The Directors of Covea Insurance plc submit the annual report and audited financial statements of the Company for the year ended 31 December 2012

PRINCIPAL ACTIVITY

The principal activity of the Company continues to be the underwriting of non-life insurance business in the United Kingdom. The business conducted is principally motor, fire and other damage to property and liability.

On 1 October 2012, Provident Insurance plc (Provident) and Gateway Insurance Company Limited (Gateway) transferred their businesses and operations into the Company, Provident by way of a transfer under Part VII of the Financial Services and Markets Act 2000. Gateway's business was transferred by way of a Part VII transfer carried out in parallel with an Insurance Business Transfer under Gibraltar law and overseen by the Gibraltar Financial Services Commission (FSC). The Company changed its name from MMA Insurance plc to Covea Insurance plc, immediately following the transfer. Provident and Gateway ceased trading on 30 September 2012. Provident was de-authorised by the FSA on 1 October 2012. Gateway was de-authorised by the FSC on 2 October 2012.

REVIEW OF THE BUSINESS

The Company's key performance indicators for the year were as follows

| | 2012 | 2011 |
|---------------------------------------|---------|---------|
| | £ 000 | £ 000 |
| Gross written premium | 307,030 | 230,478 |
| Operating profit on technical account | 4,667 | 11,942 |
| Total profit after tax | 4,336 | 6,359 |
| Invested funds | 677,099 | 320,755 |
| Shareholders' funds | 199,086 | 95,346 |

Report of the Directors
For the Year Ended 31 December 2012

Following the transfers of business noted above, the Company's performance in 2012 comprises twelve months trading of its existing business and three months (October to December) trading of each of the Provident and Gateway businesses. The pre-tax profits of Provident and Gateway for the period from 1 January to 30 September 2012 were £13,898,000 and £3,632,000 respectively.

Pre-tax profits for the twelve months are after charging one-off costs associated with the above transfers, and the integration of the transferred operations, of £6,418,000. These costs comprise professional fees and communication costs associated with the Part VII transfers, the costs of rebranding the Company's operations as Covea Insurance, and other one-off costs relating to the integration of the three businesses. These costs are included within net operating expenses.

The integration has been completed successfully and the Directors are confident that the Company is well placed to deliver its objectives in 2013 and beyond. The Directors' intention is to grow the business profitably across all classes, with a particular focus on expanding its commercial lines proposition.

PRINCIPAL RISKS AND UNCERTAINTIES

The Board is responsible for approving the Company's strategy and the Company's risk appetite in the implementation of that strategy. The Company has established a risk management framework, the primary objectives of which are to protect the Company from events that hinder the achievement of the Company's performance objectives. The principal risks and uncertainties facing the Company are classified under strategic, insurance, credit, investments/liquidity and compliance.

Strategic

The Company operates in a highly competitive market which has changed in structure substantially over recent years, particularly so far as distribution and technology are concerned. The Company has sought to address these challenges in its strategic approach.

Insurance

The Company is exposed to insurance risk arising due to fluctuations in the timing, frequency and severity of insured events, relative to the expectations of the Company at the time of underwriting, and to fluctuations in the timing and amount of claim settlements and other insurance-related expenses. There is inherent uncertainty in the estimation of general insurance claim reserves as this process involves the projection of future events that are uncertain. Actual results will therefore vary from our estimates. Settlements can be affected by recent and future changes to court awards and changes to legal and court procedures, and the market approach to dealing with large claims. The Company has in place a range of procedures, systems and controls designed to manage and mitigate these risks covering all aspects of its insurance activities, including underwriting and pricing, claims management, reserving and the use of reinsurance. As part of these controls, claims case estimates are reviewed on a regular basis and overall account reserves are subject to internal actuarial review quarterly. This is supplemented by external independent review twice a year.

Excess of loss reinsurance cover is in place limiting the Company's exposure in respect of individual loss events to a maximum of £1.3m (indexed in line with inflation).

