Strategic Report for the year ended 31 December 2019

The directors present their Strategic Report on the Company for the year ended 31 December 2019.

Principal activities

The Company manufactures and sells adhesives and resins for use in a wide variety of applications, which are broadly categorized into Forest Product Resins, Formaldehyde and Performance Resins.

Review of the business

Hexion UK Limited continues as the main trading entity for the Hexion business in the UK. The results for the financial year are set out in the Income Statement on page 10. Sales in the year has dropped by 12.5% to £105.9 million (2018: £121.1 million). The operating profit for the year 2019 is £7.3 million (2018: loss of £4.2 million) including a restructuring charge of £109,000 (2018: £5.3 million) and an impairment charge of £nil (2018: £2 million). The sales volume has declined from the prior year primarily due to the exit of the wax business as a result of Peterlee plant closure and partially due to the weak market demand. The company's contribution margin has improved as a result of the Peterlee plant closure, partially offset by unfavourable raw material costs in 2019.

As part of the Company's BREXIT plans, the Botlek operations was moved into a separate new subsidiary, Hexion Botlek B.V. (see Note 13).

The financial position of the Company at the year-end is set out in the Statement of Financial Position on page 11. The directors do not recommend the payment of a dividend for the year (2018: £10,000,000).

During the year a restructuring charge of £457,000 was made in respect of organizational changes within Hexion's global operations. (see Note 18)

In July 2018, the Company announced the decision to close its Peterlee plant. The announced closure would be in the interest of the Company's and the wider Hexion Group's overall business and would improve the overall performance of the Group's European forest products operations. Details of the closure provisions are provided in Note 18.

In 2019 the company's parent Hexion Inc., Hexion Holdings LLC, Hexion LLC and certain of Hexion Inc.'s subsidiaries filed voluntary petitions on 1 April 2019 for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. On 1 July 2019, in accordance with the terms of the Plan and the Confirmation Order, the Plan became effective and the Debtors emerged from bankruptcy, with a new ultimate parent undertaking. The European entities including the company were not part of this filing and were unaffected by this.

Future developments

The directors expect the Company to perform satisfactorily during the forthcoming financial year. In order to remain competitive in the future economic environment, the Company will continue to develop and enhance the relationship with all customers and focus efforts around productivity and cost reductions in both manufacturing and services.

Brexit

On 23 June 2016 a referendum was held and the outcome of the vote determined that the United Kingdom would leave the European Union, At the time of the signing of the statutory financial statements, the United Kingdom has left the European Union at midnight on 31 January 2020. A transition period is in place until 31 December 2020. During this period, all EU rules and regulations will continue to apply to the UK. The company continues to monitor the developments and potential impacts of Brexit.

Strategic Report for the year ended 31 December 2019 (continued)

Future developments (continued)

COVID-19

In March 2020, the World Health Organization categorized COVID-19 as a global pandemic. Subsequent to March 31, 2020, the global regions where the Company operates, continue to be impacted by COVID-19. During this pandemic, apart from guidelines published by local governments, the Company has implemented extra guidelines to further protect the health and safety of its employees as the Company continues to operate with its suppliers and customers. For example, the Company is following all legislatively-mandated travel directives in the various countries where it operates, and the Company has also put additional travel restrictions in place for its associates designed to reduce the risk from COVID-19. Additionally, the Company is utilizing extended work from home options to protect its office associates, while adjusting its meeting protocols and processes at its manufacturing sites. Overall, the Company expects COVID-19 impacts to challenge our business results throughout the remainder of 2020.

Principal risks and uncertainties

The directors believe that the Company's activities expose it to a number of financial risks, mainly around raw material pricing risk. Raw materials pricing remains competitive and it is not always possible to pass directly any increases to the end customer due to contractual or competitors' pricing policies. Also, the general economic environment continues to provide challenges to the business.

