Strategic report

The directors present their Strategic report on Linatex Limited ('the Company') for the period ended 31 December 2016.

Principal activities

The Company is principally engaged in the collection of royalty income on Linatex branded product sales.

Business review

The level of royalty income which the Company receives is dependent on the volume of Linatex branded product sales which are made from fellow subsidiary undertakings. Royalties are received based on a percentage of these sales.

The loss for the period amounted to £1,923,000 (2015: gain £2,834,000). Net assets as at the year end amounted to £9,719,000 (2015: £11,642,000).

The Company has no plans to change the nature of the Company or the business it undertakes in the near future.

Financial risk management objectives & policies

The Company's principal financial instruments are shown on the balance sheet. The principal financial risks to which the Company is exposed are listed below. These risks are managed in accordance with Board approved policies.

Foreign exchange risk

As a result of the Company's business activities it is exposed to transactional currency risk. Transactional currency exposure arises when the Company enters into transactions denominated in currencies other than its functional currency which is Sterling. Foreign currency exposures are identified and managed directly by the Company within the policies and procedures established by the Company's ultimate parent, The Weir Group PLC. The parent company enters into foreign exchange hedging transactions on behalf of the Company in accordance with those policies and procedures. The Company makes limited use of derivative financial instruments to hedge balance sheet translation exposures. Transaction exposures are hedged with the use of forward exchange rate contracts where deemed appropriate and where they can be reliably forecast. It is policy not to engage in any speculative transaction of any kind.

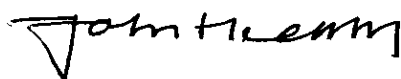

Credit risk

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans and inter-company trading accounts.

On behalf of the Board of Directors

John Heasley
Director

4 July 2017

Directors' report

The directors present their report and the audited financial statements of Linatex Limited (Registered Number 0246713) ('the Company') for the period ended 31 December 2016.

Dividends

There were £nil dividends declared in the period (2015: £nil).

Principal activities and review of the business

The Strategic report presents a summary of the Company's principal activities and future developments.

Financial instruments

The Company's principal financial instruments are shown on the balance sheet. The principal financial risks to which the Company is exposed are outlined in the Strategic report.

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the business review contained in the Strategic report, as is the financial position of the Company. In addition, the Strategic report includes the Company's objectives, policies and processes for managing its capital, financial instruments and its financial risk management objectives and policies.

The Company has considerable financial resources together with continuing contracts with a number of customers and suppliers across different geographic areas and industries. As a consequence, the directors believe that the Company is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The Company is ultimately owned by The Weir Group PLC ('the Group') and it participates in the Group's centralised treasury arrangements and so shares banking facilities with its parent company and fellow subsidiaries. As a consequence, the Company depends, in part, on the ability of the Group to continue as a going concern. The directors have considered the Company's funding relationship with The Weir Group PLC to date and have considered available relevant information relating to The Weir Group PLC's ability to continue as a going concern. In addition, the directors have no reason to believe that The Weir Group PLC will not continue to fund the Company, should it become necessary, to enable it to continue in operational existence.

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis in preparing the financial statements.

Future developments

Future developments affecting the business are discussed in the business review section of the Strategic report.

Directors

The directors of the company during the period and to the date of this report were:

John Heasley (appointed 3 October 2016)

Christopher Morgan

Jon Stanton (resigned 3 October 2016)

Directors' liabilities

The Company's Articles of Association contain a provision that every director or other officer shall be indemnified against all losses and liabilities which they may incur in the course of acting as directors (or officers as the case may be) permitted by the Companies Act 2006 (as amended). These indemnities are uncapped in amount. The Company's ultimate parent company maintained directors and officers liability insurance throughout 2016 and up to the date of approval of the financial statements in respect of the Company's directors and officers.

Disclosure of information to auditors

The directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditors are unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Auditors

PricewaterhouseCoopers LLP were appointed under section 485 of the Companies Act 2006 as the Company's auditor at the Annual General Meeting on 28 April 2016 replacing Ernst & Young LLP and have indicated their willingness to continue in office.

Statement of directors' responsibilities

The directors are responsible for preparing the Strategic report, the Directors' report and the financial statements in accordance with applicable UK law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), comprising Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business;
- make judgments and accounting estimates that are reasonable and prudent; and
- state whether applicable UK Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

By order of the Board

Independent auditors' report to the members of Linatex Limited

Report on the financial statements

Our opinion

In our opinion, Linatex Limited's financial statements (the "financial statements"):

- give a true and fair view of the state of the company's affairs as at 31 December 2016 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

What we have audited

The financial statements, included within the Report and Financial Statements (the "Annual Report"), comprise:

- the Balance sheet as at 31 December 2016;
- the Income statement for the year then ended;
- the Statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in the preparation of the financial statements is United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law (United Kingdom Generally Accepted Accounting Practice).