Catastrophe cover is purchased in respect of property-based risks to limit the Company's exposure to extreme weather events. Reinsurance placements are only made with appropriately-rated reinsurers.

Report of the Directors
For the Year Ended 31 December 2012

Credit Risk

The Company is exposed to credit risk in respect of amounts recoverable from reinsurers and intermediaries and amounts deposited with banks and other financial institutions

To mitigate the risk arising from reinsurance contracts, the Company spreads its reinsurance cover over a number of reinsurers to limit the amount outstanding from any one reinsurer. In addition the Company only deals with reinsurers with a good credit rating. Credit insurance is used to manage credit risks relating to the Company's intermediaries.

Investment & Liquidity Risk

The Company manages liquidity risk through regular cash flow forecasts and monitoring. It also holds substantial invested funds. This represents the funds covering liabilities to policyholders, and the shareholders' assets. The Company is exposed to the risk of adverse fluctuations in the market value of these investments and/or variations in the income from them. To address this, a prudent investment approach is adopted with the majority of the funds invested in bonds or the money market.

The Company's cash portfolio can only be deposited with highly-rated banks. There are limits on the maximum exposure to any one counterparty, based upon external credit ratings. The majority of the Company's bond portfolio is invested in UK government securities.

FUTURE TRADING

The Company's business activities, risk management objectives, details of its exposures to insurance, financial and other risks, together with the factors likely to affect its future development, performance and position are set out in the Directors' report above.

The Directors believe that the Company is well placed, post integration of the transferred business, to manage its business risks successfully despite the current uncertain economic outlook. After making enquiries, the Directors are satisfied that the Company has adequate resources for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

DIRECTORS

The Directors who served during the period and up to the date of signing the financial statements are disclosed on page 1 of this annual report.

Barry Hulbert and Bertrand Lefebvre retire by rotation and, being eligible, offer themselves for re-election.

None of the Directors had an interest in the share capital of the Company or its parent companies during the year.

DIRECTORS' QUALIFYING THIRD PARTY INDEMNITY PROVISIONS

A group company has purchased insurance to indemnify one or more of the Company's Directors against liability in respect of proceedings brought by third parties, against them in their capacity as a director, subject to the conditions set out in the Companies Act 2006. Such qualifying third party indemnity provision remained in force as at the date of approving the Directors' Report.

CHARITABLE CONTRIBUTIONS

Contributions totalling £8k were made during the year (2011 £11k), comprising various small donations made for charity purposes.

Report of the Directors
For the Year Ended 31 December 2012

EMPLOYEE INVOLVEMENT

Employee involvement in the Company's activities and interest in its progress is encouraged by a variety of means. These include regular team briefings, staff meetings and newsletters. It is also Company policy to consult and discuss with employees on matters likely to affect their interests through an Employee Representative Team.

DISABLED PERSONS

It is the Company's policy to make no differentiation between the disabled and the able-bodied in recruitment, career development and promotions. Arrangements are made where possible for retraining employees who become disabled, to enable them to perform work identified as appropriate to their aptitudes and abilities.

CREDITOR PAYMENT POLICY

It is the Company's policy that payments to suppliers are made in accordance with those terms and conditions agreed between the Company and its suppliers, provided that all trading terms and conditions have been complied with. At 31 December 2012 the amount outstanding in other creditors did not exceed agreed payment terms, which are most commonly thirty days from date of invoice (2011 Thirty days).