The financial risks the Company's operations are exposed to include price, credit, liquidity and cash flow risks. The directors apply Hexion Group policies that seek to limit any adverse financial effects of these risks and these policies are implemented by the Hexion Europe Finance Department. The Hexion Group has standard policies which set out specific guidance on how credit risk is managed. Liquidity risk is managed through a Hexion Europe cash pooling arrangement, which is used to maintain the working capital requirements of the Company on a day to day basis. Currency risk through trading in export markets in foreign currency is managed through forecasting sales and purchases. No hedge accounting is applied.

Financial key performance indicators

The directors focus on operating profit and measures to improve overall profitability, including by changing the product mix from commodity to specialty products and continuing to focus efforts around productivity and cost reductions in both manufacturing and service. These are kept under regular review by the directors and appropriate action taken as required.

Non-financial key performance indicators

The directors believe that the use of non-financial KPIs is not necessary for an understanding of the results and operations of the business.

This report was reviewed by the Board and signed on its behalf by:

A. Mertens Director

Date: 17 December 2020

Directors' Report for the year ended 31 December 2019

The directors present their Annual Report and the audited financial statements for the year ended 31 December 2019. All amounts disclosed in the financial statements are rounded to the nearest £'000.

Directors

The directors of the Company who were in office during the year and up to the date of signing the financial statements are disclosed on page 1.

Branches outside the UK

Hexion UK Limited operates in the Netherlands, where the Company owns a plant in Rotterdam that specializes in the production of formaldehyde. During the year, the company transferred Botlek operations from a branch into a new subsidiary, Hexion Botlek B.V. (see Note 13).

Employees

The Company supports the principle of equal opportunities. Its policy is that there should be no unfair discrimination on the grounds of sex, religion or race. Applications for employment by disabled persons are always fully considered, bearing in mind the respective aptitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the Company continues and the appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of a disabled person should, as far as possible, be identical to that of a person who does not suffer from a disability.

Consultation with employees or their representatives has continued at all levels, with the aim of ensuring that their views are taken into account when decisions are made that are likely to affect their interest. Employees are made aware of the financial and economic performance of their business unit and of the Company as a whole. Communication with employees continues through briefing groups and newsletters.

Health and safety

In all of Hexion operations product safety, employee health and safety, and environmental care are important elements in the development of the Company strategy. It is the responsibility of each Hexion company to ensure that corporate environmental policy is put into practice. This includes protecting the environment by limiting the environmental impact of operations, meeting the requirements of legislation and training employees on environmental health and safety concerns.

Dividends

The directors did not recommend dividend payments for the year ended 31 December 2019 (2018: £10,000,000).

Financial risk management

Details of the Company's financial risk management policies can be found within the 'Principal risks and uncertainties' section of the Strategic Report.

Going concern

After making enquiries, the directors confirm that the going concern basis has been adopted in preparing the Directors' Report and financial statements.

Research and development

The Company incurred expenditure amounting to £367,000 (2018: £423,000) on research and development during the year.

Political and charitable donations

The Company made no political or charitable donations in the year (2018: £nil).

Qualifying third party indemnity provision

The directors have an insurance policy in place to provide them with indemnity cover. The insurance policy was in force throughout the financial year and remains in force at the date of this report.

Directors' Report for the year ended 31 December 2019 (continued)

Statement by the directors in performance of their statutory duties in accordance with s172(1) of the Companies Act 2006

Directors duties

Directors of the Company, as those of all UK companies, must act in accordance with a set of general duties. These duties are detailed in section 172 of the UK Companies Act 2006 which is summarised as follows:

'a director of a company must act in the way they consider, in good faith, would be most likely to promote the success of the company for the benefit of its shareholders as a whole and, in doing so have regard (amongst other matters) to:

- · the likely consequences of any decisions in the long-term;
- · the interests of the company's employees;
- the need to foster the company's business relationships with suppliers, customers and others;
- the impact of the company's operations on the community and environment;
- the desirability of the company maintaining a reputation for high standards of business conduct;
- the need to act fairly as between shareholders of the company."

