THE CHAIRMAN'S STATEMENT

Garry Weston

では、一天のでは、100mmのでは、1

I am pleased to announce profits before taxation of £297 million for the Associated British Foods Group.

Although this figure represents a decrease on the comparable figures this time last year, given the difficult market conditions in the year under review, it is an achievement that again reflects the trading strengths and solid asset base of our group.

The continuing recession in many of the countries that we operate in has been well documented in the press and media, and can be seen in many facets of our everyday lives.

The most notable effect of this on our operations is the temporary lack of real growth in many of our main product areas and some difficulty in recovering increases in manufacturing costs. A side effect is the lack of confidence in sterling that also impinges on much of our business.

There remains also a surplus of capacity in the baking industry in this country. This affects us in two ways. Firstly, the downward pressure on manufacturing margins and at the same time the on-going costs of rationalisation within our bakery operations.

Financial Review

The profit before tax for the year of £297 million is not directly comparable with that of the £465 million shown for the previous accounting period, which for most of the group covered a period of 76 weeks.

To facilitate meaningful comparisons a supplementary statement was given in last year's Report and Accounts and this has been reproduced on page 16.

The profit before taxation of £297 million is a decrease of 11 per cent. from the comparable year ago figure, and is after taking account of adverse currency realignments of some £7 million.

Turnover at £3,954 million is after adverse currency realignments of £51 million, and compares with £3,510 million last year.

These accounts include a full year's results from British So far with trading profits of £139 million and turnover of £699 radion. The year ago amounts, covering a period of some 37 weeks, were £98 million and £480 million respectively.

Our other European manufacturing operations whilst increasing sales by 12 per cent. to £1,789 million produced profus lower by 14 per cent. at £54 million.

This reduction in profits is again the result of fierce discounting in a static wholesale bread market. Other divisions maintained

Associated British boods Group

THE CHAIRMAN'S STATEMENT COMMON!

satisfactory progress. These results are after charging some £15 million for rationalisation and reorganisation but profits arising on the disposal of the group surplus properties at just £1 million were lower by some £6 million on the previous year.

The retail companies maintained market share producing record sales but suffered from intense price cutting by our competitors. The resultant profit decrease was compensated by currency differences.

Our companies operating in Australia and New Zealand suffered from the downturn in their national economies yet in terms of local currency increased turnover by 6 per cent. and operating profits by 3 per cent.

Group investment income, net of interest payable, at £26 million shows a considerable decrease on the comparative amount a year ago of £89 million. This reduction results from the combination of the full year effect of the British Sugar acquisition, the substantially higher than average returns achieved a year ago together with the generally lower level of interest rates now obtainable.

Our investments in Berisford International and Hillsdown Holdings have been further written down to the estimated realisable value, resulting in an extraordinary charge of £31 million.

Capital expenditure has been maintained at a high level although some slippage has occurred in completing planned projects, but the strong cash flow of the group is demonstrated by our net cash surplus which is almost unchanged at £409 million.

It is our stated policy to convert the results of overseas subsidiaries at the exchange rates ruling

at the company's year end. However, commencing with the year ending September 1993 the policy will be changed and the average rate of exchange ruling throughout the year will be used.

Dividends

A second interim dividend of 5.5p per share will be paid in March 1993, making a total for the year of 14.0p, an increase of 8 per cent. on the equivalent dividends a year ago.

The increase in the dividend in a year which produced lower profits is a measure of our confidence in the future.

Appreciation

It is with regret I advise shareholders of the tragic death, in a traffic accident, of one of our directors, Mr Henry Jackson, earlier this year. Henry joined our group towards the end of 1988 from the Mars organisation to become Chief Executive of our bakery division. Through his skills and personal qualities Henry Jackson rapidly became a highly respected leader in the baking industry and his contribution to our Allied Bakeries division has been sadly missed.

I would like to record our appreciation of his dedication and service to our company and deepest sympathy and respect to his family and many friends.

I would like again to express my gratitude to those who serve the company, both in this country and overseas, and whose dedication and service made these results possible.

In particular I would like to thank our management at every level for their support and the application of their initiative, energy and skills.

Jan, Dom fri.

THE CHAIRMAN'S REVIEW

Associated Bruish Feeds Group

Milling and Baking

In common with many of this country's food manufacturing and processing industries, our Milling and Bakery divisions have faced continuing pressure on their margins. Although we are seeing yet again the benefit of our heavy investment over the years, on much of our business we have been unable this year to earn an adequate return.

Cereal Industries

The Cereal Industries group, incorporating our milling, agricultural and grain trading divisions, has, nevertheless, managed to produce profits in line with budgets set for the year.

The 1991 United Kingdom harvest produced wheats of excellent quality, similar to the previous crop. However, plantings of breadmaking varieties created a very fine balance between supply and demand, which resulted in significant premiums having to be paid to ensure the correct supply to our mills. By careful gristing we have again been able to use more than 80 per cent, home grown wheat.

The pressure on margins has been compensated for by increasing sales of specialist flours to food manufacturers whose requirements are ever changing, and we have also successfully pursued opportunities for exporting flour.

The newly rebuilt mill at Knottingley has performed well. Towards the end of the year production

temporarily ceased at Uxbridge so that this mill, in turn, can be completely rebuilt.

