Bulstrode Farm (Holdings) Limited

Notes to the Financial Statements For the Year Ended 30 September 2022

1. General information

Bulstrode Farm (Holdings) Limited is a private company, limited by shares, incorporated in England and Wales registration number 00898334. The address of its registered office is Home Farm, Langleybury, Kings Langley, Hertfordshire, United Kingdom, WD4 8RW.

The principal activity of the Company was previously that of farming. The Company is not currently trading.

The financial statements are prepared in pounds sterling (£) and are rounded to the nearest £.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

2.2 Going concern

During the prior year, the remaining trade was transferred to another party and the Company is not currently trading; and the director is looking at their future options for the Company.

Whilst still settling any affairs and outstanding debts the director has assessed that the continued adoption of the going concern basis of preparation for the financial statements is still appropriate. The director is therefore satisfied that this does not constitute an adjusting event which would require the restatement of any of the balances presented as part of these financial statements.

The following principal accounting policies have been applied:

2.3 Turnover

Turnover represents crop sales and cattle sales during the year exclusive of value added tax where applicable. Turnover for crop sales and cattle sales are recognised at the point of delivery.

2.4 Interest income

Interest income is recognised in the Statement of Comprehensive Income using the effective interest method.

Notes to the Financial Statements For the Year Ended 30 September 2022

2. Accounting policies (continued)

2.5 Taxation

Tax is recognised in the Statement of Comprehensive Income, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.6 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.7 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.8 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.9 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

Bulstrode Farm (Holdings) Limited

Notes to the Financial Statements For the Year Ended 30 September 2022

2. Accounting policies (continued)

2.10 Discontinued operations

A discontinued operation is a component of the Company that has been disposed of.

The results of discontinued operations are analysed separately from continuing operations in a columnar format on the face of the statement of income and retained earnings. The results of all operations are presented in total.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

In the application of the Company's accounting policies, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

4. Employees

The average monthly number of employees during the year was 0 (2021: 0)
