EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
STRATEGIC REPORT
Year Ended 30 September 2018

The directors present their strategic report for the year ended 30 September 2018.

Principal activity and Strategic review

The principal activity of the company during the period remains the transaction of general insurance classified as Miscellaneous Financial Loss. There have not been any significant changes in the company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the company's activities in the next year. The company is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

As shown in the company's profit and loss account: technical account on page 8, the underwriting profit before net operating expenses for the year is £250,000 (2017 - £2,835,000). The net claims loss ratio was 99.5% (2017 - 93.5%).

The balance sheet on pages 10 and 11 of the financial statements shows that the company's capital position at the year end increased by 15% to £41,505,000 (2017 - 9% to £35,980,000); following the issue of £5,700,000 of Share Capital.

The company's directors believe that further key performance indicators for the company are not necessary or appropriate for an understanding of the development, performance or position of the business, and that the ones identified are the key indicators that are used by the Board to monitor the company's performance.

The business for the year demonstrated an encouraging level of growth and has continued to strengthen its shareholders funds. A reduced underwriting profit before net operating expenses of £250,000 was earned following an increase in reinsurance cost, as steps were taken to reduce the level of risk, along with an increase in the IBNR technical provision.

Going concern

As set out in the Directors' Responsibilities statement, the directors are required to prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business. The current economic conditions present increased risks for all businesses. In response to such uncertain conditions, the directors have carefully considered these risks and the extent to which they might affect the preparation of the financial statements on a going concern basis. In particular, the directors of the company have considered in detail the company's forecast performance, including its capital adequacy, forecast solvency position and the valuation of its investments. On this basis, the directors have a reasonable expectation that the company will maintain adequate solvency to continue in operational existence for the foreseeable future. Accordingly the directors of the company have adopted the going concern basis in preparing these financial statements.

Principal risks and uncertainties

The board ensures that the risks the business faces are managed in a prudent manner via the Risk and Audit Committees. The company operates a risk management framework through which it identifies, monitors, reports and manages its principal risks within its risk appetite and ensures that sufficient capital is held. The company has carried out a risk maturity review during the year and has continued with its internal audit activities.

Competitive pressure in the UK is a continuing risk for the company. The company manages this risk by focusing on customer needs and adapting the product offering to maintain leading coverage and pricing. Procedures are constantly updated to make application, renewal and claims processing as quick and streamlined as possible. Achieving the best customer outcomes remains a key aspect of the business strategy.

The company has strengthened its Corporate Governance framework with the creation of a number of executive committees including Audit, Risk and Remuneration Committees.

As a result of its normal business activities, the company is exposed to a number of financial risks, including insurance risk on the business underwritten. In order to manage these risks effectively the Board has established clear policies and procedures and approved the use of reinsurance, and these are monitored on an ongoing basis.

The company's transactions are all in pound sterling and therefore there is no exposure to a movement in exchange rates.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
STRATEGIC REPORT
Year Ended 30 September 2018

Credit risk on policyholders is immaterial owing to the risk being spread across a number of counterparties. Credit risk in terms of brokers is managed by spreading the risk across a number of brokers and assessing whether the brokers are suitably creditworthy.

Approved by the Board on 18 December 2018 and signed on its behalf by:

F.D. Martin
Director

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
DIRECTORS' REPORT
Year Ended 30 September 2018

The directors present their report and the audited financial statements for the year ended 30 September 2018.

Directors of the company

The directors of the company throughout the period were as follows:

F D Martin

C J Hall

K E Howells-Lee

A K Martin

P E Myers (Independent non-executive director)

E M Walker (Independent non-executive director)

Disclosure of information to the auditors

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information. The directors confirm that there is no relevant information that they know of and which they know the auditors are unaware of.

Auditors

In accordance with section 485 of the Companies Act 2006, a resolution for the re-appointment of Watson Buckle Limited as auditors of the company is to be proposed at the forthcoming Annual General Meeting.

Approved by the Board on 18 December 2018 and signed on its behalf by:

A handwritten signature in black ink, appearing to be 'F D Martin', is written over a horizontal dotted line.

