Structure, governance and management

The charity is a company limited by guarantee. The registered company number is 00790125 (England and Wales) and the registered charity number is 1039817 .

The company's governing document is its Memorandum and Articles of Association. Each member has undertaken to contribute a maximum of £1 to the assets of the company in the event of its winding up.

Directors

The members of the Board are each elected by the membership and serve for three years.

At the 2022 Annual General Meeting Messrs S G W Currinn and G Farr stood down by rotation having completed their elected period. All were re-elected to serve.

G Farr was subsequently re-elected as Chairman and N Pell elected as Deputy Chairman.

Statement of Directors' Responsibilities for the Financial Statements

The directors, who are also trustees for the purposes of the Charities Acts, are required by law to prepare financial statements which give a true and fair view of the state of affairs of the charity at the end of the financial year, and of the financial activities and total recognised gains or losses for the year.

The directors are of the opinion that, in preparing the financial statements, appropriate accounting policies have been consistently applied, supported by reasonable and prudent estimates and judgements and all applicable accounting standards have been followed. They are also satisfied that the charity has adequate resources to meet its operational needs for the foreseeable future, and accordingly, we continue to adopt the going concern basis in preparing the financial statements.

The directors are responsible for ensuring that the charity keeps accounting records which disclose with reasonable accuracy the financial position of the charity, and which enable us to ensure that the accounts comply with the Companies Act 2006 and Statement of Recommended Practice; Accounting and Reporting by Charities. The directors are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Objectives and activities

In pursuing the charity's objectives set out in its Memorandum of Association the directors continue to give careful consideration to the advice of the Charity Commission on public benefit. These objectives include:

- a) to advance the education of the public in matters concerning railways; and
- b) for the public benefit to provide or assist in the provision of facilities for the recreation and other leisure time operations in the interest of social welfare and with the object of improving conditions of life, with particular reference to the former narrow gauge railway between Dinas and Porthmadog known as the Welsh Highland Railway.

The charity is continuing to develop its conservation work, and its interpretation to visitors to its operation in Porthmadog, including making further improvements to:

- a) its museum/heritage centre, which illustrates the development of narrow gauge railways in the area and around the world;
- b) its demonstration railway which links physically with the re-instated Welsh Highland Railway at Pen-y-Mount Junction; and
- c) the railway rolling stock and other railway artifacts in its care.

All are collectively marketed as the 'Welsh Highland Heritage Railway'.

Members' continued support in this is vital, whether as volunteers, donors or simply by supporting from a distance.

Strategic report

The following sections for achievements and performance and financial review form the strategic report of the charity.

Achievements and performance

Covid-19

The Covid-19 pandemic had a more limited impact on the Company's activities in 2022 compared with 2021 and 2020. Trains were operated and the museum opened on 144 days in 2022, compared with 82 days in 2021, 12 days in 2020 and 145 days in 2019. Frequencies continued to be reduced from those previous to 2020 whilst keeping the overall experience as close as possible to what has normally been offered.

To help cover fixed and revenue expenditure 'The Resilience Fund' emergency appeal continued to be promoted and Welsh Government business rate related financial support continued to be sought.

Visitor Numbers

Based on tickets sold the total number of visitors in 2022 was 8,563 compared with 4,474 for 2021, 561 for 2020 and 8,564 for 2019.

Museum/Heritage Centre

The museum, the newer part of which was completed in 2009, continues to be the centrepiece of our offer to our visitors. It contains a wide range of exhibits illustrating the development of the various narrow-gauge railways that operated in the area. There is an emphasis on participation, with visitors able to access several exhibits providing an interactive 'hands on' experience. It takes in the carriage shed, erected in 1984, which continues to house the locomotives and other operational rolling stock of the railway.

Train Service

The timetable remains under constant review, both in terms of days of operation, and the service offered. Our passenger numbers continue to be heavily dependent on public and school holidays, with daily patterns fluctuating according to weather conditions. Passenger reaction will continue to be monitored.

Fares were increased for 2022, examples being adult to £11.50 (from £10.75) and family to £30.00 (from £28.25).

Public comments suggest that our offer continues to represent good value for money.

All services have operated between Porthmadog and Pen-y-Mount.

Miniature Railway

The miniature railway continues to be very popular with our visitors.

