NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 OCTOBER 2007

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

During the year the company has made a loss of £400,348 and at the balance sheet date has net current liabilities of £1,578,963. The company meets its day to day working capital requirements from a bank overdraft facility. Long term finance is provided by bank loans and loans from the directors and other shareholders of the parent company.

The directors will not withdraw their loans within the 12 months from the date of the balance sheet. In addition the directors have agreed to provide further financial support to enable the company to settle its liabilities as they fall due.

Due to the current economic climate, the directors are aware of the uncertainty surrounding banks and other financial institutions, and the possibility that the overdraft facility and bank loans may be withdrawn. In the opinion of the directors the existing borrowing facilities are unlikely to be withdrawn in the foreseeable future.

Therefore the directors have prepared the financial statements on the going concern basis.

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

Turnover

Prize money is dependent on where the club has finished in the major competitions and the league. It is accounted for in the season to which it relates.

Gate receipts relate to the proceeds taken at the turnstiles for each game and the season ticket sales for the season. Any prepaid season ticket sales are included within deferred income.

Sale of players relates to players sold which were under contract to the club. The income is accounted for when the sale contract is agreed.

Television fees relate to the payments for television coverage from SKY and the BBC. It is accounted for on an accruals basis.

Sponsorship, advertising and hospitality is accounted for in the season to which it relates. Any prepaid sales are included within deferred income.

Merchandising relates to shop sales and is accounted for on a receipts basis.

Lottery donations are accounted for on a receipts basis.

All of the above items exclude value added tax.

Intangible Fixed Assets

The costs associated with the acquisition of players' registrations are capitalised as intangible fixed assets. These costs are fully amortised, in equal instalments, over the period of the player's initial contract.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Freehold property	- 2% on cost or valuation
Plant and machinery	- 10% on reducing balance
Motor vehicles	- 25% on cost
Computer equipment	- 33.3% on cost

ST HELENS RUGBY FOOTBALL CLUB LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS - continued FOR THE YEAR ENDED 31 OCTOBER 2007

1. ACCOUNTING POLICIES - continued

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

7. TANGIBLE FIXED ASSETS - continued

Cost or valuation at 31 October 2007 is represented by:

	Freehold property £	Plant and machinery £	Computer equipment £	Totals £
Valuation in 2007	8,125,000	-	-	8,125,000
Cost	-	400,578	42,691	443,269
	<u>8,125,000</u>	<u>400,578</u>	<u>42,691</u>	<u>8,568,269</u>

If freehold land and buildings had not been revalued they would have been included at the following historical cost:

	2007 £	2006 £
Cost	<u>592,651</u>	<u>592,651</u>
Aggregate depreciation	<u>53,489</u>	<u>47,117</u>
Value of land in freehold land and buildings	<u>274,051</u>	<u>274,051</u>

FRS15 -Tangible Fixed Assets requires an interim valuation to be carried out in the third year after a full valuation and a full valuation to be done every five years. The directors decided not to obtain such valuations at 31 October 2005 and 31 October 2006. Since the balance sheet date the company has entered into an agreement to sell the freehold property. The agreed selling price is £8,125,000, and accordingly the directors have revalued the property to that amount at 31 October 2007. This treatment is a departure from the requirements of the Companies Act 1985 , which requires the property to be valued at market value and from the requirements of FRS15, which requires the valuation to be on the basis of existing use value and carried out by an independent qualified valuer. However, the directors believe that because there was no significant change in value between the balance sheet date and the date of the contract, valuing the property at the agreed sale proceeds is a sufficiently independent and reliable valuation that it gives a true and fair view.

No provision has been made for any deferred taxation arising on the revaluation surplus, because, in the opinion of the directors, any gain arising on the disposal will be rolled over against the cost of qualifying replacement assets.
