Statement of directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Report of the independent auditors to the members of Lennox Industries

We have audited the financial statements on pages 4 to 19.

This report is made solely to the company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The directors are responsible for preparing the directors' report and, as described on page 2, the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practices Board and by our profession's ethical guidance.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company is not disclosed.

Basis of audit opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of the company's affairs as at 31 December 2002 and of its loss for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

Notes
(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements except as noted below. The company has adopted FRS 18 'Accounting policies' and FRS 19 'Deferred tax' in these financial statements. The comparative figures have been restated accordingly. The company has followed the transitional arrangements of FRS 17 'Retirement benefits' in these financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

The company has taken advantage of the exemption from preparing consolidated financial statements afforded by s228 of the Companies Act 1985 because it is a wholly owned subsidiary of LGL Netherlands BV, incorporated in the Netherlands, which prepares consolidated financial statements which are publicly available. The company is also, on this basis, exempt from the requirement of FRS 1 to present a cash flow statement.

Tangible fixed assets

Tangible fixed assets are shown at cost less accumulated depreciation. Depreciation is provided at rates calculated to write off the cost, less estimated residual value, of each asset on a straight line basis over its expected useful life as follows:

Improvements to long leasehold properties	-	shorter of length of lease and useful economic life
Plant and machinery	-	5-10 years
Motor vehicles	-	4 years

Residual value is calculated on prices prevailing at the date of acquisition.

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost incurred in bringing each product to its present location and condition is based on:

Raw materials	-	cost
Work in progress and finished goods	-	standard cost of direct materials and labour, plus a reasonable proportion of manufacturing overheads based on normal levels of activity.

Net realisable value is based on normal selling price, less further costs expected to be incurred to completion and disposal. Provision is made for obsolete, slow-moving or defective items where appropriate.

Notes *(continued)*

1 Accounting policies *(continued)*

Taxation

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Pension costs

The company operates pension schemes providing benefits based on final pensionable pay.

The two schemes operating are the Lennox Industries Staff Retirement Benefits Scheme for staff employees and the Lennox Industries Retirement Benefits Scheme for hourly paid employees. The assets of the schemes are held separately from those of the company, being invested with insurance companies. The amount charged to the profit and loss account is the estimated regular cost of providing the benefits accrued in the year, adjusted to reflect variations from that cost. The regular cost is calculated so that it represents a substantially level percentage of current and future pensionable payroll. Variations from regular cost are charged or credited to the profit and loss account over the estimated average remaining working lives of scheme members.

Foreign currency

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction or, if hedged, at the forward contract rate. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date or, if appropriate, at the forward contract rate. All exchange differences are included in the profit and loss account.

Turnover

Turnover comprises the amounts receivable for goods and services provided in the normal course of business, net of trade discounts, VAT and other sales-related taxes.

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis.

Investments

Fixed asset investments are shown at cost less provisions for impairment.

19 Commitments

(a) *Capital commitments*

The company had no capital commitments at either year end.

(b) *Pension commitments*

SSAP 24

The pension cost charge for the year was £144,000 *(2001: £144,000)* for the staff scheme.

The pension cost is assessed in accordance with the advice of a professionally qualified actuary. The latest actuarial valuation was as at 1 January 2002 and used the projected unit method. The main actuarial assumptions for the Lennox Industries Staff Retirement Benefits Scheme were that (a) salaries would increase by 7.0% p.a., (b) pensions paid would increase by 3% p.a., and (c) the return on scheme investments would be 8.5% p.a.

In respect of the Lennox Industries Staff Retirements Benefits Scheme, the most recent actuarial valuation showed that the market value of the scheme's assets was £3,554,884 and that the actuarial value of those assets represented 125% of the benefits that had accrued to members, after allowing for expected future increases in earnings. The latest actuarial review produced a cost in accordance with SSAP 24 of 6.2% of pensionable payroll consisting of a regular cost of 9.7% and a variation from regular cost of 3.5%.

Notes *(continued)*

(b) *Pension commitments (continued)*

SSAP 24 *(continued)*

In respect of the Lennox Industries Retirement Benefits Scheme for Hourly Paid Employees, the most recent actuarial valuation showed that the market value of the scheme's assets was £474,684 and that the actuarial value of those assets represent 180% of the benefits that had accrued to members, after allowing for expected future increases in earnings. This scheme was closed to new membership in January 1994 and the remaining members still in the company's employment transferred to the staff scheme. No contributions are paid into the scheme.

FRS 17 second year transitional disclosures

Whilst the company continues to account for pension costs in accordance with Statement of Standard Accounting Practice 24 'Accounting for Pension costs', under FRS 17 'Retirement benefits' the following transitional disclosures are required:

The valuation was updated by the actuary on an FRS 17 basis as at 1 January 2002 and further updated to 31 December 2002.

The major assumptions used in this valuation were:

	2002	2001
Rate of increase in salaries	**3.50%**	3.00%
Rate of increase in pensions in payment and deferred pensions	**2.00%**	2.50%
Discount rate applied to scheme liabilities	**5.50%**	6.00%
Inflation assumption	**2.00%**	2.50%

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions which, due to the timescale covered, may not necessarily be borne out in practice.

Scheme assets

The fair value of the scheme's assets, which are not intended to be realised in the short term and may be subject to significant change before they are realised, and the present value of the scheme's liabilities, which are derived from cash flow projections over long periods and thus inherently uncertain, were:

(d) Other

A fixed and floating charge is held by the Natwest Bank over all the current and future assets of the company.

20 Contingent liabilities

There were no contingent liabilities at 31 December 2002 *(2001: £220,000)*.

21 Prior year adjustment

Prior to 1 January 2002, the company was not accounting for their pension scheme under UK GAAP, as US GAAP pension figures had been carried forward in the balance sheet. A prior year adjustment has been made as at 1 January 2001 to eliminate the US GAAP pension balances, and thus to correctly account for pensions under UK GAAP. The effect of this has been to increase reserves by £441,392 and to reduce accruals by £441,392.

22 Transactions with related parties

The company has taken advantage of the exemption in FRS 8 not to disclose related party transactions within the group as it is a wholly owned subsidiary of a company whose financial statements, in which the company is included, are available to the public. There were no other related party transactions.

23 Ultimate parent company and controlling party
