Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

1. General Information

Fernturn Holdings Limited is a private company limited by shares incorporated in England and Wales under the Companies Act 2006. The address of the registered office is 1 Redcliff Street, Bristol, BS1 6TP. The company's principal activity is property investment.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The accounts are prepared in rounded thousands.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

The directors have considered the basis of preparation of the financial statements of the company on a going concern basis.

On 4 July 2013, the company completed a scheme of arrangement with all creditors relating to its previous trade. As part of the process, the company's defined benefit pension scheme was granted security over the freehold investment property owned by Fernturn Holdings Limited. At present, the majority of the freehold building is leased to third parties and the directors have agreed with the trustees of the defined benefit pension scheme that the business will pass surplus rental income, net of expenses, to the pension scheme. The directors believe that continuing on this basis will enable the company to continue to meet its obligations to the scheme.

The directors are continually reviewing plans and forecasts and continue to assess the ongoing impact of COVID-19. The company has a strong cash position at the year end and in light of this, the directors consider it appropriate to prepare the financial statements on a going concern basis.

2.3 Revenue

Revenue, which relates to the rental income from the company's investment property, is recognised in a straight line over the period of the lease.

2.4 Interest income

Interest income is recognised in profit or loss using the effective interest method.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

2. Accounting policies (continued)

2.5 Pensions

The company sponsors a defined benefit pension scheme, the Wilts Wholesale Electrical Company Limited Retirement Benefits Scheme. The level of benefits provided by the scheme depends on the member's length of service and their salary at the date of leaving the scheme. The scheme was closed to future accrual in 2006. The last funding valuation of the scheme was carried out by a qualified actuary as at 5 April 2020. In the intervening years, the actuary reviews the valuation taking account of experience over the period, changes in market conditions and differences in financial and demographic assumptions. The present value of the defined benefit obligation was measured using the projected unit credit method.

Defined benefit pension plan

A defined benefit plan defines the pension benefit that the employee will receive on retirement, usually dependent upon several factors including but not limited to age, length of service and remuneration. A defined benefit plan is a pension plan that is not a defined contribution plan.

The asset recognised in the statement of financial position in respect of the defined benefit plan is the present value of the defined benefit obligation at the end of the statement of financial position date less the fair value of plan assets at the statement of financial position date (if any) out of which the obligations are to be settled.

The defined benefit obligation is calculated using the projected unit credit method. Annually the company engages independent actuaries to calculate the obligation. The present value is determined by discounting the estimated future payments using market yields on high quality corporate bonds that are denominated in sterling and that have terms approximating to the estimated period of the future payments ('discount rate').

The fair value of plan assets is measured in accordance with the FRS 102 fair value hierarchy and in accordance with the company's policy for similarly held assets. This includes the use of appropriate valuation techniques.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income. These amounts together with the return on plan assets, less amounts included in net interest, are disclosed as 'remeasurement of net defined benefit liability'.

The cost of the defined benefit plan, recognised in profit or loss as employee costs, except where included in the cost of an asset, comprises:

- a) the increase in net pension benefit liability arising from employee service during the period; and
- b) the cost of plan introductions, benefit changes, curtailments and settlements.

The net interest cost/income is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost/income is recognised in profit or loss as a 'finance expense/income'.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

2. Accounting policies (continued)

2.6 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.7 Investment property

Investment property is carried at fair value determined annually by the directors having taken appropriate professional advice. No depreciation is provided. Changes in fair value are recognised in the statement of comprehensive income.

2.8 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.9 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.10 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

2. Accounting policies (continued)

2.11 Provisions for liabilities

Provisions are made where an event has taken place that gives the company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to profit or loss in the year that the company becomes aware of the obligation, and are measured at the best estimate at the statement of financial position date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the statement of financial position.

2.12 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties and loans to related parties.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short-term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or in the case of an out-right short-term loan that is not at market rate, the financial asset or liability is measured, initially at the present value of future cash flows discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the statement of comprehensive income.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the company would receive for the asset if it were to be sold at the reporting date.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing these financial statements, the directors have had to make the following judgements:

Determine the appropriate valuation of the company's investment property. This involves an inevitable degree of judgement as value can only be reliably tested in the market itself.

