BRIGADE PROPERTIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES

Basis of accounting

Brigade Properties Limited (the "Company") is a company limited by shares and incorporated in the UK. The Company's Registered Office is Freshwater House, 158-162 Shaftesbury Avenue, London WC2H 8HR.

These financial statements were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102")*. The presentation currency of these financial statements is sterling.

The financial statements have been prepared under the historical cost convention except that investment property is measured at fair value.

The financial statements have been prepared in accordance with the accounting principles appropriate to a going concern, as the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due, based on the net current asset position of the company and available sources of finance.

In the transition to FRS 102 from old UK GAAP, the Company has made measurement and recognition adjustments. An explanation of how the transition to FRS 102 has affected the financial position and financial performance of the Company is provided in note 14.

FRS 102 grants certain first-time adoption exemptions from the full requirements of FRS 102 in the transition period. The following exemption has been taken in these financial statements:

- Lease arrangements – in order to determine whether an arrangement contains a lease, the Company has analysed facts and circumstances existing at 1 April 2012 rather than commencement date of the arrangement.

The Company's ultimate parent undertaking, The Raphael Freshwater Memorial Association Limited, includes the Company in its consolidated financial statements. The consolidated financial statements of The Raphael Freshwater Memorial Association Limited are prepared in accordance with the Charities SORP and are available to the public and may be obtained from Freshwater House, 158-162 Shaftesbury Avenue, London WC2H 8HR.

In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures :

- Reconciliation of the number of shares outstanding from the beginning to the end of the period;
- Cash Flow Statement and related notes; and
- Key Management Personnel compensation.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Judgements made by the directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 13.

BRIGADE PROPERTIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES *(continued)*

Related parties transactions

The company has taken advantage of the exemptions in FRS 102 in order to dispense with the requirement to disclose transactions with other companies in the Raphael Freshwater Memorial Association Limited group.

Turnover

Turnover comprises rents and charges receivable and is derived wholly from operations in the UK.

Acquisitions and disposals of properties

Acquisitions and disposals are considered to have taken place at the date of legal completion and are included in the financial statements accordingly.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all its financial liabilities.

Basic financial instruments

Trade and other debtors

Trade and other debtors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate for a similar debt instrument.

Trade and other creditors

Trade and other creditors are recognised initially at transaction price less attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate for a similar debt instrument.

Investment property

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are recognised initially at cost.

Subsequent to initial recognition

- i. Investment properties whose fair value can be measured reliably without undue cost or effort are held at fair value. Any gains or losses arising from changes in the fair value are recognised in the profit and loss account in the period that they arise; and
- ii. No depreciation is provided in respect of investment properties applying the fair value model.

This treatment, as regards the company's investment properties, may be a departure from the requirements of the Companies Act concerning depreciation of fixed assets. However, these properties are not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the financial statements to give a true and fair view. Depreciation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

BRIGADE PROPERTIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES *(continued)*

Investment property *(continued)*

Investment property fair value is based on a valuation by an external, independent valuer, having an appropriate recognised professional qualification and recent experience in the location and class of property being valued. Any gain or loss arising from a change in fair value is recognised in the profit and loss account.

Profit on disposal of investment property includes the net proceeds from lease extensions.

Income and Expenses

Interest receivable and Interest payable

Interest income and interest payable are recognised in the profit and loss account as they accrue, using the effective interest method. Borrowing costs that are directly attributable to the acquisition, construction or redevelopment of an asset that takes a substantial time to be prepared for use are expensed as incurred.

Interest receivable and similar income include interest receivable on intercompany loans and late payment charges.

Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is expected tax payable or receivable on the taxable income or loss for the year, using rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Provision is made for consideration payable to or receivable from other group undertakings for the surrender of losses under group relief provisions.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is provided in respect of the additional tax that will be paid or avoided on differences between the amount at which an asset (other than goodwill) or liability is recognised in a business combination and the corresponding amount that can be deducted or assessed for tax.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date. For investment property that is measured at fair value, deferred tax is provided at the rate and allowances applicable to the sale of the property.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

A reduction in the rate from 23% to 21% (effective from 1 April 2014) and to 20% (effective from 1 April 2015) were substantively enacted on 2 July 2013. This will reduce the company's future current tax charge. The deferred tax liability at 31 March 2014 has been calculated based on the rate of 20%.

The historical cost of investment properties at 31 March 2014 is £165,167 (2013: £126,858).

An independent professional revaluation of all the Company's property was carried out at 31 March 2014 by Colliers International Property Advisers UK LLP, RICS Registered Valuers. The revaluation figures are based on open market value assessed in accordance with the RICS Valuation – Professional Standards (2014).

Valuation techniques and key inputs

The company's residential apartments and houses (£512,800) were valued using a sales valuation approach, derived from recent comparable transactions in the market, adjusted by applying discounts to reflect status of occupation and condition. The largest discounts were applied to those properties subject to registered tenancies, reflecting the relative difference in security of tenure, whilst the smallest discounts were applied to those properties subject to assured shorthold tenancies. Sales value assumptions were in the range £371 to £1,100 per square foot.

The company's commercial units (£110,000) were valued using the income capitalisation method, requiring the application of an appropriate market based yield to net operating income. Adjustments are made to allow for voids when less than five years are left under the current tenancy and to reflect market rent at the point of lease expiry or rent review. Equivalent yields used fell in the range 5.20% to 7.19% with an average of 5.78% and estimated rental values used fell in the range £9.00 to £40.50 per square foot, with an average of £19.71 per square foot.

The company is controlled by its ultimate parent undertaking, The Raphael Freshwater Memorial Association Limited, a company incorporated in England for charitable purposes. The Raphael Freshwater Memorial Association Limited has no controlling party.

13. ACCOUNTING ESTIMATES AND JUDGEMENTS

i. Property valuations

The valuation of the company's property portfolio is inherently subjective, depending on many factors, including the individual nature of each property, its location and expected future net rental values, market yields and comparable market transactions (as set out in Note 5). Therefore the valuations are subject to a degree of uncertainty and are made on the basis of assumptions which may not prove to be accurate, particularly in periods of difficult market or economic conditions. As noted in Note 1 above, all the company's properties are valued by external valuers with appropriate qualifications and experience.

ii. Trade debtors

Management uses details of the age of trade debtors and the status of any disputes together with external evidence of the credit status of the counterparty in making judgements concerning any need to impair the carrying values.

14. EXPLANATION OF TRANSITION TO FRS 102 FROM OLD UK GAAP

As stated in Note 1, these are the Company's first financial statements prepared in accordance with FRS 102.

The accounting policies set out in Note 1 have been applied in preparing the financial statements for the year ended 31 March 2014 and the comparative information presented in these financial statements for the year ended 31 March 2013.

In preparing its FRS 102 balance sheet, the Company has adjusted amounts reported previously in financial statements prepared in accordance with its old basis of accounting (UK GAAP). The following were changes in accounting policies arising from the transition to FRS 102:

(i) **Investment Properties**

Previously the company's properties continued to be categorised as trading properties, shown in the balance sheet as stock within current assets, at the lower of cost and net realisable value. Under FRS 102 these properties fall to be categorised as investment properties within fixed assets and are held at fair value, with changes in fair value being recorded in the profit and loss account.

(ii) **Deferred tax on unrealised investment property gains and losses**

Previously no deferred tax arose on the company's properties as there were no timing differences between the accounting and tax treatment of any movements in carrying value. Under FRS 102, deferred tax is recognised on the difference between the cost for tax purposes and the fair value of the company's investment properties, with movements recorded in the profit and loss account.
