Strategic report

Introduction and strategy

The directors, when preparing this report, have compiled with s414c of the Companies Act 2006. The Company's principal activity is the provision of warehousing, distribution and administration services to sister companies. The Company seeks to maximise the efficiency of services performed.

The Company provides warehousing, distribution and administration services to Chanel Limited and other sister companies. There is expected to be no change to these services over the foreseeable future.

The directors are satisfied with the results of the operation. Chanel Limited has committed to continue using the Company as its sole provider of warehousing, distribution and administration servicers for the foreseeable future. As such the Company has adopted the going concern basis for its financial statements, see note 2 for further information.

Operating and business review

The directors consider the Company's trading result and financial position to be satisfactory.

The Board monitors the Company's performance in a number of ways including key performance indicators. The key financial performance indicators together with the information for 2017 and 2016 are as follows:

•		2017 £'000	2016 £'000
Turnover	,	15,825	14,252
Gross Margin %		9.9%	13.4%
Pre-tax Profit		1,118	1,347
Cash		37	31

The turnover indicator represents what has been invoiced to customers (excluding VAT) in the year and measures sales growth in value terms.

The gross margin is calculated by dividing gross profit by revenue and measures the total profitability of product sales.

Pre-tax profit is the profit generated by the Company from operations before taxation. This indicator measures the overall profitability of the business.

Cash is the year end balance sheet position as reported in the Company balance sheet. It gives an indication of the ability of the Company to generate cash.

The directors expect the general level of activity to remain consistent with 2017 in the forthcoming year.

Principal risks and uncertainties

The directors consider that the major risk and uncertainty to the Company is the continued growth of the parent Company and its UK sister companies. This risk is discussed in the financial statements of the Parent Company, Chanel Limited.

Approved by the Board of Directors and signed on behalf of the Board.

P Caff

Company Secretary

04# September 2018

Directors' report

The directors present their annual report and the audited financial statements for the year ended 31 December 2017. Future developments have been considered in the Strategic Report.

Dividends and results

The directors do not recommend the payment of a dividend (2016: £nil).

The results of the Company are stated on page 8.

Directors and their interests

The directors who held office throughout the year, unless otherwise disclosed, and thereafter were as follows:

- G Wertheimer
- O Nicolay
- M Hamilton
- S Wright
- A Fasanotti (appointed 04 September 2017)
- A Lilley
- P Dekkers
- P Gaff

Director's indemnities

The Company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the year and remain in force at the date of this report.

Employees

Equal opportunities

The Company does not discriminate on grounds of age, colour, disablement, marital status, race, religion or sex. People are given the opportunity to develop and progress according to their ability.

Disabled employees

It is the policy of the Company to give disabled people full and fair consideration for all job vacancies for which they offer themselves, having regard to their particular aptitudes and abilities. Training and career development opportunities are available to all employees and if necessary the Company endeavours to re-train any member of staff who develop a disability during employment with us.

Employee involvement

The Company maintains a close relationship with its employees by a conscious policy of informing them of relevant events and the state of the business through discussions, meetings, notices and by consulting employees.

Financial risk management objectives and policies

The directors consider that the only financial risks relevant to the Company are credit risk and liquidity risk. The Company does not use derivative instruments.

Credit risk

The Company's principal asset subject to credit risk is intercompany debtors. The Company considers that its principal intercompany debtor, Chanel Limited, has an excellent financial rating and that there is minimal risk of default.

Liquidity risk

Sufficient funds for ongoing operations and future developments are ensured through a mixture of short- and long-term intercompany funding. The Company is able to access additional sources of intercompany funding should it require it.

Directors' report

Going concern

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. They continue to adopt the going concern basis in preparing the annual financial statements.

Further details regarding the adoption of the going concern basis can be found in the Statement of accounting policies in the financial statements.

Disclosure of information to the auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditor is unaware;
 and
- the director has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Auditor

Deloitte LLP have expressed their willingness to continue in office as auditor and appropriate arrangements have been put in place for them to be deemed reappointed as auditor in the absence of an Annual General Meeting.

Approved by the Board of Directors and signed on behalf of the Board

P Gaff

Company Secretary

≎4 the September 2018

Directors' responsibilities statement

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law); including FRS 101 "Reduced Disclosure Framework". Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditor's report to the members of Croydon Logistics Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2017 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Croydon Logistics Limited (the 'company') which comprise:

- the profit and loss account;
- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity;
- the statement of accounting policies; and
- the related notes 1 to 18.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs(UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit

We have nothing to report in respect of these matters.

Notes to the financial statements For the year ended 31 December 2017

1. General information

Croydon Logistics Limited is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the Strategic Report on page 2.

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the Company operates.