The following paragraphs summarise how the Directors' fulfil their duties:

Risk Management

We are a solutions provider utilising amino and phenolic resin technologies in order to serve and develop the needs of customers. Key markets served are construction, composites, briquetting and speciality adhesives in UK & Eire and other parts of the world. Customers are supplied through both internal manufacturing assets and tolling manufacturing partnerships that have been developed in order to adapt to changing market conditions. We need to ensure that the manufacturing operations are safe, flexible, reliable and sustainable with minimum waste. Managing risk is fundamental to our operational strategy and operating successfully. We consider the main risks are those associated with business outage, raw material availability, health and safety, compliance with regulatory standards, climate change and loss of business due to customer issues. Given the nature of our products and the regulatory environment we operate in we have a no risk appetite for breaches of policy and controls in critical areas, such are regulatory standards and health and safety issues. We have well defined review processes and controls to monitor and meet these goals. We also are able to draw on the wider Hexion corporate standards where required to help meet our objectives.

Our People

We are committed to operating a responsible business in an ethical manner. We recognise that we need a high performance team to succeed and people are at the heart of our business. For our business to succeed, we need to develop existing talent and bring new talent through whilst ensuring we operate as safely and efficiently as possible. All employees have annual training plans to ensure they are competent to perform their roles. We had an anonymous third party employee survey during the year and have developed action plans to address the matters raised by this. All employees attend regular Health and Safety meetings during the year. In line with company policy all accidents are reported to the corporate body under OSHA reporting regulations. No recordable accidents were recorded in 2019 on any of our UK sites.

Business Relationships

The company has a long history of resin production and we support our customers with close technical relationships helping them to achieve continuing success. Our principal customers have been trading with us for many years and our excellence in technical service, flexibility, and continuity has enabled long term volume growth. Close relationships with our major customers have required re-formulations and plant trials, delivering success in many areas. In 2019, new formulations were developed to reduce end use emissions including low emission wood binders for the Forest Products market. Regular and detailed communication between sales, technical and operations are scheduled to ensure customer needs are considered throughout the supply chain and manufacturing process. During the current year our strategy has been to targeted business growth in resins for foam and composite applications.

Directors' Report for the year ended 31 December 2019 (continued)

Statement by the directors in performance of their statutory duties in accordance with s172(1) of the Companies Act 2006 (continued)

Community and environment

We enable our employees to support the local communities around us. At Barry, in response to recent local flooding, we are an active member of the local community action panel and flood prevention group which consists of local businesses, regulators, members of the public, and the council. As part of our support, we regularly clear the local water course to assist with this effort. We recognise as part of our strategy our manufacturing operations need to be sustainable with minimum waste, which we continually improve via our capital expenditure program and ongoing other environmental efforts to reduce energy consumption. We comply with all environmental regulations and are certified to ISO standards where applicable.

Culture and values

We recognise the importance of having the right culture throughout the organisation. Our long-term success depends on achieving our strategic goals in the right way. We have a corporate culture which promotes 'Responsible Chemistry' looking for 'Responsible solutions that shape our future' and this governs the way we develop our business. We promote an open and honest culture and included in our core competences are empowerment, trust and teamwork and authenticity. All employees undertake regular training on ethics and integrity, ensuring standards are well communicated and a knowledge of good practice underpins all decisions.

Shareholders

We maintain a continuing effective dialogue with our shareholder and parent company. Our strategy and objectives are developed in conjunction with the wider Hexion Inc strategy. We do this by understanding the needs of our diverse customer base and the supply of high quality products backed by excellent service and support.

Statement of Directors' Responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements:
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' Report for the year ended 31 December 2019 (continued)

Disclosure of information to auditors

Each of the persons who are directors at the time this Directors' Report is approved have confirmed that:

- so far as that director is aware, there is no relevant audit information (i.e. information needed by the Company's auditors in connection with preparing their report) of which the Company's auditors are unaware; and
- that director has taken all steps that they ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

Post balance sheet events

On 27th September 2020, Hexion Inc. announced an agreement to sell its Phenolic Specialty Resins, Hexamine and European-based Forest Products Resins business to Black Diamond Capital Management, LLC and Investindustrial, including the Company. The transaction is due to complete in Q1 2021.

Independent auditors

The auditors, PricewaterhouseCoopers LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006. PricewaterhouseCoopers LLP have indicated their willingness to continue in office.