DISCLOSURE OF INFORMATION TO THE AUDITORS

Each of the persons who is a Director at the date of this Report confirms that

- 1 so far as each of them is aware, there is no information relevant to the audit of the Company's financial statements for the year ended 31 December 2012 of which the auditors are unaware, and
- 2 each has taken all steps that he ought to have taken in his duty as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

AUDITORS

The auditors, PricewaterhouseCoopers LLP, were re-appointed during the year and, having indicated their willingness to continue in office, a resolution that they be re-appointed will be proposed at the annual general meeting.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to

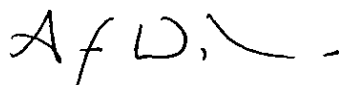

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Report of the Directors
For the Year Ended 31 December 2012

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent Auditors' Report to the Members of Covea Insurance plc

We have audited the financial statements of Covea Insurance plc for the year ended 31 December 2012, which comprise the Technical Account – General Business, Non-Technical Account, Statement of Total Recognised Gains and Losses, Balance Sheet, the Accounting policies and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), having regard to the statutory requirement for insurance companies to maintain equalisation provisions. The nature of equalisation provisions, the amounts set aside at 31 December 2012 and the effect of the movement in those provisions during the year on shareholders' funds, the balance on the general business technical account and profit before tax, are disclosed in note 18.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

As explained more fully in the Directors' Responsibilities Statement set out on page 1, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Covea Insurance plc annual report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

OPINION ON FINANCIAL STATEMENTS

In our opinion the financial statements

- give a true and fair view of the state of the Company's affairs as at 31 December 2012 and of its profit for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

OPINION ON OTHER MATTER PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or

Independent Auditors' Report to the Members of Covea Insurance plc

- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

These financial statements and related notes on pages 13 to 37, were approved by the Board of Directors on 19 March 2013 and were signed on its behalf by

James Reader
Chief Executive

BASIS OF PREPARATION

The financial statements have been prepared in accordance with the requirements of Schedule 3 and Schedule 6 to The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 relating to insurance groups made under the Companies Act 2006, and with the recommendations of the Statement of Recommended Practice on Accounting for Insurance Business issued by the Association of British Insurers (the ABI SORP)

The financial statements have also been prepared on the going concern basis, under the historical cost convention, as modified by the revaluation of investments and freehold land and buildings and in accordance with the Companies Act 2006 and applicable accounting standards

CONSOLIDATION

The Company is a subsidiary company owned by an EU parent and is exempt from the requirement to prepare group accounts by virtue of Section 400 of the Companies Act 2006 (see note 24)

BASIS OF ACCOUNTING

The principal accounting policies followed by the Company are set out below

The results are determined on an annual basis whereby the incurred cost of claims, commissions and related expenses are charged against the proportion of premiums, net of reinsurance as follows

PREMIUMS

Written premiums comprise the total premiums receivable for the whole period of cover under contracts incepting during the financial year, together with adjustments arising in the financial year to premiums receivable in respect of business written in previous financial years

All premiums are shown gross of commission payable to intermediaries and are exclusive of taxes and duties levied thereon

Outwards reinsurance premiums are accounted for in the same accounting period as the premiums for the related direct or inwards reinsurance business being reinsured

UNEARNED PREMIUMS

Written premiums are recognised as earned income over the period of the policy on a time apportionment basis, having regard, where appropriate, to the incidence of risk. The provision for unearned premium is calculated on a daily pro rata basis

CLAIMS INCURRED AND OUTSTANDING

Claims incurred comprise the estimated cost of all claims occurring during the year, whether reported or not, including related direct and indirect claims handling costs and adjustments to claims outstanding from previous years

The provision for claims outstanding is made on an individual case basis and is based on the estimated ultimate cost of all claims notified but not settled by the balance sheet date, together with the provision for related claims handling costs. The provision also includes the estimated cost of claims incurred, but not reported at the balance sheet date. The number of claims expected and their anticipated final cost are projected from the Company's statistical history. Projections are made separately for each class of business, based on information available up to one month after the balance sheet date. It is assumed that the Company's statistical history will provide a suitable base for projection, and that trends included in the data will be maintained. The impacts of case law and legislation are also taken into account. Their impact on the statistical base and current reserves is assessed.

