(Registration number: 00714598) Statement of Financial Position as at 28 February 2022 (continued)

For the financial year ending 28 February 2022 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006.

These financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies regime. As permitted by section 444 (5A) of the Companies Act 2006, the directors have not delivered to the registrar a copy of the Income Statement.

Approved and authorised for issue by the Board on 12 May 2023 and signed on its behalf by:

S. G. Waugh
Company secretary and director

Notes to the Unaudited Financial Statements for the Year Ended 28 February 2022

1 General information

The company is a private company limited by share capital, incorporated in England and Wales.

The address of its registered office is Molesden House, Molesden, Morpeth, Northumberland, NE61 3QF.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A smaller entities - 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' and the Companies Act 2006 (as applicable to companies subject to the small companies' regime).

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

These financial statements are prepared in sterling which is the functional currency of the entity.

Going concern

The financial statements have been prepared on a going concern basis.

The company meets its day to day working capital requirements through cash generated from operations and funding from shareholders.

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for a period of at least 12 months from the date of signing these financial statements.

If the going concern basis proved to be invalid, the financial statements would have to be prepared on a break up basis in which the balance sheet would be restated to include all assets at estimated realisable values and all liabilities would become current and would have to be increased to include those liabilities contingent on the company ceasing trade.

Notes to the Unaudited Financial Statements for the Year Ended 28 February 2022 (continued)

2 Accounting policies (continued)

Revenue recognition

Turnover represents the value of goods sold and services provided during the year net of discounts, returns and Value Added Tax. For goods sold, turnover is recognised when the goods are physically delivered to the customer and for services provided, turnover is recognised to the extent that and when there is a right to consideration.

Government grants

Government grants relating to the costs incurred by the company are recognised in the income statement over the period necessary to match them with costs that they are intended to compensate. Government grants are presented separately and disclosed in Other operating income in the income statement.

Other operating income includes the UK Government assistance provided through Coronavirus Job Retention Scheme during the Covid-19 pandemic.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in equity, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in equity in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in equity in respect of that asset, the excess shall be recognised in profit or loss.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class

Property improvements
Plant and equipment
Implements

Depreciation method and rate

1% straight line20% reducing balance15% reducing balance

Trade debtors

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

Notes to the Unaudited Financial Statements for the Year Ended 28 February 2022 (continued)

2 Accounting policies (continued)

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Borrowings

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the income statement over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event, it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the statement of financial position and the amount of the provision as an expense.

Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset.

Notes to the Unaudited Financial Statements for the Year Ended 28 February 2022 (continued)

2 Accounting policies (continued)

Finance leases and hire purchase contracts

Assets held under finance leases are recognised at the lower of their fair value at inception of the lease and the present value of the minimum lease payments. These assets are depreciated on a straight-line basis over the shorter of the useful life of the asset and the lease term. The corresponding liability to the lessor is included in the Statement of Financial Position as a finance lease obligation.

Lease payments are apportioned between finance costs in the Income Statement and reduction of the lease obligation so as to achieve a constant periodic rate of interest on the remaining balance of the liability.

3 Staff numbers

The average number of persons employed by the company (including directors) during the year, was 4 (2021 - 4).

4 Tangible assets

	Land and buildings £	Fixtures and fittings £	Plant and machinery £	Total £
Cost or valuation				
At 1 March 2021	322,088	5,706	143,266	471,060