On behalf of the Board

Arno Mertens
Arno Mertens (Dec 17, 2020 08:36 GMT+1)

A. Mertens Director

Date: 17 December 2020

Independent auditors' report to the members of Hexion UK Limited

Report on the audit of the financial statements

Opinion

In our opinion, Hexion UK Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accounting Practice
 (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable
 in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the statement of financial position as at 31 December 2019; the income statement, the statement of comprehensive income, the statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may
 cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting
 for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Independent auditors' report to the members of Hexion UK Limited (continued)

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2019 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities Statement set out on page 6, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Jonathan Bound (Senior Statutory Auditor) for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors Cardiff

Notes to the financial statements

1. General information

Hexion UK Limited ('the Company') designs and manufactures chemicals. The Company has manufacturing plants in the UK and sells primarily to the UK and the rest of Europe. The Company is incorporated and domiciled in the UK and is part of Hexion Inc., a world leader in specialty chemicals. The address of its registered office is Sully Moors Road, Penarth, South Glamorgan, CF64 5YU.

2. Statement of compliance

The individual financial statements of Hexion UK Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

These financial statements are prepared on a going concern basis, under the historical cost convention, as modified by the certain financial assets and liabilities measured at fair value through profit or loss.

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4

(b) Going concern

The Company meets its day-to-day working capital requirements through the group's centralized treasury arrangements and shares a cash pooling arrangement with other Hexion operations in Europe. The directors, having assessed the responses of the directors of the Company's parent Hexion Inc., have no reason to believe that a material uncertainty exists that may cast significant doubt on the ability of Hexion Inc. to continue as a going concern or its ability to continue with the current banking arrangements.

On this basis of this assessment, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. The Company therefore continues to adopt the going concern basis in preparing its financial statements.

(c) Exemptions for qualifying entities under FRS 102

The Company has taken advantage of the exemption, under FRS 102 paragraph 1.12(b), from preparing a statement of cash flows, on the basis that it is a qualifying entity and its parent company, Hexion Inc., includes the Company's cash flows in its own consolidated financial statements. In addition, the Company has taken advantage of the exemption, under FRS 102 paragraph 26.18(b), 26.19 to 26.21 and 26.23, concerning group equity instruments and has not disclosed the share-based payments of any director as they are share-based payment arrangements which concern equity instruments of the Hexion group entity. Equivalent disclosures have been made in the group's consolidated financial statements.

(d) Foreign currency

(i) Functional and presentational currency

The Company's functional and presentational currency is the pound sterling.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

Notes to the financial statements

3. Summary of significant accounting policies (continued)

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the Income Statement except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Income Statement within 'finance (expense)/income'. All other foreign exchange gains and losses are presented in the Income Statement within 'other operating (losses)/gains'.

(e) Turnover recognition

Turnover is measured at the fair value of the consideration received or receivable and represents the amount receivable for goods supplied or services rendered, net of returns, discounts and rebates allowed by the Company and value added taxes.

The Company bases its estimate of returns on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

The Company recognizes turnover when (a) the significant risks and rewards of ownership have been transferred to the buyer; (b) the Company retains no continuing involvement or control over the goods; (c) the amount of turnover can be measured reliably; (d) it is probable that future economic benefits will flow to the entity and (e) when the specific criteria relating to each of the Company's sales channels have been met, as described below.

(i) Sale of goods

The Company shall recognise turnover from the sale of goods when all the following conditions are satisfied:

- (a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods:
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) the amount of turnover can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the entity, and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

(ii) Interest income

Interest income is recognized using the effective interest rate method.

(f) Exceptional items

The Company classifies certain one-off charges or credits that have a material impact on the Company's financial results as 'exceptional items'. These are disclosed separately to provide further understanding of the financial performance of the Company.

(g) Employee benefits

The Company provides a range of benefits to employees, including annual bonus arrangements, paid holiday arrangements and a contribution pension plan.

(i) Short term benefits

Short term benefits, including holiday pay and other similar non-monetary benefits, are recognised as an expense in the period in which the service is received.

