NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 JUNE 2010

1 ACCOUNTING POLICIES

Basis of preparing the financial statements

The nature of the company's business is such that there can be considerable and unpredictable variations in the amount of revenue received. The directors have prepared projected financial information for a period of 12 months from the date of approval of these financial statements. On the basis of this financial information, the directors of the parent company, Ramy Limited, have reviewed the funding requirements of the company and have indicated their willingness to continue to support the company for the foreseeable future. The directors therefore consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of funding by the parent company. If this support ceases to be forthcoming, the directors consider that the company will still continue to trade.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Preparation of consolidated financial statements

The company and its parent form a small group. As permitted by Financial Reporting Standard 8, transactions between group companies have not been disclosed.

Exemption from preparing a cash flow statement

Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Turnover

Income is shown as the actual amounts received or receivable from the company's principal activity. This includes gate receipts, sponsorship, advertising, programme and club shop sales, catering, club events, donations and prize money, less VAT where appropriate.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life:

Land and buildings	- 2% on cost
Plant and machinery etc	- 15% on reducing balance and at variable rates on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more or a right to pay less tax in the future has occurred by the balance sheet date with certain limited exceptions.

Deferred Government Grants

Deferred Government grants in respect of capital expenditure are treated as deferred income and are credited to the profit and loss account over the estimated useful life of the assets to which they relate.

Revenue based grants received are credited to the profit and loss account over the life of the projects to which they relate.