2. Significant accounting policies

The principal accounting policies are summarised below. They have been applied consistently through the year and the preceding year.

Basis of accounting

The Company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements' issued by the FRC. Accordingly, the financial statements have been prepared in accordance with FRS 101 (Financial Reporting Standard 101) 'Reduced Disclosure Framework'.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to business combinations, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash-flow statement, impairment of assets, related party transactions and standards in issue not yet effective.

Where relevant, equivalent disclosures have been given in the group financial statements of Chanel Limited. The group financial statements of Chanel Limited are available to the public and can be obtained as set out in note 18.

The financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for the assets. The principal accounting policies adopted are set out below.

Recently issued accounting standards

In the current year, the Company has applied a number of amendments to IFRSs issued by the International Accounting Standards Board (IASB) that are mandatorily effective for an accounting period that begins on or after 1 January 2017. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

Going concern

The directors have considered the use of the going concern basis in the preparation of the financial statements in light of current market conditions and conclude that it is appropriate. In coming to this conclusion, the directors have considered the financial and cash position of the Company (as disclosed in the balance sheet) and the forecast cash requirements and cash generation of the Company for a period of not less than 12 months from the signing of the financial statements. Furthermore, the Company has continuing arrangements for the provision of its services in place with its parent company and one other related party. As both the parent company and one other related party are profit making, have not current assets and not assets, the directors believe that the Company is well placed to maintain its position. The directors therefore continue to adopt the going concern basis for the preparation of the Annual Report and Financial Statements.

Notes to the financial statements For the year ended 31 December 2017

2. Significant accounting policies (continued)

Revenue recognition

Revenue represents the value of services provided in respect of the financial year (excluding Value Added Tax) and is recognised as the service is rendered.

Revenue is valued at the fair value of the consideration received, excluding taxes, net of discounts and after elimination of intercompany sales.

Interest income

Interest income is recognised when it is probable that the economic benefits will flow to the company and the amount of revenue can be measured reliably.

Tangible fixed assets

Tangible fixed assets are stated in the balance sheet at historical cost less accumulated depreciation.

The Company's policy with regard to expenditure on integral repairs and improvements to freehold property is to capitalise these items on completion. Land is not depreciated because in the opinion of the directors the book value is equal to or below its market value.

Assets in the course of construction for supply or administrative purposes are carried at cost. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use:

Depreciation on other assets is provided on cost in equal annual instalments over the estimated useful lives of the assets.

The rates of depreciation are as follows:

Freehold property
Machinery, furniture and equipment

4% per annum
Between 10% and 20% per annum

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, annually with the effects of any change in estimate being accounted for on a prospective basis.

Impairment of tangible fixed assets

Tangible fixed assets are subject to impairment testing whenever there is any indication that an asset may be impaired. Impairment tests seek to determine whether the recoverable amount of an asset, a cash-generating unit ("CGU") or a group of CGUs is less than its net carrying amount. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows. When the carrying amount of such assets is greater than the higher of their value in use or fair value less cost to sell, the resulting impairment loss is recognised in the profit or loss.

Impairment losses recognised in relation to property, plant, and equipment may be reversed at a later date up to the amount of the losses initially recognised, when the recoverable amount becomes greater than the net carrying amount.

Notes to the financial statements For the year ended 31 December 2017

2. Significant accounting policies (continued)

Taxation

Current tax

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is provided using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

The measurement of deferred tax amounts depends on the way in which the Company intends to recover or settle the carrying amount of assets and liabilities and is determined using tax rates (and laws) that have been enacted, or substantively enacted, by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred tax liability is settled.

Deferred tax assets and liabilities are not discounted and are classified in the statements of financial position under non-current assets and liabilities.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences and the carry-forward of unused tax losses, and of unused tax credits, can be utilised. The Company reviews its deferred tax balances at each balance sheet date to take into account factors such as the impact of changes in tax laws and the prospects of recovering deferred tax assets from deductible temporary differences and from the carry-forward of unused tax losses and of unused tax credits.

Current tax and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except where they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Foreign currencies

Transactions denominated in foreign currencies are translated into sterling at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the rates ruling at that date. These translation differences are dealt with in the profit and loss account.

Financial instruments

The Company classifies its financial assets in the following categories:

- · fair value through profit or loss; and
- · loans and receivables.

The classification of a financial asset determines its accounting treatment and depends on the nature and purpose for which the financial asset was acquired. Purchases and sales of financial assets are recognised on the trade date, which is the date the Company is committed to the purchase or sale of the asset. A financial asset is derecognised if the contractual rights to the cash flows from the financial asset expire or the asset has expired or has been transferred and the Company has transferred substantially all risks and rewards of ownership.

