STRATEGIC REPORT

Principal risks and uncertainties (continued)

Gulf of Mexico oil spill

The Gulf of Mexico oil spill (the Incident) has had and could continue to have a material adverse impact on BP as a group, and consequently may also have an adverse impact on BP Oil Llandarcy Refinery Limited.

There is significant uncertainty regarding the extent and timing of the remaining costs and habilities relating to the Incident the impact of the Incident on the reputation of the group and the resulting possible impact on the group's licence to operate including its ability to access new opportunities. The amount of claims, fines and penalties that become payable by the BP group (including as a result any potential determination of the BP group's negligence or gross negligence), the outcome of hitgation, the terms of any further settlements including the amount and timing of any payments thereunder, and any costs arising from any longer-term environmental consequences of the Incident will also impact upon the ultimate cost for the BP group

These uncertainties are likely to continue for a significant period, increase the risks to which the group is exposed and may cause BP group's costs to increase materially. Thus, the Incident has had, and could continue to have, a material adverse impact on the group's business, competitive position, financial performance, cash flows, prospects, liquidity, shareholder returns and/or implementation of its strategic agenda, particularly in the US. The risks associated with the Incident could also heighten the impact of the other risks to which the group, and subsequently the company, is exposed as further described below. Further information on the Incident, is included within the BP group Annual Report and Form 20-F for the year ended 31 December 2013.

Compliance and control risks

Liabilities and provisions

The BP group's potential habilities resulting from pending and future claims, lawsuits, settlements and enforcement actions relating to the Incident, together with the potential cost and burdens of implementing remedies sought in the various proceedings, have had and are expected to continue to have, a material adverse impact on the group's business and consequently may also impact the company's business. Further information is included within the BP group Annual Report and Form 20-F for the year ended 31 December 2013