Other key sources of estimation uncertainty:

Volatility of results - under FRS 102 pension accounting results can change dramatically depending on market conditions. The defined benefit obligation is linked to yields on AA-rated corporate bonds, while a significant proportion of the assets of the fund are invested in equities and diversified growth funds. Changing markets in conjunction with discount rate volatility will lead to volatility in the funded status of the pension plan and thus to volatility in the net pension asset on the company's statement of financial position and in other comprehensive income.

4. Employees

The average monthly number of employees, including directors, during the year was 4 (2021 - 4).

5. Taxation

Factors affecting tax charge for the year

The company utilised brought forward excess management expenses against the profit on ordinary activities for the year. These profits would otherwise be subject to the standard rate of corporation tax in the UK of 19% (2021 - 19%).

Factors affecting tax charge for the year

The company has excess management expenses of £4,052,405 (2021 - £4,012,497) to offset against future profits of the property business.

6. Investment property

	Freehold Investment property £000
Valuation	
At 1 July 2021	3,370
Surplus on revaluation	1,630
At 30 June 2022	5,000

The 2022 valuation was made by the directors based on the professional valuation by Savills on an open market value for existing use basis, carried out in August 2022. The directors consider that this valuation is appropriate for use at the year ended 30 June 2022.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

7. Debtors

	2022 £000	As restated 2021 £000
Trade debtors	101	114
Prepayments and accrued income	2	4
	<u>103</u>	<u>118</u>

8. Cash and cash equivalents

	2022 £000	2021 £000
Cash at bank and in hand	<u>428</u>	<u>425</u>

9. Creditors: Amounts falling due within one year

	2022 £000	2021 £000
Other taxation and social security	1	5
Other creditors	9	5
Accruals and deferred income	42	14
	<u>52</u>	<u>24</u>

10. Deferred taxation

	2022 £000
At beginning of year	(544)
Credited to the profit and loss account	107
Charged to other comprehensive income	(25)
At end of year	<u>(462)</u>

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

10. Deferred taxation (continued)

The deferred taxation liability is made up as follows:

	2022 £000	2021 £000
Short term timing differences	(1,463)	(1,547)
Tax losses carried forward	1,013	1,003
Capital gains	(12)	-
	<u>(462)</u>	<u>(544)</u>

The deferred taxation balance is made up of a tax liability of £1,463,200 in respect of the pension scheme, a tax liability of £11,958 in respect of capital gains and a tax asset of £1,013,101 in respect of management expenses carried forward.

11. Share capital

	2022 £000	2021 £000
Allotted, called up and fully paid		
40,765 (2021 - 40,765) ordinary shares of £1.00 each	<u>41</u>	<u>41</u>

12. Reserves

The company's capital and reserves are as follows:

Called up share capital

Called up share capital represents the nominal value of the shares issued.

Capital redemption reserve

The capital redemption reserve is a non-distributable reserve created on the purchase of the company's own shares.

Profit and loss account

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

13. Pension commitments

The company operates a Defined Benefit Pension Scheme.

The pension cost for the year ended 30 June 2022 is based on the advice of a professionally qualified actuary. The most recent formal actuarial valuation was at 5 April 2020.

Reconciliation of present value of plan liabilities:

	2022	As restated 2021
	£000	£000
Reconciliation of present value of plan liabilities		
At the beginning of the year	20,988	21,351
Interest cost	395	337
Actuarial (gains)/losses	(5,821)	(153)
Benefits paid	(443)	(547)
At the end of the year	15,119	20,988

Reconciliation of present value of plan assets:

	2022	As restated 2021
	£000	£000
At the beginning of the year	26,765	25,960
Interest income	505	411
Remeasurement (losses)/gains	(5,510)	1,195
Contributions	194	163
Benefits paid	(443)	(547)
Expenses	(540)	(417)
At the end of the year	20,971	26,765