Marketing

We have continued to use Facebook to provide a frequent stream of news, photographs and details of new sales items. This costs little more than time and is also a way of engaging instantly with potential customers.

In pursuit of our search for new markets, we have continued to participate in the re-invigorated Great Little Trains of Wales marketing panel, now formally constituted as Great Little Trains of Wales Limited.

There continues to be a need for better researched information to help inform decisions on marketing strategy

Volunteers

A small but faithful band of volunteers maintains the company's operations and infrastructure. We are pleased to have recruited several young enthusiastic staff to the railway who constitute a very welcome addition to complement those active but aging retirees who form the other significant group.

The company suffers from the same problems of recruitment which affect other heritage railways, and voluntary organisations in general.

Membership

Membership numbers stabilised during the year. For historic reasons a disproportionate number of our members are life members.

The membership total at the end of 2022 was 502 (502 in 2021), made up of Life 276 (was 280), Senior 138 (was 136), Full 45 (was 48), Associate 10 (was 14), Family 22 (was 13), Junior 2 (was 2), and Unwaged 9 (was 9).

Locomotives and Rolling Stock

Russell and Gelert

Steam locomotive Gelert was used throughout the season, and Russell from June onwards following repairs.

Emma and Glaslyn

Diesel locomotive Emma worked the majority of turns, with Glaslyn as standby.

Baldwin

This locomotive, which was the subject of a long-term loan arrangement with the Imperial War Museum, continued to be away in the workshops of Vale of Rheidol Trading Ltd, who have contracted to complete its rebuilding. Physical work began in early 2019, with completion in 2023 envisaged due to delays caused by the pandemic. Ownership transferred to the Company in January 2023 and the largely rebuilt locomotive was delivered back to our railway in May 2023.

Kathy

Overhaul of Kathy continued, based at Gelert's Farm. Completion and commissioning will provide welcome relief for Glaslyn, which has given forty years of service as main or standby passenger diesel locomotive.

Heritage Train

The rebuild of 'Toastrack' No. 42 has continued, based at Gelert's Farm, scheduled for completion in 2023. Sponsorship is in place to equip one or more of our existing heritage carriages with dual braking to enable interoperability with Festiniog Railway Company equipment. The replica Pickering brake carriage built by the Festiniog Railway Company at the latter's Boston Lodge Works and completed in 2021 has continued to operated successfully. We now have two carriages incorporating access for

disabled passengers.

Health and Safety

The directors take the view that the safety of the travelling public and those working on the railway is paramount. We are pleased that the charity was able to maintain its good safety record during 2022.

Land and Buildings

Detailed plans have been drawn up for recladding of the carriage shed to bring it up to a standard commensurate with its additional museum function. An initial financial contribution towards a completed refurbishment has been received.

Construction will be dependent on our being able to secure additional finances. Temporary repairs to the roof undertaken in 2020 are approaching the end of their useful life.

Replacement of the machine workshop roof was substantially completed in 2022 and a start was made on recladding the locomotive shed. Further works on the Company's land at Cae Hir continue to be temporarily deferred.

Risk Management

Detailed assessments of the risks facing the charity have been drawn up as part of a series of business plans prepared over the years, the most recent having been adopted by the Board in 2009. This is kept under constant review, with the risks identified being taken into account informally as part of the day to day operation of the company. The directors are working towards the preparation of a new business plan, including a more comprehensive risk management strategy.

Staff and Directors

The directors wish to thank all of our members, volunteers, paid staff and sponsors for their manifold contributions during 2022. Our successes could not have been achieved without the hard work of a great many people, whether for just a few hours volunteering, or from a distance.

Access to the railway beyond Pen-y-mount

The co-operation with the Festiniog Railway Company initiated in recent years has resumed with the setting up of a joint working group, also including Cymdeithas Rheilffordd Eryri and the Welsh Highland Railway Heritage Group, tasked with organising joint celebrations of the centenary of the opening of the original Welsh Highland Railway. In June 2022 Russell and our heritage train played a key part in a re-enactment of the re-opening of the section between Dinas and Rhyd Ddu one hundred years previously. A substantial start was made on planning re-enactments to take place in 2023 of the events surrounding the original opening of the section between Rhyd Ddu and Porthmadog.

Financial review

The results for the year are summarised in the Statement of Financial Activities on page 10, showing a net deficit on unrestricted funds of £18,533 (2021: £11,835), together with donations received for Special Projects of £77,513 (2021: £28,352).

