1 Accounting policies

Basis of accounting

The financial statements are prepared on the going concern basis, under the historical cost convention, and in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* ("FRS 101"). In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("IFRS"), but makes amendments where necessary in order to comply with the Companies Act 2006 and where advantage of disclosure exemptions available under FRS 101 have been taken.

In the transition to FRS 101, the company has applied IFRS 1, whilst ensuring that its assets and liabilities are measured in compliance with FRS 101. An explanation of how the transition to FRS 101 has affected the reported financial position and financial performance, including recognition and measurement exemptions under IFRS 1, is provided in note 9.

The preparation of the financial statements requires the Directors to make estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the disclosure of contingent liabilities at the date of the financial statements. The key estimates and assumptions are set out in the accounting policies below, together with the related notes to the accounts.

The most significant items include:

- the review of asset values and impairment testing of non-financial assets;
- the estimation of amounts to be recognised in respect of taxation and legal matters; and
- the exemptions taken under IFRS 1 on the first time adoption of FRS 101 at 1 January 2014.

Such estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable in the circumstances and constitute management's best judgment at the date of the financial statements. In the future, actual experience may deviate from these estimates and assumptions, which could affect the financial statements as the original estimates and assumptions are modified, as appropriate, in the year in which the circumstances change.

The Company is included in the consolidated financial statements of British American Tobacco p.l.c. which is incorporated in the United Kingdom and registered in England and Wales. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements under the terms of section 400 of the Companies Act 2006.

The accounting policies set out below, have unless otherwise stated, been applied consistently to all periods presented in these financial statements and in preparing the opening balance sheet at 1 January 2014 for the purpose of the transition to FRS 101.

Cash flow statement

The Company is a wholly owned subsidiary of British American Tobacco p.l.c.. The cash flows of the Company are included in the consolidated cash flow statement of British American Tobacco p.l.c. which is publicly available. Consequently, the Company has taken advantage of the exemption from preparing a cash flow statement under the terms of FRS 101.

Notes to the financial statements for the year ended 31 December 2015

Accounting policies (continued)

Foreign currencies

The functional currency of the Company is sterling. Transactions arising in currencies other than sterling are translated at the rate of exchange ruling on the date of the transaction. Monetary assets and liabilities expressed in currencies other than sterling are translated at rates of exchange ruling at the end of the financial year.

Turnover

Turnover comprises royalties receivable and is included in the profit and loss account when all contractual or other applicable conditions for recognition have been met. Provisions are made for bad and doubtful debts where there is an expectation that all or a portion of the amount due will not be recovered.

Intangible assets

The intangible assets shown on the Company balance sheet consist mainly of trademarks and similar intangibles. Intangibles are carried at cost less accumulated amortisation and impairment.

Intangibles with indefinite lives are not amortised but are reviewed annually for impairment. Other intangible assets are amortised on a straight-line basis over their remaining useful lives, consistent with the pattern of economic benefits expected to be received, which do not exceed 20 years. Any impairment of trademarks is recognised in the income statement but increases in trademark values are not recognised.

Dividends

Final dividend distributions to the Company's shareholders are recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders at the Annual General Meeting, while interim dividend distributions are recognised in the period in which the dividends are declared and paid.

An additional reduction to 17% (effective 1 April 2020) was announced in the Budget on 16 March 2016. This will reduce the Company's future current tax charge. 9 Transition to Financial Reporting Standards FRS 101

The Financial Reporting Council has issued FRS 100 Application of Financial Reporting Requirements, FRS 101 Reduced Disclosure Framework and FRS 102 The Financial Reporting Standard applicable in the UK and Ireland. These standards are applicable to all companies and entities in the UK and Republic of Ireland, other than listed groups which continue to report under IFRS, for accounting periods beginning on or after 1 January 2015.

FRS 100 sets out the overall financial reporting framework for companies in the UK and Ireland. FRS 101 applies to the individual financial statements of subsidiaries and ultimate parents, allowing them to apply the same accounting policies as in their listed group accounts, but with fewer disclosures. FRS 102 is a single financial reporting standard that applies to the financial statements of entities that are not applying IFRS, FRS 101 or the FRSSE. The primary statements of entities applying FRS 101 or FRS 102 would continue to follow the requirements of the Companies Act 2006.

The Company has adopted the accounting requirements of the reduced disclosure framework under FRS 101 in these financial statements, with a transition date of 1 January 2014. The adoption of FRS 101 had no material impact to previously reported amounts in profit or equity.

The Company's financial statements still meet the requirements of the Companies Act 2006 including giving a true and fair view of the Company's assets, liabilities, financial position and profit or loss.

The Company has informed its shareholders and received no objections to the use of FRS 101.
