STRATEGIC REPORT

The directors, in preparing this strategic report, have complied with s414C of the Companies Act 2006. This strategic report has been prepared for the Group and therefore gives greater emphasis to those matters which are significant to WPP Jubilee Limited and its subsidiary undertakings when viewed as a whole.

REVIEW OF THE BUSINESS

WPP Jubilee Limited is a company incorporated in the UK and registered in England and Wales, under the Companies Act. The address of the registered office is Sea Containers House, 18 Upper Ground, London, SE1 9GL. The Company has acted as an intermediate holding company in the WPP group since its incorporation on 8 November 2012. As part of the Group's re-organisation during 2013, the Group put in place a new United Kingdom tax resident parent company by means of a scheme of arrangement pursuant to Article 125 of the Companies (Jersey) Law 1991.

The new scheme became effective on 2 January 2013, with WPP 2012 plc becoming the new parent company of the WPP Group and being renamed WPP plc. At the same time, the existing parent company of the WPP Group, WPP plc, was renamed WPP 2012 Limited. Under this scheme, all the shares in the Company were cancelled and the same number of new shares were issued to WPP plc, the new holding company of the WPP group. WPP Jubilee Limited was a subsidiary of WPP plc and as part of the Group re-organisation, Lexington International B.V., holding the entire operations of the Group was transferred to WPP Jubilee Limited. On 10 December 2020, WPP Emerald Limited was incorporated and registered in Ireland with 100% of its share capital issued to WPP plc. On 19 December 2020, WPP plc transferred 100% of its shares in WPP Jubilee Limited to WPP Emerald Limited with WPP Emerald Limited becoming the new immediate parent of WPP Jubilee Limited. The remaining Group continues to trade as normal.

With reference to the consolidated income statement on page 13, reported revenues from continuing operations were £12.8 billion (2020: £12.0 billion).

The number of people in the Group, averaged 104,806 against 104,161 in 2020. At the end of 2021, staff numbers were 109,380 compared with 99,828 at the end of 2020. At 31 December 2021, net assets were £12,987.5 million compared with £12,609.3 million in 2020.

In addition, the performance of WPP plc, which includes the Group, is discussed in its annual report, which does not form part of this report and is available at wpp.com.

KEY PERFORMANCE INDICATORS

WPP Jubilee Limited is a wholly owned subsidiary of WPP plc. For this reason, the Company's directors believe that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance, or position of the business. The performance of WPP plc, which includes the Group, is discussed in its annual report which does not form part of this report.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group has considered the principal risks and uncertainties affecting the Group as at 31 December 2021 and up to the date of this report. These are described in detail in the annual report of WPP plc which does not form part of this report and is available at wpp.com.

DIRECTORS' REPORT

The directors present their annual report and the audited financial statements for the year ended 31 December 2021.

RESULTS AND DIVIDENDS

The audited financial statements are set out on pages 7 to 126. The profit before taxation for the year from continuing operations was £1,032.9 million (2020: loss of £2,665.8million). The Company did not pay or declare any ordinary dividends during the year (2020: nil).

GROUP ACTIVITIES

The principal activity of the Group continues to be the provision of communications services worldwide. The Company acts only as a holding company and does not trade.

RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

FOREIGN CURRENCY RISK

The Group's results in pounds sterling are subject to fluctuation as a result of exchange rate movements. The Group does not hedge this translation exposure to its earnings but does partially hedge the currency element of its net assets using foreign currency borrowings, cross-currency swaps, and forward foreign exchange contracts.

INTEREST RATE RISK

The Group is exposed to interest rate risk on both interest-bearing assets and interest-bearing liabilities. The Group has a policy of actively managing its interest rate risk exposure while recognising that fixing rates on all its debt eliminates the possibility of benefiting from rate reductions and similarly, having all its debt at floating rates unduly exposes the Group to increases in rates.

GOING CONCERN AND LIQUIDITY RISK

In considering going concern and liquidity risk, the Directors have reviewed the Group's future cash requirements and earnings projections. The Directors believe these forecasts have been prepared on a prudent basis and have also considered the impact of a range of potential changes to trading performance. Given the strong cash generation of the business, its debt maturity profile and available facilities, the Directors believe the Group has sufficient liquidity to match its requirements for the foreseeable future.

TREASURY ACTIVITIES

Treasury activity is managed centrally, from London, New York, and Hong Kong, and is principally concerned with the monitoring of working capital, managing external and internal funding requirements and the monitoring and management of financial market risks, in particular interest rate and foreign exchange exposures.

CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debt, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings.

CREDIT RISK

The Group's principal financial assets are cash and short-term deposits, trade and other receivables and investments, the carrying values of which represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group's credit risk is primarily attributable to its trade receivables. The majority of the Group's trade receivables are due from large national or multinational companies where the risk of default is considered low.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies or banks that have been financed by their government.

FINANCIAL INSTRUMENTS

The Group utilises currency derivatives to hedge significant future transactions and cash flows and the exchange risk arising on translation of the Group's investments in foreign operations. The Group is a party to a variety of foreign currency derivatives in the management of its exchange rate exposures. The instruments purchased are primarily denominated in the currencies of the Group's principal markets.

The Group uses interest rate swaps as hedging instruments in fair value hedges to manage its exposure to interest rate movements on its borrowings. More information on the Group's principal risks and risk management policies and financial instruments are set out in notes 25 and 26 of the consolidated financial statements.

CORPORATE GOVERNANCE ARRANGEMENTS

Refer to the Annual Report of WPP plc available at wpp.com for information on the Group's corporate governance arrangements.

