They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information. The financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime under the Companies Act 2006 and with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Approved by the Board, authorised for issue on 3 March 2011 and signed on its behalf by

Notes to the Financial Statements for the Year Ended 30 June 2010

1 Accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The going concern basis has been used, despite the deficiency of net assets, because the ultimate parent company has indicated its intention to make available sufficient funds to enable the company to continue trading for at least one year from the date of approval of these accounts

Turnover

Turnover includes gate receipts, sponsorship, advertising, fund-raising, television fees, Football League contributions, donations and sundry-related income. It is stated net of value added tax and net of amounts due to the Football League and visiting football clubs.

Intangible fixed assets - players' contracts

The element of a player's transfer fee which relates to his registration, together with associated costs, is capitalised as an intangible asset and amortised over the period of his contract including any subsequently agreed extension. No provision is made for the value of players developed within the company.

Conditional amounts receivable in respect of players transferred are accounted for in the year in which the condition is met Signing-on fees and loyalty bonuses are included within direct operating costs in the year of payment

Depreciation

Depreciation on tangible fixed assets is calculated at 25% per annum on a straight line basis

Stock

Stock is valued at the lower of cost and net realisable value

Operating leases

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term

Pensions

The company contributes to a defined contribution pension scheme in respect of certain employees. The cost of such contributions to the scheme is charged to the profit and loss account as incurred. The assets of the schemes are held separately from those of the company, mainly in funds administered by the Football League Limited Pension and Life Assurance Scheme.

The company no longer contributes to the Football League defined benefit scheme but still has a liability arising under this scheme (see note 3)

The company also has a liability under the Football League defined benefit scheme which closed in 1999. No contribution has been made to this scheme during the year. In 2009, a revised actuarial valuation shortly after the year end resulted in an increase in the liability of £63,372 and this amount was reflected through the statement of recognised gains and losses in the year ended 30 June 2009.
