#### **Directors' Report**

The Directors submit their Report and the Group Accounts for the year ended 31st December 1992.

#### Principal activity

The principal activity of the Company continued to be the transaction of long term insurance business other than industrial life business.

#### **Operations**

With effect from 1st January 1992 the Company acquired 100% of the issued share capital of General Accident Vie SA, a French life insurance company. Prior to that date it was a wholly owned subsidiary of General Accident Fire and Life Assurance Corporation p.l.c., which in turn is a wholly owned subsidiary of General Accident plc.

|                                       | 1992<br>£m | 1991<br>£m | 1990<br>£m |
|---------------------------------------|------------|------------|------------|
| New net sums assured                  | 3,892      | 4,220      | 4,113      |
| New annuities (per annum)             | 21         | 23         | 28         |
| Permanent Health Benefits (per annum) | 19         | 20         | 23         |
| These benefits were secured by        |            |            |            |
| New annual premiums                   | 49         | 43         | 39         |
| New single premiums                   | 353        | 160        | 40         |
| Shareholders' share of profits        | 18         | 15         | 15         |
| Fund                                  | 2,361      | 1,833      | 1,544      |

New single premiums include £211m in respect of the GA Investment Bond, compared with £114m in 1991, and £39m in respect of the International Personal Pension which was relaunched in 1992.

The annual valuation of the liabilities and assets of the Company is made as at 31st December 1992 and the details of the valuation and distribution of profits will be furnished in due course in the returns to the Department of Trade and Industry.

#### Dividends

An interim dividend of £3.25 per share was paid in July 1992 and a second interim dividend of £1,425 per share was paid in December 1992. No further dividend is recommended for 1992.

#### Events since the balance sheet date

It has been agreed that the Company will purchase an additional 20% of the issued share capital of Assecura SA increasing the shareholding to 60% with effect from 1st January 1993.

#### Directors

The names of the present Directors of the Company appear on Page 1.

Mr W H Jack was appointed a Director on 1st February 1992.

Mr J D K Philp resigned from the Board with effect from 31st January 1992 and Mr T Roberts with effect from 30th November 1992.

The Directors retiring by rotation are Mr I A H Johnston and Mr W N Robertson, both of whom are eligible for reelection.

#### **Directors Interests**

The beneficial interests of Directors in shares of the ultimate parent company, excluding those of Directors who are also Directors of the ultimate parent company, are as follows:-

#### **Ordinary Shares**

|  | At 1st January 1992<br>or on appointment if later | At 31st December 1992 |

| Mr W H Jack    | 42,835   | 27,373                             | 10,556  | 70,208                   |
| Mr J H R Tonks | 40,205   | 18,309                             |   | 47,958                   |

#### Auditors

A resolution for the re-appointment of KPMG Pent Marwick as auditors of the Company is to be proposed at the forthcoming Annual General Meeting.

March 1993

By Order of the Board

Airlie

Chairman

#### Report of the Auditors, KPMG Peat Marwick,

to the Members of General Accident Life Assurance Limited.

We have audited the accounts on pages 7 to 17 in accordance with Auditing Standards.

In our opinion the accounts have been properly prepared in accordance with the provisions of the Companies Act 1985 applicable to insurance companies.

KPMG Plat Mannik

The accounts were approved by the Board on 400 March 1993 and were signed on its behalf by

W II Jack

#### Notes to the Accounts

#### 1 ACCOUNTING POLICIES

#### (a) Basis of Preparation

The accounts are prepared under the historical cost convention as modified by the revaluation of investments and in accordance with applicable accounting standards and the Companies Act 1985, sections 257, 258, 260 and Schedule 9 and with other requirements of the Companies Act 1985 applicable to insurance companies.

The accounts have been prepared in accordance with the Statement of Recommended Practice issued by the Association of British Insurers in May 1990.

#### (b) Subsidiary and Associated Undertakings

The accounts of the company and its subsidiaries, all of which have a common year end date, have been consolidated. The subsidiaries are all investments of the Long Term Business Fund and do not therefore contribute directly to the Shareholders' Fund.

Associated undertakings are accounted for using the equity method. Any goodwill arising on acquisition is eliminated against reserves in the year of acquisition.

Shares in subsidiary and associated undertakings in the parent company's accounts are included at net asset value or cost less a provision for diminution in value where appropriate.

#### (c) Shareholders' Share of Profits

The distributable surplus of the Long Term Business Fund is determined annually by actuarial valuation. The amount of surplus allocated to the Shareholders is determined by the Directors in accordance with the Articles of Association. The transfer of Shareholders' profit included in the Profit and Loss Account is stated gross of the rate of taxation applicable to franked investment income at the valuation date.

#### (d) Investments

In these accounts, the Company has changed the format and presentation of investments to comply with current reporting standards. Investments which were previously stated in the consolidated and parent company balance sheets at cost less investment reserves, (other than property which was at market value less investment reserve) are now stated at middle market value.

The surplus arising from this change in accounting policy is credited to revaluation reserves. Transfers between revaluation reserves and revenue are determined by the Directors, having regard to the Actuary's Valuation Report.

Listed securities are included in the balance sheets at their middle market value. Investments in properties are carried in the balance sheets at open market value as determined by the group's professionally qualified internal valuers and by external valuers for a proportion of these properties.

Revenue is credited with dividends received (including the related tax credits), with rents and income from fixed interest securities, mortgages, loans and deposits as they accrue. No depreciation is charged on freehold properties, all of which are held as investments.

#### (e) Premiums

Premiums are accounted for when due for payment.

#### (f) Claims

Claims by death or maturity are charged against revenue when the insured event is notified or becomes due; surrenders when payment is made; annuities in the period in which each payment becomes due.

#### (g) Foreign Currencies

The accounts of overseas subsidiary undertakings, branches and other foreign assets and liabilities are translated at the rate of exchange ruling at the balance sheet date. The exchange differences arising on the retranslation of opening net assets are taken directly to reserves; those relating to overseas branch operations are shown as a separate item in the Consolidated Long Term Revenue Account.

#### (h) Deferred Taxation

Deferred taxation is provided on all material timing differences unless the liability is unlikely to become payable in the foresceable future.

#### (i) Turnover

Turnover is represented by premiums and other income appearing in the Consolidated Long Term Revenue Account together with investment income appearing in the Consolidated Long Term Revenue and Profit and Loss Accounts

#### 2 PREMIUMS

#### 4 MANAGEMENT EXPENSES

Under a management agreement General Accident Life Services Limited a fellow subsidiary, supplies and makes a charge for the provision of operational assets and staff to the Company. Accordingly, the relevant notes in relation to operational assets and employees are included in the accounts of General Accident Life Services Limited.

#### 5 TAXATION

- (a) The charge for taxation in the Consolidated Long Term Revenue Account, has been computed in accordance with the current legislation appropriate to the business of each company.
- (b) The charge in the Profit and Loss Account is UK Corporation Tax at a composite rate of 33% (1991 33,25%) together with tax on franked investment income.

#### (c) The amounts charged in these accounts are made up as follows:-

|   | 1992                     |                                  | 1991                     |                                  |