ENERGY AND CARBON REPORTING

Refer to the Annual Report of WPP plc available at wpp.com for the Group's energy and carbon disclosures.

DIRECTORS' DUTIES

The Directors of the Company, as those of all UK companies, must act in accordance with section 172 of the UK Companies Act 2006. As stated on page 3, this company acts only as a holding company and does not trade. Refer to pages 113 - 115 of the Annual Report of WPP plc available at wpp.com for more on how the Group directors meet their duty.

DIRECTORS' INDEMNITIES

The Company has made qualifying third-party indemnity provisions for the benefit of its directors which were made during the year and remain in force at the date of this report.

DIRECTORS' REPORT (CONTINUED)

EMPLOYEES

Our non-discrimination and anti-harassment policies are included in our Group Code of Conduct. In the case of disability, our policy is to provide continuing employment and training wherever practicable. Refer to pages 72 to 74 of the Annual Report of WPP plc for more detail.

DIRECTORS

The directors who served throughout the year were as follows:

D. Conaghan
A. Payne
C. van der Welle

GOING CONCERN

The directors are required to consider whether it is appropriate to adopt the financial statements on the basis that the Company and the Group are going concerns. The going concern assessment of WPP Jubilee Limited is directly related to the going concern assessment of the WPP plc Group. The directors assess the WPP plc Group's prospects on a regular basis through the financial reporting and planning process, business reviews at each Board meeting, quarterly reviews of our businesses by the executive team and ongoing reviews of the Group's profitability, cash flows and funding requirements. The directors have considered the longer-term risks and opportunities for the Group and the potential impact of competition for talent and competition from consulting firms, technological disruption, climate change and regulation.

In considering going concern and liquidity risk, the Directors have reviewed the Group's future cash requirements and earnings projections. The Directors believe these forecasts have been prepared on a prudent basis and have also considered the impact of a range of potential changes to trading performance. The impact of the Russian invasion of Ukraine and sanctions response from governments, sustained inflation in key markets where we operate and supply chain issues affecting the distribution of our clients' products pose a risk our clients may reduce, suspend or cancel spend with us or be unable to satisfy obligations has been considered. The Company modelled a range of revenue less pass-through costs compared with the year ended 31 December 2021 and a number of mitigating cost actions that are available to the Company. Considering the Group's bank covenant and liquidity headroom and cost mitigation actions which could be implemented, the Company and the Group would be able to operate with appropriate liquidity and within its banking covenants and be able to meet its liabilities as they fall due with a decline in revenue less pass-through costs up to 30% in 2022. The likelihood of such a decline is considered remote as compared to Company expectations and external benchmarks, including previously witnessed declines in times of economic stress or external forces such as the pandemic. The modelling in this extreme scenario includes cost mitigations of 70% of the decline in net sales. Further measures that were not included in the modelling, should the Company face such an extreme scenario, include the reduction of capital expenditure and acquisitions. Therefore, the Directors have concluded that the Group will be able to operate within its current facilities and comply with its banking covenants for the foreseeable future and therefore believe it is appropriate to prepare the financial statements of the Group on a going concern basis and that there are no material uncertainties which give rise to a significant going concern risk.

STATEMENT OF DISCLOSURE OF INFORMATION TO THE AUDITOR

So far as the directors currently in office are aware, there is no relevant audit information of which the Company's auditor is unaware; and the directors have taken all the steps that ought to have been taken as directors to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

INDEPENDENT AUDITOR

Deloitte LLP are deemed to be re-appointed in accordance with an elective resolution made under s487 of the Companies Act 2006.

FUTURE DEVELOPMENTS

The directors will continue to monitor, review, and take any appropriate steps to respond to the impact of the Covid-19 pandemic in the Company, as well as recognise and address the other current and emerging risks and uncertainties we face as a business such as the Russian invasion of Ukraine and sanctions response from governments and sustained inflation in key markets where we operate.

The extent of the continued impact of the Covid-19 pandemic on our business will depend on numerous factors that we are not able to accurately predict, including the duration and scope of the pandemic, government actions to mitigate the effects of the pandemic and the intermediate and long-term impact of the pandemic on our clients' spending plans.

DIRECTORS' RESPONSIBILITIES STATEMENT

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the group financial statements in accordance with International Financial Reporting Standards (IFRSs) pursuant to Regulation (EC) No 1606/2002 and the parent company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing the parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

In preparing the group financial statements, International Accounting Standard 1 requires that directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRS are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the company's ability to continue as a going concern.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

FINANCIAL STATEMENTS

ACCOUNTING POLICIES

The consolidated financial statements of WPP Jubilee Limited and its subsidiaries (the Group) for the year ended 31 December 2021 have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) as they apply to the financial statements of the Group for the year ended 31 December 2021.

BASIS OF PREPARATION

The consolidated financial statements have been prepared under the historical cost convention, except for the revaluation of certain financial instruments and held for sale assets. The financial statements have been prepared using the going concern basis of accounting. The principal accounting policies are set out below.

BASIS OF CONSOLIDATION

The consolidated financial statements include the results of the Company and all its subsidiary undertakings made up to the same accounting date. All intra-Group balances, transactions, income and expenses are eliminated in full on consolidation. The results of subsidiary undertakings acquired or disposed of during the period are included or excluded from the consolidated income statement from the effective date of acquisition or disposal.

NEW IFRS ACCOUNTING PRONOUNCEMENTS

In the current year, the following Standards and Interpretations became effective:

- Interest Rate Benchmark Reform – Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16);
- Covid-19 Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16); and
- IFRIC Agenda Decision on Accounting Treatment for Configuration and Customisation Costs in a Cloud Computing Arrangement.