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

In addition, in light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we are required to report if we have identified any material misstatements in the Strategic Report and the Directors' Report. We have nothing to report in this respect.

Other matters on which we are required to report by exception

Adequacy of accounting records and information and explanations received

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Directors' remuneration

Under the Companies Act 2006 we are required to report to you if, in our opinion, certain disclosures of directors' remuneration specified by law are not made. We have no exceptions to report arising from this responsibility.

Responsibilities for the financial statements and the audit

Our responsibilities and those of the directors

As explained more fully in the Statement of directors' responsibilities set out on pages 3-4, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) ("ISAs (UK & Ireland)"). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

What an audit of financial statements involves

We conducted our audit in accordance with ISAs (UK & Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report. With respect to the Strategic Report and Directors' Report, we consider whether those reports include the disclosures required by applicable legal requirements.

Notes to the financial statements

for the period ended 31 December 2016

1. Authorisation of financial statements and statement of compliance with FRS 101

The financial statements of Linatex Limited for the period ended 31 December 2016 were authorised for issue by the Board of Directors on 4 July 2017 and the balance sheet was signed on the Board's behalf by John Heasley.

The financial statements were prepared in accordance with the Companies Act 2006 as applicable to companies using Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101).

The Company's financial statements are presented in Sterling and all values have been presented in thousands (£000) except where otherwise indicated.

The Company has taken advantage of the exemption under section 400 of the Companies Act 2006 not to prepare group financial statements as it is a wholly owned subsidiary of The Weir Group PLC. The results of the Company are included in the consolidated financial statements of The Weir Group PLC which are publically available.

The principal accounting policies adopted by the Company are set out in note 2.

Linatex Limited is a limited company registered in England and Wales.

2. Accounting policies

Basis of preparation

The accounting policies which follow set out those policies which apply in preparing the financial statements for the period ended 31 December 2016 ('2016'), the comparative information is provided for the period ended 1 January 2016 ('2015'). The accounting policies are consistent with those of the previous period. The Company has adopted SI 2015/980 for presentational purposes in order to align with the financial statements of its ultimate parent company.

The following exemptions from the requirements of IFRS have been applied in the preparation of these financial statements, in accordance with FRS 101:

- IFRS 7 *Financial Instruments: Disclosures*;
- paragraphs 91-99 of IFRS 13 *Fair Value Measurement*;
- IAS 7 *Statement of Cash Flows*;
- paragraph 38 of IAS 1 *Presentation of financial statements* comparative information requirements in respect of paragraph 79(a)(iv) of IAS 1; paragraph 73(e) of IAS 16 *Property, Plant & Equipment*; and paragraph 118(e) of IAS 38 *Intangible Assets*;
- paragraph 17 of IAS 24 *Related Party Disclosures*; and
- IAS 24 *Related Party Disclosures* disclosure of related party transactions with a fellow wholly owned subsidiary in IAS 24 *Related Party Disclosures*.

There are no new accounting standards or interpretations which are considered to have a material impact on the financial statements.

Judgements and key sources of estimation uncertainty

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date, and the amounts reported for revenues and expenses during the year. These estimates and assumptions are based on historical experience, information available at the time and other factors considered relevant.

The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements:

Impairment

The company carries out impairment testing on any assets that show indications of impairment as well as annually for goodwill and other intangible assets with indefinite lives and so not subject to amortisation. This testing includes exercising management judgement about future cash flows and other events which are, by their nature, uncertain.

Taxation

The level of current and deferred tax recognised in the financial statements is dependent on subjective judgements as to the interpretation of complex tax regulations and, in some cases, the outcome of decisions by tax authorities, together with the ability of the Company to utilise tax attributes within the limits imposed by the relevant tax legislation.

In all cases, provisions for open tax issues are based on management's interpretation of tax law as supported where appropriate by the Company's external advisors, and reflect the single best estimate of likely outcome for each liability. The Company believes it has made adequate provision for such matters.

Significant accounting policies

Royalty income

Royalty income is recognised on an accruals basis in accordance with the substance of the relevant agreements.

