Notes to the financial statements for the year ended 31 December 2011

1. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards

The company has net liabilities of £52,836,725 (2010 £50,331,554) A group undertaking, The Peninsular and Oriental Steam Navigation Company, has given a written undertaking that it will continue to support the Company and its present activities. The directors acknowledge that there can be no certainty that this support will continue, although they have no reason to believe that it will not do so. Based on this undertaking, the directors consider it remains appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustments that would result from the basis of preparation being inappropriate.

12 Cash flow

The company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1

1.3 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction

Exchange gains and losses are recognised in the Profit and loss account

1.4 Derivative financial instruments

Interest swaps

Gross amounts payable and receivable in respect of interest rate swaps are recognised in the profit and loss account over the period of the contracts

1.5 Related party transactions

The company has taken advantage of the exemption contained in Financial Reporting Standard No 8 "Related Party Disclosure" as it is a wholly-owned subsidiary of The Peninsular and Oriental Steam Navigation Company. Therefore the company has not disclosed transactions or balances with entities that form part of the Group headed by The Peninsular and Oriental Steam Navigation Company. There were no other related party transactions in the year.

Notes to the financial statements for the year ended 31 December 2011

Accounting policies (continued)

1.6 Taxation

UK corporation tax is provided on taxable profits at the current rate. The charge for taxation is based on the profit or loss for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet dates except as otherwise required by Financial Reporting Standard 19 (Deferred Tax)

2. Operating profit

The operating profit is stated after crediting

	2011	2010
	£	£
Difference on foreign exchange	(10,457)	(684,778)

During the year, no director received any emoluments (2010 - £NIL)

The directors do not believe that it is practical to apportion emoluments between their services as directors of the company and their services as directors/employees of other group companies

Fees for audit and non-audit services provided by KPMG LLP to the company have been borne by other group companies. The fees for the year were £4,000 (2010 £4,000) and £NIL (2010 £NIL) in respect of audit and non-audit services, respectively

Notes to the financial statements for the year ended 31 December 2011

4. Taxation (continued)

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2010 - higher than) the standard rate of corporation tax in the UK of 26 5% (2010 - 28%) The differences are explained below

	2011 £	2010 £
Loss on ordinary activities before tax	(3,427,828)	(3,416,817)
Loss on ordinary activities multiplied by standard rate of corporation tax in the UK of 26 5% (2010 - 28%)	(908,374)	(956,709)
Effects of:		
Adjustments to tax charge in respect of prior periods Other differences leading to an (increase) / decrease in the tax	(14,283)	20,349
credit	-	14,281
Transfer pricing adjustment	-	6,381
Current tax credit for the year (see note above)	(922,657)	(915,698)

Factors that may affect future tax charges

In his budget on 21 March 2012, the Chancellor of the Exchequer announced a decrease in the rate of UK corporation tax from 26% to 24% from 1 April 2012, and then by a further 1% per annum to 22% by 2014. This is an acceleration of the reductions enacted in the Finance Act 2011 which reduced the main rate of corporation tax to 25% from April 2012. The rate change will impact the amount of the future tax charges recognised by the company. However, it is not considered to have any material effect on the current year results. The company will only recognise the impact of these rate changes in its financial statements once they are substantively enacted.

Unrecognised deferred tax

A deferred tax asset of £407,750 (2010 £440,370) has not been recognised in respect of capital losses. This asset is unrecognised as there is uncertainty as to whether there will be suitable profits and gains available for offset in the future.
