The notes on pages 3 to 5 form part of these abbreviated accounts.

AVEBURY ASSET MANAGEMENT LIMITED**NOTES TO THE ABBREVIATED ACCOUNTS****YEAR ENDED 31st MARCH 2014**

1. ACCOUNTING POLICIES**Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset over the useful economic life of that asset as follows:

Fixtures & Fittings - 25 - 33.3% straight line

Pension costs

Pension costs charged against profits represent the amount of the contributions payable to employee pension schemes in respect of the accounting period.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction or an agreed forward contract rate. Exchange differences are taken into account in arriving at the operating profit.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

1. ACCOUNTING POLICIES *(continued)*

Turnover

Turnover represents advisory fees received and receivable on generic unregulated investment advisory services provided during the year. All amounts are stated net of attributable value added tax.

In respect of long-term contracts and contracts for on-going services, turnover represents the value of the work done in the year, including estimates of amounts not invoiced. Turnover in respect of long-term contracts and contracts for on-going services is recognised by reference to the stage of completion.
