Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Tangible fixed assets

- 15% on reducing balance

Government grants

Grants relating to revenue are recognised in the Statement of Income on a systematic basis over the accounting periods in which the company recognises the related costs for which the grant is intended to compensate.

Grants that are received in respect of expenses or losses already incurred by the company are recognised in the Statement of Income in the accounting period in which the grant becomes receivable.

Grants to fund capital assets are initially recognised as a liability in the Statement of Financial Position and are not deducted from the carrying value of an asset. These grants are subsequently released as income in the Statement of Income on a systematic basis over the useful economic life of the relevant assets.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Statement of Income and Retained Earnings, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