The Group does not consider that other standards or amendments to standards adopted during the year have a significant impact on the financial statements.

IMPACT OF INTEREST RATE BENCHMARK REFORM – PHASE 2

The amendments issued by the IASB, Interest Rate Benchmark Reform – Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16), are mandatory and were effective from 1 January 2021. They provide relief on certain existing requirements in IFRS Standards, relating to modifications of financial instruments and lease contracts or hedging relationships triggered by a replacement of a benchmark interest rate in a contract with a new alternative benchmark rate, as a result of Interest Rate Benchmark Reform. The Group does not consider that these amendments had a significant impact on the financial statements as they provide relief for the possible effects of the uncertainty arising from interest rate benchmark reform.

IMPACT OF COVID-19-RELATED RENT CONCESSIONS BEYOND 30 JUNE 2021

The amendment to IFRS 16, Covid-19-Related Rent Concessions beyond 30 June 2021, was issued by the IASB in March 2021 and was effective from 1 April 2021. It provides an extension to the period under which practical relief to lessees could be applied in accounting for rent concessions occurring as a direct consequence of Covid-19, as introduced in the original amendment, Covid-19-Related Concessions (Amendment to IFRS 16). There has been no material impact to our financial statements as a result of the application of this amendment.

IMPACT OF IFRIC AGENDA DECISION ON ACCOUNTING TREATMENT FOR CONFIGURATION AND CUSTOMISATION COSTS IN A CLOUD COMPUTING ARRANGEMENT

In April 2021, an IFRIC agenda decision was issued in relation to the accounting treatment for configuration and customisation costs in a cloud computing arrangement. This guidance clarified that in order for an intangible asset to be capitalised in relation to customisation and configuration costs in a software-as-a-service (SaaS) arrangement, it is necessary for there to be control of the underlying software asset or for there to be a separate intangible asset which meets the definition in IAS 38 Intangible Assets.

In 2020, as part of the Group's transformation plan, the Group commenced a multi-year implementation of a cloud-based ERP and human capital management tool. The Group has completed its assessment of the financial reporting impact of this agenda decision on this implementation and has changed the accounting policy in the financial statements to align with the clarified guidance within the IFRIC agenda decision. As a result, the Group has expensed all costs associated with this implementation, which amount to £62.2 million as at 31 December 2021. This balance includes costs that were previously capitalised as at 31 December 2020 of £14.0 million.

At the date of authorisation of these financial statements, there were a number of standards or amendments to standards, which have not been applied in these financial statements, that were in issue but not yet effective. The Group does not consider that any of these standards or amendments to standards in issue but not yet effective will have a significant impact on the financial statements.

RESTATEMENT

During 2021, the Group determined that the financial statements for the prior periods contained errors relating to historic tax asset and liability adjustments that had accumulated over a number of years in the Group consolidation. As a result, previously reported corporate income tax recoverable, corporate income tax payable and tax charge were incorrect. The cumulative impact resulted in an overstatement of equity as at 31 December 2019 of £118.5 million, which has been corrected by reducing the 2020 opening retained earnings by £113.7 million and other reserves by £4.8 million. Corporate income tax recoverable has reduced by £22.8 million (2019: £22.8 million) and corporate income tax payable increased by £93.5 million (2019: £95.7 million) on the consolidated balance sheet at 31 December 2020. These changes also decreased the tax charge in the year ended 31 December 2020 by £2.2 million.

GOVERNMENT SUPPORT

In reaction to the Covid-19 pandemic, certain governments have introduced measures to assist companies. A reduction to operating costs is recorded in relation to government subsidies/schemes where these amounts will never have to be repaid. Further details of such amounts are included in note 3. In other cases, this involves the deferral of certain tax payments in order to stimulate the economy. The deferral of payments does not impact the income statement and these are charged as normal in the period they are incurred.

GOODWILL AND OTHER INTANGIBLE ASSETS

Intangible assets comprise goodwill, certain acquired separable corporate brand names, acquired customer relationships, acquired proprietary tools and capitalised computer software not integral to a related item of hardware.

Goodwill represents the excess of fair value attributed to investments in businesses or subsidiary undertakings over the fair value of the underlying net assets, including intangible assets, at the date of their acquisition.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, defined as the higher of fair value less costs to sell and value in use. The net present value of future cash flows is derived from the underlying assets using a projection period of up to five years for each cash-generating unit. After the projection period, a steady growth rate representing an appropriate long-term growth rate for the industry is applied. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Corporate brand names, customer relationships and proprietary tools acquired as part of acquisitions of businesses are capitalised separately from goodwill as intangible assets if their value can be measured reliably on initial recognition and it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group.

Certain corporate brands of the Group are considered to have an indefinite economic life because of the institutional nature of the corporate brand names, their proven ability to maintain market leadership and profitable operations over long periods of time and the Group's commitment to develop and enhance their value. The carrying value of these intangible assets is reviewed at least annually for impairment and adjusted to the recoverable amount if required.

Amortisation is provided at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis over its estimated useful life as follows:

- brand names (with finite lives) – 10-20 years;
- customer-related intangibles – 3-10 years;
- other proprietary tools – 3-10 years;
- other (including capitalised computer software) – 3-5 years.

CONTINGENT CONSIDERATION

Contingent consideration is accounted for in accordance with IFRS 3 Business Combinations. Contingent consideration only applies to situations where contingent payments are not dependent on future employment of vendors and any such payments are expensed when they relate to future employment.