Notes to the financial statements For the year ended 31 December 2017

2. Significant accounting policies (continued) Fair value through profit or loss

Financial assets classified as fair value through the profit or loss are financial assets that are either held for trading or specifically designated in this category. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term.

Gains or losses arising from changes in the fair value of financial assets classified as fair value through profit or loss are presented within finance costs, net in the period in which they arise.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those that have maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. Loans and receivables are carried at amortised cost using the effective interest method.

Debtors

Debtors are initially recorded at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of debtors is made when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The movement of the provision is recognised in administrative expenses.

Cash and cash equivalents

Cash and cash equivalents consists of cash on hand and demand deposits as well as other short-term highly liquid investments with original maturities of three months or less that are subject to an insignificant risk of change in value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Impairment of financial assets

Financial assets, other than those classified as fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Such financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been negatively affected. Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial reorganisation.

For financial assets carried at amortised cost, such as loans and receivables or held-to-maturity investments, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The Company directly reduces the carrying amount of a financial asset by the amount of any impairment loss with an offsetting charge to the profit and loss account.

Notes to the financial statements For the year ended 31 December 2017

2. Significant accounting policies (continued)

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the profit and loss account to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Financial liabilities

The Company recognises all financial liabilities initially at fair value and subsequently at amortised cost, using the effective interest method. Financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Pension costs

The Company operates a defined benefit pension scheme and a defined contribution pension scheme. The assets of the defined benefit scheme are held separately from those of the Company in independently administered funds.

The full service cost of the pension provision relating to the period, together with the cost of any benefits relating to past service is charged to the profit and loss account. A charge equal to the expected increase in the present value of the scheme liabilities because the benefits are closer to settlement and a credit equivalent to the Company's long-term expected return on assets based on the market value of the schemes' assets at the start of the period, are included in the profit and loss account with 'interest receivable and similar income'.

The difference between the market value of the assets of the scheme and the present value of accrued pension liabilities is shown as a liability on the balance sheet, net of deferred tax. Any difference between the expected return on assets and that actually achieved is recognised in the Statement of other comprehensive income along with differences which arise from experience or assumption changes.

Further information on pension arrangements is set out in note 15.

The defined benefit pension scheme was closed to new entrants with effect from 28 January 2003 since which date a defined contribution scheme has operated.

For the defined contribution scheme, the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefit is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable and liabilities paid and payable as incentives or premiums to sign an operating lease are similarly spread on a straight-line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term, in which case the shorter period is used.

Notes to the financial statements For the year ended 31 December 2017

3. Critical accounting judgments and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgments in applying the Company's accounting policies

The preparation of the financial statements requires the directors to exercise their judgment, apart from those involving estimations (which are dealt with separately), in the process of applying the company's accounting policies. These judgments do not have a significant effect on the amounts recognised in the financial statements.

Key source of estimation uncertainty

The following are key sources of estimation uncertainty that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in financial statements:

- valuation of property, plant, and equipment; and
- assumptions underlying the calculation of obligations relating to employee benefits.

The main assumptions made by the Company related to the estimates and judgments listed above are detailed in the respective notes to the financial statements.

4. Revenue

An analysis of the Company's turnover is as follows:

	2017 £'000s	2016 £'000s
Continuing operations Services rendered (turnover) Interest receivable and similar income (note 7)	15,825	14,252 92
meass receivable and similar income (note /)	100	¥ <u>.</u>
Total revenue	15,925	14,344

All turnover is derived from one class of business within the United Kingdom.

9. Tax on profit on ordinary activities (continued)

Reconciliation of tax charge

The UK corporation tax rate for the year was 19.25% (2016: 20%). The differences between the total current tax shown above and the amount calculated by applying the standard rate of UK corporation tax to the profit before tax are as follows:

	2017 £'000	2016 £'000
Profit on ordinary activities before taxation	1,118	1,347
Tax charge on profit on ordinary activities at 19.25% (2016: 20%) Factors affecting charge:	215	269
Adjustments in respect of prior years Expenses not deductible for tax purposes	(4) 46	(167) 85
Effect of changes in tax rates Other items	(5) (7)	12
Total tax charge for the year	245	199

In addition to the amount charged to the profit or loss, the following amounts relating to tax have been recognised on other comprehensive income:

	2017 £'000s	2016 £'000s
Deferred tax:		
Items that will not be reclassified subsequently to the profit and loss: Actuarial loss relating to pension schemes	311	173
vernantar 1039 returning to benzion sericinios.	9.1.1. 	1:/3
Total income tax recognised in other comprehensive income	311	173

Factors that may affect the future tax charge

Budget announcements

During the 2015 Budget the Government had announced a reduction in corporation tax rates to 18% from 2020. A further reduction to 17% from 1 April 2020 was announced in the 2016 Budget. This rate has therefore been used to measure deferred tax assets and liabilities where applicable as at 31 December 2017. The corporation tax rates for the financial years beginning 1 April 2017, 1 April 2018 and 1 April 2019 will remain at 19%.