F D Martin
Director

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
STATEMENT OF DIRECTORS' RESPONSIBILITIES
Year Ended 30 September 2018

Directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates which are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)

Opinion

We have audited the financial statements of Equine and Livestock Insurance Company Limited (The) for the year ended 30 September 2018, which comprise the Profit and Loss Account, Balance Sheet, Statement of Changes in Equity, Cash Flow Statement and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice) having regard to the statutory requirement for insurance companies to maintain equalisation provisions. The nature of equalisation provisions, the amounts set aside as at 30 September 2018, and the effect of the movement in those provisions during the year on the shareholders' funds, the balance on the general business technical account and profit before tax, are disclosed in notes 2 and 18.

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 September 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement in the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)**

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Directors' Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

1. General information

The company is a private company limited by share capital, incorporated in England & Wales.

The address of the registered office is:

Thorpe Underwood Hall
Thorpe Underwood
York
YO26 9SZ

2. Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", Financial Reporting Standard 103, "Insurance Contracts", the Companies Act 2006 and the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations relating to insurance companies.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

The company's functional and presentation currency is pound sterling.

The company has chosen to early adopt FRS 102 March 2018.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

Significant judgements in applying accounting policies

Insurance contracts

Significant judgements in applying the accounting policies have been detailed in the Insurance contracts section.

Shared expenses

All shared expenses are allocated across related companies via recharges. Recharge split percentages are calculated on an appropriate allocation basis, such as turnover, staff numbers and building usage, according to expense type.

Key sources of estimation uncertainty

Useful economic lives of tangible assets

The annual depreciation charge for tangible assets and their carrying amount is determined by the estimated useful economic lives and residual values of the assets. The useful economic lives and residual values are re-assessed annually and amended when necessary to reflect current estimates, based on technological advancement, future investments, economic utilisation and the physical condition of the assets. The carrying amount is £58,000 (2017: £55,000).

Fair value of land and buildings

The valuation of the company's property portfolio is inherently subjective due to, among other factors, the individual nature of each property, its location and the expected future rental revenues from that particular property. As a result, the valuations, performed by professionally qualified valuers, are subject to a degree of uncertainty and are made on the basis of assumptions which may not prove to be accurate, particularly in periods of volatility or low transaction flow in the property market. The carrying value at year end is £7,216,000 (2017: £7,319,000).

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

2. Accounting policies (continued)

Insurance contracts

Classification of insurance contracts

The company issues contracts that transfer insurance risk or financial risk or both.

Insurance contracts are those contracts that transfer significant insurance risk. Such contracts may also transfer financial risk. All of the company's insurance products are classified as insurance contracts.

The results are determined on an annual basis whereby the incurred cost of claims, commission and related expenses are charged against the earned proportion of premiums, net of reinsurance as follows:

Premiums written

Written premiums comprise total premium receivable for the whole period of cover provided by contracts inception during the financial period, together with adjustments arising in the financial period to such premiums receivable in respect of business written in previous financial years. Where premiums are earned through brokers they are shown gross of commission payable, and are exclusive of taxes and duties levied on premiums. Where premiums are earned on policies sold to intermediaries on a wholesale basis, and where the intermediary is responsible for setting the final amount payable by the insured, the written premium comprises the element receivable by the company, and is exclusive of taxes and duties levied on premiums. The annual basis of accounting has been applied to all classes of business, all of which are continuing.

Unearned premiums

This represents the proportion of general business premiums written in the period which relates to cover provided for a future year. The reserve for unearned premium has been calculated on the 24th method after which an appropriate deduction for reinsurance costs associated with the premium including commissions has been deducted. No provision has been provided for any future year on the company's monthly policies.

Acquisition costs

Acquisition costs comprise all direct costs of acquiring new business and renewal of existing business. Deferred acquisition costs are determined by applying average acquisition costs for each category of business written to the unearned element of premiums.

Claims incurred

Claims incurred comprise claims and related expenses paid in the year and changes in the provisions for outstanding claims, including provisions for claims incurred but not reported and related expenses, together with any other adjustments to claims from previous years.

Claims provisions and related reinsurance recoveries

These are assessed on an individual case basis for the estimated cost of claims notified but not settled by the balance sheet date after taking into account handling and settlement costs. A provision for claims incurred but not reported is established on a consistent statistical basis. Any difference between provisions and subsequent settlements are dealt with in the technical accounts of later years. Claims provisions are not discounted. The company takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established.