Allied Grain

Helped by new acquisitions, and strict control of costs, the Allied Grain group of trading companies has improved profitability. Particularly notable has been the increase in exports. Our growing skills in the grain trade will prove increasingly important as the current round of Agricultural Policy reforms will reduce the size of the market in which we operate.

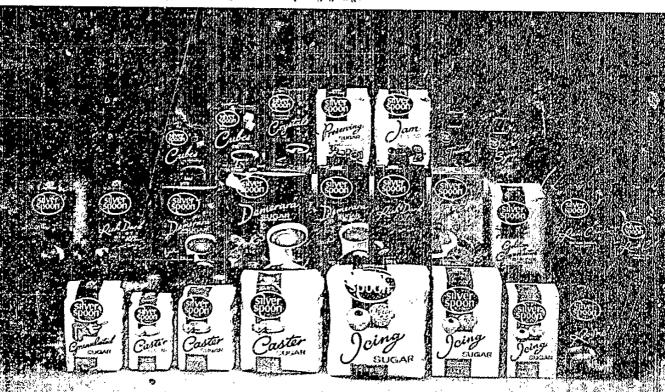

Fishers

The Fishers group has achieved, yet again, a further increase in profitability despite the continuing set back of Blue-ear disease in pigs.

Close to the year end we installed plant at Cranswick to process linseed, a product area new to us and one which is already producing a satisfactory return. The acquisition of Yorkshire Country Feeds at Northallerton has given us an opportunity to expand our business base into wider markets, especially poultry feed, with great success. During the coming year we intend to double the capacity of this feed mill.

It remains to be seen the effect the Common Agricultural Policy changes have on this business. With 15 per cent. of farm land being set aside for non-productive use, there is bound to be further pressure on volumes and margins.

A range of Silver Spawn products from British Sugar in their new packaging design-

Westmill

Westmill, our packing operation, has consolidated its position. The rice mill at Selby and the newly automated packing plant at Ely have both been fully commissioned, and several new products launched. Particularly successful have been Sunblest Muesli and retail flour. However, retail margins have been very competitive and trading profits, whilst ahead of last year, failed to meet expectations.

ABR Foods

In spite of depressed trading conditions in markets served by our starch and gluten operation at Corby standard white at the expense, mainly, of softgrain and high fibre breads. The premium white market showed strong growth with our Kingsmill brand being clear market leader.

The pressure on prices has been led by the retailers,

The pressure on prices has been led by the retailers, partly as a result of the recession and partly the result of new European retailers entering the market. The continuing excess capacity in the baking trade has meant that the burden of these lower prices is borne by the bakers rather than the retailers.

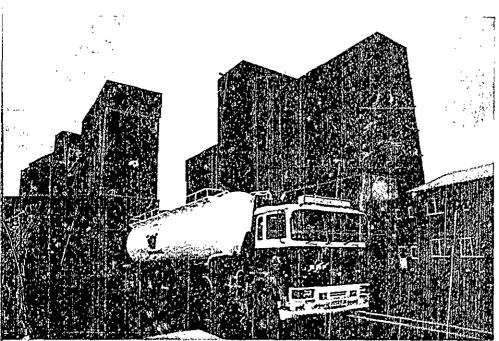

Retaining market share has been costly in terms of profitability. Unable to recover increases in the costs

of materials and labour, Allied Bakeries has had to look to other means to cut costs including further substantial plant and bakery rationalisations involving a significant level of redundancies.

We are continuing to invest in new plant and to maintain our intensive programme of plant overhauls and refurbishments. Our initiatives to improve quality and customer service have been maintained, and during the year the Belfast bakery became the first to achieve British Standard 5750 accreditation.

Towards the end of the year Allied Bakeries announced agreement with the Trades Union to conduct future wage

negotiations at local rather than national level. We believe this to be in the long term interests of both our employees and the company.

King's Mill, Knottingley, the rebuilding of which was completed this year. Earliest records of a mill operating on this site date from 1165.

sales increased above the levels of the previous year. With new facilities to up-grade starch by-products now in operation overall margins improved during the period resulting in a better profit performance for the year.

Wholesale Bakeries

The wholesale bread market again experienced a very difficult year with fierce price competition resulting in standard bread being heavily discounted. This has resulted in a further severe erosion in bakery margins in the year under review. Volumes remained static, although there was a continuing return to the

Retail Bakeries

The retail bakery division has, in common with other speciality food outlets, faced a decline in the High Street volumes and suffered additionally from the heavy price discounting referred to above. Our shops continue to be converted to The Baker's Oven format, and re-organised to comply with the 1990 Food Hygiene Regulations. Where this has not been possible we have closed the units, a costly process, with 90 closed during the year and a further 38 planned for early in the new year.