Future anticipated payments to vendors in respect of contingent consideration (earnout agreements) are initially recorded at fair value which is the present value of the expected cash outflows of the obligations. The obligations are dependent on the future financial performance of the interests acquired (typically over a four- to five-year period following the year of acquisition) and assume the operating companies improve profits in line with Directors' estimates. The Directors derive their estimates from internal business plans together with financial due diligence performed in connection with the acquisition.

Subsequent adjustments to the fair value are recorded in the consolidated income statement within revaluation and retranslation of financial instruments.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are shown at cost less accumulated depreciation and any provision for impairment with the exception of freehold land which is not depreciated. The Group assesses the carrying value of its property, plant and equipment to determine if any impairment has occurred. Where this indicates that an asset may be impaired, the Group applies the requirements of IAS 36 Impairment of Assets in assessing the carrying amount of the asset. This process includes comparing its recoverable amount with its carrying value. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis over its estimated useful life, as follows:

- freehold buildings – 50 years;
- leasehold land and buildings – over the term of the lease or life of the asset, if shorter;
- fixtures, fittings and equipment – 3-10 years;
- computer equipment – 3-5 years.

INTERESTS IN ASSOCIATES AND JOINT VENTURES

An associate is an entity over which the Group has significant influence. In certain circumstances, significant influence may be represented by factors other than ownership and voting rights, such as representation on the Board of Directors.

The Group's share of the profits less losses of associate undertakings net of tax, interest and non-controlling interests is included in the consolidated income statement and the Group's share of net assets is shown within interests in associates in the consolidated balance sheet. The Group's share of the profits less losses and net assets is based on current information produced by the undertakings, adjusted to conform with the accounting policies of the Group.

The Group assesses the carrying value of its associate undertakings to determine if any impairment has occurred. Where this indicates that an investment may be impaired, the Group applies the requirements of IAS 36 in assessing the carrying amount of the investment. This process includes comparing its recoverable amount with its carrying value. The recoverable amount is defined as the higher of fair value less costs to sell and value in use.

The Group accounts for joint venture investments under the equity method which is consistent with the Group's treatment of associates.

OTHER INVESTMENTS

Certain equity investments are designated as either fair value through other comprehensive income or fair value through profit or loss. Movements in fair value through profit or loss are recorded in the consolidated income statement within revaluation and retranslation of financial instruments.

The Group generally elects to classify equity investments as fair value through other comprehensive income where the Group forms a strategic partnership with the investee.

NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Under IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, where certain conditions are met, an asset or disposal group that is for sale is recognised as "held for sale". The Group has classified a disposal group as held for sale if the carrying amount will be recovered principally through a sale transaction rather than through continuing use. For this to be the case, the disposal group must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets and its sale must be highly probable. Such assets are measured at the lower of carrying amount and fair value less costs to sell, and are not depreciated or amortised, excluding certain assets that are carried at fair value under IFRS 5. Furthermore, when an associate is classified as held for sale, equity accounting ceases.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The profit or loss from a discontinued operation is shown as a single amount on the face of the income statement and the comparatives and related notes restated accordingly. This represents total post-tax profit of the disposal group for the whole of the financial year including any post-tax gain or loss on the measurement of fair value less costs to sell, as well as the post-tax loss on sale of the disposal group. Assets and liabilities classified as held for sale are shown as a separate line on the balance sheet.

ACCRUED AND DEFERRED INCOME

Accrued income is a contract asset and is recognised when a performance obligation has been satisfied but has not yet been billed. Contract assets are transferred to receivables when the right to consideration is unconditional and billed per the terms of the contractual agreement.

In certain cases, payments are received from customers or amounts are billed with an unconditional right to receive consideration prior to satisfaction of performance obligations and recognised as deferred income. These balances are considered contract liabilities and are typically related to prepayments for third-party expenses that are incurred shortly after billing.

TRADE RECEIVABLES AND WORK IN PROGRESS

Trade receivables are stated net of loss allowances.

Work in progress includes outlays incurred on behalf of clients, including production costs, and other third-party costs that have not yet been billed and are considered receivables under IFRS 15 Revenue from Contracts with Customers.

EXPECTED CREDIT LOSSES

The Group has applied the simplified approach to measuring expected credit losses, as permitted by IFRS 9 Financial Instruments. This has been applied to trade receivables, contract assets and lease receivables. Under this approach, the Group utilises a provision matrix based on the age of the trade receivables and historical loss rates to determine the expected credit losses. The Group also considers forward-looking information. Therefore, the Group does not track changes in credit risk, but recognises a loss allowance based on the financial asset's lifetime expected credit loss. For all other assets, the general approach has been applied and a loss allowance for 12-month expected credit losses is recognised.

Under IFRS 9, the expected credit losses are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Given the short-term nature of the Group's trade receivables, work in progress and accrued income, which are mainly due from large national or multinational companies, the Group's assessment of expected credit losses includes provisions for specific clients and receivables where the contractual cash flow is deemed at risk.

Further details on expected credit losses are provided in note 18.

FOREIGN CURRENCY AND INTEREST RATE HEDGING

The Group's policy on interest rate and foreign exchange rate management sets out the instruments and methods available to hedge interest and currency risk exposures and the control procedures in place to ensure effectiveness.

The Group uses derivative financial instruments to reduce exposure to foreign exchange risk and interest rate movements. The Group does not hold or issue derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument that is used in a hedging relationship is highly effective in offsetting changes in fair values or cash flows of the hedged item.

Note 26 contains details of the fair values of the derivative instruments used for hedging purposes.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in profit or loss immediately, together with any changes in the fair value of the hedged items that are attributable to the hedged risk.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow or net investment hedges is recognised in other comprehensive income and deferred in equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. Amounts deferred in equity are recycled in profit or loss in the periods when the hedged item is recognised in profit or loss. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset or liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecast transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to net profit or loss for the period.

