Strategic report

The directors, in preparing this strategic report have complied with s414C of the Companies Act 2006.

Business review

The National Magazine Company Limited (the "Company") and its subsidiaries (the "Group" or "Hearst UK") are wholly owned subsidiaries of the Hearst Communications, Inc group ("Hearst").

Hearst UK, is a consumer media business, providing content and experiences via a network of quality platforms including websites, magazines and events. The Group reaches large targeted consumer audiences through its range of mediums and sells these target audiences to advertisers. Many of the Group's brands occupy market leading positions and this provides the strong platform to build digital growth and continue the revenue diversification of each brand.

Covid-19 significantly impacted the activity of the Group in 2020, both operationally and from a trading perspective.

Staff health and safety is the priority of the Group, and homeworking was introduced from mid-March ahead of the initial enforced lockdown in the UK. Thanks to robust business continuity procedures implemented pre Covid-19, operations were not disrupted. These procedures included the use of software developments for business critical tools with access via cloud or VPN to facilitate remote working and ensure that staff could perform their work at home. Management also made specific preparations for a full homeworking scenario prior to enforced lockdown.

The multiple lockdowns impacted newsstand distribution channels, with non-essential stores and travel retail activity reduced during most of the year. Print subscription and digital copy saw a robust increase however, and the latest ABCs (audited circulation by the Audit Bureau of Circulation) showed Hearst UK overperforming in the competitive market. Six brands (Good Housekeeping, Country Living, Men's Health, Women's Health, Runner's World and Inside Soap) were market leaders, with Good Housekeeping the biggest-selling monthly magazine in the UK.

No supply chain issues were identified and the Group was able to produce, print and distribute all magazines on time.

Advertising revenue was adversely impacted as advertisers cut back or postponed spend. However, overall advertising decline was mitigated by a rebound in digital advertising in the fourth quarter and strong affiliate revenue performance.

Pushing ahead with its diversification strategy, the Group expanded its Hearst Institute testing capabilities with the launch of a new out-of-town facility in the second half of the year. Social distancing measures and the cancellation of physical events however hampered the events activity, despite the success of virtual events taking place in the second half of the year.

In order to mitigate the drop in revenue, the Group continued to manage its costs carefully, increasing its gross margin from 45% to 46%, but did not access UK Government support schemes.

The Group produced an operating loss from continuing operations in 2020 of £8.9m. (2019 operating profit: £2.2m). The gross margin percentage on continuing operations for 2020 was 46% (2019: 45%). The Group statement of cash flows on page 20 shows that the Group's cash flow decreased by £2.1m in 2020, with positive movements in working capital mitigating the operating loss.

Strategic report (continued)

The following key performance indicators are used by management to monitor the performance and financial position of the business: revenue, gross margin %, operating profit and cash on hand. The Group also tracks unique visitors (UVs) to measure digital audience.

KEY PERFORMANCE INDICATORS	2020	2019	Change
Revenues	£115.9m	£140.6m	(£24.7m)
Gross Margin %	46%	45%	+1%
Operating (Loss)/Profit	(£8.9m)	£2.2m	(£11.1m)
Cash	£23.7m	£25.8m	(£2.1m)
UVs, thousands (average monthly visitors)	72,124	61,676	+17%

As part of the programme to enhance employee engagement and satisfaction the Group holds 'All Staff' meetings to update all employees on the performance of the Group and to provide information on matters that may be of concern to them. The frequency of these meetings has gone from quarterly to weekly during the pandemic and have featured various initiatives to support the mental and physical wellbeing of employees, and well as to promote important issues such as diversity and belonging and gender equality. The Group has also been informing and communicating with employees regularly about the evolution of the pandemic through weekly CEO missives.

Initiatives such as the establishment of our Diversity & Inclusion Steering Committee are helping to make sure that all sensitivities are represented at Hearst and create a culture that fosters a strong sense of belonging.

The Group also has the Hearst People Forum made up of employees and members of the senior leadership team who meet monthly to discuss issues affecting the people and culture of the Group and to develop and implement new ideas and improvements.

Hearst has increased mental health support to its employees with the help of its Mental Health Ambassadors and launched several initiatives, including Mental Health Awareness training, and has run several events throughout the year.

Future developments

The Group will continue to develop its magazine and online publishing business and diversify into other areas of complementary revenues organically and by acquisition and partnership. Developing revenue opportunities in video production coupled with a deeper knowledge of the customer will ensure growth for the Group whilst system and process enhancements will improve future performance and profitability.