Speedibake

Speedibake, producing frozen and part-baked Bakery products, commissioned its third site during the year at Bradford Emphasis has been placed on reducing costs, particularly important in view of the increased competition in this trade. New products and operating efficiencies enabled the company to make further progress during the year

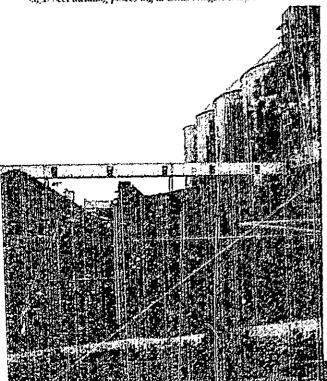

British Sugar

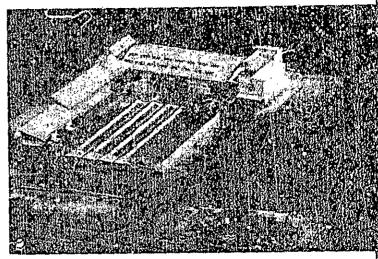

A further year of profitable growth was again achieved by British Sugar. The sugar beet crop was hit by the sudden severe frosts which covered the Eastern counties in early December 1991. As a result of this the campaign produced only 1.22 million tonnes of sugar, some 20,000 lower than last year. Although the company produced its full EC production quota only a reduced surplus was available for export outside the Community.

Despite the problems caused by the weather, production performance at several factories reached record levels with plant modifications made at selected sites, to offset the closure the previous year of operations at Peterborough and Brigg, all working successfully.

Capital investment was maintained at a high level this close season including a further concentration on extending the manufacturing philosophy of central control at individual factories at Newark and York. Central control programmes have now been completed at Ipswich and Bury St Edmunds where they are exceeding our original expectation in providing much improved process co-ordination efficiency and working conditions. A start was also made on a major £50 million three year project to rebuild our Wissington

Sugar beet auauing processing at British Sugar, Bury St. Edmunds

Fishers Agricultural feed mill and grain drying and storing facility on Humberside.

factory and at the same time increase its capacity to one of the largest processing units in the world.

The UK Sugar market was affected by aggressive retail pricing while shipments to the industrial sector were at times sluggish, but a strong off-take in the early summer meant that target volumes were achieved and overall the company sold its full quota in the UK.

An important part of British Sugar's success is the ability to successfully market and add value to its by-products. The most important of these is Molassed Sugar Beer Feed sold under the Trident brand name. Profitability this year was marginally down due to volume available from the smaller crop but this was almost offset by improved pricing and a favourable switch in customer outlet mix.

During 1992 the company acquired the alternative feeds business of KW Agriculture, the UK's leading supplier of brewery and distillery animal feed by-products. The product range is wholly complementary to Trident's and more importantly the acquisition now gives all British Sugar's by-products direct access to the on farm market.

Biscuits and Ryvita

Against a background of a static United Kingdom biscuit market, Burton's reported increased sales volumes and improved operating margins. The benefit of the heavy capital investment of recent years was seen in improved productivity throughout the business.

Sales of products under the 'Burton's' name grew by 25 per cent., and 20 per cent. of these sales arc of products which have been launched in the last three years.

THE CHAIRMAN'S REVIEW

THE CHAIRMAN'S REVIEW commund

Assa iated British Tood-Group

Traditional lines such as Wagon Wheels and Jammie Dodgers also registered strong growth, whilst the range of Jaffa products achieved overall brand leadership by the end of the year.

Sales of own label products to the supermarket trade were down, although no major contracts were discontinued. Exports, on the other hand, grew — particularly within Europe.

The Ryvita Company also registered an increase in turnover in spite of the difficulty in obtaining selling price increases and the mature market in the United Kingdom of its major products

Further new products have been launched and the year saw a near doubling of production capacity for breakfast cereals. Exports to Europe are becoming significant, and further production capacity is being considered. The Stockport factory is becoming increasingly profitable as the sales of crisproll products continue to grow and new products have been enthusiastically received.

Teas and Coffees

In common with other export industries, Twining's has not been able to increase prices without damaging sales volume in many of the countries in which the company trades. However, the consequent pressure on margins has been partly relieved by a stable tea commodity market during the period.

By careful management of the product mix and new product introductions gross margins have been maintained near previous levels while the company has increased its brand advertising in all principle markets to support continued sales growth. As a result, Twining's has improved its market share in both the UK and its major overseas markets.

During the year the company consolidated its 50 per cent, share of the UK specialist tea market with new pack designs and extended consumer advertising also launching a complete range of herb teas with TV support in this rapidly expanding sector.

In the USA Twining's increased its brand advertising with major television campaigns particularly in California. Assisted by good productivity from its North Carolina factory, the USA companies improved upon their sales and profit levels in spite of the depressed US market for quality foods.

Machinery installation is now taking place in the newly completed £4½ million factory at Newcastle. With full production by January 1993 the advantages of new equipment and better plant layout will improve productivity at this important production location.

rbal ted range—a growing segment of Turnings' business

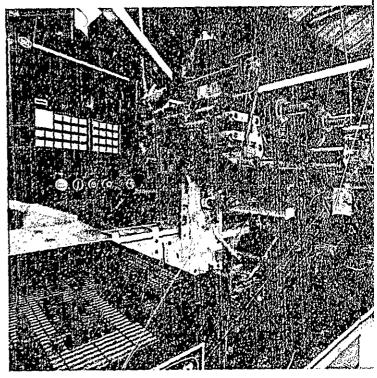

Nearly 80 per cent, of Twining's sales are overseas, and price stability for its products in export markets is not assisted by the recent large movements in major currencies. However, with its long experience in exporting, the prospect of stable commodity prices during 1993 and planned new product launches Twining's is confident that it will maintain its sales and profit.