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not carried at fair value with unrealised gains or losses reported in the consolidated income statement.

LIABILITIES IN RESPECT OF OPTION AGREEMENTS

Option agreements that allow the Group's equity partners to require the Group to purchase a non-controlling interest are treated as derivatives over the Group's own equity instruments and are recorded in the consolidated balance sheet initially at the present value of the redemption amount in accordance with IAS 32 Financial Instruments: Presentation and subsequently, the financial liability is measured in accordance with IFRS 9 Financial Instruments. On initial recognition, the corresponding amount is recognised against the equity reserve, which is subsequently reversed on derecognition, either through exercise or non-exercise of the option agreement. Changes in the measurement of the financial liability due to the unwinding of the discount or changes in the amount that the Group could be required to pay are recognised in profit or loss within revaluation and retranslation of financial instruments in the consolidated income statement.

DERECOGNITION OF FINANCIAL LIABILITIES

In accordance with IFRS 9 Financial Instruments, a financial liability of the Group is only released to the consolidated income statement when the underlying legal obligation is extinguished.

DEBT

Interest-bearing debt is recorded at the proceeds received, net of direct issue costs.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash at bank and in hand and short-term highly liquid investments which are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value, including bank deposits and money market funds. The Group's overdrafts are included in cash and cash equivalents where they are repayable on demand, are components of the Group's centralised treasury strategy employed across the Group and form an integral part of the Group's cash management, in accordance with IAS 7 Statement of Cash Flows.

BORROWING COSTS

Finance costs of borrowing are recognised in the consolidated income statement over the term of those borrowings.

REVENUE RECOGNITION

The Group is a leading worldwide creative transformation organisation offering national and multinational clients a comprehensive range of communications, experience, commerce and technology services. Contracts often involve multiple agencies offering different services in different countries. As such, the terms of local, regional and global contracts can vary to meet client needs and regulatory requirements. Consistent with the industry, contracts are typically short-term in nature and tend to be cancellable by either party with 90 days' notice. The Group is generally entitled to payment for work performed to date.

The Group is generally paid in arrears for its services. Invoices are typically payable within 30 to 60 days. Revenue comprises commissions and fees earned in respect of amounts billed and is stated exclusive of VAT, sales taxes and trade discounts. Pass-through costs comprise fees paid to external suppliers when they are engaged to perform part or all of a specific project and are charged directly to clients, predominantly media costs. Costs to obtain a contract are typically expensed as incurred as the contracts are generally short-term in nature.

In most instances, promised services in a contract are not considered distinct or represent a series of services that are substantially the same with the same pattern of transfer to the customer and, as such, are accounted for as a single performance obligation. However, where there are contracts with services that are capable of being distinct, are distinct within the context of the contract, and are accounted for as separate performance obligations, revenue is allocated to each of the performance obligations based on relative stand-alone selling prices.

Revenue is recognised when a performance obligation is satisfied, in accordance with the terms of the contractual arrangement. Typically, performance obligations are satisfied over time as services are rendered. Revenue recognised over time is based on the proportion of the level of service performed. Either an input method or an output method, depending on the particular arrangement, is used to measure progress for each performance obligation. For most fee arrangements, costs incurred are used as an objective input measure of performance. The primary input of substantially all work performed under these arrangements is labour. There is normally a direct relationship between costs incurred and the proportion of the contract performed to date. In other circumstances relevant output measures, such as the achievement of any project milestones stipulated in the contract, are used to assess proportional performance.

For our retainer arrangements, we have a stand-ready obligation to perform services on an ongoing basis over the life of the contract. The scope of these arrangements is broad and generally not reconcilable to another input or output criteria. In these instances, revenue is recognised using a time-based method resulting in straight-line revenue recognition.

The amount of revenue recognised depends on whether we act as an agent or as a principal. Certain arrangements with our clients are such that our responsibility is to arrange for a third party to provide a specified good or service to the client. In these cases we are acting as an agent as we do not control the relevant good or service before it is transferred to the client. When we act as an agent, the revenue recorded is the net amount retained. Costs incurred with external suppliers (such as production costs and media suppliers) are excluded from revenue and recorded as work in progress until billed.

The Group acts as principal when we control the specified good or service prior to transfer. When the Group acts as a principal (such as when supplying in-house production services, events and branding), the revenue recorded is the gross amount billed. Billings related to out-of-pocket costs such as travel are also recognised at the gross amount billed with a corresponding amount recorded as an expense.

Further details on revenue recognition are detailed by sector below.

GLOBAL INTEGRATED AGENCIES

Revenue is typically derived from integrated product offerings including media placements and creative services. Revenue may consist of various arrangements involving commissions, fees, incentive-based revenue or a combination of the three, as agreed upon with each client. Revenue for commissions on purchased media is typically recognised at the point in time the media is run.

The Group receives volume rebates from certain suppliers for transactions entered into on behalf of clients that, based on the terms of the relevant contracts and local law, are either remitted to clients or retained by the Group. If amounts are passed on to clients they are recorded as liabilities until settled or, if retained by the Group, are recorded as revenue when earned.

Variable incentive-based revenue typically comprises both quantitative and qualitative elements. Incentive compensation is estimated using the most likely amount and is included in revenue up to the amount that is highly probable not to result in a significant reversal of cumulative revenue recognised. The Group recognises incentive revenue as the related performance obligation is satisfied.

