This is the first year of preparation using FRS 102. The financial statements have been prepared on a going concern basis under the historical cost convention.

The Company has elected to apply the exemption available in FRS 102 to dormant companies and retained its accounting policies at the date of transition for reported assets, liabilities and equity until there is any change to those balances of the company undertakes any new transactions.

The Company has applied the exemption from the requirement to prepare a cash flow statement available under FRS 102.

The Company has no transactions in the current or prior year. A profit and loss account and statement of changes in equity have not been presented, since there was nothing to report in these statements.

These accounts are presented in pounds sterling because that is the currency of the primary economic environment in which the Company operates.

#### **Financial assets**

Financial assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price used includes transaction costs unless the asset is being fair valued through the profit and loss account.

Financial assets are derecognised when the right to receive cash-flows from the assets has expired or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership.

#### **Taxation**

Current tax on ordinary activities represents the amount received or paid for group relief in respect of tax losses surrendered or claimed in the current year. All current tax liabilities have been assumed by Smiths Group plc, the ultimate parent company.

Deferred tax is provided in full using the balance sheet liability method. A deferred tax asset is recognised where it is probable that future taxable income will be sufficient to utilise the available relief. Tax is charged or credited to the income statement except when it relates to items charged or credited directly to equity, in which case the tax is also dealt with in equity.