The estimation of claims incurred but not reported ("IBNR") is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the company, where more information about the claim event is generally available. Classes of business where the IBNR proportion of the total reserve is high will typically display greater variations between initial estimates and final outcomes because of the greater degree of difficulty of estimating these reserves. Classes of business where claims are typically reported relatively quickly after the claim event tend to display lower levels of volatility. In calculating the estimated cost of unpaid claims the company uses a variety of estimation techniques, generally based upon statistical analysis of historical experience, which assumes that the development pattern of the current claims will be consistent with past experience.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

2. Accounting policies (continued)

Allowance is made, however, for changes or uncertainties which may create distortions in the underlying statistics or which might cause the cost of unsettled claims to increase or reduce when compared with the cost of previously settled claims including:

- changes in company processes which might accelerate or slow down the development and/or recording of paid or incurred claims compared with the statistics from previous periods;
- changes in the legal environment;
- the effects of inflation;
- changes in the mix of business;
- the impact of large losses; and
- movements in industry benchmarks.

A component of these estimation techniques is usually the estimation of the cost of notified but not paid claims. In estimating the cost of these, the company has regard to the claim circumstance as reported, any information available from loss adjusters and information on the cost of settling claims with similar characteristics in previous periods.

Where possible, the company adopts multiple techniques to estimate the required level of provisions. This assists in giving greater understanding of the trends inherent in the data being projected. The projections given by the various methodologies also assist in setting the range of possible outcomes. The most appropriate estimation technique is selected taking into account the characteristics of the business class and the extent of the development of each accident year.

Provisions are calculated gross of any reinsurance recoveries.

Reinsurance

Contracts entered into by the company with reinsurers, under which the company is compensated for losses on one or more contracts issued by the company and that meet the classification requirements for insurance contracts are classified as reinsurance contracts. Insurance contracts entered into by the company under which the contract holder is another insurer (inwards reinsurance) are included with insurance contracts, provided there is significant transfer of insurance risk.

The reinsurers' share of claims incurred, in the profit and loss account, reflects the amounts received or receivable from reinsurers in respect of those claims incurred during the period.

Equalisation provision

An equalisation provision is maintained for certain types of general business to provide for exceptional fluctuations in claims experience. The provision is determined in accordance with the requirements of INSPRU 1.4 and by the Regulations to be included within technical provisions at the balance sheet date, notwithstanding that it does not represent a liability.

Tax

The tax expense for the period comprises current tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current corporation tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised in respect of all temporary differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

2. Accounting policies (continued)

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Plant and machinery	10% straight line basis
---------------------	-------------------------

Land and buildings

Investment property is carried at fair value, derived from the current market prices for comparable real estate determined annually. The valuers use observable market prices, adjusted if necessary for any difference in the nature, location or condition of the specific asset. Changes in fair value are recognised in profit or loss.

Short leasehold land and buildings are held under the revaluation model where the fair value can be measured reliably. They are carried at a revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Owner occupied short leasehold land and buildings	4% straight line basis
---	------------------------

Provisions

Provisions are recognised when the company has an obligation at the reporting date as a result of a past event, it is probable that the company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

Financial instruments

The company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets

Basic financial assets, including trade and other receivables, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest for a similar asset. Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss and any subsequent reversal is recognised in profit or loss.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

2. Accounting policies (continued)

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial liabilities

Basic financial liabilities, including trade and other payables, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

3. Management of insurance and financial risk

The company issues contracts that transfer insurance or financial risk or both. The company is also exposed to a range of financial risks through its financial assets, financial liabilities and policy holder liabilities. This section summarises the way the company manages them.

Insurance Risk

Insurance risk can be broken down into several elements.

- Underwriting risk refers to the risk of loss, or of adverse change in the value of insurance liabilities, due to inadequate pricing and reserving assumptions.
- Reserving risk includes the fluctuations in the timing, frequency and severity of insured events, relative to the expectations of the undertaking at the time of underwriting. This risk can also refer to fluctuations in the timing and amount of claims settlements.
- Concentration risk means all risk exposures with a loss potential which is large enough to threaten the solvency or the financial position of undertakings.