PUBLIC RELATIONS AND SPECIALIST AGENCIES

Revenue for these services is typically derived from retainer fees and fees for services to be performed subject to specific agreement. Most revenue under these arrangements is earned over time, in accordance with the terms of the contractual arrangement.

DISCONTINUED OPERATIONS (DATA INVESTMENT MANAGEMENT)

Revenue for market research services is typically recognised over time based on input measures. For certain performance obligations, output measures such as the percentage of interviews completed, percentage of reports delivered to a client and the achievement of any project milestones stipulated in the contract are used to measure progress.

While most of the studies provided in connection with the Group's market research contracts are undertaken in response to an individual client's or group of clients' specifications, in certain instances a study may be developed as an off-the-shelf product offering sold to a broad client base. For these transactions, revenue is recognised when the product is delivered. When the terms of the transaction provide for licensing the right to access a product on a subscription basis, revenue is recognised over the subscription period, typically on a straight-line basis.

TAXATION

Corporate taxes are payable on taxable profits at current rates. The tax expense represents the sum of the tax currently payable and deferred tax.

The Group is subject to corporate taxes in a number of different jurisdictions and judgement is required in determining the appropriate provision for transactions where the ultimate tax determination is uncertain. In such circumstances, the Group recognises liabilities for anticipated taxes based on the best information available and where the anticipated liability is both probable and estimable, liabilities are classified as current. Any interest and penalties accrued are included in corporate income taxes both in the consolidated income statement and balance sheet. Where the final outcome of such matters differs from the amount recorded, any differences may impact the income tax and deferred tax provisions in the period in which the final determination is made.

The tax laws that apply to the Group's subsidiaries may be amended by the relevant tax authorities. Such potential amendments are regularly monitored and adjustments are made to the Group's tax liabilities and deferred tax assets and liabilities where necessary.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are recognised for all taxable temporary differences unless specifically excepted by IAS 12 Income Taxes. Deferred tax is charged or credited in the consolidated income statement, except when it relates to items charged or credited to other comprehensive income or directly to equity, in which case the deferred tax is also dealt with in other comprehensive income or equity. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised, which can require the use of accounting estimation and the exercise of judgement. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or other assets and liabilities (other than in a business combination) in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on enacted or substantively enacted legislation.

RETIREMENT BENEFIT COSTS

The Group accounts for retirement benefit costs in accordance with IAS 19 Employee Benefits.

For defined contribution plans, contributions are charged to the consolidated income statement as payable in respect of the accounting period.

For defined benefit plans the amounts charged to operating profit are the current service costs, past service costs, administrative expenses and gains and losses on settlements and curtailments. They are included as part of staff costs. Past service costs are recognised immediately in the consolidated income statement when the related plan amendment occurs. Net interest expense is calculated by applying the discount rate to the recognised overall surplus or deficit in the plan.

Actuarial gains and losses are recognised immediately in other comprehensive income.

Where defined benefit plans are funded, the assets of the plan are held separately from those of the Group, in separate independently managed funds. Pension plan assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high-quality corporate bond of equivalent currency and term to the plan liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date.

Recognition of a surplus in a defined benefit plan is limited based on the economic gain the Company is expected to benefit from in the future by means of a refund or reduction in future contributions to the plan, in accordance with IAS 19.

PROVISIONS FOR LIABILITIES AND CHARGES

Provisions comprise liabilities where there is uncertainty about the timing of settlement, but where a reliable estimate can be made of the amount. These include provisions for other property-related liabilities such as onerous contracts and dilapidations. Also included are other provisions, primarily long-term employee benefits such as deferred compensation plans, and legal claims, where the likelihood of settlement is considered probable.

LEASES

The Group leases most of its offices in cities where it operates. Other lease contracts include office equipment and motor vehicles.

At inception of a contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured based on the initial

amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, less any lease incentives received. The assets are depreciated over the term of the lease using the straight-line method. The lease term includes periods covered by an option to extend if the Group is reasonably certain to exercise that option.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate for the same term as the underlying lease. Lease payments included in the measurement of lease liabilities comprise fixed payments less any lease incentives receivable and variable lease payments that depend on an index or a rate as at the commencement date. Lease modifications result in remeasurement of the lease liability.

Depreciation is recognised in both costs of services and general and administrative costs and interest expense is recognised under finance costs in the consolidated income statement.

The Group has elected to use the exemption not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (under \$5,000). The payments associated with these leases are recognised as cost of services and general and administrative costs within the consolidated income statement on a straight-line basis over the lease term.

The Group assesses at the reporting date whether there are any indicators of impairment and performs an impairment test when an impairment indicator exists. The Group tests a right-of-use asset as a stand-alone asset for impairment when it either meets the definition of investment property which generates independent cash flows or it is vacant with minimal to no continued utility for the Company. When a right-of-use asset is tested as a stand-alone asset, an impairment loss is recognised when the carrying amount of the right-of-use asset exceeds its recoverable amount. The recoverable amount of a right-of-use asset is estimated mainly based on the present value of the estimated sublease income, discounted using the property yield rates.

The property held by the Group as right-of-use assets to earn rentals is classified as investment property. The Company measures its investment property applying the cost model.

TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions arising from normal trading activities are recorded at the rates in effect at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the year-end are translated at the year-end exchange rate. Foreign currency gains and losses are credited or charged to the consolidated income statement as they arise.

The income statements of foreign subsidiary undertakings are translated into pounds sterling at average exchange rates and the year-end net assets of these companies are translated at year-end exchange rates.

