NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2016

1. Accounting policies

(a) Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

(b) Turnover

The turnover shown in the income and expenditure account represents income receivable for the year. Bar and canteen sales are recognised at the date of receipt and ground hire is recognised at the date of hiring.

(c) Fixed assets

All fixed assets are initially recorded at cost. The directors are of the opinion that the depreciation charge and accumulated depreciation of the buildings are immaterial, since the company has a policy and practice of regular maintenance and repair such that the previously assessed standard of the buildings is maintained. The buildings are reviewed for impairment at the end of the accounting period and no depreciation charge is made on the grounds of immateriality unless the estimated residual value of the buildings is materially less than the carrying amount of the asset.

(d) Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Equipment	-	15%
-----------	---	-----

(e) Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

(f) Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