There was a deficit on operating the railway of £40,408 (2021: £35,221) before donations.

Gross income from operating the Railway, including the contributions from the gift shop and cafe, amounted to £82,544 (2021: £37,598). Operating costs amounted to £123,335 (2021: £72,819).

Significant items in operating costs include wages £12,585 (2021: £5,694), insurance £16,115 (2021: £11,610), marketing £6,005 (2021: £2,686) and depreciation £28,125 (2021: £25,784).

Other income offsetting the operating deficit consisted of donations to general funds of £9,654 (2021: £16,413), donations to the 'Resilience Fund' of £1,867 (2021: £5,475), Welsh Government grants totalling £4,285 (2021: £17,785), and membership subscriptions of £6,704 (2021: £6,933). The costs of servicing the membership with Journals and other administration expenditure amounted to £4,859 (2021: £1,965).

Cwmni Rheilffordd Beddgelert cyf

As a charity we are required to operate our book and gift shop through a separate company in order to protect charity assets from commercial pressures. Shop sales increased to 55,390 (2021: £36,960) resulting in a net surplus of £930 (2021: £4,001) after overheads. Cwmni Rheilffordd Beddgelert cyf bears half the staff wage cost of the ticket office and shop plus all the running costs of the building.

Reserves Policy

The directors currently have a policy to maintain unrestricted reserves to support an operating season's expenditure costs. This is reviewed based on activities and the nature of the charitable company's income streams. The calculation of the required reserves is an integral part of the charitable company's planning and budgeting processes and is reviewed on an annual basis. When capital expenditure has been authorised by the Trustees on projects that have been the subject of a specific appeal, the company transfers an equivalent sum from restricted funds to unrestricted reserves in order to recognise the expenditure during the year on the relevant project.

Restricted Funds (Special Projects)

There is a table under note 23 showing the donations received under fundraising for special projects, together with expenditure charged against each fund and the cumulative position.

The trustees' annual report and the strategic report were approved on 16 October 2023 and signed on behalf of the board of trustees by:

Mr C R Willby

Independent Examiner's Report to the Trustees of Welsh Highland Railway Limited Year ended 31 December 2022

I report to the trustees on my examination of the financial statements of Welsh Highland Railway Limited ('the charity') for the year ended 31 December 2022.

Responsibilities and basis of report

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act. **Independent examiner's statement**

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Mrs J.L. Roach A.C.A. Independent Examiner

Welsh Highland Railway Limited

Company Limited by Guarantee

Notes to the Financial Statements

Year ended 31 December 2022

1. General information

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is The Station Building, Tremadog Road, Porthmadog, Gwynedd, LL49 9DY.

2. Statement of compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through income or expenditure.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Going concern

There are no material uncertainties about the charity's ability to continue.

Consolidation

The charity is not required to prepare consolidated accounts in accordance with the Charities Act 2011, and has taken advantage of the option not to prepare consolidated financial statements contained in Section 398 of the Companies Act 2006 on the basis that the charity and its subsidiary undertakings comprise a small group.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Fund accounting

Unrestricted funds are available for use at the discretion of the trustees to further any of the charity's purposes. Designated funds are unrestricted funds earmarked by the trustees for particular future project or commitment. Restricted funds are subjected to restrictions on their expenditure declared by the donor or through the terms of an appeal, and fall into one of two sub-classes: restricted income funds or endowment funds.

Incoming resources

All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income: - income from donations or grants is recognised when there is evidence of entitlement to the gift, receipt is probable and its amount can be measured reliably. - legacy income is recognised when receipt is probable and entitlement is established. - income from donated goods is measured at the fair value of the goods unless this is impractical to measure reliably, in which case the value is derived from the cost to the donor or the estimated resale value. Donated facilities and services are recognised in the accounts when received if the value can be reliably measured. No amounts are included for the contribution of general volunteers. - income from contracts for the supply of services is recognised with the delivery of the contracted service. This is classified as unrestricted funds unless there is a contractual requirement for it to be spent on a particular purpose and returned if unspent, in which case it may be regarded as restricted.