Exceptional items

Exceptional items are items of income and expense which, because of the nature, size and/or infrequency of the events giving rise to them, merit separate presentation to allow a better understanding of the elements of the Company's financial performance for the period and are presented on the face of the income statement to facilitate comparisons with prior periods and assessment of trends in financial performance. Exceptional items may include but are not restricted to: profits or losses arising on disposal or closure of businesses; the cost of significant business restructuring; significant impairments of intangible or tangible assets; adjustments to the fair value of acquisition related items such as contingent consideration and inventory; other items deemed exceptional due to their significance, size or nature; and the related exceptional taxation.

Investments

Investments are held at historical cost less a provision for impairment when required.

Financial assets & liabilities

The Company's principal financial assets and liabilities, other than derivatives, comprise the following:

- loans and fixed rate notes
- cash and short-term deposits
- trade receivables
- trade payables

A financial asset is generally derecognised when the contract that gives rise to it is settled, sold, cancelled or expires.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such

an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, such that the difference in the respective carrying amounts together with any costs or fees incurred are recognised in profit or loss.

Impairment of non-current assets

All non-current assets are tested for impairment whenever events or circumstances indicate that their carrying values might be impaired.

An impairment loss is recognised to the extent that an asset's carrying value exceeds its recoverable amount, which represents the higher of the asset's fair value less costs to sell and its value in use. An asset's value in use represents the present value of the future cash flows expected to be derived from the asset. Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is conducted for the cash generating unit to which it belongs. Similarly, the recoverable amount of goodwill is determined by reference to the discounted future cash flows of the cash generating units to which it is allocated.

Impairment losses are recognised in the income statement. Impairment losses recognised in previous periods for an asset other than goodwill are reversed if there has been a change in the estimates used to determine the asset's recoverable amount. The carrying amount of an asset shall not be increased above the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods. Impairment losses recognised in respect of goodwill are not reversed.

Trade receivables

Trade receivables, which are generally of a short term nature, are recognised and carried at original invoice amount less an allowance for estimated irrecoverable amounts. Provision is made where there is objective evidence that the Company will not be able to recover balances in full. Balances are written off when the probability of recovery is assessed as being remote.

Cash at bank and in hand

Cash and short term deposits in the balance sheet comprise cash at banks and in hand and short term deposits with an original maturity of three months or less. Bank overdrafts are presented as current liabilities to the extent that there is no right of offset with cash balances.

Derivative financial instruments & hedge accounting

The Company uses derivative financial instruments, principally forward foreign currency contracts and cross currency swaps, to reduce its exposure to exchange rate movements. The Company also uses foreign currency borrowings as a hedge of its exposure to foreign exchange risk on its investments in foreign subsidiaries. Additionally, the Company uses interest rate swaps to manage its exposure to interest rate risk. The Company does not hold or issue derivatives for speculative or trading purposes.

Derivative financial instruments are recognised as assets and liabilities measured at their fair values at the balance sheet date. The fair value of forward foreign currency contracts is calculated as the present value of the estimated future cash flows based on spot and forward foreign exchange rates and counterparty and the Company's own credit risk. Hedge accounting is applied in respect of hedge relationships where it is both permissible under IAS 39 and practical to do so. When hedge accounting is used, the relevant hedging relationships will be classified as fair value hedges, cash flow hedges or net investment hedges.

Taxation

Current tax is the amount of tax payable or recoverable in respect of the taxable profit or loss for the period.

Deferred tax is recognised on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base with the following exceptions:

- Deferred tax arising from the initial recognition of goodwill, or of an asset or liability in a transaction that is not a business combination, that, at the time of the transaction, affects neither accounting nor taxable profit or loss, is not recognised;
- Deferred tax is provided on temporary differences arising on investments in subsidiaries and joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future; and
- A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Deferred tax liabilities represent tax payable in future periods in respect of taxable temporary differences. Deferred tax assets represent tax recoverable in future periods in respect of deductible temporary differences, the carry forward of unutilised tax losses and the carry forward of unused tax credits. Deferred tax is measured on an undiscounted basis using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the deferred tax asset is realised or the deferred tax liability is settled.

Current and deferred tax is recognised in the income statement except if it relates to an item recognised directly in equity, in which case it is recognised directly in equity.

3. Revenues & expenses

The following disclosures are given in relation to total continuing operations and include exceptional items.

	2016 £000	2015 £000
A reconciliation of revenue to operating profit (loss) is as follows		
Revenue	969	814
Gross profit	969	814
Other operating (expenses) / income	(2,635)	2,341
Administrative expenses	(122)	(121)
Operating profit (loss)	(1,788)	3,034

	2016 £000	2015 £000
Operating profit (loss) is stated after charging (crediting)		
Impairment of investment	3,922	-
Dividend in specie relating to transfer of investment	(1,287)	-
Loss (gain) on sale of investment	-	(2,341)
Exchange (gains) losses	24	(20)

Audit fees for the Company were £1,000.