Subsequent information and events may result in the ultimate liability being less than, or greater than, the amount provided. Any differences between provisions and subsequent settlements are dealt with in the technical account - general business of later years

ACQUISITION COSTS

Acquisition costs, comprising commission and other direct costs related to the acquisition of insurance contracts, are deferred to the extent that they are attributable to premiums unearned at the balance sheet date

UNEXPIRED RISKS PROVISION

Provision is made where the cost of claims and expenses arising after the end of the financial year from contracts concluded before that date is expected to exceed the provision for unearned premiums, net of deferred acquisition costs. The assessment of whether a provision is necessary is made by considering separately each category of business on the basis of information available up to one month after the balance sheet date. Investment income is taken into account in calculating the need for, and amount of, any provision.

EQUALISATION PROVISION

Amounts are set aside as equalisation provisions in accordance with the FSA's Handbook for the purpose of mitigating exceptionally high loss ratios in future years. The amounts provided are not liabilities because they are in addition to the provisions required to meet the anticipated ultimate cost of settlement of outstanding claims at the balance sheet date. Notwithstanding this, they are required by Schedule 3 and Schedule 6 to The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 relating to insurance groups (made under the Companies Act 2006) to be included within technical provisions in the balance sheet.

REINSURANCE

Contracts entered into by the Company with reinsurers, under which the Company is compensated for losses on one or more contracts issued by the Company and that meet the classification requirements for insurance contracts, are classified as reinsurance contracts. Contracts that do not meet these classification requirements are classified as financial instruments. Insurance contracts entered into by the Company under which the contract holder is another insurer (inwards reinsurance) are included with insurance contracts, provided there is significant transfer of insurance risk.

The amounts that will be recoverable from reinsurers are estimated based upon the gross provisions, having due regard to collectability. Reinsurance recoveries in respect of estimated claims incurred but not reported are assumed to be consistent with the historical pattern of such recoveries, adjusted to reflect changes in the nature and extent of the Company's reinsurance programme over time. The recoverability of reinsurance recoveries is assessed having regard to market data on the financial strength of each of the reinsurance companies. The reinsurers' share of claims incurred, in the profit and loss account, reflects the amounts received or receivable from reinsurers in respect of those claims incurred during the period. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised in the profit and loss account as 'Outward reinsurance premiums' when due.

INVESTMENT RETURN

Dividends are included as investment income when the investments to which they relate are declared 'ex-dividend'. Rents and interest income are recognised on an accruals basis, as are investment expenses.

Investment return, comprising investment income and realised and unrealised investment gains and losses, and investment expenses are included initially within the non-technical account.

Realised investment gains and losses are calculated as the difference between net proceeds on disposal and their purchase price, or latest carrying value if investments are carried at amortised cost.

Investment return is allocated from the non-technical account to the technical account - general business so as to reflect the longer term investment return on investments attributable to the general insurance business in the technical account - general business. The allocation is based on the longer-term rate of investment return on investments supporting the technical provisions and shareholders' funds.

INVESTMENTS

Investments, consisting of listed investments and deposits with credit institutions, are stated at their market values at the end of the year

Unrealised investment gains and losses are calculated as the difference between the valuation at the balance sheet date and their valuation at the last balance sheet date or purchase price, if acquired during the year. Unrealised investment gains and losses include adjustments in respect of unrealised gains and losses recorded in prior years which have been realised during the year and are reported as realised gains and losses in the current profit and loss account.

Associated and subsidiary companies are included at cost.

CASH FLOW STATEMENT

In accordance with Financial Reporting Standard 1, the Company has not presented a cash flow statement as the Company's cash flows have been consolidated with those of its ultimate parent company Covéa Sgam Group (see Note 24).

TAXATION

The taxation charge in the non-technical account is based on the taxable profit for the year.

DEFERRED TAX

Provision is made for deferred tax liabilities, using the liability method, on all material timing differences, including revaluation gains and losses on investments recognised in the profit and loss account. Deferred tax is calculated at the rates at which it is expected that the tax will arise. Deferred tax is recognised in the profit and loss account for the period, except to the extent that it is attributable to a gain or loss that is recognised directly in the statement of total recognised gains and losses. Deferred tax balances are not discounted.