Frozen Foods and Preserves

This year has seen the full benefits of the merging of our ice cream and frozen pizza operations. Savings have been achieved in both central overheads and in distribution and cold storage costs.

After returning to profit last year, the Ice Cream division made further significant gains. All three factories achieved budgeted sales growth and improved margins - a commendable performance following the poor weather of the latter months of the year. Dairy Tops reputation for reliability, its continued development of new products and above all their quality, have been a major asset to the division's continued growth. During the year our Ice Cream factories have been accredited with British Standard 5750.

The pizza division also achieved record profits resulting largely from a wider range of customers including substantial export business. Capital work is under way

Packing over LXX Wagen Wheels a manute at Burtons, Cumbran.

Associated British Foods Group

THE CHAIRMAN'S REVIEW CONTINUED

in order to achieve an EEC meat licence which will be necessary to handle and sell meat products both at home and overseas.

The heavy recent capital expenditure at Nelsons of Aintree, is beginning to improve margins after two years of unsatisfactory results. Improved efficiencies and controls, together with a significant increase in the sale of bulk jams, offset reduced export sales and the new year has started well continuing the upward trend.

Yeasts, Fats and Food Ingredients

Mauri products has increased its sales of yeast to the bakery trade generally off-setting poor sales to the whisky industry. The trend towards bulk cream yeasts continues giving economies to both the company and its customers.

The Rowallan Creamery at Kilmarnock, producing table and bakery margarines, failed to register its customary growth in profits. This resulted from the difficulties in the current economic climate of recovering cost increases. In these circumstances the profit achieved must be considered satisfactory. The recent devaluations of sterling have added to increases in raw material prices, and pressure remains on us to achieve adequate selling prices.

We have continued to invest in this factory. The main buildings have been extensively refurbished, and work is underway on a new temperature controlled store for bakery fats to provide a better service to our customers.

AB Ingredients and AB Technology, both at Northampton, continued their good progress of recent years. Heavy capital investment, particularly at AB Technology, has taken the company into new ranges of products; in addition to the supply of ingredients for the baking industry excellent growth was achieved through the supply of tin release and divider oil emulsions. Significant progress has been made in the independent bakery sector and further growth is expected.

The new Distilled Monoglyceride facility was commissioned on time, and already plans are under way to extend the plant. Sales of emulsifiers are growing, particularly to our customers in Europe.

Retail

Our grocery companies in Northern Ireland managed real growth in sales and profits over last year, in a market which is showing signs of saturation and decline. In addition to the well known names of Stewart's and Crazy Prices we also operate other formats, depending on local conditions. These include Westside Discount Stores, Superdeal and Bloomfields. This latter store is of 35,000 square feet and is the anchor in a major new shopping centre at Bangor. In spite of heavy competition our high level of customer amenity and the excellent range of products have produced sales consistently in excess of our demanding budgets.

Backing these retail developments, our Chilled Foods Distribution Centre is operating successfully, as are the Pork processing plant and the fruit and vegetables pre-packing companies. Further developments are under way including a Potato Packing plant, and the acquisition of a bonded warehouse to improve the service to our 46 Wine Barrel off-licences.

In the Republic of Ireland, Quinnsworth and Crazy Prices maintained their market share in spite of intense price cutting by competitors.

New Crazy Prices stores opened at Santry, North Dublin and at Portlaoise, and a new Quinnsworth opens shortly in Roscrea, County Tipperary. Heavy investment also continues in installing the latest scanning equipment at checkouts, a programme we hope to complete throughout all stores by April 1993. Our commitment to staff training is also showing positive signs of contributing to cost savings and increased efficiencies.

Our two textile retailing companies, Penneys in Ireland and Primark in the United Kingdom, have both produced excellent results in spite of the difficult trading conditions. Penneys opened a major freehold store in O'Connell Street, the principal street in Dublin. This store is approximately 75,000 sq. ft. and is already trading very successfully. In the United Kingdom we acquired a freehold store in Wallasey, on the Wirral. This store too is trading well above expectations.

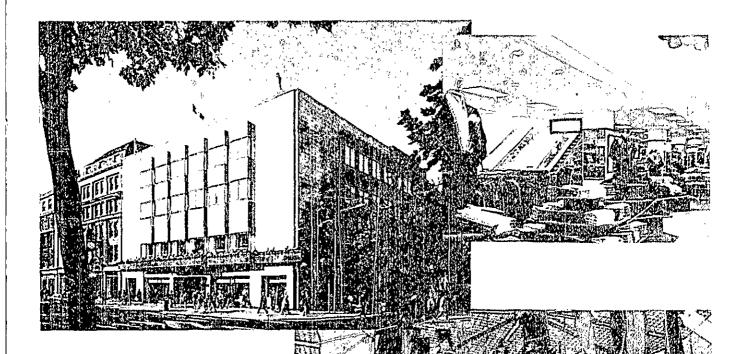

Australia and New Zealand

The economy in Australia and New Zealand has in many ways mirrored that of the United Kingdom. Negligible economic growth and high unemployment coupled with fierce competition saw margins fall in many areas and there is no sign of any lessening of these pressures.