4. Exceptional items

	2016 £000	2015 £000
Recognised in arriving at operating profit (loss) from continuing operations		
Dividend in specie income for transfer of investment	1,287	-
Impairment write off of existing investment balance	(3,922)	-
Gain on sale of investment	-	2,341
	(2,635)	2,341

Linatex Africa (Pty) Ltd is in the process of being wound up and transferred its 7.08% ownership of Minerals Africa (Pty) via a dividend in specie. The dividend in specie was valued as the carrying amount of the investment held by Linatex Africa (Pty) Ltd at the time of the transfer.

Subsequently the investment in Linatex Africa (Pty) Ltd has been impaired to reflect the reduction in its investments held.

The exceptional item in the prior period relates to the sale of 30% investment in Linatex UK Holdings Limited with a book value of £0.60.

5. Staff costs & directors' remuneration

No management charges were paid to The Weir Group PLC during the period (2015: £nil) in connection with the services of the directors. No remuneration was paid to any director during the period (2015: £nil) in respect of their services to the Company. There were no employees during the period (2015: none).

6. Finance income

	2016 £000	2015 £000
Interest receivable from group undertakings	17	16
	17	16

7. Taxation**Tax charged in the income statement**

	2016 £000	2015 £000
The tax charge (credit) is made up as follows		
Current income tax		
UK corporation tax	173	152
Adjustments in respect of previous periods	(21)	-
WHT reversal	-	64
Total current income tax	152	216
Total income tax charge (credit) in the income statement	152	216

Factors affecting the tax charge for the period

The standard rate of tax for the period based on the UK standard rate of corporation tax is 20.00% (2015: 20.25%). The actual tax charge for the current period is set out in the following reconciliation.

	2016 £000	2015 £000
Result from continuing operations before income tax	(1,771)	3,050
Tax calculated at UK standard rate of corporation tax of 20.00% (2015: 20.25%)	(354)	618
Effect of		
Expenses not deductible for tax purposes	784	-
Non-taxable income	(257)	(466)
Withholding tax reversal	-	64
Tax overprovided in previous periods	(21)	-
Tax expense (income) in the income statement	152	216

Factors that may affect future tax charges

Legislation was enacted on 26 October 2015 such that the main rate of UK corporation tax will be 19% from 1 April 2017 and 17% from 1 April 2020.

8 Investments

	£000
Cost	
At 1 January 2016	4,213
Additions	1,287
At 31 December 2016	5,500
Impairment	
At 1 January 2016	-
Impairment during the period	(3,922)
At 31 December 2016	(3,922)
Net book value at 1 January 2016	4,213
Net book value at 31 December 2016	1,578

The subsidiary undertakings of the Company are listed in an Appendix.

On 13 December 2016, a dividend in specie took place to transfer 7.08% ownership of Weir Minerals Africa (Pty) from Linatex Africa (Pty) Ltd to the Company. Ninety-one shares were transferred with a par value of £nil. The investment is valued at £1,287,000.

The transaction took place as Linatex Africa (Pty) Ltd is in the process of being wound up. On finalisation of the above transfer, the investment balance in Linatex Africa (Pty) was impaired to reflect the reduction in its investments held.

9. Trade and other receivables

	2016 £000	2015 £000
Amounts receivable from group undertakings	8,824	8,081
Tax receivable	38	33
	8,862	8,114

Amounts receivable from group undertakings are unsecured and repayable on demand.

10. Cash and short-term deposits

	2016 £000	2015 £000
Cash	74	15
	74	15

11. Financial liabilities

	2016 £000	2015 £000
Amounts due are repayable as follows		
Current		
- loans from group undertakings	113	113
	113	113

Amounts due to group undertakings are unsecured, interest free and repayable on demand.

12. Trade and other payables

	2016 £000	2015 £000
Amounts owed to group undertaking	528	415
Tax payable	152	152
	680	567

Amounts owed to group companies are unsecured, interest free and repayable on demand.

13. Derivatives

	2016 £000	2015 £000
Current liabilities		
Forward foreign currency contracts	2	20
	2	20

The figures in the above table are inclusive of derivative financial instruments where the counterparty is a subsidiary of The Weir Group PLC.

14. Share capital

	2016 £000	2015 £000
Allotted, called up and fully paid		
1,000,000 ordinary shares of £1.00 each	1,000	1,000
	1,000	1,000

15. Contingent liabilities