Resultant deferred tax assets are recognised only to the extent that it is considered more likely than not that there will be suitable taxable profits from which the underlying timing differences can be deducted.

TANGIBLE ASSETS

Expenditure on computer equipment, motor vehicles, fixtures, fittings and office equipment and land and buildings is capitalised and depreciated over the estimated useful economic lives of the assets on a straight-line basis. Depreciation is not charged on the land within the land and buildings. The periods used are as follows:

| | |
|-----------------------------------------|----------------|
| Computer Equipment | - 3 to 5 years |
| Motor Vehicles | - 3 to 5 years |
| Fixtures, Fittings and Office Equipment | - 5 years |
| Freehold buildings | - 30 years |

Depreciation is charged to the technical account - general business and is included in net operating expenses. Freehold buildings are shown at their current market value after depreciation, and these are valued at their open market value by an independent chartered surveyor every three years.

FOREIGN CURRENCIES

UK Pounds Sterling is the functional currency of all activities with the exception of the French branch, the functional currency of which is the Euro.

Transactions in foreign currencies are recorded at the rate ruling at 31 December each year or at the contracted rate if the transaction is covered by a forward exchange contract. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date or if appropriate at the forward contract rate. Exchange differences arising from transactions are taken to the profit and loss account. Exchange differences arising from the retranslation of the opening net investment in foreign business operations are taken to the statement of realised gains and losses.

OPERATING LEASES

Rentals payable under operating lease are charged to the profit and loss account over the lease terms

PENSION COSTS

The Company operates a defined contribution scheme and defined benefit scheme

The Company's defined benefit pension scheme was closed to further benefit accrual on 31 December 2009. Pension costs are assessed in accordance with the advice of independent qualified actuaries based on the last full actuarial assessment as at 1 January 2009. This has been updated as at 31 December 2012 as required by FRS 17 using the projected unit method. The Company has borne all expenses relating to the scheme.

The actuarial gains and losses which arise from a valuation and from updating the latest actuarial valuation to reflect conditions at the balance sheet date are taken to the statement of total recognised gains and losses for the period to the extent they are attributable to shareholders. The attributable deferred taxation is shown separately in the statement of total recognised gains and losses.

The Company continues to operate a defined contribution scheme for its employees.

DIVIDENDS

Interim dividends are recognised when paid and final dividends are booked as a liability when they are approved by the members passing a written resolution.

INDUSTRY LEVIES

The amount charged in respect of the Financial Services Compensation Scheme levy is based on the premium written in the year, at the rate expected to be charged by the Scheme in respect of that period, if any. The amount charged in respect of the Motor Insurers' Bureau, which is based on the Company's share of the motor insurance market, reflects an estimate of the levy applicable to premiums written during the year. The amount charged in respect of the Employers' Liability Tracing Office is also charged on the basis of Employers' Liability gross written premiums written in the year.

4. INVESTMENT RETURN

| | 2012 £ 000 | 2011 £ 000 |
|--------------------------------------------------------|---------------|---------------|
| Income from other financial investments | 10,917 | 10,640 |
| Gains on the realisation of equity investments | 149 | 3,278 |
| Movement in net unrealised gains/losses on investments | (1,370) | (7,274) |
| | <u>9,696</u> | <u>6,644</u> |

5. ALLOCATED INVESTMENT RETURN

The allocation of investment return is based on the longer-term return on investments. The longer-term rate of investment return is an estimate of the long-term trend investment return for the relevant category of investments having regard to past performance, current trends and future expectations.

(a) Assumptions for the longer term rate of return

The return on equities is estimated with regard to historical real rates of return for the market and current inflation expectation adjusted for consensus economic and investment market forecasts of investment return.

The investment return on fixed interest securities is calculated using the amortised cost basis with realised gains and losses subject to continuing amortisation over the remaining period to the maturity date.