Throughout its operations George Weston Foods has continued its efforts to maximise efficiency and broaden its product range. Great emphasis has been placed in looking for profitable growth opportunities in South East Asia.

Associated British Foods Group

THE CHAIRMAN'S REVIEW continued

36

To consolidate our position we have invested in both new plants and in acquiring existing companies. The acquisition of North's bakeries and Archer's flour mill in New Zealand have greatly increased our presence in that country, whilst in Australia we acquired two specialist baking companies, commissioned two new bakeries and redeveloped and invested heavily in several other factories.

The bread division has benefited from the investments mentioned above and also from the long awaited deregulation of the bread industry in Queensland. However, it will take some time before our Queensland operations return to profitability.

A poor wheat harvest, particulary in Queensland, created problems for our milling division offset to some extent by strong export sales. Developments during the year include upgrades of the mills at Melbourne and in Queensland and the launch of packaged flour for the retail trade. A major upgrade of the Enfield, NSW mill is planned.

Cereform, the food ingredients business had another successful year with emphasis on upgrading quality and offering innovative new products. Food Coatings also traded satisfactorily, and a new factory in Bangkok is performing well.

The biscuit, cake and pastry coperations were affected by heavy price discounting and sluggish demand. Sales of Ryvita were static and the only growth was in new product areas. A re-organisation is under way at Gartrell White which will significantly broaden their range of products available.

A similar picture emerges of the meat and dairy division. Most units performed well, the piggeries particularly so in the face of cheap imports. Again, major capital expenditure is taking place within this division.

The adhesives, starches and chemicals divisions all operated well, reflecting the re-organisations and investments of recent years.

In New Zealand the acquisitions mentioned above have lifted the company into a position of a truly national supplier. Products previously available only in the North have been launched in the South Island, and the economy is showing some early signs of recovery. The introduction of a system of collective employments contracts will enable the group to reduce costs and streamline work practices.

above. The new Tip Top bakery at Bendigo, NSW

left North's bakery products from New Scaland, a company recently acquired by George Western Foods

Associated British Finds Group

REPORT OF THE AUDITORS

KPING Peat Marwick PO Box 486 1 Pudde Dock Black finance

Report of the auditors to the members of Associated British Foods plc

We have audited the accounts on pages 16 to 32 in accordance with Auditing Standards.

In our opinion the accounts give a true and fair view of the state of affairs of the company and of the group at 12 September 1992 and of the profit and cash flows of the group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

2 November 1992

Chartered Accountants Registered Auditors

CPriglest Mennik Klingfaat-Nerwick

Associated British Foods ple

REPORT OF THE DIRECTORS

The directors submit to the members their fifty-seventh annual report together with the accounts of the company for the 52 weeks ended 12 September 1992.

Profits and dividends

The group profit and loss account is on page 16. Profit on ordinary activities attributable to the company amounted to £196 million and the dividends to £63 million. The transfer to reserves, after extraordinary charges of £30 million, totalled £103 million. Dividends are detailed in note 9 on page 22.

Review of activities

There has been no significant change to the activities of the group during the year. These activities principally concern the processing and manufacture of food in the United Kingdom, Australia and other European countries, as well as food and textile retailing in the United Kingdom and the Republic of Ireland. Comments on the development of the business during the period under review and on the future outlook are contained within the chairman's statement on pages 3 and 4, and in the review of activities on pages 5 to 12.

Changes in assets

Fixed tangible assets have increased by £48 million during the period under review after charging depreciation of £122 million.

The majority of the group's fixed tangible assets are included in the accounts at cost. The properties are employed in the business and many of them were acquired when market values were substantially lower than at present. The directors consider that a surplus over book value exists, but are unable to quantify the excess.

Share and loan capital

At the annual general meeting held on 20 September 1991 power was given to the directors to issue shares in the company for cash. This power expires at the annual general meeting to be held in December 1992, when renewal of this authority will be sought. No such shares have been issued to date.

Under the company's share option scheme options have been granted over 610,000 shares during the period. At 12 September 1992 the total number of shares outstanding under option is 1,981,678. During

the year 118,322 ordinary shares of 5p each were allotted in accordance with the rules of the scheris.

Substantial shareholdings

Details of a controlling interest in the shares of the company are given in note 25 on page 27.

As at 30 October 1992 the company has been notified that Phillips and Drew Fund Management Limited is the holder of 13,551,161 shares representing 3.02 per cent. of the issued ordinary shares in the company.

Other than as above, so far as is known, no other person holds or is beneficially interested in 3 per cent. or more of the ordinary or preference share capital.

Employees

The directors recognise the benefits which accrue from keeping employees informed of the development of the business and involving them in the group's progress.

The group is organised on a divisional basis and directors or managers of each division continue to evolve procedures appropriate to their size and organisation designed to keep employees and their representatives briefed on all relevant matters.

It is policy within the group to offer equal opportunity to disabled persons in their recruitment, training and career development, having due regard to their aptitudes and abilities in relation to jobs available.

The environment

The directors and employees are committed toward the protection of the environment. Wherever possible materials used in the manufacturing processes and the resulting products are designed with the maximum consideration for recycling reclamation and energy conservation of the environment.

Research and development

Weston Research Laboratories Limited, in partnership with the trading companies, continuously provide a service in developing existing products, researching new products and maintaining standards. Similar facilities also exist overseas.