The company manages its exposure to downside insurance risk by controlling pricing, underwriting and reserving assumptions and through the effective use of reinsurance.

The company recognises that the future is subject to uncertainty and has therefore considered key stresses and scenarios which may impact upon its plans and expectations. This testing includes the exposure to a major underwriting loss event such as a major animal epidemic which could put the company in breach of the Solvency II SCR. The company has also considered scenarios whereby claims increase faster than premium growth, thereby eroding the profit margin. Such testing includes projected profit, loss and solvency position for these events.

Sensitivity analysis

The following tables present the sensitivity of the value of insurance liabilities disclosed in this note to movements in the assumptions used in the estimation of insurance liabilities. The sensitivities to economic movements relate solely to business in the UK.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

3. Management of insurance and financial risk (continued)

Market Risk

Market risk is the risk of losses arising from fluctuations in market prices. The company is not exposed to significant market risk, linked only to falls in property values and/or interest rates. Market risk is managed within the company's portfolio guidelines.

The company has invested in commercial property with long term profitable tenants where the receipt of the rent is not a major risk. The company undertakes stress testing for the adverse change in property values (by 10% and 20% of the SCR) and continues to monitor property values closely.

Credit Risk

Credit risk refers to the risk of loss or of adverse change in the financial position resulting, directly or indirectly, from fluctuations in the credit standing of issuers of securities, counterparties and any debtors to which undertakings are exposed, in the form of counterparty default risk, or spread risk, or market risk concentrations. The company's two key credit risk exposures are reinsurer failure and counterparty failure. Credit risk within the company's investment portfolio is controlled through application of the investment guidelines, which cannot be changed without Board approval.

The company stress tests adverse changes in bank credit ratings; falls to BBB and BB have been tested.

Liquidity risk

Liquidity risk refers to the risk that the company would be unable to meet its financial obligations when they fall due. The company has a low appetite for liquidity risk, and it carries out cash-flow matching projections to ensure that sufficient liquid funds are available to meet liabilities as they fall due.

Liquidity risk is controlled through the company's bank holdings which is intended to provide sufficient liquidity for the short to medium term needs. No change to holdings is made without Board approval as agreed by the Board.

4. Prior period errors

The prior period errors are in relation to bank reconciling items which were not recognised. These errors have been adjusted in the comparative information although they were not material.

5. Particulars of business

Gross premiums written and gross premiums earned by class of business:

	Gross premiums written		Gross premiums earned	
	2018	2017	2018	2017
	£'000	£'000	£'000	£'000

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

6. Net operating expenses gross and net of reinsurance

	2018 £'000	2017 £'000
Acquisition costs	686	1,717
Deferred acquisition costs carried forward	(49)	(90)
Deferred acquisition costs brought forward	90	26
(Increase)/decrease	41	(64)
Incurring acquisition costs	727	1,653
Administrative expenses	1,125	778
	<u>1,852</u>	<u>2,431</u>

Included above are commissions totalling £383k (2017: £1,345k). These figures include the deferred acquisition movement as shown above.

7. Administration expenses

Administration expenses include the following items:

	2018 £'000	2017 £'000
Auditors' remuneration		
Audit services	72	67
Non-audit services	8	7
Land and buildings (see note 11)	103	(50)
Depreciation - owned assets (see note 12)	7	6
Bank interest payable	10	8
Aggregate staff costs (see note 8)	1,409	1,433

Auditors' remuneration for audit services comprises fees payable to the Company's auditor for the audit of the Company's annual accounts. Non-audit services relates to taxation services.

8. Staff numbers and costs

The average number of persons employed by the company during the year,

	2018 No.	2017 No.
Technical	35	39
Office and management	8	8
	<u>43</u>	<u>47</u>

The aggregate payroll costs of these persons were as follows:

	£'000	£'000
Salaries	1,251	1,277
Social security costs	128	122
Pension contributions	30	34
	<u>1,409</u>	<u>1,433</u>

Directors' remuneration

Emoluments for services as directors	327	291
Directors' pension contributions	18	22

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

8. Staff numbers and costs (continued)

	2018 £'000	2017 £'000
Highest paid director:		
Emoluments	128	125
Pension contributions	<u>5</u>	<u>6</u>

The number of directors accruing benefits under this scheme is 4, (2017: 4).