Notes to the financial statements

3. Summary of significant accounting policies (continued)

(ii) Defined contribution pension plans

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations. The contributions are recognized as an expense when they are due. Amounts not paid are shown in accruals in the Statement of Financial Position. The assets of the plan are held separately from the Company in independently administered funds.

(iii) Annual bonus plan

The Company operates an annual bonus plan for employees. An expense is recognized in the Income Statement when the Company has a legal or constructive obligation to make payments under the plan as a result of past events and a reliable estimate of the obligation can be made.

(h) Taxation

Taxation expense for the period comprises current and deferred tax recognized in the reporting period. Tax is recognized in the Income Statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case tax is also recognized in other comprehensive income or directly in equity respectively.

Current or deferred taxation assets and liabilities are not discounted.

(i) Current tax

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) Deferred tax

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognized in financial statements.

Deferred tax is recognized on all timing differences at the reporting date except for certain exceptions. Unrelieved tax losses and other deferred tax assets are only recognized when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

(i) Intangible assets

Computer software is stated at cost less accumulated amortization and accumulated impairment losses. Software is amortized over its estimated useful life, of between three and five years, on a straight line basis.

Where factors, such as technological advancement or changes in market price, indicate that residual value or useful life have changed, the residual value, useful life or amortization rate are amended prospectively to reflect the new circumstances.

The assets are reviewed for impairment if the above factors indicate that the carrying amount may be impaired.

Notes to the financial statements

3. Summary of significant accounting policies (continued)

(j) Tangible assets

Tangible assets are stated at cost (or deemed cost) less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price, costs directly attributable to bringing the asset to its working condition for its intended use, dismantling and restoration costs and borrowing costs capitalized.

(i) Land and buildings

Land and buildings include freehold manufacturing sites and offices. Land and buildings are stated at cost less accumulated depreciation and accumulated impairment losses.

(ii) Plant and machinery

Plant and machinery are stated at cost less accumulated depreciation and accumulated impairment losses.

(iii) Depreciation and residual values

Land is not depreciated. Depreciation on other assets is calculated, using the straight-line method, to allocate the cost to their residual values over their estimated useful lives, as follows:

- Freehold land and buildings over periods up to 50 years
- Plant and machinery 5 30 years

During the year the company undertook a review of the useful economic lives of all its individual fixed assets. As a result, there were minor changes which resulted in an additional depreciation of charge of £28k.

(iv) Subsequent additions and major components

Subsequent costs, including major inspections, are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

The carrying amount of any replaced component is derecognized. Major components are treated as a separate asset where they have significantly different patterns of consumption of economic benefits and are depreciated separately over its useful life.

Repairs, maintenance and minor inspection costs are expensed as incurred.

(v) Assets in the course of construction

Assets in the course of construction are stated at cost. These assets are not depreciated until it is available for use.

(vi) De-recognition

Tangible assets are derecognised on disposal or when no future economic benefits are expected. On disposal, the difference between the net disposal proceeds and the carrying amount is recognised in profit or loss.

(k) Investments

Investments in subsidiary companies are held at cost less accumulated impairment losses.

(I) Leased assets

At inception the Company assesses agreements that transfer the right to use assets. The assessment considers whether the arrangement is, or contains, a lease based on the substance of the arrangement.

(i) Operating leased assets

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Payments under operating leases are charged to the Income Statement on a straight-line basis over the period of the lease.

Notes to the financial statements

3. Summary of significant accounting policies (continued)

(m) Inventories

Inventories are stated at the lower of historical cost and estimated selling price less costs to complete and sell. Inventories are recognized as an expense in the period in which the related revenue is recognized.

Cost is determined on the first-in, first-out (FIFO) method. Cost includes the purchase price, including taxes and duties and transport and handling directly attributable to bringing the inventory to its present location and condition. The cost of manufactured finished goods and work in progress includes design costs, raw materials, direct labour and other direct costs and related production overheads (based on normal operating capacity).

At the end of each reporting period, inventories are assessed for impairment. If an item of inventory is impaired, the identified inventory is reduced to its selling price less costs to complete and sell and an impairment charge is recognised in the Income Statement. Where a reversal of the impairment is recognised the impairment charge is reversed, up to the original impairment loss, and is recognised as a credit in the Income Statement.

