STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2014

The Directors present their Annual report for the Company.

BUSINESS REVIEW

GWR Group Limited, a subsidiary of This is Global Limited (the Group) carries investments in other Group companies. The directors expect the general level of activity to continue at current levels. On 3 June 2013, the Company purchased 2,232,534 ordinary £1 shares in its subsidiary, Castleform Limited, for £2,232,534 and purchased 6,166,891 ordinary £1 shares in its subsidiary Global Radio (AM) Limited (formerly GCap Media (AM) Limited. Both investments were fully written down.

PRINCIPAL RISKS AND UNCERTAINTIES

The Company is a subsidiary of This is Global Limited Group. From the perspective of the Company, the principal risks and uncertainties are integrated with the principal risks of the Group and are not managed separately. The review of the business of This is Global Limited and its subsidiaries which provide an analysis of the main trends and factors likely to affect the development, performance and position of the business, and a description of the principal risks and uncertainties facing the business can be found in the Group accounts of This is Global Limited.

Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the Company uses intercompany borrowings from other Group companies.

Market Risk

The key risk to the business is that an advertising slowdown may put pressure on traditional revenues, and reduce the value of the investments held. The risk is monitored and managed through Group management.

Interest rate risk

Interest rate risk arises from intercompany balances that bear interest at a fixed rate. The directors have reviewed the Company's exposure to interest rates and have concluded that the risk is appropriate in relation to the financial results of the Company.

FINANCIAL KEY PERFORMANCE INDICATORS

Given the straightforward nature of the business, the Company's directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development, performance or position of the business. The KPIs for the This is Global Limited Group can be found in the Annual Report of This is Global Limited, which is available to the public.

This report was approved by the board on 4 September 2014 and signed on its behalf.

The notes on pages 8 to 15 form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards. They have been applied consistently throughout the current and prior year.

The Company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 400 of the Companies Act 2006. These financial statements therefore present information about the Company as an individual undertaking and not about its group.

1.2 Going concern

The Company's business activities, together with the factors likely to affect its future development and position, are set out in the Business Review section of the Strategic Report on page 1. The Company participates in the Group centralised treasury arrangements and so shares banking arrangements with its parent and fellow subsidiaries.

The This is Global group has prepared detailed forecasts of expected future cash flows for the three years ending 31 March 2017 ("the forecast"). The Board considers the forecast has been prepared on a prudent basis taking into account current consensus forecasts of the radio advertising market. However, the Group has also prepared a worse than expected downside scenario. Even under this sensitised scenario, the forecasts indicate that the Company can continue to trade for the foreseeable future and operate within its new facility and the associated financial covenants.

1.3 Cash flow

Under FRS 1, "Cash Flow Statement", the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

1.4 Investments

Investments held as fixed assets are shown at cost less provision for impairment.

Where investments are listed they are revalued to market value at year end.

1.5 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES (continued)

1.6 Taxation

The charge or credit for the taxation is based on the profit or loss for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

2. OPERATING (LOSS)/PROFIT

Amounts receivable by the Company's auditor in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's ultimate parent, This is Global Limited. The audit fee for the company was £1,000 (2013:£1,000).

In the prior year the Company received £32,000 in respect of the sale of its investment in Kestrel FM. The investment had been previously fully written down.

On 3 June 2013, the Company purchased 2,232,534 ordinary £1 shares in its subsidiary, Castleform Limited, for £2,232,534 and purchased 6,166,891 ordinary £1 shares in its subsidiary Glabal Radio (AM) Limited (formerly GCap Media (AM) Limited. Both investments were fully written down.

3. STAFF COSTS

The Company does not directly employ any staff (2013: nil).

4. DIRECTORS' REMUNERATION

During the year ended 31 March 2014 MD Connole, RFJ Park and SG Miron received remuneration from Global Radio Services Limited and the majority of their time was spent on services to This is Global Limited, the ultimate parent company. Details of their remuneration as directors of This is Global Limited are disclosed in that company's accounts.

None of the Directors received remuneration in respect of qualifying services to this Company (2013:£nil).

6. TAXATION (continued)

Factors that may affect future tax charges

On 20 March 2013 the Chancellor announced the reduction in the main rate of UK corporation tax to 21 per cent with effect from 1 April 2014. The Chancellor also proposed changes to further reduce the main rate of corporation tax by one per cent to 20 per cent by 1 April 2015; these changes were substantively enacted on 2 July 2013 and therefore the effect of the rate changes created a reduction in the deferred tax asset which has been included in the figures above. It is estimated that this will not have a material effect on the Company. There are no unrecorded deferred tax assets or liabilities.