9. Investment Income

	2018 £'000	2017 £'000
Bank interest	556	555
Income from land and buildings	<u>732</u>	<u>707</u>
	<u><u>1,288</u></u>	<u><u>1,262</u></u>

10. Taxation

	2018 £'000	As restated 2017 £'000
Current year		
UK corporation tax charge/(refund)	(137)	343
Adjustment in respect of previous years	(2)	5
Corporation tax charge/(refund)	<u>(139)</u>	<u>348</u>

Tax on profit on ordinary activities for the year is lower than (2017: higher than) the standard rate of corporation tax in the UK of 19% (2017: 19%). The differences are reconciled below:

Profit/(loss) on ordinary activities before tax	<u>(314)</u>	<u>1,666</u>
Tax on profit on ordinary activities at standard rate	(60)	317
Prior year (over)/under provision	(2)	5
Expenses not deductible for tax purposes	12	(8)
Timing differences relating to prior year adjustments	(89)	24
Change in tax rates	-	10
Total amount of current tax for the year	<u>(139)</u>	<u>348</u>

Deferred tax

Deferred tax assets and liabilities

2018

	Asset £'000
Difference between accumulated depreciation and amortisation and capital allowances	20
	<u><u>20</u></u>

2017

	Asset £'000
Difference between accumulated depreciation and amortisation and capital allowances	20
	<u><u>20</u></u>

The amount of the net reversal of deferred tax assets expected to occur during the year beginning after the reporting period is £5,000 (2017 - £1,000). This related to the timing differences on capital allowances.

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

11. Land and buildings

	Owner occupied short leasehold land and buildings £'000	Investment properties £'000	Total £'000
Cost			
As at 1 October 2017	2,433	5,100	7,533
Additions	-	-	-
Revaluation	-	-	-
At 30 September 2018	<u>2,433</u>	<u>5,100</u>	<u>7,533</u>

As at 1 October 2017	18	-	18
Charge for year	2,088	1,932	4,020
At 30 September 2018	<u>2,106</u>	<u>1,932</u>	<u>4,038</u>
Net technical provisions			
At 30 September 2018	<u>2,574</u>	<u>2,666</u>	<u>5,240</u>
At 30 September 2017	<u>2,306</u>	<u>10,377</u>	<u>12,683</u>

Equalisation reserves

An equalisation provision has been established in accordance with the requirements of the Equalisation Reserve Rules contained within the Prudential Sourcebook and the General Prudential Sourcebook. It is required by FRS 103 "Insurance Contracts" to be included within the technical provisions at the balance sheet date notwithstanding that it does not represent a liability at the balance sheet date, and is in addition to the provisions required to meet the anticipated ultimate cost of claims outstanding at the balance sheet date. At 30 September 2018 the equalisation reserve was £Nil (2017: £Nil).

As there has been no movement in equalisation provisions during the year there has been no effect in the general business technical account result and in the profit before taxation in respect of the above.

19. Deferred tax and other provisions

	Deferred tax £'000
At 1 October 2017	(20)
At 30 September 2018	<u>(20)</u>

20. Creditors arising out of reinsurance operations

	2018 £'000	2017 £'000
Amounts owed to reinsurers	232	343
Deferred reinsurance commission	3,991	-
	<u>4,223</u>	<u>343</u>

21. Other creditors including tax and social security

	2018 £'000	2017 £'000
Insurance premium tax	2,343	1,991
Corporation tax	(137)	342
	<u>2,206</u>	<u>2,333</u>

EQUINE AND LIVESTOCK INSURANCE COMPANY LIMITED (THE)
NOTES TO THE FINANCIAL STATEMENTS
Year Ended 30 September 2018

22. Pension and other schemes

The company operates a defined contribution pension scheme. The pension cost charge for the year represents contributions payable by the company to the scheme and amounted to £30,000 (2017: £34,000). There were no outstanding contributions payable to the scheme at either period end.

24. Ultimate controlling party

Mr Lindsay Leggat Smith is considered to be the ultimate controlling party by virtue of the fact that he owns all of the company's share capital.