United Kingdom charitable and political contributions

Contributions to charitable organisations during the year totalled £0.3 million (1991—£0.2 million). No contributions were made to political organisations (1991—nil).

REPORT OF THE DIRECTORS continued

Close company status

The company is not a close company for the purposes of the Income and Corporation Taxes Act 1988.

Directors

A list of the directors of the company appears on page 2 and a schedule of their interests in the shares and loan stocks of the group appears on page 36.

Mr P.L. Donovan retired from the board on 7 May 1992.

As mentioned elsewhere in this report and accounts, Mr H.J. Jackson died in January 1992, having been a director since February 1989.

In accordance with the Articles of Association, Mr W.G.G. Weston retires from the board by rotation and, being eligible, offers himself for re-election.

Other than as disclosed in the accounts at no time during the year has any director had any material interest in a contract with the company, being a contract of significance to the company's business.

No director of the company has a contract of service with the company or with any of its subsidiary undertakings which is not determinable within one year without payment of compensation.

By order of the board T.H.M. Shaw Secretary

ACCOUNTING POLICIES

Associated Bruish Foods Group

Financial period

The financial period end was changed in 1991 and accordingly the previous period covered the 76 weeks ended on 14 September 1991.

The comparatives shown in the profit and loss account and in note 1 for the period from 30 September 1990 to 14 September 1991 are presented for illustrative purposes and do not form part of the statutory accounts of Associated British Foods Group.

Basis of consolidation

These accounts have been prepared under the historical cost convention as modified by the revaluation of certain assets, and in accordance with applicable accounting standards and the Companies Act 1985.

The consolidated profit and loss account includes the results of new subsidiary undertakings attributable to the period since acquisition. The excess of the purchase price of new subsidiary undertakings over the fair value of net tangible assets acquired is written off against reserves in the year of acquisition. The accounts of the company and its subsidiary undertakings are made up for the 52 weeks ended 12 September 1992 except for the accounts of the Australian and New Zealand subsidiary undertakings which are made up to 31 July 1992 to avoid delay in the preparation of the consolidated accounts.

Associated undertakings

Companies in which the group has an investment comprising an interest of not less than 20% in the voting capital endover which it exerts significant influence are defined as associated undertakings. Dividends received from these companies have been included in the group profits and the investments are stated in the consolidated balance sheet at cost. The difference between cost and the net book value of the assets attributable to the investment, and the retained profits for the year of these companies, are in the opinion of the directors not material.

Depreciation

Depreciation, calculated on cost or on valuation, is provided on a straight line basis over the anticipated life of the asset. No depreciation is provided on freehold land. Leaseholds are written off over the period of the lease. The anticipated life of other assets is generally deemed to be not longer than:

Freehold buildings	66 , ears
Plant, machinery, fixtures and fittings	•
Sugar factories	20 years
Other operations	12 years
Vehicles	8 years

Leases

All material leases entered into by the group are operating leases whereby substantially all the risks and rewards of ownership of an asset remain with the lessor. Rental payments are charged against profits on a straight line basis over the life of the lease.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due provision against obsolete and slow-moving items. In the case of manufactured goods the term 'cost' includes ingredients, production wages and production overheads.

Current asset investments

Equity investments are stated in the balance sheet at the lower of cost and market value. Other current asset investments are stated at market value including accrued income.

Deferred tax

Deferred tax represents corporation tax in respect of accelerated taxation allowances on capital expenditure and other timing differences to the extent that a liability is anticipated in the foreseeable future.

Foreign currencies

The results of overseas subsidiaries and assets and liabilities overseas are converted into sterling at the rates of exchange ruling at 12 September 1992. Exchange differences arising on consolidation are taken direct to reserves. Other exchange differences are dealt with as part of trading profits.

Pensions

The group has established separately funded pension schemes for the benefit of full time staff, which vary with conditions in the countries concerned. Net pension costs are charged to income over the expected average remaining service lives of employees. Any difference between the charge for pensions and total contributions is included within pension provisions or debtors as appropriate.

NOTES FORMING PART OF THE ACCOUNTS

Change of year end
The financial year end was changed in 1991. The 1991 figures, therefore, cover the period from 1 April 1990 to 14 September 1991.
Adjusted figures for the period 30 September 1990 to 14 September 1991 are also shown, where appropriate.

Year

Year

Pension costs

The group operates pension schemes, the majority of which are of the defined benefit type. The pension cost charge for the period was £5 million (1991—£7 million) and this relates principally to schemes outside the United Kingdom.

The two main United Kingdom Schemes provide benefits based on full pensionable earnings. The pension costs in the United Kingdom are assessed in accordance with the advice of independent qualified actuaries using the projected unit method. The last actuarial valuations of the two major schemes were carried out as at 1 October 1989 and 5 April 1990. In these valuations it was assumed that the investment return would exceed price inflation by 3.5%, that salary increases would exceed price inflation by 2% and that increases in dividends would fall behind price inflation by between 1% and 1.5%. At the valuation dates the total market value of the two major schemes' assets was £792 million and the actuarial value of these assets represented 127% of the benefits that had accrued to members after allowing for expected future increases in earnings and after allowing for subsequent benefit

The group also operates pension schemes in Ireland, Australia and New Zealand. The charge in the accounts is based on recommendations by a qualified local actuary.

