Directors report

The directors present their annual report on the affairs of the Company together with the financial statements for the year ended 31 December 2017.

Principal activities and business review

The Company did not trade, received no income and incurred no expenditure during the current and preceding financial year and has made neither a profit nor a loss. Therefore, the Company has prepared dormant company accounts for the year ended 31 December 2017.

The Directors are satisfied with the performance of the Company during the year as it continues to support the rest of the Group through its role as a dormant company within the Group.

Post balance sheet events

On 22 May 2018, the Wyevale Garden Centres Group was put up for sale by Terra Firma, the ultimate parent undertaking as it seeks to complete a full exit for investors from its third fund, TFCPIII. Christie & Co, the specialist business property advisor, has been appointed to explore a wide range of sales options for the business, from a sale of the whole business right through to individual garden centres. The Group and its individual garden centres are expected to be attractive to a wide range of buyers, from financial institutions through to existing garden centre operators and local entrepreneurs.

Notes to financial statements
For the year ended 31 December 2017

1. General information

Great Gardens of England Investments Limited is a Company incorporated in the United Kingdom under the Companies Act 2006.

These accounts represent the year from 26 December 2016 to 31 December 2017.

The Company is exempt from the preparation of consolidated financial statements because it is included in the group accounts of Wyevale Garden Centres Capital Limited. The group accounts of Wyevale Garden Centres Capital Limited are available to the public and can be obtained as set out in note 8.

2. Significant accounting policies

Basis of accounting

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs). The financial statements have also been prepared in accordance with the IFRSs adopted by the European Union and therefore comply with Article 4 of the EU IAS Regulation.

The financial statements have been prepared on the historical cost basis.

The Company has opted to apply Section 390 (3) of the Companies Act 2006. This permits the Company to end its financial year on 31 December 2017 (2016: 25 December 2016) as it is not more than 7 days after or before the end of the year dated 31 December 2017 (2016: 31 December 2016).

The principal accounting policies adopted are set out as follows:

Financial assets

Financial assets are assessed for indicators of impairment at each Balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty
- default in interest or principal payments
- it becoming probable that the borrower will enter bankruptcy

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account.

Other receivables

Other receivables are measured at initial recognition at their fair value, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in the Income statement when there is objective evidence that the asset is impaired.

2. Significant accounting policies (continued)

Impairment of tangible and intangible assets excluding goodwill

The Group in which the Company is a member, reviews the carrying amounts of its tangible and intangible assets annually, to determine whether there is any indication those assets have suffered an impairment loss. If any such loss exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less disposal costs and value in use. In assessing the value in use, the estimated future cash flows are discounted to their present value using the Group's weighted average cost of capital. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the cash generating units. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Investments

Investments are stated at cost less any provision for impairment. Cost of investments includes costs directly attributable to their acquisition.

Share capital

Share capital represents the ordinary shares issued by the Company and are recorded at the proceeds received, less direct issue costs.

3. Investments

During the year the company dissolved its dormant company investment.