(n) Cash at bank and in hand

Cash at bank and in hand includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

(o) Group relief

Group relief is surrendered to/received from other group companies for no consideration.

In specific circumstances, individual group companies may reach agreement between themselves to surrender and/or receive group relief for consideration within the tax on profit on ordinary activities in the Income Statement.

Should group relief be surrendered to/received from other group companies for consideration, the consideration paid will reflect, at a minimum, the corporation tax amounts surrendered and/or received. These amounts are reported as expenses or benefits within the tax on profit/(loss) on ordinary activities within 'Retained earnings'.

On a discretionary basis, group companies, may agree to compensate for amounts in excess of the corporation tax amounts surrendered and/or received. In this instance, the excess over the corporation tax amount is shown as a separate movement within the 'Retained earnings' reserve on the Statement of Financial Position.

(p) Impairment of non-financial asset

At each Statement of Financial Position date non-financial assets not carried at fair value are assessed to determine whether there is an indication that the asset (or asset's cash generating unit) may be impaired. If there is such an indication the recoverable amount of the asset (or asset's cash generating unit) is compared to the carrying amount of the asset (or asset's cash generating unit).

The recoverable amount of the asset (or asset's cash generating unit) is the higher of the fair value less costs to sell and value in use. Value in use is defined as the present value of the future cash flows before interest and tax obtainable as a result of the asset's (or asset's cash generating unit) continued use. These cash flows are discounted using a pre-tax discount rate that represents the current market risk-free rate and the risks inherent in the asset.

If the recoverable amount of the asset (or asset's cash generating unit) is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised in the Income Statement, unless the asset has been revalued when the amount is recognised in other comprehensive income to the extent of any previously recognised revaluation. Thereafter any excess is recognised in profit or loss.

Notes to the financial statements

3. Summary of significant accounting policies (continued)

If an impairment loss is subsequently reversed, the carrying amount of the asset (or asset's cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the Income Statement.

(q) Provisions and contingencies

(i) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

In particular:

- (a) Restructuring provisions are recognized when the Company has a detailed, formal plan for the restructuring and has raised a valid expectation in those affected by either starting to implement the plan or announcing its main features to those affected and therefore has a legal or constructive obligation to carry out the restructuring; and
- (b) Provision is not made for future operating losses.
- (c) Environmental provisions are recognized when there is a legal of constructive obligation as a result of past events. The provision is based on management's best estimate of the liabilities.

All provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as a finance cost.

(ii) Contingencies

Contingent liabilities, arising as a result of past events, are not recognized when (i) it is not probable that there will be an outflow of resources or that the amount cannot be reliably measured at the reporting date or (ii) when the existence will be confirmed by the occurrence or non-occurrence of uncertain future events not wholly within the Company's control. Contingent liabilities are disclosed in the financial statements unless the probability of an outflow of resources is remote.

Contingent assets are not recognized. Contingent assets are disclosed in the financial statements when an inflow of economic benefits is probable.

(r) Share capital.

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(s) Distributions to equity holders

Dividends and other distributions to Company's shareholders are recognized as a liability in the financial statements in the period in which the dividends and other distributions are approved by the Company's shareholders. These amounts are recognized in the Statement of Changes in Equity.

(t) Related party transactions

The Company discloses transactions with related parties which are not wholly owned within the same group. It does not disclose transactions with members of the same group that are wholly owned.

Notes to the financial statements

3. Summary of significant accounting policies (continued)

(u) Financial instruments

The Company has chosen to adopt the Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets

The Company only enters into basic financial assets, including trade and other debtors and cash and bank balances. These are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Financial liabilities

Basic financial creditors, including trade and other creditors, bank loans and balances due to from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

v) Consolidated financial statements

The financial statements contain information about Hexion UK Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under section 401 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of its ultimate parent company, Hexion Inc. a company incorporated in the United States of America ("USA"), see Note 27.