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

13. Pension commitments (continued)

Composition of plan assets:

	2022 £000	2021 £000
Equities	2,485	5,948
Corporate bonds	8,083	-
Diversified growth funds	2,560	5,870
Liability driven investments	5,025	14,801
Cash	2,818	146
Total plan assets	20,971	26,765
	2022 £000	As restated 2021 £000
Fair value of plan assets	20,971	26,765
Present value of plan liabilities	(15,119)	(20,988)
Net pension scheme asset	5,852	5,777

A pension scheme asset has been recognised to the extent that the scheme is expected to permit a refund, if there is a surplus on wind-up.

The amounts recognised in the income statement are as follows:

	2022 £000	2021 £000
Expenses	540	417
Interest on net defined benefit asset	(110)	(74)
Total	430	343

	2022 £000	As restated 2021 £000
Analysis of actuarial loss recognised in Other Comprehensive Income		
Asset (losses)/gains arising during the year	(5,510)	1,195
Experience gains arising on the scheme liabilities	5,821	153
	311	1,348

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

13. Pension commitments (continued)

Principal actuarial assumptions at the Statement of Financial Position date (expressed as weighted averages):

	2022 %	2021 %
Discount rate	3.85	1.90
Pension increases pre April 1997	2.20	2.15
Pension increases from April 1997 to April 2005	2.60	2.55
Future pension increases post 5 April 2005	1.95	1.95
CPI Inflation	2.65	2.60
- Life expectancy for a male aged 65 now	21.4 years	21.4 years
- Life expectancy at 65 for a male aged 45 now	23.8 years	23.8 years
- Life expectancy for a female aged 65 now	23.1 years	23.1 years
- Life expectancy at 65 for a female member aged 45 now	24.8 years	24.7 years

14. Related party transactions

During the year £2,200 (2021 - £11,800) was paid to WayPoint Change LLP in respect of services provided by Nick Winks and Andy Pearson, who are partners of that firm. Nick Winks and Andy Pearson previously held senior management positions within Fernturn Holdings Limited. At the statement of financial position date £Nil (2021 - £Nil) was due to WayPoint Change LLP.

During the year £Nil (2021 - £14,094) was paid to RP Ovens Limited in respect of services provided by R Ovens, who is a director of that firm. Ruth Ovens is a director of Fernturn Holdings Limited and this amount does not include fees payable in respect of her services to Fernturn Holdings Limited as a director. At the statement of financial position date £Nil (2021 - £Nil) was due to RP Ovens Limited.

During the year £Nil (2021 - £12,167) was paid to IWFD Limited in respect of services provided by Ian Webb, who is a director of that firm. Ian Webb is a director of Fernturn Holdings Limited and this amount does not include fees payable in respect of his services to Fernturn Holdings Limited as a director. At the statement of financial position date £Nil (2021 - £Nil) was due to IWFD Limited.

Ian Webb is also a Director of Banner Limited. During the year £162,950 (2021 - £162,590) was received from Banner Limited in respect of rent. At the statement of financial position date £Nil (2021 - £Nil) was due to Banner Limited.

Fernturn Holdings Limited

Notes to the Financial Statements For the Year Ended 30 June 2022

15. Prior year adjustment

The Wilts Wholesale Electrical Company Limited Retirement Benefits Scheme FRS102 Disclosure Report for the year ending 30 June 2022 regarding pension accounting disclosures provided to the Company and its accountants by AON included the defined benefit obligation (DBO) valuation as at 30 June 2021 of £20,988k. When this was compared to the report supplied for 2021 it was noticed that the DBO figure had been stated at £20,575k as at 30 June 2021. This was queried with AON who advised that the DBO had been incorrectly stated and should have been £20,988k as at 30 June 2021 and that this had been corrected when the 2022 disclosure report was prepared. This has resulted in a net £413k reduction in net assets and retained earnings. The impact on Other Comprehensive Income as a result of this adjustment is a reduction in the actuarial gain of £413k.