The Group has continued to enjoy sustained subscription revenue growth in 2021, and whilst print advertising revenue remains below pre-covid levels, digital advertising has continued to grow strongly.

With the Hearst Institute out-of-town facility now fully operational, the Group expects accreditation and affiliate revenue to continue to drive its diversification strategy. With social distancing measures still in place, reduced events activity is expected during most of 2021.

The directors have considered the ongoing business risks relating to Brexit to be minimal. In the supply chain the Group does rely on paper and ink from international suppliers to its magazine printers and on international printers though the

Strategic report (continued)

risks are limited, and contingency plans have been developed. The Group has worked with magazine distributors to ensure that the supply of magazines to stores would not be disrupted. The requirements for any systems updates were also considered.

Climate Change

The Group is committed to environmental sustainability and reducing its carbon footprint. Planet Hearst is a Hearst wide initiative that has been established to prioritise these challenges and to embed sustainability into the ways of working within the organisation. The Group was awarded an ISO 14001 certification in January 2019 and since the move in 2018 uses 100% renewable energy, contributes zero waste to landfill and employs a three-stream waste separation system. Overall film wrapping consumption has decreased by 68% between 2018 and 2020 and film wrapping still in use in 2020 is 100% recyclable. All plastic magazine wraps have been replaced with sustainably-sourced paper wraps for subscriber copies. The Company is continually reviewing its environmental business practices and committed to further enhancing its sustainable practices.

Principal risks and uncertainties

The major short term uncertainty is around the pace and sustainability of the post Covid-19 recovery.

Fluctuations in demand and increased online competition for advertising revenue could have a marked impact on profitability. However, the positioning of our magazine brands and our mixed portfolio of magazines and diversification into digital publishing, events and other revenues helps to manage the exposure to this risk.

As costs fluctuate with economic conditions and markets consolidate it is important that business planning is supported by cost and supplier stability. The Group works within Hearst's corporate structure on varied procurement initiatives to build long-term and successful supplier relationships which enable us to secure goods and services at the best quality and value over the long term.

Financial Risk

Due to the nature of the Group's business, and the assets and liabilities contained within the balance sheet, the principal financial risks that the directors consider relevant to the Group are credit risk and liquidity risk.

Credit risk is mitigated by the controls surrounding trade debtors, including obtaining credit insurance where appropriate. Whilst the current economic conditions create uncertainty, particularly over recoverability of the outstanding debts, the Group has an excellent record of recoverability.

Liquidity risk is mitigated by regular cash flow reviews to ensure the Group has sufficient cash resources to meet the operational requirements of the business. The Group benefits from financing provided by Hearst subsidiaries. The directors have entered into discussions with Hearst about refinancing the loan to ensure continuity of financing to the Company and the Group.

The Group is exposed to financial risk arising from the funding obligations to the Group's defined benefit pension plans. Details of the Group's pensions are set out in note 19.

Strategic report (continued)

Section 172(1) statement

The Directors are well aware of their duty under s.172 of the Companies Act 2006 to act in the way which they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole and, in doing so, to have regard (amongst other matters) to:

- the likely consequences of any decision in the long term;
- the interests of the Company's employees;
- the need to foster the Company's business relationships with suppliers, customers and others;
- the impact of the Company's operations on the community and the environment;
- the desirability of the Company maintaining a reputation for high standards of business conduct; and
- the need to act fairly as between members of the Company,

The strategic report above sets out how the directors have addressed these matters during the year, positioning the portfolio for the long term, employee welfare and engagement, the attractiveness of the brands for customers, relationships with suppliers, and the impact on the environment through Planet Hearst. The directors seek to promulgate high standards by communicating the Company's values and adopting accreditations where possible. The Company has a single shareholder.

Approved by the Board and signed on its behalf on 28th June 2021.

Director

Directors' report

The directors present their annual report, the audited financial statements and auditor's report of The National Magazine Company Limited (the "Company") and its subsidiaries (together the "Group") for the year ended 31 December 2020.

Business review and principal activities

A review of the business and its principal activities are set out in the Strategic Report on page 2.

Future developments and subsequent events

Details of future developments can be found in the Strategic Report on page 2, including the impact of Covid-19. Details of subsequent events can be found in note 30 on page 49.