		1992	1991
7	Tax on profit on ordinary activities	£ million	£ million
	The charge for the period is as follows:	59	93

The first interim dividend was paid in September 1992. The second interim dividend will be paid in March 1993. In addition, preference dividends of £40,000 (1991—£60,000) were paid in the period.

NOTES FORMING PART OF THE ACCOUNTS continued

10 Earnings per ordinary share

The calculation is based on available profit of £196 million (1991—£306 million) before extraordinary items and 449 million shares (1991—448 million) being the average number of ordinary shares in fisue during the period.

Cost or valuation at 14 September 1991 Effect of currency changes New subsidiaries Additions Disposals Revaluation during year Cost or valuation at 12 September 1992 Depreciation at 14 September 1991 Effect of currency changes Provided during period On disposals Depreciation at 12 September 1992 Net book values—12 September 1992 Net book values—12 September 1992 14 September 1991	Total £ million 1,791 (30) 10 187 (31) (3) 1,924 520 (13) 122 (24) 605 1,319 1,271	Land and buildings £ million 578 (7) 6 32 (4) (3) 602 49 (1) 15 (1) 62 540 529	Plant and machinery £ million 888 (25) 4 114 (24) ————————————————————————————————————	Fixtures and fittings £ million 250 2 49 (3) 298 110 1 28 (4) 135 163 140	Payments on account £ million 75 (8) 67 67 75
Analysis of land and buildings at net book value Freehold Long leasehold Short leasehold				1992 £ million 498 37 5	1991 £ million 490 34 5 529

Land and buildings stated at valuation had a net book value at 12 September 1992 of £19 million (1991—£18 million) based on valuations carried out principally in 1981/82. On a historical cost basis the net book value of these assets at 12 September 1992 would have been £10 million (1991—£9 million).

Certain of the group's properties in Australia and New Zealand were valued by the directors during the year at an open market value based on independent advice received from registered valuers.

12 Capital commitments

There are commitments for capital expenditure by the group of approximately £53 million (1991—£44 million) for which no provision has been made in these accounts. The directors have approved further capital expenditure of approximately £68 million (1991—£20 million) on which there are no commitments.

22 Goodwill

During the year the group acquired several small businesses for £17 million. The book value of the net tangible assets acquired amounted to £10 million and the fair value adjustments at sounted to £1 million. £6 million representing goodwill on acquisition has been written off to reserves.

The cumulative amount of goodwill written off as a result of acquisitions made in the current and earlier financial periods is £436 million (1991—£430 million).

23 Contingent liabilities

Associated British Foods ple has guaranteed overdrafts and other liabilities of certain subsidiary undertakings, the amount outstanding at 12 September 1992 being £8 million (1991—£9 million).

Litigation and other proceedings against companies in the group are not considered material in the context of these accounts.

24 Leases

The group has minimum armual commitments under non-cancellable operating leases as follows:

Operating leases which expire:	within one year	two to five years	over five years	Total

25 Holding company and related information

The ultimate holding company is Wittington Investments Limited which is incorporated in Great Britain and registered in England.

The largest group in which the results of the company are consolidated is that headed by Wittington Investments Limited. The smallest group in which they are consolidated is that headed by George Weston Holdings Limited, which is incorporated in Great Britain and registered in England. The consolidated accounts of these groups are available to the public and may be obtained from Weston Centre, Bowater House, 68 Knightsbridge, London, SW1X 7LR.

At 12 September 1992 Wittington Investments Limited held through subsidiary companies 282,148,884 ordinary shares (1991—281,998,889) representing in aggregate 63% of the total issued ordinary share capital of Associated British Foods plc. Details of directors' interests in these companies are given on page 36.

George Weston Holdings Limited made a management charge of £0.3 million (1991—£0.4 million) principally in respect of directors and staff paid by them. Charges made by the company and its subsidiaries for services provided to George Weston Holdings Limited amounted to £0.1 million (1991—£0.1 million).

Sales on normal trading terms of £0.3 million (1991—£0.6 million) were made to subsidiaries of George Weston Limited, a Canadian listed company in which Mr W.G. Galen Weston has a controlling interest.

The figures above are taken from the published accounts.

¹⁹⁸³ sales includes Fine Fare.

¹⁹⁹¹ figures are based on the memorandum accounts for the period from 30 September 1990 to 14 September 1991.

Years to March 1990 were closed on the Saturday nearest to 31 March.

Notice is hereby given that the fifty seventh annual general meeting of the members of the company will be held at the New Connaught Rooms, Great Queen Street, London WC2 at 11.00 a.m. on Monday, 7 December 1992.

- 1 To receive and consider the statement of accounts for the year ended 12 September 1992 and the reports of the directors and auditors thereon.
- 2 To re-elect Mr W.G.G. Weston as a director.
- 3 To re-appoint KPMO Peat Marwick, the retiring auditors, and to authorise the directors to fix their remuneration.

As special business to consider and, if thought fit, pass the following resolutions of which number 4 will be proposed as an ordinary resolution and number 5 will be proposed as a special resolution.