Notes to the financial statements For the year ended 31 December 2017

15. Retirement benefit schemes

Defined contribution schemes

The Company operates a defined contribution retirement benefit scheme for all qualifying employees. The assets of the schemes are held separately from those of the Company in funds under the control of trustees. The total cost charged to income of £280,745 (2016: £261,954) represents contributions payable to these schemes by the Company at rates specified in the rules of the plans. As at 31 December 2017, contributions of £mil (2016: £mil) due in respect of the current year had not been paid over to the schemes.

Defined benefit schemes

The Company operates a final salary defined benefit pension scheme. The assets of the scheme are held in separate trustee administered funds. Only the part of the pension scheme that relates to the employees of Croydon Logistics Limited has been disclosed.

The pension cost relating to the scheme is determined by an independent qualified actuary on the basis of triennial valuations, using the attained age method:

The last full funding valuation was carried out as at 5 April 2015. Following the completion of this valuation, the Company agreed to pay lump sum contributions of £297,500 per annum each December from December 2015 to December 2019.

•.	valuation at

	%	%
Key assumptions used:		
Discount rate	2.6	2.8
Expected rate of salary increases	3.8	3.8
Future pension increases	3.1	3.1
Inflation	3.3	3.3

Mortality assumptions:

Investigations have been carried out within the past three years into the mortality experience of the Company's defined benefit schemes. These investigations concluded that the current mortality assumptions include sufficient allowance for future improvements in mortality rates. The assumed life expectations on retirement at age 65 are:

•	Valuatio	n at
	2017 %	2016 %
Retiring today:		
Males	23.6	23.4
Females	24.7	24.7
Retiring in 20 years:

Experience adjustments on scheme liabilities		
Amount (£000)	(113)	298
Percentage of scheme liabilities (%)	0.3%	(0.9)%
Experience adjustments on scheme assets	 	
Amount (£000)	3,015	7,313
Percentage of scheme assets (%)	7.6%	20.5%

The estimated amounts of contributions expected to be paid to the scheme during the next financial year is £662,668 (2016: £661,427).

Notes to the financial statements For the year ended 31 December 2017

15. Retirement benefit schemes (continued)

The average duration of the defined benefit obligation is 21.8 years (2016: 22.0 years). Further breakdown is as follows:

- Active members: 24.5 years (2016: 24.0 years)
- Deferred vested members: 26.7 years (2016: 27.0 years)
- Retired members: 12.4 years (2016: 12.0 years)

The significant assumptions used in determining the defined benefit obligation are the discount rate, expected rate of salary increase, and life expectancy. The sensitivity analysis below has been determined based on possible changes to the significant assumptions while holding all other assumptions constant.

An increase in the discount rate of half a percentage point would decrease the defined benefit obligation by £3.8 million.

An increase in the expected rate of salary increase of half a percentage point would increase the defined benefit obligation by £0.6 million.

A decrease in the mortality rate of 10% for both men and women would increase the defined benefit obligation by £1.2 million.

The present value of the defined benefit obligation in the sensitivity analysis above has been calculated using the projected unit credit method, which is also the method used in calculating the defined benefit obligation for the statement of financial position. The sensitivity analysis may not be representative of the actual change in the defined benefit obligation. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior year.

16. Operating lease commitments

	2017 £'000	2016 £'000
Lease payments under operating leases recognised as an expense in the year	53	72

At the balance sheet date, the Company had outstanding commitments for future minimum lease payments under non-cancellable operating leases relating to motor vehicles and office equipment, which fall due as follows:

	:	,	2017 £'000	2016 £'000
Lease payments due:	_	•	,	8
Within one year			62	38
Within two to five years	;	e*.	76	69
•				
			138	107
				and the second

17. Related party transactions

The Company has taken advantage of the exemption granted by paragraph 8(j) of FRS 101 not to disclose all transactions with wholly-owned Chanel Limited group companies.

. Notes to the financial statements For the year ended 31 December 2017

18. Ultimate parent company

Chanel Limited, a company incorporated in the United Kingdom, produces consolidated financial statements that the directors regard to be the smallest and largest group of which the Company is a member. The registered office of Chanel Limited is 5 Barlow Place, London, WIJ 6DG. Chanel Limited's consolidated financial statements are available from Companies House, Crown Way, Cardiff CF143UZ. The directors regard the ultimate parent company and controlling party to be Liter Limited, a company incorporated in the Cayman Islands.