The principal assumptions underlying the calculation of the longer term investment return are as follows:

| | 2012 % | 2011 % |
|-------------------------|-----------|-----------|
| Equities | 7.0 | 7.0 |
| UK Fixed interest gilts | 2.6 | 3.7 |
| UK Index linked gilts | n/a | n/a |
| Corporate bonds | 2.3 | 3.4 |

The Directors are of the opinion that these rates of return are appropriate and have been selected with a view to ensuring that returns credited to operating results are not inconsistent with the actual returns which will be earned over the longer term. In respect of 2012 a change of one percent in the longer-term investment return used for equities would produce a change of £510,372 in the investment income transferred to the general business technical account (2011 £505,358).

Notes to the Financial Statements
For the Year Ended 31 December 2012

(b) Comparison of longer term investment return with actual return

The actual return on investments attributable to general business and shareholders in the period from 1 January 2007 to 31 December 2012 is compared below with the aggregate longer-term return which would have been recognised in the balance on the technical account - general business over the same period using the rate of return described above

| | 2008 - 2012 £ 000 | 2007 - 2011 £ 000 |
|----------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|----------------------|
| Actual investment return attributable to shareholders dealt with in profit on ordinary activities in the non-technical account | 58,240 | 72,288 |
| Longer term investment return attributable to shareholders credited to operating profit and to the technical account - general business | (69,020) | (78,033) |
| (Deficit) | <u>(10,780)</u> | <u>(5,745)</u> |
| If the longer term rate of return used for equities was changed by one percent, for all of the five years, the change to the above result would be | <u>2,645</u> | <u>2,795</u> |

6. DIRECTORS' EMOLUMENTS

The aggregate amount of emoluments, including benefits in kind, paid to or receivable by Directors during the year was as follows

| | 2012 £ 000 | 2011 £ 000 |
|-------------------------------------------------------|---------------|---------------|
| Aggregate emoluments and benefits | 1,943 | 1,475 |
| Compensation for loss of office | 801 | - |
| Amounts receivable under long term incentive schemes | 395 | - |
| Contributions to pension fund in respect of directors | 53 | 36 |
| | <u>3,192</u> | <u>1,511</u> |
| Highest paid director | | |
| Aggregate emoluments and benefits | 1,513 | 565 |
| | <u>1,513</u> | <u>565</u> |

Notes to the Financial Statements
For the Year Ended 31 December 2012

The Company has a rolling 3 year long term incentive (LTIP) scheme in place. A new grant has been made to the Executive Directors under the scheme, covering the performance period 2012 to 2014. The 2012 to 2014 LTIP will vest at the end of 2014 depending on the extent to which performance conditions in relation to that grant are met. The amount vesting under any LTIP grant can also be reduced at the discretion of the Remuneration & Nominations Committee depending on the overall performance of the Company. The amount receivable disclosed in the table above relates to the 2010 to 2012 LTIP scheme that vested at the end of the year.

Two Directors are accruing retirement benefits under the Company's defined benefits pension scheme. The highest paid Director's accrued pension at 31 December 2012 was £269,763 (2011 - £256,616).

7 STAFF NUMBERS AND COSTS

| Executive Directors / Senior Management | 8 | 6 |
| Actuaries | 9 | 3 |
| Commercial | 110 | 97 |
| Customer Services | 214 | 143 |
| Finance | 60 | 62 |
| Risk and Compliance | 4 | 2 |
| Business Services | 86 | 46 |
| | <u>499</u> | <u>368</u> |
| The aggregate payroll costs in respect of these persons were as follows | 2012 £ 000 | 2011 £ 000 |
| Wages and salaries | 17,982 | 12,371 |
| Social security costs | 1,850 | 1,268 |
| Other pension costs | 1,157 | 800 |

The total number of employees at 31 December 2012 was 815. At the date of the Part VII transfer, 1 October 2012, 420 former employees of Provident Insurance plc and a sister company, Hebble Insurance Management Services Ltd transferred in to Covea Insurance plc by way of a Transfer of Undertakings (Protection of Employment) transfer. These are reflected in the average disclosed in the above note.

