Statement of Directors' responsibilities in respect of the Directors' report and the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;

- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements, except as noted below.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

The comparative figures cover the 52 week period to 28 December 2013 as permitted by the Companies Act 2006 Section 390.

Under Financial Reporting Standard 1 (Revised), the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

The company's business activities, together with the factors likely to affect its future development and position, are set out in the Directors' Report. The financial position of the company, its cash flows, liquidity position and borrowing facilities are directly related to the consolidated position of PepsiCo, Inc. As such, details of this Group wide position are described in the consolidated financial statements of PepsiCo, Inc., available to the public from the address in note 18.

In addition, the notes to the consolidated financial statements of PepsiCo, Inc. include the Group's objectives, policies and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposures to credit risk and liquidity risk.

On the basis of their assessment of the company's financial position and of the enquiries made of the directors of PepsiCo, Inc. the company's directors have a reasonable expectation that the company will be able to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date or, if appropriate a forward contract rate and the gains or losses on translation are included in the profit and loss account.

Share based payment

The share option programme allows employees to acquire shares in PepsiCo, Inc., the ultimate parent company. The fair value of options granted (after 7 November 2002 and those not yet vested as at 1 January 2006) is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of the options granted is measured using a Black-Scholes pricing model, taking into account the terms and conditions upon which the options were granted.

Group financial statements

In accordance with section 401 of the Companies Act 2006 the company, being a wholly owned subsidiary undertaking, is exempt from the requirement to prepare and deliver group financial statements. Copies of the consolidated financial statements are available from the registered office of the ultimate parent company as set out in Note 20.

Notes (continued)

1 Accounting policies (continued)

Taxation

The charge or credit for taxation is based on the results for the period and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by Financial Reporting Standard 19.

Dividends on shares presented within shareholder's funds

Dividends are only recognised as a liability to the extent that they are declared prior to the year end. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

Related party transactions

Under Financial Reporting Standard 8, the company is exempt from the requirement to disclose related party transactions with members of the same group on the grounds that the company is a wholly-owned subsidiary.

Employees must generally provide three additional years of service to earn the grant, referred to as the vesting period.