Resources expended

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is classified under headings of the statement of financial activities to which it relates: - expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods. - expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities. - other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other recognised gains and losses, unless it reverses a charge for impairment that has previously been recognised as expenditure within the statement of financial activities. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other recognised gains and losses, except to which it offsets any previous revaluation gain, in which case the loss is shown within other recognised gains and losses on the statement of financial activities.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Freehold property	-	2% straight line
Rail, rolling stock and plant and machinery	-	Various rates between 10% reducing balance and 2% to 50% straight line

Investments in associates

Investments in associates accounted for in accordance with the cost model are recorded at cost less any accumulated impairment losses. Investments in associates accounted for in accordance with the fair value model are initially recorded at the transaction price. At each reporting date, the investments are measured at fair value, with changes in fair value taken through income or expenditure. Where it is impracticable to measure fair value reliably without undue cost or effort, the cost model will be adopted. Dividends and other distributions received from the investment are recognised as income without regard to whether the distributions are from accumulated profits of the associate arising before or after the date of acquisition.

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets. For impairment testing of goodwill, the goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the charity are assigned to those units.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

Government grants

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the charity will comply with the conditions attaching to them and the grants will be received. Where the grant does not impose specified future performance-related conditions on the recipient, it is recognised in income when the grant proceeds are received or receivable. Where the grant does impose specified future performance-related conditions on the recipient, it is recognised in income only when the performance-related conditions have been met. Where grants received are prior to satisfying the revenue recognition criteria, they are recognised as a liability.

Financial instruments

A financial asset or a financial liability is recognised only when the charity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the amount receivable or payable including any related transaction costs. Current assets and current liabilities are subsequently measured at the cash or other consideration expected to be paid or received and not discounted. Debt instruments are subsequently measured at amortised cost. Where investments in shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in income and expenditure. All other such investments are subsequently measured at cost less impairment. Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Other financial instruments are subsequently measured at fair value, with any changes recognised in the statement of financial activities, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised under the appropriate heading in the statement of financial activities in which the initial gain was recognised. For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics. Any reversals of impairment are recognised immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

4. Limited by guarantee

The charity is a company limited by guarantee, having no issued share capital. In the event of the charity being wound up the liability in respect of the guarantee is limited to £1 per member of the charity. The number of members at 31 December 2022 was 519 (2021: 517).

5. Donations and legacies

	(169,128)	(77,513)	81,472	—	(165,169)

The Restricted Funds above arise from appeals for donations to enable the Trustees to undertake specific capital expenditure which is beyond the resources of the everyday operation of the railway.

Baldwin 590

Until the end of 2022 this locomotive was on long term loan from the Imperial War Museum on the understanding that it will returned to operation on our railway, in the guise of 590, one of the original three locomotives on the Welsh Highland. To date we have purchased a boiler and a contract has been signed with Vale of Rheidol Trading Ltd for the completion of the rebuilding of this locomotive. Physical work began early 2019, with completion envisaged in 2023. Ownership transferred to the Company in in January 2023 and the largely rebuilt locomotive was delivered back to our railway in May 2023.

Gelert

Ownership of Gelert is now in the hands of a formally constituted charitable trust, the use of the locomotive being subject of a formal long-term loan arrangement with the company.

Russell

Russell is owned by the company and is the one surviving locomotive from the original Welsh Highland. The Trustees wish this fund to continue in order to assist in future maintenance.

Karen

Karen is owned by a consortium of members and the company, and is currently an important exhibit in the museum. Karen was the first steam locomotive operated by the company in 1983.

Heritage Train Fund

This fund was instigated to raise funds for the restoration and maintenance of rolling stock other than locomotives, including the original Welsh Highland Buffet Car and replica coach 25. Fundraising has continued in order to restore and construct other Welsh Highland rolling stock in the future.

Extension Fund

This fund commenced more than 20 years ago to raise funds for the rebuilding of the part of the original Welsh Highland trackbed that extends from our boundary to Pont Croesor. The company expended £158,263 of the funds raised, plus volunteer labour, but expenditure ceased when the Festiniog Railway Company took possession of the trackbed, requiring the company to eliminate the value of this work from the balance sheet. Some donors have generously continued their donations to the fund.

24. Analysis of net assets between funds

	Unrestricted Funds £	Restricted Funds £	Total Funds 2022 £
Tangible fixed assets	1,323,664	–	1,323,664
Investments	40,000	–	40,000