Going concern

The group and the company recorded a loss for the year, and the group and company balance sheets show net liabilities. The group is funded through a term loan from a fellow subsidiary of Hearst Corporation Inc. ("Hearst"), Hearst Communications Inc., which is due to be repaid on 1st January 2023 and will require refinancing as the company does not have the financial resources to repay this obligation. The directors have entered into discussions with Hearst about refinancing the loan to ensure continuity of financing to the Company and the Group. The directors have made an assessment of the Company's need for financial support from Hearst, including an assessment of the impact of Covid-19, and have also made an assessment of the financial strength and ability of Hearst to provide such financial support as may be needed to ensure that the Company and the Group have adequate resources to continue in operational existence for at least 12 months from the date of approval of the financial statements.

The Directors' Covid-19 scenario planning currently indicates that the Group and the Company will see a recovery in revenues which will result in a significant reduction in operating losses, and that the Company and the Group will not require additional funding from Hearst in the near term. The Directors have entered into discussions with Hearst about refinancing the loan which is due to be repaid on 1st January 2023 and have received confirmation of continued financial support from Hearst, should this prove necessary and on this basis the directors continue to adopt the going concern basis in preparing the financial statements.

Principal risks and uncertainties

Details of the principal risks and uncertainties and financial instruments are included in the Strategic Report.

Dividends

The directors do not propose a dividend to be paid for the year 31 December 2020. Dividends paid for the year 31 December 2019 were £nil.

Employees

Details of the number of employees and related costs can be found in Note 5 to the financial statements on page 30.

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Group continues and that appropriate training is arranged. It is the policy of the Group that the training, career development and promotion of disabled persons should, as far as possible, be identical with that of other employees.

The Group participates in its parent company's policies and practices to keep employees informed on matters relevant to them as employees through regular meetings, intranet and newsletters. Further information is provided in the Strategic Report on page 3.

Directors

The directors of the Company during the year and to the date of this report are listed on page 1.

Directors' report (continued)

SECR Statement

The following information has been prepared to accord with compliance with the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013 ('the 2013 Regulations') and the Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018 ('the 2018 Regulations').

Energy and carbon related to activities for which the Group has been responsible involving the combustion of gas, or consumption of fuel for the purposes of transport; and the purchase of electricity by the company for its own use is summated below. This has been correlated to Scopes 1 and 2 of the Green House Gas Protocol. A summary table is included below;

Scope 1	2020	Unit
Natural Gas utilised	184,535	kWh
Vehicle operations	71,255	km
Fugitive emissions (HVAC refrigeration gas top up)	55.04	kg
Scope 2	2020	Unit
Electricity (supplied from National Grid with REGO certs)	965,916	kWh
Electricity (supplied from National Grid without REGO certs)	58,838	kWh
Total Electricity (supplied from National Grid)	1,024,753	kWh
Corresponding emissions from activities for which the company is responsible;		
Scope 1	2020	Unit
Natural Gas utilised	33.97	tCO2e
Vehicle operations	17.26	tCO2e
Fugitive emissions (HVAC refrigeration gas top up)	55.04	tCO2e
Total Scope 1 emissions	166.16	tCO2e
Scope 2 (Dual Reporting)		
Market -based emissions	2020	Unit
Electricity (supplied from National Grid with REGO certs)	-	tCO2e
Electricity (supplied from National Grid without REGO certs)	14.28	tCO2e
Total Electricity (market based emissions determination)	14.28	tCO2e
Location-based emissions		
Total electricity	253.01	tCO2e
Total gross Scope 1 & Scope 2 emissions (market based included)	180.43	tCO2e
Total gross Scope 1 & Scope 2 emissions (all locational based included)	419.16	tCO2e
Energy Intensity Ratio	2020	
Market Based intensity ratio: tCO2e/£100,000 revenue	0.157	
Locational Based intensity ratio: tCO2e/£100,000 revenue	0.364	

This is the first year of reporting so there are no prior year figures. No reportable energy efficiency actions were taken during the reporting year. This has primarily been due to the changes in working practices that have had to be enacted associated with the COVID 19 outbreak.

Directors' report (continued)

For calculation of electricity and gas used in Scope 1 and 2 of the greenhouse gas protocol, data from site energy meter billing information associated with UK premises in which the company carries out its business have been collated and multiplied by the relevant carbon emission factors, taken from the UK Government GHG Conversion Factors for Company Reporting tables as published by DBEIS and DEFRA for the reporting periods. Scope 1 vehicle operations have used milage records associated with use of Hearst UK owned/operated and controlled vehicles for UK company business activity during the reporting period. These have then been converted to equivalent carbon emissions using the milage (km) conversion to carbon taken from the UK Government GHG Conversion Factors for Company Reporting tables as published by DBEIS and DEFRA for the reporting periods. For Scope 1 fugitive emissions i.e. HVAC refrigeration gas top-up in Hearst UK owned/operated and controlled HVAC plant in UK company business premises, the relevant kg quantity of gas top-up over the reporting period has been used and converted to equivalent carbon emissions using the UK Government GHG Conversion Factors for Company Reporting tables as published by DBEIS and DEFRA for the reporting periods.

