NOTES TO THE ABBREVIATED ACCOUNTS
for the year ended

1 ACCOUNTING POLICIES

a) Basis of Accounting

The accounts have been prepared under the historical cost convention of accounting, and comply with all applicable accounting standards

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company

b) Turnover

Turnover represents net invoiced sales of goods, excluding value added tax, except in respect of service contracts where turnover is recognised when the company obtains the right to consideration

c) Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases

Motor Vehicles	-	25% per annum reducing balance basis
Plant and Machinery	-	15% per annum reducing balance basis
Fixtures, Fittings and Office Equipment	-	15% per annum reducing balance basis
Computers and Associated Equipment	-	25% per annum straight line basis

d) Stocks and Work in Progress

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving stocks. Cost includes all direct expenditure

e) Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.

f) Leasing and Hire Purchase Contracts

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profit as incurred

Assets held under finance leases and hire purchase contracts are capitalised and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability. The interest element of rental obligations is charged to the profit and loss account over the period of the lease at a constant proportion of the outstanding balance of capital repayments.

g) Pension Costs

Contributions in respect of the company's defined contribution pension schemes are charged to the profit and loss account for the year in which they are payable to the schemes.

h) Research and Development

Expenditure on research and development is written off in the year in which it is incurred.
