Fernturn Holdings Limited

Chartered Accountant's Report to the Board of Directors on the preparation of the unaudited financial statements of Fernturn Holdings Limited for the year ended 30 June 2018

In order to assist you to fulfil your duties under the Companies Act 2006, we have prepared for your approval the financial statements of Fernturn Holdings Limited for the year ended 30 June 2018 which comprise the statement of financial position, the statement of changes in equity and the related notes from the company's accounting records and from information and explanations you have given us.

As a practising member firm of the Institute of Chartered Accountants in England and Wales (ICAEW), we are subject to its ethical and other professional requirements which are detailed at <http://www.icaew.com/en/members/regulations-standards-and-guidance/>.

This report is made solely to the board of directors of Fernturn Holdings Limited, as a body, in accordance with the terms of our engagement letter dated 20 March 2017. Our work has been undertaken solely to prepare for your approval the accounts of Fernturn Holdings Limited and state those matters that we have agreed to state to the board of directors of Fernturn Holdings Limited, as a body, in this report in accordance with ICAEW Technical Release TECH07/16AAF. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Fernturn Holdings Limited and its board of directors as a body for our work or for this report.

It is your duty to ensure that Fernturn Holdings Limited has kept adequate accounting records and to prepare statutory accounts that give a true and fair view of the assets, liabilities, financial position and loss of Fernturn Holdings Limited. You consider that Fernturn Holdings Limited is exempt from the statutory audit requirement for the year.

We have not been instructed to carry out an audit or a review of the financial statements of Fernturn Holdings Limited. For this reason, we have not verified the accuracy or completeness of the accounting records or information and explanations you have given to us and we do not, therefore, express any opinion on the statutory accounts.

The notes on pages 5 to 13 form part of these financial statements.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

1. General information

Fernturn Holdings Limited is a private company limited by shares incorporated in England and Wales under the Companies Act 2006. The address of the registered office is 1 Redcliff Street, Bristol, BS1 6TP and the company's principal activity is property investment.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The financial statements are prepared in rounded thousands.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

The director have considered the basis of preparation of the financial statements of the company on a going concern basis.

On 4 July 2013, the company completed a scheme of arrangement with all creditors relating to its previous trade. As part of the process, the company's defined benefit pension scheme was granted security over the freehold investment property owned by Fernturn Holdings Limited. At present, the majority of the freehold building is leased to third parties and the directors have agreed with the trustees of the defined benefit pension scheme that the business will pass surplus rental income, net of expenses, to the pension scheme. The directors believe that continuing on this basis will enable the company to continue to meet its obligations to the scheme.

2.3 Revenue

Revenue, which relates to the rental income from the company's investment property, is recognised in a straight line over the period of the lease.

2.4 Interest income

Interest income is recognised in the statement of comprehensive income using the effective interest method.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

2. Accounting policies (continued)

2.5 Pensions

The company sponsors a defined benefit pension scheme, the Wilts Wholesale Electrical Company Limited Retirement Benefits Scheme. The level of benefits provided by the scheme depends on the member's length of service and their salary at the date of leaving the scheme. The scheme was closed to future accrual in 2006. The funds are valued every three years. The last funding valuation of the scheme as carried out by a qualified actuary as at 5 April 2017. In the intervening years, the actuary reviews the valuation taking account of experience over the period, changes in market conditions and differences in financial and demographic assumptions. The present value of the defined benefit obligation was measured using the projected unit credit method.

Defined benefit pension plan

A defined benefit plan defines the pension benefit that the employee will receive on retirement, usually dependent upon several factors including but not limited to age, length of service and remuneration. A defined benefit plan is a pension plan that is not a defined contribution plan.

The asset recognised in the statement of financial position in respect of the defined benefit plan is the present value of the defined benefit obligation at the end of the statement of financial position date less the fair value of plan assets at the statement of financial position date (if any) out of which the obligations are to be settled.