4. Critical accounting judgements and estimation uncertainty

In applying the accounting polices detailed above, decisions sometimes have to be made as to the likely outcome of future events. Those judgements and estimates made in preparing the financial statements are based on historical experience and assumptions that the directors believed were reasonable in the circumstances.

(i) Useful economic lives of tangible assets

The annual depreciation charge for tangible assets is sensitive to changes in the estimated useful economic lives and residual values of the assets. The useful economic lives and residual values are reassessed annually. They are amended when necessary to reflect current estimates, based on technological advancement, future investments, economic utilisation and the physical condition of the assets. See Note 12 for the carrying amount of the property plant and equipment, and Note 3 for the useful economic lives for each class of assets.

Notes to the financial statements

4. Critical accounting judgements and estimation uncertainty (continued)

(ii) Inventory provisioning

The Company manufactures and sells adhesives and resins for use in a wide variety of applications. As a result it is necessary to consider the recoverability of the cost of inventory and the associated provisioning required. When calculating the inventory provision, management considers the nature and condition of the inventory, as well as applying assumptions around anticipated salability of finished goods and future usage of raw materials. See Note 14 for the net carrying amount of the inventory and associated provision.

(iii) Impairment of debtors

The Company makes an estimate of the recoverable value of trade and other debtors. When assessing impairment of trade and other debtors, management considers factors including the current credit rating of the debtor, the ageing profile of debtors and historical experience. See Note 15 for the net carrying amount of the debtors and associated impairment provision.

Notes to the financial statements

10. Tax on profit / (loss) on ordinary activities (continued)

b) Reconciliation of tax charge / (credit)

Tax assessed for the year is lower (2018: higher) than the standard rate of corporation tax in the UK for the year ended 31 December 2019 of 19% (2018: 19%). The differences are explained below:

	2019 £'000	2018 £'000
Profit / (loss) on ordinary activities before taxation	7,237	(3,966)
Profit / (loss) on ordinary activities before taxation multiplied by the standard rate in the UK of 19% (2018: 19%)	1,375	(754)
Effects of:		
 Expenses not deductible for tax purposes 	58	434
- Income not taxable	•	. (39)
- Effect of Branch exemption	(257)	
- Transfer pricing adjustments	•	. 39
- Impact of double tax relief	57	. 35
- Adjustment in respect of previous periods	(121)	(260)
- Tax rate changes	(47)	33
Tax charge / (credit) for the year	1,065	(512)

Factors that may affect future tax charges

The Finance Act 2015 introduced a reduction in the main rate of corporation tax from 20% to 19% with effect from 1 April 2017 and the Finance Act 2016 announced a further reduction in the main rate of corporation tax to 17% from 1 April 2020. UK deferred tax balances had previously been measured at 17% to reflect the rate at which they were expected to be reversed.

The Chancellor confirmed, in the Budget on 11 March 2020, that the rate of corporation tax will remain at 19% from 1 April 2020. This measure (cancelling the enacted cut to 17%) will be made under a Budget resolution which has statutory effect under the provisions of the Provisional Collection of Taxes Act 1968. As such, it is substantively enacted for UK GAAP. As a result, the deferred tax balances have been remeasured at 19% for the period ended 31 December 2019.

Utilisation	(457)	(3,612)	(4,069)
At 31 December 2019	·	852	852

In 2018, the Company announced closure of the Peterlee site and cessation of production. At 31 December 2018 the directors estimated that a provision of £4,812,000 would be required in respect of the costs associated with ceasing production, including site closure, clean-up costs and severance. At 31 December 2019, the directors re-evaluated the provision required based upon the latest forecasts and consider that a provision of £852,000 is required to cover the remaining activities. There was a favourable outcome to certain site closure and clean-up activities that resulted in the current year release. The outstanding provision is expected to be fully utilised in 2020.

The provision for restructuring comprises severance payments £457,000. The redundancy plan was made as part of the organizational changes within Hexion's global operations.

19. Financial instruments

The Company has the following financial instruments:			
		2019	2018
		£'000	£'000
			•
Financial assets that are debt instruments measured			
at amortised cost			
- Trade debtors		7,331	10,865