Directors' indemnities

The Company has made qualifying third-party indemnity provisions for the benefit of its directors which were made during the year and remain in force at the date of this report. The provision in force covers all directors of the Company and all companies within the group owned by the ultimate parent The Hearst Corporation, a company incorporated in the United States of America

Auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware there is no relevant audit information of which the Group's auditor is unaware; and
- the director has taken all reasonable steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Group's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Deloitte LLP have expressed their willingness to continue in office as auditor and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

Approved by the Board and signed on its behalf on 28th June 2021.

J D Wildman Director

Director's Responsibilities Statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditor's report to the members of The National Magazine Company Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of The National Magazine Company (the 'parent company') and its subsidiaries (the 'group'):

- give a true and fair view of the state of the Group's and of the parent company's affairs as at 31 December 2020 and of the group's loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the Group Income Statement;
- the Group Statement of Comprehensive Income;
- the Group and parent Company balance sheets;
- the Group and parent Company Statements of Changes in Equity;
- the Group Cash Flow Statement; and
- the related notes 1 to 30

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

n auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent auditor's report to the members of The National Magazine Company Limited (continued)

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory framework that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included UK Companies Act, pensions legislation, and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty.

Independent auditor's report to the members of The National Magazine Company Limited (continued)

Extent to which the audit was considered capable of detecting irregularities, including fraud (continued)
We discussed among the audit engagement team including relevant internal specialists such as tax and pensions specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance, and reviewing correspondence with HMRC.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the group and of the parent company and their environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Independent auditor's report to the members of The National Magazine Company Limited (continued)

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the financial statements (continued) For the year ended 31 December 2020

1. Going concern basis

The Group's business activities, together with the factors likely to affect its future development, principal risks and uncertainties, performance and position are set out in the Strategic Report and Directors' Report.

The group and the company recorded a loss for the year, and the group and company balance sheets show net liabilities. The group is funded through a term loan from a fellow subsidiary of The Hearst Corporation ("Hearst"), Hearst Communications Inc., which is due to be repaid on 1st January 2023 and will require refinancing as the Company does not have the financial resources to repay this obligation. The directors have made an assessment of the Company's and Group's need for financial support from Hearst, including an assessment of the impact of Covid-19, and have also made an assessment of the financial strength and ability of Hearst to provide such financial support as may be needed to ensure that the Company and the Group have adequate resources to continue in operational existence for at least 12 months from the date of approval of the financial statements.

As described further in the Strategic Report and the Directors' Report, the Directors' Covid-19 scenario planning currently indicates that the Group and the Company will see operating losses, but the effect on cash will be limited and the Company and the Group will not require additional funding from Hearst. The Directors have received confirmation of continued financial support from Hearst, should this prove necessary and on this basis the directors continue to adopt the going concern basis in preparing the financial statements.

2. Accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the current and the preceding year.

General information and basis of accounting

The National Magazine Company Limited (the Company) is a Company incorporated in the United Kingdom under the Companies Act 2006.

The Company is a private Company limited by shares and is registered in England and Wales. The address of the Company's registered office is shown on page 1 of these financial statements.

The principal activities of the Company and its subsidiaries (the Group) and the nature of the Group's operations are set out in the Strategic Report on pages 2 to 5.

The financial statements have been prepared under the historical cost convention, modified to include certain items at fair value, and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council and the requirements of the Companies Act 2006.

The functional currency of the Group is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates. The consolidated financial statements are also presented in pounds sterling. Foreign operations are included in accordance with the policies set out below.

The National Magazine Company Limited meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it in respect of its separate financial statements, which are presented alongside the consolidated financial statements. Exemptions have been taken in relation to the presentation of a separate company only income statement, company only financial instruments, presentation of a company only statement of cash flows and company only remuneration of key management personnel. The Group financial statements can be obtained from 30 Panton Street, London, SW1Y 4AJ.

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Critical judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key source of estimation uncertainty - level of "sale or return" provision

The provision for returns for magazines sold on a "sale or return" basis is deemed to be an area of uncertainty given the nature of the balance and the levels of estimation required and the carrying amount at year-end for the Company is £6.3m (2019: £8.6m).

The carrying amount at year-end for the Group is £6.9m (2019: £9.9m).

Key source of estimation uncertainty - impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated.