The defined benefit obligation is calculated using the projected unit credit method. Annually the company engages independent actuaries to calculate the obligation. The present value is determined by discounting the estimated future payments using market yields on high quality corporate bonds that are denominated in sterling and that have terms approximating to the estimated period of the future payments ('discount rate').

The fair value of plan assets is measured in accordance with the FRS 102 fair value hierarchy and in accordance with the company's policy for similarly held assets. This includes the use of appropriate valuation techniques.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income. These amounts together with the return on plan assets, less amounts included in net interest, are disclosed as 'remeasurement of net defined benefit liability'.

The cost of the defined benefit plan, recognised in profit or loss as employee costs, except where included in the cost of an asset, comprises:

- a) the increase in net pension benefit liability arising from employee service during the period; and
- b) the cost of plan introductions, benefit changes, curtailments and settlements.

The net interest cost/income is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost/income is recognised in profit or loss as a 'finance expense/income'.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

2. Accounting policies (continued)

2.6 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the statement of comprehensive income, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

2.7 Investment property

Investment property is carried at fair value determined annually by the directors having taken appropriate professional advice. No depreciation is provided. Changes in fair value are recognised in the statement of comprehensive income.

2.8 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.9 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.10 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.11 Provisions for liabilities

Provisions are made where an event has taken place that gives the company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the statement of comprehensive income in the year that the company becomes aware of the obligation, and are measured at the best estimate at the statement of financial position date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the statement of financial position.

2.12 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in non-puttable ordinary shares.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

2. Accounting policies (continued)

2.12 Financial instruments (continued)

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the statement of comprehensive income.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing these financial statements, the directors have had to make the following judgements:

Determine the appropriate valuation of the company's investment property. This involves and inevitable degree of judgement as value can only be reliably tested in the market itself.

Other key sources of estimation uncertainty:

Volatility of results - under FRS 102 pension accounting results can change dramatically depending on market conditions. The defined benefit obligation is linked to yields on AA -rated corporate bonds, while a significant proportion of the assets of the fund are invested in equities and diversified growth funds. Changing markets in conjunction with discount rate volatility will lead to volatility in the funded status of the pension plan and thus to volatility in the net pension asset on the company's statement of financial position and in other comprehensive income.

4. Employees

The average monthly number of employees, including the directors, during the year was as follows:

	2018 No.	2017 No.
Directors	2	2

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

5. Investment property

	Freehold investment property £000
Valuation	
At 1 July 2017	2,840
At 30 June 2018	2,840

The 2018 valuation was made by the directors based on the 2012 professional valuation by BNP Paribas, on an open market value for existing use basis. The directors reviewed this professional valuation and revalued investment properties in the year ended 30 June 2013 based on prices of similar properties. The directors consider that this valuation continues to be appropriate.

6. Debtors

	2018 £000	2017 £000
Other debtors	137	74
Deferred taxation	132	-
	269	74

7. Creditors: Amounts falling due within one year

	2018 £000	2017 £000
Other taxation and social security	-	10
Other creditors	24	13
	24	23

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

8. Deferred taxation

	2018 £000
Charged to the profit or loss	(27)
Charged to other comprehensive income	159
At end of year	132

The deferred taxation asset is made up as follows:

	2018 £000	2017 £000
Short term timing differences	843	-
Tax losses carried forward	(711)	-
	132	-

9. Share capital

	2018 £000	2017 £000
Allotted, called up and fully paid		
40,765 ordinary shares of £1 each	41	41

10. Reserves

The company's capital and reserves are as follows:

Called up share capital

Called up share capital represents the nominal value of the shares issued.

Capital redemption reserve

The capital redemption reserve is a non-distributable reserve created on the purchase of the company's own shares.

Profit and loss account

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2018

11. Pension commitments

The company operates a Defined Benefit Pension Scheme.

The pension cost for the year ended 30 June 2018 is based on the advice of a professionally qualified actuary. The most recent formal actuarial valuation was at 5 April 2017.
