NOTES TO THE ACCOUNTS FOR THE YEAR ENDED 31 JULY 2010

1. ACCOUNTING POLICIES

Basis of preparation

The accounts have been prepared in accordance with the Companies Act 2006 and all applicable accounting standards in the United Kingdom (UK GAAP)

These accounts have been prepared on a going concern basis and under the historical cost convention

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the Company operates

Consolidation

As the Company is a wholly owned subsidiary of Smiths Group plc which prepares publicly available consolidated group accounts, the Company has not prepared consolidated accounts as permitted by section 400 of the Companies Act 2006

Investments

The Company's investment in shares in group companies are stated at cost less provision for impairment Any impairment is charged to the profit and loss account as it arises

Trade and other debtors

Trade debtors are initially recognised at fair value and subsequently measured at amortised cost, less any appropriate provision for estimated irrecoverable amounts. A provision is established for irrecoverable amounts when there is objective evidence that amounts due under the original payment terms will not be collected.

Financial assets

Financial assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price used includes transaction costs unless the asset is being fair valued through the profit and loss account.

The classification of financial assets depends on the purpose for which the assets were acquired Management determines the classification of an asset at initial recognition and re-evaluates their designation at each reporting date. Assets are classified as loans and receivables, or financial assets where changes in fair value are charged (or credited) to the profit and loss account.

The subsequent measurement of financial assets depends on their classification. Loans and receivables are measured at amortised cost using the effective interest method. Financial assets where changes in fair value are charged (or credited) to the profit and loss account are subsequently measured at fair value. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit and loss' category are included in the profit and loss account in the period in which they arise

Financial assets are derecognised when the right to receive cash-flows from the assets has expired or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership

Financial liabilities

Borrowings are initially recognised at the fair value of the proceeds, net of related transaction costs. These transaction costs and any discount or premium on issue are subsequently amortised under the effective yield method through the profit and loss account as interest over the life of the loan, and added to the liability disclosed in the balance sheet. Related accrued interest is included in the borrowings figure.

Borrowings are classified due within one year unless the Company has an unconditional right to defer settlement of the liability for at least one year after the balance sheet date
