(11,100)
Life expectancy +1 year			52,800
Life expectancy -1 year			 (52,200)

The above sensitivity analyses are based on isolated changes in each assumption, whilst holding all other assumptions constant. In practice, this is unlikely to occur, and there is likely to be some level of correlation between movements in different assumptions. In addition, these sensitivities relate only to potential movement in the defined benefit obligations. The assets, including derivatives held by the schemes, have been designed to mitigate the impact of these movements to some extent, such that the movements in the defined benefit obligations shown above would, in practice be partly offset by movements in asset valuations. However, the above sensitivities are shown to illustrate at a high level the scale of sensitivity of the defined benefit obligations to key actuarial assumptions.

The same actuarial methods have been used to calculate these sensitivities as are used to calculate the relevant balance sheet values and have not changed compared to the previous period.

### Significant judgements and estimates

The Company's defined benefit pension scheme obligation arises as a result of its participation in the externally funded defined benefit Group pension arrangements of Melrose Industries PLC. The share of the obligation recognised by the Company is based on the benefits accruing to current and historic members of the scheme that have been employed by the Company.

### (b) Defined benefit schemes - reporting

The amounts included in operating profit are:	٠		Total £'000
2021		•

At 31 December 2020	<u> </u>	
Equities (incl. hedge funds)	•	235,164
Bonds – government		330,973
Bonds - corporate		147,115
Property		29,508
Other assets		139,510
		882,270

### (c) Defined benefit scheme - risk factors

Through its post-employment pension plans, the Company is exposed to a number of risks, the most significant of which are detailed below. The Company's focus is on managing the cash demands which the various pension plans place on the Company, rather than balance sheet volatility in its own right. For funded schemes cash requirements are generally determined by funding valuations which are performed on a different basis from accounting valuations.

<u>Asset volatility</u>: Plan liabilities are calculated using discount rates set with reference to bond yields (although the discount rate methodology differs for accounting and funding purposes). If plan assets deliver a return which is lower than the discount rate, this will create or increase a plan deficit. The Company's various pension plans hold a significant proportion of equities and similar 'growth assets', which are expected to outperform bonds in the long-term, albeit at the risk of short term volatility.

As the plans mature, with a shorter time horizon to cope with volatility, the Company will gradually reduce holdings of growth assets in favour of increased matching assets (bonds and similar). In the meantime, the Company considers that equities and similar assets are an appropriate means of managing pension funding requirements, given the long term nature of the liabilities and the strength of the Company to withstand volatility.

<u>Changes in bond yields</u>: A decrease in bond yields will typically increase plan liabilities (and vice-versa), although this will be offset partially by an increase in the value of bonds held in the asset portfolios of the various plans. The effect of changes in bond yields is more pronounced in unfunded schemes where there is no potential for an offsetting movement in asset values.

Inflation risk: As pension obligations are linked to inflation, higher inflation expectations will lead to higher liabilities, although caps are in place to protect against unusually high levels of inflation. The asset portfolio includes some inflation linked bonds to provide an element of protection against this risk, whilst additional protection is provided by inflation derivatives.

<u>Member longevity</u>: As the Company's post-employment obligations are generally to provide benefits for the life of the member, increases in life expectancy will generally result in an increase in plan liabilities (and vice versa).

### 15. Commitments and Contingencies

As of 31 December 2021, there are no commitments or contingencies that would have an adverse impact on the reported financial statements (2020: £nil).

### 16. Related party transactions

In accordance with FRS 101 the Company has taken advantage of the exemption not to disclose the transactions with other Group undertakings. There were no other related party transactions during the year.

# Notes to the Financial Statements (continued) For the year ended 31 December 2021.

### 17. Post Balance Sheet events

There have been no significant post balance sheet events.

### 18. Controlling parties

The immediate parent is GKN Automotive Holdings Limited. The ultimate parent undertaking and controlling party is Melrose Industries PLC.

The parent of the largest and smallest group in which these Financial Statements are consolidated is Melrose Industries PLC. Consolidated financial statements of Melrose Industries plc are available from its registered office:
