Notes on the accounts

1. Accounting policies

The principal a source redictes of the Group as sereact below comply with UK statements of standard accounting practice to the extent that they or appropriate to life assurance companies

(a) Group accounts

The consolidated accounts of the Group include the audited accounts of all subsidiaries drawn up to 31st December. The results of associated companies attributable to the Group's shureholdings are not of sufficient significance to be included in the consolidated accounts except to the extent of dividends received.

(b) Exchange rates

Assets and liabilities in loreign customes are translated into sterling at rates ruling at the year-end. Overseas revenue translations are translated at rates prevailing during the year.

(c) Long-term insurance business

The profits on long-term insurance business are determined annually by actuarial valuation. The shareholders' proportion of these profits is grossed up in the consolidated profit and loss account by the estimated tax in the long-term insurance funds attributable to such profits.

(d) Investment income

Interest and dividends on investments other than ordinary shares are included on an accruals basis. Investment income is grossed up to include related tax credits on dividend income and is shown after deduction of interest payable and investment management expenses.

(e) Taxation

The taxation charge in the consolidated long-term insurance revenue account is based on the income of the year, less reliefs

The taxation charge in the consolidated profit and loss account is based on the profits and income of the year.

Frovision for deterred taxation on the unrealised appreciation of investments is made only where realisations giving rise to a taxation (tability are anticipated in the foreseeable future

(f) Investments

Investments are stated in the lance sheets at market values compaising stock exchange values for listed securities, open market valuations by the Group's qualified surveyors for properties, values determined in accordance with the policy terms for investments in unit-linked funds or directors' valuations for other investments.

The excess of market values over book values of general fund investments is taken to revaluation reserve and profits and lesses on the realisation of general fund investments, less taxation, are taken to retained profits.

In the long-term insurance accounts unrealised appreciation and profits and losses on the realisation of investments are taken to investment reserves, except in the case of linked business where they are dealt with directly in the revenue account

2. Accounting and disclosure requirements

Insurance companies are not required to comply with the accounting and disclosure provisions of Chapter I of Part VII of the Companies Act 1985 and accordingly the accounts are prepared in accordance with Chapter II of that Part of the Act

3. Portfolio transfers

On 11st December, 1989, under a scheme san tioned by the High Court pursuant to section 49 of the Insurance Companies Act 1982. He and persons husiness and related assets and liabilities of other member companies of the Court Albanie Group were transferred to the Group.