The value in use calculation requires the entity to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate a present value. The carrying amount of goodwill at the balance sheet date was £23,120k (2019: £25,368k) and no goodwill impairment loss was recognised in 2020 (2019: £nil).

Due to fluctuations associated with discount rates, or as a result from changes in the directors' estimates of cashflows, there is a possibility that the valuation of goodwill and intangible assets at a future date may differ from the valuation determined for the purposes of these financial statements. For example, an increase in the discount rate by 1% decreases headroom by £4.8m from £7.3m to £2.5m for all goodwill and intangible assets with a net book value, and there remains no impairment.

Key source of estimation uncertainty - pension liability and pension asset

Estimates and assumptions related to the pension liability and pension asset are measured on an actuarial basis. The actuarial valuations are obtained triennially and updated at each balance sheet date. Due to the uncertainty of valuations associated with the pension scheme, there is a possibility that the final outcome of pension assets and liabilities may differ significantly. The valuation is affected by the discount rate, inflation rate and change in mortality rate. The largest variances would occur with;

- A decrease in discount rate by 0.25% equates to an increase of £10.6m in net defined benefit liability.
- An increase in inflation rate of 0.25% equates to an increase of £6.3m in net defined benefit liability.

No critical judgements were made by management in application of the accounting policies of the Group, other than the continued adoption of the going concern basis as described in note 1.

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Basis of consolidation

The Group financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities.

Minority interests in the net assets of Group subsidiaries are identified separately from the Group's equity therein.

Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the Group.

Business combinations are accounted for under the purchase method. The result of subsidiaries acquired or disposed of during the year are included in the Group income statement from effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Accounting for joint ventures

The group's distribution joint venture Conde Nast & National Magazine Distributors Ltd ceased operations in 2017, and the joint venture partners now contribute their share of funding to the pension scheme.

The gross equity basis of accounting has been applied. Therefore, the Group's share of joint venture operating profit or loss is included within Group results. In addition, the Group's share of gross assets and liabilities together with goodwill are included within Group net assets/liabilities.

Intangible assets: Goodwill

Goodwill arising on businesses purchased is capitalised in the year in which it arises and amortised on a straightline basis over its estimated useful life. Where a reliable estimate of the useful economic life cannot be made, the useful life has been determined to be 10 years in line with FRS 102.

Where reliable estimates can be made, the life ranges from 10 to 20 years. The goodwill is reviewed for impairment at the end of each reporting period and provision is made for any impairment.

Intangible fixed assets

Intangible assets arising on acquisition are assigned amortisation rates dependent on their useful economic lives and are amortised using the straight-line method. These assets include domain names and trademarks, customer relationships and databases and other intangible assets. The intangible assets are reviewed for impairment at the end of each reporting period and provision is made for any impairment.

Where a reliable estimate of the useful economic life cannot be made, the useful life has been deemed as 10 years in line with FRS 102.

Goodwill
Domain Names and Trademarks
Customer Relationships
Other Intangibles

20 years
10 – 20 years
10 years
2 – 20 years

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

(i) Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the balance sheet when, and only when there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments that comply with all of the condition of paragraph 11.9 of FRS 102 are classified as 'basic'. For debt instruments that do not meet the conditions of FRS 102.11.9, the Group considers whether the debt instrument is consistent with the principle in paragraph 11.9A of FRS 102 in order to determine whether it can be classified as basic. Instruments classified as 'basic' financial instruments are measured subsequently at amortised cost using the effective interest method.

Debt instruments that have no stated interest rate (and do not constitute financing transaction) and are classified as payable or receivable within one year are initially measured at an undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

With the exception of some hedging instruments, other debt instruments not meeting conditions of being 'basic' financial instruments are measured at fair value through profit or loss.

Commitments to make and receive loans which meet the conditions mentioned above are measured at cost (which may be nil) less impairment.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Financial instruments (continued)

(ii) Equity instruments

Equity instruments issued by the Company are recorded at the fair value of cash or other resources received or receivable, net of direct issue costs.

Tangible fixed assets

Tangible fixed assets are recorded at purchase cost, together with any incidental costs of acquisition. Provision is made for any impairment.

The principal annual rates used for this purpose are below and depreciated using the straight-line method:

Leasehold improvements

Over the lease term

Motor vehicles

- 20 to 33 per cent per annum

Furniture, fixtures and fittings and equipment

- 10 to 20 per cent per annum

Short-term leasehold properties and improvements thereto are amortised over 15 years or, if shorter, the period of the lease.

Investments

Investments are stated at cost less any provision for impairment in value.