- 4 That the board be and is hereby generally and unconditionally authorised to exercise all the powers of the company to allot relevant securities (within the meaning of Section 80 of the Companies Act 1985) up to a maximum of 143,013,921 ordinary shares of 5p each during the period from the date of the passing of this resolution up to and including 6 December 1997 on which date such authority will expire, provided that the company may before such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the board may allot relevant securities in pursuance of such offer or agreement as if the authority conferred hereby had not expired.
- That, subject to the passing of the preceeding resolution 4, the board be and is hereby empowered, pursuant to Section 95 of the Companies Act 1985, to allot equity securities (within the meaning of section 94 of the said Act) for cash pursuant to the authority conferred by the preceeding resolution 4 as if subsection (1) of Section 89 of the said Act did not apply to any such allotment, provided that this power shall be limited:
 - (a) to the allotment of equity securities in connection with an issue in favour of ordinary shareholders where equity securities respectively attributable to the interests of the ordinary shareholders are proportionate (as nearly as can be) to the respective numbers of ordinary shares held by them, but subject to such exclusions or other arrangements as the directors may deem necessary or expedient to deal with legal or practical problems in respect of overseas shareholders, fractional entitlements or otherwise; and
 - (b) to the allotment (otherwise than pursuant to sub-paragraph (i) above) of equity securities up to an aggregate of 22,432,410 ordinary shares of 5p each being approximately 5% of the number of the company's ordinary shares in issue as at 12 September 1992.

and shall expire on the day of the annual general meeting of the company held in 1991, save that the company may before such expiry make an offer or agreement which would or might require equity securities to be allotted after such expiry and the board may allot equity securities in pursuance of such offer or agreement as if the power conferred hereby had not expired.

By order of the board T.H.M. Shaw Secretary Weston Centre Bowater House 68 Knightsbridge London SW1X 7LR

2 November 1992

Associated British Foods ple

NOTICE OF MEETING continued

Notes

Resolutions 4 and 5

The Companies Act 1985 prevents directors allotting unissued shares without the authority of shareholders in general meeting. At the annual general meeting held in January 1992 shareholders gave the directors a general authority to allot substantially all of the unissued share capital of the company. The authority is valid for the maximum period of five years as permitted by the Companies Act and expires in January 1997. The directors, however, propose to renew this authority every year asking, on each occasion, for the authority to be granted for a further period of five years. Resolution 4 will authorise the directors to allot the present unissued share capital, which represents approximately 24% of the company's authorised ordinary share capital, at any time within the next five years. The proposed renewal of the authority should not be taken as an indication that the directors have any current plans to make an issue of shares.

Where shares are allotted pursuant to a general authority as provided in Resolution 4 and shareholders are required to pay for them in cash, that allotment is subject to section 89 of the Companies Act, which requires new shares to be offered first to existing shareholders in proportion to their existing holdings. There may, however, be circumstances where directors wish to allot shares for cash other than by way of a rights issue and this cannot be done unless shareholders have first waived their pre-emption rights. Resolution 5 asks shareholders to do this by allowing the directors to allot for cash (a) by way of a rights issue to all shareholders and (b) up to 5% of the company's present issued ordinary share capital to persons other than existing shareholders. By setting the 5% limit, interests of existing shareholders are protected as their interest in the company cannot, without their agreement, be reduced by more than 5% by the issue of new shares to new shareholders.

- 2. A member entitled to attend and vote is entitled to appoint a proxy or proxies to attend and, on a poll, vote, instead of him. A proxy need not be a member of the company.
- 3. This notice is sent to preference shareholders and unsecured loan stockholders for information only.

Beneficial interests

The directors of the company at the end of the period had the following beneficial interests, including family interests, in the shares and debentures of the company, its holding companies, its fellow subsidiaries and subsidiary companies.

shares and dependers of the company, its mounty company	12 September 15 September		
	1992	1991

Share options

The following directors have been granted options to subscribe for ordinary shares of Associated British Foods plc under the Share Option Scheme:

	at 15 September 1991	Options granted 16/12/91 at £4.27	at 12 September 1992
Harold W. Bailey Trevor H.M. Shaw	33,500 25,000	25,000 20,000	58,500 45,000
Donald J. Tidey	50,000		50,000

Controlling interest

As explained in note 25 on page 27 the ultimate holding company of Associated British Foods plc is Wittington Investments Limited, which through George Weston Holdings Limited holds 63% of the total issued ordinary share capital.

Garry H. Weston has an interest, as defined in Schedule 13 of the Companies Act 1985. in Wittington Investments Limited which is a controlling interest.

Non-beneficial interests

The directors of the company at the end of the period had the following non-beneficial interests:

- Garry H. Weston and W.G. Galen Weston are trustees of a trust, in which they have no beneficial interest, which at 12 September 1992 held 448,775 ordinary shares of 50p (1991-448,775) in Wittington Investments Limited and 198,008 ordinary shares of 50p (1991-198,008) in George Weston Holdings Limited.
- 2 Harold W. Bailey and Garry H. Weston are trustees of a trust, in which they have no beneficial interest, which at 12 September 1992 held 750,000 ordinary shares of 5p (1991-750,000) in Associated British Foods plc.

Subsequent changes

The interests shown above remained the same at 2 November 1992.

SUBSIDIARIES OF ASSOCIATED BRITISH FOODS plc AS AT 12 SEPTEMBER 1992
