### Directors' report

The directors have pleasure in submitting their annual report together with the audited accounts for the year ended 31 October, 1976.

27

50

#### 1. Results for the Year

The profit for the year carried forward is shown on page 8. The directors recommend that no dividend should be paid.

#### 2. Principal Activities

The company is engaged in the manufacture and sale of electronic measuring equipment and computers.

#### 3. Fixed Assets

Note 4 on the balance sheet forms part of this report.

The directors are of the opinion that the present market value of the company's properties does not differ materially from the value at which they are shown in the balance sheet.

#### 4. Employees

The average number of staff employed during the year was 1,136 (1975 - 1,113) and their aggregate remuneration, excluding pension fund contributions and other benefits not receivable in cash, was £4,459,330 (1975 - £3,868,653).

#### 5. Donations

Donations to UK charities and educational establishments amounted to £2,273 and £240 respectively totalling £2,513 (1975 - £1,910). The company made no political contributions during the year.

 $\{ \}$ 

#### 6. Exports

(3

Details of the company's export turnover are shown in the profit and loss account on page 8.

#### 7. Directors

The directors of the company are as detailed on page 14.

During the financial year, the company was party to arrangements whereby certain of its employees were assisted through the Hewlett-Packard Company Foreign Employees Stock Purchase Plan in the purchase of capital stock in its holding company, Hewlett-Packard Company, which is incorporated in the United States of America, Mr. D.P. Taylor held capital stock and options acquired during the year under these arrangements.

Certain of the directors and employees are eligible to participate in the holding company's Incentive Stock Option Plan. This provides for the grant of options to acquire stock in the holding company at a price equivalent to the market price of the stock at the date of the option grant.

None of the directors had any beneficial interest in the shares of the company at the beginning or end of the financial year.

#### 8. Auditors

The auditors, Messrs McLintock Main Lafrentz & Co.remain in office in accordance with Section 159(2) of the Companies Act 1948.

By order of the board JOHN B. PENROSE Secretary

# Review of operations - 1976

Writing in the October edition of "Measure", Hewlett-Packard's worldwide house journal, our President Bill Hewlett said:

"in the U.S. we hear a great deal about the problems of the U.K. economy, but it is interesting to note that our plant in Scotland is ahead of target in orders, ahead of target in shipments, well ahead of target in profit, and ahead of last year in all those categories as well."

How was this achieved in one of the most difficult years for the U.K. economy?

H-P Ltd has no magic formula. What it does have is a team of dedicated people determined to achieve results.

Most visitors to our Scottish plant, or any of the sales and service offices, remark upon the relaxed and informal atmosphere.

That's no accident. It's one of the visible elements in a determined effort to make sure everyone in the company can make a real contribution to our business — unfettered by artificial restraints of status and lack of communication.

Within clearly defined objectives, people are encouraged to work out their individual approaches to their jobs. Everyone is kept in touch with how the business is performing and the informal atmosphere results in a free flow of information which clears away most misunderstandings before they have a chance to develop.

A Utopia? Hardly - but most certainly a practical way to run a business.

Since we began in 1962, our turnover has grown from £300,000 to over £36 million. Employment had reached 1,138 by the end of this financial year.

EI)

The 200,000 sq. ft. plant in South Queensferry now exports over 80% of its output. The R & D team of nearly 80 people, concentrating on the development of Communications Test Equipment, will be responsible for more than half the products produced there in 1977.

The six sales disciplines, Instruments, Computer Systems, Calculators, Medical, Analytical and Components, also show considerable growth and to meet their requirements. H-P Ltd now has offices in Altrincham, Thornton Heath, Birmingham, Castleford, London Airport and Hitchin. A major extension of the Altrincham Office, serving the Northern Region, will take place next year.

1976 saw the tenth anniversary of the move from our original production facilities at Bedford to South Queensferry. Since then we've seen steady and profitable growth financed out of earnings. That remains our first objective for 1977.

DENNIS P. TAYLOR
Managing Director
Hewlett-Packard Limited

# Auditors' report to the members

We have audited the books and records of Hewlett-Packard Limited for the year ended 31 October, 1976. The accounts on pages 7 to 13, which are stated using the historical cost convention, have been properly prepared in accordance with the provisions of The Companies Acts, 1948 and 1967.

In our opinion these accounts give, under the accounting convention stated above, a true and fair view of the state of affairs and profit of the company.

McLINTOCK MAIN LAFRENTZ & CO. Chartered Accountants London, 31 December, 1976

# Accounting policies

Matters of particular significance to the determination of the company's profit and of the state of the company's affairs are as follows:

#### Fixed assets and depreciation

The cost of fixed assets, as shown in the balance sheet, is stated after deduction of Government grants in respect of capital expenditure.

Depreciation is calculated with reference to the above defined cost of each fixed asset over its estimated working life, account being taken of normal wear and tear and estimated obsolescence. Leasehold property is amortised over the term of the leases.

#### Stocks-

63

Stocks and work in progress are valued at the lower of cost and estimated net realisable value. Cost includes, where appropriate, a proportion of manufacturing overhead.

#### Deferred taxation

Provision is made for corporation tax at the current rate on the amount by which profits to date for tax purposes have been reduced through the application of capital allowances in excess of the corresponding charges for depreciation and other timing differences, particularly tax relief on increased stock values.

#### Foreign currencles

Assets and liabilities in U.S. dollars are converted to sterling at the rate of exchange ruling at the balance sheet date; export sales in U.S. dollars are converted at the rate of exchange ruling at the date of the relevant transaction.

#### Goods sold under warrenty

In the main, no provision is made in respect of the unexpired warranty period on goods sold. The directors are unable to quantify the amount of any provisions with reasonable accuracy.