Stocks and work-in-progress

Stocks and work-in-progress are valued at the lower of cost and net realisable value. Cost is determined on a "first-in, first-out" basis. Where necessary, provision is made for obsolete and slow-moving stocks.

Finance and operating leases

Leasing agreements which transfer to the Group substantially all the benefits and risks of ownership of an asset are treated as if the asset had been purchased outright. The assets are included in fixed assets and the capital element of the leasing commitment is shown as obligations under finance leases. The lease rentals are treated as consisting of capital and interest elements. The capital element is recorded as an outstanding obligation and the interest element is charged against profit. Assets held under finance leases are depreciated over the shorter of the lease term and the estimated useful economic lives of the assets.

Operating lease rentals are charged to the income statement on a straight-line basis over the lease term. Benefits received as an incentive to sign an operating lease are similarly spread on a straight-line basis.

Foreign currencies

Transactions denominated in foreign currencies are translated into the functional currency of the Group which is sterling at the rates ruling at the dates of the transactions or, if hedged, at the forward contract rate.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated at the rates ruling at that date or, if appropriate, at the forward contract rate. These translation differences are dealt with in the income statement.

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Turnover

Turnover, which excludes value added tax, sales between Group companies and trade discounts, represents the invoiced value of goods and services supplied and accrued sales not yet invoiced and is stated net of the provision for returns.

Newstrade circulation and advertising revenue relating to a magazine are recognised as at the on-sale date of the magazine.

Subscription revenues are shown as deferred income and released to the income statement over the life of the subscription, in accordance with the on-sale date of the magazine. Distribution revenue is recognised in accordance with the on-sale date of the magazine.

Digital advertising revenue is recognised rateably over the term of the advertising campaign.

Interest income is recognised when it is probable that the economic benefits will flow to the Group and can be measured reliably.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

When the amount that can be deducted for tax for an asset (other than goodwill) that is recognised in a business combination is less (more) than the value at which it is recognised, a deferred tax liability (asset) is recognised for the additional tax that will be paid (avoided) in respect of that difference. Similarly, a deferred tax asset (liability) is recognised for the additional tax that will be avoided (paid) because of a difference between the value at which a liability is recognised and the amount that will be assessed for tax. The amount attributed to goodwill is adjusted by the amount of deferred tax recognised.

Deferred tax liabilities are recognised for timing differences arising from investments in subsidiaries and associates, except where the Group is able to control the reversal of the timing difference and it is probable that it will not reverse in the foreseeable future.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference. Deferred tax relating to non-depreciable property measured using the revaluation model and investment property is measured using the tax rates and allowances that apply to sale of the asset. In other cases, the measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Taxation (continued)

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Group intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset only if: a) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and b) the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probably that the Group will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date.

Pension costs

For defined benefit schemes the amounts charged to operating profit are the costs arising from employee services rendered during the period and the cost of plan introductions, benefit changes, settlements and curtailments. They are included as part of staff costs. The net interest cost on the net defined benefit liability is charged to profit or loss and included within finance costs. Re-measurement comprising actuarial gains and losses and the return on scheme assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in other comprehensive income.

Defined benefit schemes are funded, with the assets of the scheme held separately from those of the Group, in separate trustee administered funds. Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit credit method. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date.

For defined contribution schemes the amount charged to the income statement in respect of pension costs and other retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss as described below.

Non-financial assets

An asset is impaired where there is objective evidence that, as a result of one or more events that occurred after initial recognition, the estimated recoverable value of the asset has been reduced. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

The recoverable amount of goodwill is derived from measurement of the present value of the future cash flows of the cash-generating units of which the goodwill is a part. Any impairment loss in respect of a CGU is allocated first to the goodwill attached to that CGU, and then to other assets within that CGU on a pro-rata basis.

Notes to the financial statements (continued) For the year ended 31 December 2020

2. Accounting policies (continued)

Impairment of assets (continued)

Where indicators exist for a decrease in impairment loss previously recognised for assets other than goodwill, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised. Where a reversal of impairment occurs in respect of a CGU, the reversal is applied first to the assets of the CGU, except for goodwill, on a pro-rata basis. Impairment of goodwill is never reversed.