(b) Factors affecting current tax charge

The tax charge in the year is at a lower rate than standard rate of corporation tax in the UK of 24.5% (2011 26.5%) Differences as below

| | | |
|------------------------------------------------------------|--------------|--------------|
| Profit on ordinary activities before tax | <u>4,129</u> | <u>7,385</u> |
| Tax on profit on ordinary activities at 24.5% (2011 26.5%) | 1,012 | 1,957 |

| Tax (over) provided in prior years | (390) | (147) |
| Total current tax (Note 8a) | <u>(293)</u> | <u>1,070</u> |

Notes to the Financial Statements
For the Year Ended 31 December 2012

The main rate of UK corporation tax will reduce from 24% to 23% from 1 April 2013. The December 2012 Autumn Statement proposed to reduce the main rate of corporation tax from 23% to 21% from 1 April 2014.

The proposed further reduction to 21% is expected to be included in the Finance Bill 2013.

The carried forward losses, which are the largest balance in the deferred tax asset, are expected to be utilised by the end of 2013. As a result the effect of the further changes from 23% to 21% relating to the remaining deferred tax balance at the balance sheet date would be to further reduce the deferred tax asset by £40,000.

9. DIVIDEND

| | 2012 £ 000 | 2011 £ 000 |

Prior year claims provision

Claims incurred, net of reinsurance, are shown after taking account of movements in the estimates of costs of claims provisions outstanding at the start of the period. These movements are the differences between the net technical provision for outstanding claims at the beginning of the period, and the sum of net claims payments and the net technical provision for outstanding claims at the end of the period for those claims.

18 EQUALISATION PROVISION

These provisions, which are in addition to the provisions required to meet the anticipated ultimate cost of settlement of outstanding claims at the balance sheet date, are required by Schedule 3 and Schedule 6 to The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 relating to insurance groups (made under the Companies Act 2006) to be included within technical provisions in the balance sheet, notwithstanding that they do not represent liabilities at the balance sheet date. The movement in equalisation provisions during the year resulted in a decrease in the general business - technical account result and the profit before taxation of £3,620,000 (2011 - decrease of £3,078,000).

The creation of the equalisation provision has the cumulative effect of decreasing shareholders' funds by £6,978,000 (2011 - decrease of £4,132,000) after taking into account taxation.

22. PENSION BENEFIT

The Company operates two pension schemes. The assets of both schemes are held independently and separately from those of the Company in trust-administered accounts.

Defined contribution scheme

This scheme is open to employees who became eligible to join on or after 1 January 2001. Former members of the defined benefits scheme, who are current employees, became eligible to join this scheme from 1 January 2010. Benefits are based on contributions made to the scheme by the Company during the employee's membership. Former employees of Provident Insurance plc and Hebble Insurance Management Services Ltd who transferred to the Company on 1 October 2012 are also eligible to participate in this scheme.

Defined benefit scheme

The Company operates a defined benefit scheme in the UK which closed to further accrual with effect from 31 December 2009. A full actuarial valuation was carried out as at 31 December 2011 and updated to 31 December 2012 by a qualified actuary, independent of the Company. The major assumptions used by the actuary are shown below.

The Company makes annual payments to the scheme of £406,000 payable by 31 March each year, the first of which was due by 31 March 2011, in accordance with the Schedule of Contributions and Recovery Plan dated 29 March 2010.

As the defined benefit pension scheme was closed to further benefit accrual as at the end of 2009, there will be no further accrual of current service cost and accordingly there is no charge recognised within the profit and loss account. The expected return on assets has been restricted to the interest cost on scheme liabilities as required under FRS 17. Also, the net surplus assets arising at the year end have not been recognised on the balance sheet, given there will be no future economic benefits arising in the form of reduced contribution. The net surplus assets cannot be recognised by the Company until all benefits have been paid to its members or the scheme is bought out, in agreement with the trustees.

FRS 17 disclosures

The present values of scheme liabilities, fair value of its assets and the resultant surplus/(deficit) are as follows:
