### NOTES TO THE ABBREVIATED ACCOUNTS

### FOR THE YEAR ENDED 31ST DECEMBER 2001

### 1 Accounting Policies

### **Basis of Accounting**

The Accounts have been prepared under the historical cost convention except that certain freehold properties are shown at their revalued amounts.

The company has taken advantage of the exemptions in Financial Reporting Standard No. 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

### Turnover

Turnover was the total amount receivable by the company for goods supplied and services provided, excluding VAT and trade discounts.

### Depreciation

Depreciation was calculated to write down the cost of all tangible fixed assets by equal annual installments over their expected useful lives. The rates and periods generally applicable were:

Long Leasehold Land and Buildings20 yearsPlant and machinery8 yearsMotor vehicles4 years

### Stock and work in progress

Stock and work in progress was valued at lower of cost and net realisable value after making allowances for obsolete and slow moving items. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overhaeds.

### **Deferred Taxation**

Deferred tax is provided for under the liability method using the tax rates estimated to arise when the timing differences reverse and is accounted for to the extent that it is probable that a liability or asset will crystallise. Unprovided deferred tax is disclosed as a contingent liability.

### Foreign Currencies

Transactions in foreign currencies are translated at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. Where exchange differences result from the translation of foreign currency borrowings raised to acquire foreign assets they are taken to reserves and offset against the differences arising from the translation of those assets. All other exchange differences are dealt with through the profit and loss account.

# NOTES TO THE ABBREVIATED ACCOUNTS

# FOR THE YEAR ENDED 31ST DECEMBER 2001

### Leased Assets

Assets held under finance leases and hire purchase contracts are capitalised in the Balance Sheet and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the Profit and Loss Account over the period of the lease.

All other leases are regarded as operating leases and the payments made under them are charged to the Profit and Loss Account on a straight line basis over the lease term.