Financial assets

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Notes to the financial statements (continued) For the year ended 31 December 2020

3. Turnover

All turnover of the Group originates in the United Kingdom. The turnover of the Group by geographical area of destination in respect of its principal activities is set out below:

		Total 2020 £'000	Total 2019 £'000
	United Kingdom	93,000	126,808
	Rest of Europe	6,450	8,922
	USA/Canada	14,863	1,000
	Australia/ New Zealand	1,163	16
	Rest of the world	382	3,893
		115,858	140,639
4.	Directors' emoluments		
		2020	2019
		£,000	£'000
	Emoluments	1,508	1,698
	Amounts receivable (other than shares and share options under long-term	-,	-,
	incentive schemes	245	120
	Company contributions to money purchase scheme	4	6
		1,757	1,824
	The number of directors who:		
		2020 No.	2019 No.
	Are members of a money purchase pension scheme	1	1
	Are members of a defined benefit pension scheme	-	-

Notes to the financial statements (continued) For the year ended 31 December 2020

4. Directors' emoluments (continued)

Remuneration of the highest paid director:

	2020 £'000	2019 £'000
Emoluments	1,151	1,210
	1,151	1,210

5. Employee information

The average monthly number of staff (including executive directors) employed by the Group during the year was:

	Gro	Group		Company	
	2020 No.	2019 No.	2020 No.	2019 No.	
Central	144	138	143	136	
Editorial	351	366	308	322	
Sales	280	282	278	280	
	775	786	729	738	

Staff costs (including executive directors) incurred during the year in respect of employees were:

	Group		Company	
	2020 £'000	2019 £'000	2020 £'000	2019 £'000
Wages and salaries	44,571	45,384	42,662	43,073
Social security costs	4,122	4,158	3,931	3,934
Other Pension Costs (see note 19)	5,946	5,827	4,541	4,463
	54,639	55,369	51,134	51,470

^{&#}x27;Other pension costs' includes only those defined benefit scheme costs included within operating costs and the defined contribution scheme charge.

^{*}restated for deferred tax accounting on acquired intangibles as described in note 18

Factors affecting tax charge for the current year

The tax assessed for the year is higher than that resulting from applying the standard rate of corporation tax in the UK of 19%. The differences are explained below:

	2020 £'000	*restated 2019 £'000
Loss on ordinary activities before tax	(13,420)	(1,974)
Tax at 19% (2019: 19%)	(2,550)	(375)
Effects of: Expenses not deductible for tax purposes Prior year adjustments Impact of rate change Losses Non deductible amortisation on intangible assets acquired through acquisition	695 502 111 (511) (443)	947 (1,069) (21) 44 (466)
Deferred tax not provided	-	(361)
Total tax credit for the year	(2,196)	(1,302)

^{*}restated for deferred tax accounting on acquired intangibles as described in note 18

The Company's profits for this accounting period are taxed at a rate of 19%. It was announced in the March 2021 budget that the Corporation Tax main rate will be set to 19% until the financial year beginning 1st April 2022. Legislation will also be introduced to set the charge to Corporation Tax and set the main rate at 25% for the financial year beginning 1st April 2023. The deferred tax closing balances are stated at the 19% rate.

There is no expiry date on timing differences, unused losses or tax credits.

10. Intangible fixed assets (continued)

The brands acquired from Lagardere (Elle, Elle Deco and Red) which were purchased in 2011, are considered material to the Group. The carrying amount as at 31 December 2020 was £30.7m (31 December 2019: £34.4m) and the brand has an estimated remaining useful life of 10 years.

The Best brand, which was purchased in 2008, is considered material to the Company. The carrying amount as at 31 December 2020 was £3.7m (31 December 2019: £4.2m) and the brand has an estimated remaining useful life of 8 years.

The Befit and Salon QP brands were purchased in December 2019 by the Company from Hearst UK Events Ltd at a net book value of £528,000. The trademark of Befit/Befit London under the category of Other Intangibles was fully impaired in December 2019, when the net book value was £313,500. The trademark of Salon QP was fully impaired during 2020 when the net book value was £164,116. This was due to the decision to cease production of the Salon QP magazine during 2020 and closure of the brand.

The amounts owed to Group undertakings is interest free and there are no formal repayment terms and therefore the directors are required under FRS 102 to disclose this balance as payable within one year. The amounts owed to Group are to subsidiary undertakings of The Hearst Corporation, the ultimate parent, details can be found in note 28

Notes to the financial statements (continued) For the year ended 31 December 2020

16. Creditors: amounts falling due after more than one year

	Group		Company	
	2020 £'000	2019 £'000	2020 £'000	2019 £'000
Loan to Hearst group companies	99,268	94,543	99,268	94,543
	99,268	94,543	99,268	94,543

The unsecured loan due to Hearst Investments LP as at 31 December 2020 was £99,268,311 which is the principal amount of £67,188,700 and accrued interest of £32,079,611 (2019: £27,352,548). The loan is repayable by 1st January 2023. Interest at 5% is payable on repayment of the capital.

