	Contingent liabilities	-	-
Estimated surplus after paying debts in full			£ nil

## Remarks

- 1 The Directors have reviewed the overall tax position of the Company having regard to
  - (a) tax losses and other reliefs and exemptions from liability that are considered to be available to the Company,
  - (b) tax losses and other applicable reliefs available for surrender to the Company from other group companies under the UK's group relief rulesOn the basis of this review, and professional advice received, the Directors have concluded that no provision for UK corporation tax is required
- 2 The Company (along with other Group companies) is a guarantor under a Junior Mezzanine Facility Agreement between Meridien Intermediate Holding Company I Limited as borrower and Mable Commercial Funding Limited as lender. The Company has provided security over its undertaking and assets for its obligations as guarantor.

Under arrangements made between the borrower, the lender and others, no call under the guarantee is anticipated and on this basis the Company's liability under the guarantee has been valued as zero

Assuming no call is made as anticipated, the lender has agreed to procure the release of the guarantee and security before the Company's affairs have otherwise been fully wound up
- 3 The Company was a guarantor in respect of certain leasehold assets held by other Group companies which were sold on 4<sup>th</sup> April 2001. Under the terms of the sale, the Purchaser procured that it would provide replacement guarantees for these leasehold assets but these have not been confirmed. At the date of this Statement, the directors are not aware of any claims having been made in relation to the guarantees and have not assigned any value to contingent claims on the basis of the purchaser's obligations to procure replacement guarantees
