For the financial year ending 31 March 2019 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Director's responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The director acknowledges his responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These financial statements have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006 and in accordance with FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

These financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies regime and the option not to file the Statement of Income and Retained Earnings has been taken.

The notes on pages 4 to 7 form an integral part of these financial statements.

AVEBURY ASSET MANAGEMENT LIMITED

Notes to the Financial Statements for the Year Ended 31 March 2019

1 GENERAL INFORMATION

The company is a private company limited by share capital, incorporated in England and Wales.
The address of its registered office is:
130 Shaftesbury Avenue
London
W1D 5EU
The principal activity of the company is that of investment management.

2 ACCOUNTING POLICIES

Statement of compliance

The financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except any items disclosed in the accounting policies as being shown at fair value and are presented in sterling, which is the functional currency of the entity.

Going concern

It is noted that the director intends to cease operations on an orderly basis. The remaining balances in the Statement of Financial Position are a result of director's estimates relating to cessation of the company's operations. No material adjustments to assets or liabilities are expected to result thereon.

Accordingly the director has reasonable expectation that the company has adequate resources to continue in existence for the foreseeable future. He therefore continues to adopt the going concern basis in preparing the financial statements.

Foreign currency transactions and balances

Assets and liabilities in foreign currencies are translated into sterling at the rate of exchange ruling at the statement of financial position date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction or an agreed forward contract rate. Exchange differences are taken into account in arriving at the operating profit.

Tax

The tax expense for the period comprises the sum of current and deferred tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.
The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

AVEBURY ASSET MANAGEMENT LIMITED

Notes to the Financial Statements for the Year Ended 31 March 2019

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Fixtures and Fittings	25 - 33.3% straight line

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Pension Costs

The company operates a defined contribution pension scheme for employees. The assets for the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

AVEBURY ASSET MANAGEMENT LIMITED

Notes to the Financial Statements for the Year Ended 31 March 2019

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

3 STAFF NUMBERS

The average number of persons employed by the company during the year, was 0 (2018 - 0).