17. Provisions for liabilities

	Group		Company	
	2020	2019	2020	2019
	£'000	£'000	£'000	£'000
Dilapidations provision				
Good Housekeeping Institute, London	152	152	152	152
30 Panton Street, London	2,151	2,151	2,151	2,151
The Hearst Institute, Feltham	160	<u>.</u>	160	
	2,463	2,303	2,463	2,303

The dilapidations provision relates to a 15-year office building lease which started in 2018 when the Company moved to new offices in 30 Panton Street, London. It is expected to be utilised at the end of the lease, currently January 2033. It also includes a dilapidations provision relating to a 5-year lease of The Hearst Institute, a new testing facility in Feltham. It is also expected to be utilised at the end of the lease, currently in 2025.

18. Deferred tax

There is a deferred tax liability of £780,473 (2019: liability of £2,151,721) in respect of short and long-term timing differences.

In finalising the 2020 financial statements an error in historic deferred tax accounting came to light that has been corrected in these financial statements. This accounting error has no cash tax impact. On transition to FRS102 in 2015 a deferred tax liability was not established in relation to amortising intangible assets acquired in business combinations. To record the remaining impacts, a deferred tax liability of £2,919,450 and £2,452,468 has been recorded as at 31 December 2018 and 2019 respectively, decreasing debtors from £45,381,000 to £45,080,000 as at 31 December 2019, increasing creditors due within one year from £38,705,000 to £40,856,000 as at 31 December 2019, and increasing the shareholders' deficit from £11,134,690 to £14,054,140 at 31 December 2018 and from £12,372,876 to £14,825,344 at 31 December 2019. A credit to deferred tax has been recorded in tax on loss on ordinary activities in the income statement of £467,072 and £443,306 in the years to 31 December 2019 and 2020 respectively, increasing the tax credit in the income statement as set out in the tables below.

Notes to the financial statements (continued) For the year ended 31 December 2020

19. Pensions

The Group operates a funded and unfunded defined benefit pension scheme and defined contribution pension schemes for its employees.

Defined contribution scheme

The Group operates a defined contribution retirement benefit schemes for all qualifying employees. The total expense charged to profit or loss in the year ended 31 December 2020 was £1,805,423 (2019: £1,855,298).

Defined benefit scheme

The assets of the scheme are held separately from those of the Group, being invested with unit trust managers. The pensions cost for the Group's defined benefit pension schemes is calculated in accordance with the requirements of Financial Reporting Standard 102 ("FRS 102").

The Group disclosures below relate to the National Magazine Company Limited and Condé Nast and National Magazine Distributors Limited where the company disclosures relate solely to the National Magazine Company Limited. The assets and liabilities, benefit payments, expenses, life assurance premiums and the interest income and expense for the main scheme have been split in proportion to each employer's share of the liabilities. This has been determined by the scheme actuary as at 11 February 2021 using the estimate of the technical provisions in the main scheme's actuarial valuation and individual member data from the scheme administrator. Actual contributions are allocated in line with the split provided by the scheme administrator and the schedule of contributions.

The employer's contribution to the Group's defined benefit pension scheme was £4,141,000 (2019: £3,972,000) of which £2,825,000 (2019: £2,703,000) related to National Magazine employees and £1,316,000 (2019: £1,269,000) related to employees within its subsidiary undertakings and to other related scheme members. The pension cost is assessed in accordance with the advice of an independent qualified actuary using the projected unit credit method.

The scheme was reviewed on 31 December 2020. The assumptions that have the most significant effect on the results of the 31 December 2020 accounting valuation are those relating to the rate of return on investments and the rates of increase in salaries and pensions. It was assumed that the discount rate would be 1.45% per annum, that salary increases would average 2.95% per annum and that present and future pensions earned in respect of service between 6 April 1997 and 5 April 2005 would increase at the rate of 2.85% per annum.

At the date of the latest actuarial valuation on 11 February 2021, the net defined benefit asset of the Group was £13,414,000 (February 2020 net defined benefit asset: £2,363,000). The market value of the scheme's assets attributable to the Group was £211,026,000 as at 11 February 2021 (February 2020: £180,801,000). The total past service liability was £197,612,000 (February 2020: £178,438,000). Based on the actuarial value of the scheme's assets, the level of funding i.e. the ratio of the assets to the accrued liabilities based on expected salaries at retirement, was 1.07 (February 2020: 1.1) at the valuation date.
