- For the year ending 31 March 2016 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.
- The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.
- These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Board on 23 November 2016

And signed on their behalf by:

P Cotter, Director

Notes to the Abbreviated Accounts for the period ended 31 March 2016**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective January 2015. In assessing whether or not the company is a going concern the directors have considered a period of less than twelve months from the date that the accounts were approved.

Turnover policy

Turnover represents the total invoice, excluding value added tax, of sales made during the period and derives from the provision of goods falling within the company's ordinary activities.

Tangible assets depreciation policy

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows;

Plant and Machinery – 25% reducing balance

Land and Buildings - Not depreciated

Other accounting policies**Impairment**

At each reporting date, goodwill and other fixed assets, including tangible fixed assets and investments but excluding investment properties, are assessed to determine whether there is an indication that the carrying amount of an asset may be more than its recoverable amount and that the asset should be impaired. If there is an indication of possible impairment, the recoverable amount of an asset, which is the higher of its value in use and its net realisable value, is estimated and compared with its carrying amount. If the recoverable amount is lower, the carrying amount of the asset is written down to its estimated recoverable amount and an impairment loss is recognised in profit and loss.

Deferred Taxation

Deferred tax is recognised in respect of all material timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligations to pay more, or a right to pay less or to receive more tax, with the following exceptions;

- Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.
- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

- Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

2 Tangible fixed assets

	£
Cost