Exchange differences arising from retranslation of the opening net assets and on foreign currency borrowings (to the extent that they hedge the Group's investment in such operations) are reported in the consolidated statement of comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

HYPERINFLATION IN ARGENTINA

During 2021 and 2020, Argentina was designated as a hyperinflationary economy and the financial statements of the Group's subsidiaries in Argentina have been adjusted for the effects of inflation in accordance with IAS 29 Financial Reporting in Hyperinflationary Economies.

IAS 29 requires that the income statement is adjusted for inflation in the period and translated at the year-end foreign exchange rate and that non-monetary assets and liabilities on the balance sheet are restated to reflect the change in purchasing power caused by inflation from the date of initial recognition. In 2021, this resulted in an increase in goodwill of £23.9 million (2020: £22.6 million), an increase in other intangibles of £7.6 million (2020: £5.3 million), and an increase in property, plant and equipment of £20.3 million (2020: £19.3 million). A consumer price index (CPI) of 582.5 was used at 31 December 2021 (2020: 385.9). The impact on other non-monetary assets and liabilities and the impact on the Group's income statement in the year were immaterial.

SHARE-BASED PAYMENTS

The Group issues equity-settled share-based payments (including share options) to certain employees and accounts for these awards in accordance with IFRS 2 Share-Based Payment. All such payments are settled in WPP plc shares. The group funds the ESOP trust to purchase WPP plc shares and such investments are included in other investments. Equity-settled share-based payments are measured at fair value (excluding the effect of non-market-based vesting conditions) at the date of grant. Details regarding the fair value of equity settled share-based transactions are set out in notes 23 and 27.

The fair value determined at the grant date is recognised in the consolidated income statement as an expense on a straight-line basis over the relevant vesting period, based on the Group's estimate of the number of shares that will ultimately vest and adjusted for the effect of non-market-based vesting conditions.

NON-CONTROLLING INTERESTS

Non-controlling interests in acquired companies are measured at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. The acquisition of a non-controlling interest in a subsidiary, and the sale of an interest while retaining control, is accounted for within equity, and the cash cost of such purchases is included within "financing activities" in the cash flow statement.

CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTY IN APPLYING ACCOUNTING POLICIES

Management is required to make key decisions and judgements whilst acknowledging there is estimation uncertainty in the process of applying the Group's accounting policies. These estimates and judgements are reviewed on an ongoing basis. Where judgement has been applied or estimation uncertainty exists, the key factors taken into consideration are disclosed in the accounting policies and the appropriate note in these financial statements.

The most significant areas of estimation uncertainty include:

- Goodwill: the discounted cash flow methodology employed by the Group when testing for goodwill impairment requires estimates regarding revenue growth, operating margins, discount rates and working capital requirements. Further details of the methodology, discount rates, long-term growth rates and estimates used in relation to the goodwill impairment, and sensitivities to these estimates, are set out in note 14;
- Provision for post-employment benefits: estimates are required in the accounting for defined benefit pension plans, including establishing discount rates, rates of increase in salaries and pensions in payment, inflation and mortality assumptions. These estimates are made by management based on the advice of qualified advisors. Details of the assumptions used and the sensitivity of the benefit obligation to these assumptions are set out in note 24;
- Taxation: estimates are required in determining whether a provision is required and the amount of taxes that will be due, particularly given the many countries in which the Group operates. Where the final tax outcome is different from the amounts recorded, such differences may expose the Group to additional tax liabilities or impact the carrying value of deferred tax assets, which would affect the future tax charge. Further details on the tax charge, corporate income tax payable and deferred tax balances are set out in the income statement, balance sheet and notes 8 and 17.

Notes

The accompanying notes form an integral part of this consolidated statement of changes in equity.

¹ Figures have been restated as described in the accounting policies.

² Accumulated losses on existing equity investments held at fair value through other comprehensive income are \$399.1 million at 31 December 2021 (2020: £275.6 million).

³ Acquisition of subsidiaries represents movements in retained earnings and non-controlling interests arising from changes in ownership of existing subsidiaries and recognition of non-controlling interests on new acquisitions.

⁴ During the year, the Group merged Finbury Grover Hering and Sandover Hering & Co to form a holding global communications firm. As a part of the transaction, certain management held shares in the subsidiary, and a put option was granted which allowed the equity partners to require the Group to purchase these shares. This resulted in a movement in other reserves in the year of £274.6 million.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2021

1. GENERAL INFORMATION

WPP Jubilee Limited is a company incorporated in the UK and registered in England and Wales, under the Companies Act. The address of the registered office is Sea Containers House, 18 Upper Ground, London, SE1 9GL. The nature of the Group's operations and its principal activities are set out in note 2. These consolidated financial statements are presented in pounds sterling.

2. SEGMENT INFORMATION

The Group is a leading worldwide creative transformation organisation offering national and multinational clients a comprehensive range of communications, experience, commerce and technology services. Substantially all of the Group's revenue is from contracts with customers.

Reportable segments

The Group is organised into three reportable segments – Global Integrated Agencies, Public Relations and Specialist Agencies.

IFRS 8 Operating Segments requires operating segments to be identified on the same basis as is used internally for the review of performance and allocation of resources by the Group's Chief Executive Officer (the Chief Operating Decision Maker). Provided certain quantitative and qualitative criteria are fulfilled, IFRS 8 permits aggregation of these components into reportable segments for the purposes of disclosure in the Group's financial statements. In assessing the Group's reportable segments, the Directors have had regard to the similar economic characteristics of certain operating segments, their shared client bases, the similar nature of their products or services and their long-term margins, amongst other factors.

