# REPORT OF THE AUDITORS TO THE MEMBERS OF SLAZENGERS LIMITED

We have examined the accounts set out on pages 3 to 9 which have been prepared under the historical cost convention apart from the revaluation of the freehold property.

The investment in the wholly owned subsidiary William Sykes Limited, is carried in the company's books at its cost of £129,275.

The subsidiary does not trade and has net assets which in our opinion have a realisable value of not less than their book value of £59,855 but not equal to the sum of £129,275.

With the foregoing reservation, in our opinion the said accounts give a true and fair view of the state of affairs at 31st December 1979 and of the loss and the source and application of funds for the year ended on that date, and comply with the Companies Acts 1948 and 1967.

The following are the more important accounting policies adopted by the company,

#### (a) Accounting convention

The accounts have been prepared under the historical cost convention apart from the revaluation of the freehold property.

#### (b) Fixed assets

Fixed assets are stated at cost or valuation. Depreciation is provided at such rates as will write off the cost less the residual value of the various assets over the period of their estimated useful lives, namely:

Freehold properties 27 years
Vehicles 4 years
Plant 5 - 10 years

#### (c) Inventories

Inventories, representing finished goods, have been valued at the lower of cost and net realisable value.

#### (d) Exchange rates

Assets and liabilities in foreign currencies are expressed in sterling at the rate of exchange ruling at the year end.

#### 2. TURNOVER

Turnover represents sales less deductions for trade and cash discounts.

#### 3. OPERATING PROFIT
