REGISTERED OFFICE

HAYLE, CORNWALL.

NOTICE OF MEETING

NOTICE is hereby given that the seventy-sixth annual general meeting of the company will be held at the registered office, Hayle, Cornwall, on 30th September 1982 at 2.10 p.m. to receive the accounts for the fifty-two weeks ended 1st January 1982, and the reports of the Directors and Auditors thereon, and to transact any other business which may properly be transacted at the annual general meeting.

Note: A member entitled to attend and vote at the meeting may appoint a proxy to attend and vote in his stead. A proxy need not be a member.

BY ORDER OF THE BOARD

T. J. NEWMAN
SECRETARY

7th September 1982
HAYLE, Cornwall.

REPORT OF THE DIRECTORS

1. PERIOD The Directors submit their report with the balance sheet of the company at 1st January 1982 and accounts for the fifty-two weeks ended on that date.
2. BUSINESS OF COMPANY The company is employed in metal perforating and closely related engineering activities based on Hayle.
3. Direct exports in the period under review amounted to some £40,000 but a substantial proportion of the company's products are incorporated by its United Kingdom customers (which cover a wide range of industries) into their exports. An important part of the company's efforts, therefore, contributes to export activity.
4. RESULTS AND APPROPRIATIONS The results for the 52 weeks, together with appropriations are shown on page 2 of the accounts attached.
5. FIXED ASSETS The movements in fixed assets appear in note 3 on page 5 of the accounts.
6. DIRECTORS There were no changes during the year.
7. Directors retiring by rotation are Mr. A. F. Pool and Mr. G. A. Davies, who being eligible, offer themselves for re-election.
8. None of the directors had a beneficial interest in any contract to which the company was a party in the period under review.
9. AUDITORS Messrs. Whitaker and Redfearn having indicated their willingness to continue in office, a resolution that they be re-appointed, and the directors authorised to agree their remuneration, will be proposed at the annual general meeting.

ON BEHALF OF THE BOARD

A. F. POOL
CHAIRMAN

7th September 1982

REPORT OF THE AUDITORS

We have audited the accounts on pages 2 to 6 in accordance with approved auditing standards.

As indicated in notes 1 (d) and 1 (e), the accounting treatment of regional development grants and depreciation are not in accordance with Statements of Standard Accounting Practice Nos. 4 and 12.

With these exceptions, in our opinion the accounts, which have been prepared under the historical cost convention as modified by the revaluation of fixed assets, give a true and fair view of the state of affairs of the company at the 1st January 1982 and of the loss and source of applications of funds for the 52 weeks then ended and comply with the Companies' Acts 1948 to 1981, in as far as the provisions of those Acts apply to these accounts.

NOTES TO THE ACCOUNTS

1. ACCOUNTING POLICY

- (a) The consolidated accounts incorporate the accounts of the company and are for the 52 weeks ended 1st January 1982. The comparatives are for the 53 weeks ended 2nd January 1981. All amounts are in thousands of pounds.
- (b) The accounts are prepared under the historical cost convention. However, there is incorporated in the accounts a valuation of fixed assets at 30th December 1977.
- (c) Plant and machinery includes some plant which is leased and therefore not owned by the company. A liability has been created for the leasing commitment less finance charges.
- (d) Regional development grants in respect of expenditure on fixed assets have been credited to reserves. In so far as these grants have been received in respect of fixed assets which have not been fully depreciated at the balance sheet date, they should not be regarded as distributable to shareholders.

This accounting treatment does not comply with statement of standard accounting practice No. 4 (The Accounting Treatment of Government Grants) which states that those grants should be credited to profit and loss account over the useful lives of the assets to which they relate. If such a credit had been made in the current year for plant and machinery it would have amounted to approximately £35,000 (£22,000) leaving £294,000 (£309,000) to be credited in future years. A further £12,000 (£10,000) has been received in respect of buildings which are not depreciated.

- (e) Depreciation is provided on the cost or earlier valuation of plant and machinery by equal instalments based on the estimated working life of the assets and beginning with a full year's depreciation in the financial year following introduction into service.

No depreciation provision is considered necessary on freehold buildings and in this respect the accounts are not in accordance with statement of standard accounting practice No. 13 (Accounting for Depreciation) which states that buildings should be depreciated over their estimated useful lives. If such a charge, based on an assumed life of 50 years, had been made in the current year, it would have amounted to approximately £32,000 (£32,000).

- (f) Stock has been valued at cost with provision for obsolete and slow-moving items. Work-in-progress has been valued at the lower of cost, including appropriate works overheads, or net realisable value.
- (g) Provision is made for deferred taxation, using the liability method, on the:

- (i) excess of taxation allowances claimed in respect of qualifying fixed assets over depreciation charged thereon.
- (ii) surplus arising on valuation of plant and machinery.
- (iii) unused stock relief available against future profits.

Advance corporation tax recoverable and corporation tax on losses carried forward are deducted from the provision for deferred taxation.

Provision is not made on chargeable gains which:

- (i) arise from the sale of assets which are carried forward by deduction from the cost of replacement assets (roll over relief).
- (ii) would arise if the freehold land and buildings were sold at their valued amounts.

2. INTEREST
