1. STATUTORY INFORMATION

The Institute of Pharmacy Management International Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

In September 2016, the Board resolved that the company would cease trading and be wound up in due course. Therefore, it had been decided that the going concern basis was no longer appropriate. However, in 2017-18, the majority of the board resigned and a new director was appointed who had plans to revive the Company.

Under the Company's Articles of Association, the company is required to have a quorum of more than 2 directors at a Board Meeting. The company currently only has one director so is operating outside its Articles of Association. In these circumstances, the company should be dissolved and the remaining reserves should be sent to an organisation with similar objectives.

Despite this, the director's intention is to revive the company and appoint new directors so the company has not been dissolved. However, at this stage, there have been no firm developments and no new directors have been appointed so these accounts have been prepared on a breakup basis. As the company has bank accounts and other assets and liabilities are expected to be realised or settled at their face value, no adjustments are required to the figures as they would have been presented on a going concern basis.

Turnover

Turnover represents Subscriptions received during the year and other income relating to the principal activity of the company.