During 2020, the Group announced the intention to combine Grey and AKQA into AKQA Group, to bring Geometry and GTB into VMLY&R and International Healthcare into VMLY&R and Ogilvy. As a result AKQA, Geometry, GTB and International Healthcare are now reported within Global Integrated Agencies, having previously been reported within Specialist Agencies. Prior year figures have been re-presented to reflect these changes.

Reported contributions were as follows:

	Revenue ¹ £m	Headline operating profit ² £m

Net foreign exchange losses	4.4	5.9
Short-term lease expense	18.0	36.7
Low-value lease expense	2.3	2.3

Note

1. Other costs of services and general and administrative costs include £538.6 million (2020: £683.6 million) of other pass through costs

In 2021, operating profit includes credits totalling £19.3 million (2020: £46.3 million) relating to the release of excess provisions and other balances established in respect of acquisitions completed prior to 2020. Further details of the Group's approach to acquisition reserves, as required by IFRS 3 Business Combinations, are given in note 29.

Amortisation and impairment of acquired intangible assets of £97.8 million (2020: £89.1 million) includes an impairment charge in the year of £47.9 million (2020: £21.6 million) in regard to certain brand names that are no longer in use, including £43.8 million for brands with an indefinite life.

Investment and other impairment reversals of £42.4 million primarily relates to the partial reversal of a £255.6 million impairment taken in 2020 relating to Imagina, an associate in Spain.

Losses on disposal of investments and subsidiaries of £10.6 million in 2021 includes a loss of £4.9 million on the disposal of XMKT in China, which completed in September 2021.

Restructuring and transformation costs of £145.5 million (2020: £80.7 million) include £94.2 million in relation to the Group's IT transformation programme. This programme will allow technology to become a competitive advantage in the market as our clients, and their clients, move to an ever-increasing digital world. It includes costs of £62.2 million (including £14.0 million that was previously capitalised at 31 December 2020) in relation to the rollout of a new ERP system in order to drive efficiency and collaboration throughout the Group. The remaining £51.3 million relates to the continuing restructuring plan, first outlined on the Investor Day in December 2018. As part of that plan, restructuring actions have been taken to right-size under-performing businesses, address high-cost severance markets and simplify operational structures.

Restructuring costs in relation to Covid-19 of £29.9 million (2020: £232.5 million) primarily relate to property costs which the Group undertook in response to the Covid-19 pandemic. As management continues to assess the impact of Covid-19 on long-term working practices and the Group's real estate portfolio, further impairments may occur in the future. We note that there are other Covid-19 related amounts, including credits, which have not been reflected on the grounds that they cannot effectively be distinguished from the day-to-day activities of the business.

In 2021, the Group received £5.3 million (2020: £77.1 million) of aid from governments around the world in relation to the Covid-19 pandemic, which is included as a credit in other staff costs.

3. COSTS OF SERVICES AND GENERAL AND ADMINISTRATIVE COSTS (CONTINUED)

Total impairment charges included in restructuring costs of £39.2 million (2020: £196.7 million) consist of £17.6 million (2020: £147.6 million) within restructuring costs in relation to Covid-19 and £21.6 million (2020: £49.1 million) within restructuring and transformation costs. These impairment charges include £19.3 million (2020: £117.0 million) in relation to right-of-use assets, £9.8 million (2020: £79.7 million) of related property, plant and equipment and £10.1 million (2020: £nil) of other intangibles, arising from the Group's reassessment of its property requirements as a result of effective remote working practices during the Covid-19 pandemic and continued focus on campuses.

The goodwill impairment charge of £2,822.9 million in 2020 reflects the adverse impacts of Covid-19 on a number of businesses in the Group at that time.

Auditors' remuneration:

Prior years	(1.5)	(17.3)
	(132.5)	(97.5)
Tax charge	230.1	127.1

Note

¹ Figures have been restated as described in the accounting policies.

The corporation tax credit for prior years in 2021 and 2020 primarily comprises the release of a number of provisions following the resolution of tax matters in various countries.

The tax charge for the year can be reconciled to profit/(loss) before taxation in the consolidated income statement as follows:

Continuing operations	2021 £m	2020 ¹ £m
Profit/(loss) before taxation	1,032.9	(2,665.8)
Tax at the corporation tax rate of 19.0% ²	196.3	(506.5)

Other prior year adjustments	(41.8)	(98.8)
Impact of deferred tax rate change	(23.8)	–
Tax charge	230.1	127.1
Effective tax rate on profit/(loss) before tax	22.3%	(4.8%)

Notes

¹ Figures have been restated as described in the accounting policies.

² As the Group is subject to the tax rates of more than one country, it has chosen to present its reconciliation of the tax charge using the UK corporation tax rate of 19.0% (2020: 19.0%).

FACTORS AFFECTING THE TAX CHARGE IN FUTURE YEARS

The tax charge may be affected by the impact of acquisitions, disposals and other corporate restructurings, the resolution of open tax issues, and the ability to use brought forward tax losses. Changes in local or international tax rules, for example, increasing tax rates as a consequence of the financial support programmes implemented by governments during the Covid-19 pandemic, the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting, and changes arising from the application of existing rules or challenges by tax or competition authorities, may expose the Group to additional tax liabilities or impact the carrying value of deferred tax assets, which could affect the future tax charge.

8. TAXATION (CONTINUED)

Liabilities relating to open and judgemental matters are based upon an assessment of whether the tax authorities will accept the position taken, after taking into account external advice where appropriate. Where the final tax outcome of these matters is different from the amounts which were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made. The Group does not currently consider that judgements made in assessing tax liabilities have a significant risk of resulting in any material additional charges or credits in respect of these matters, within the next financial year, beyond the amounts already provided.

In the UK Budget on 3 March 2021, the Chancellor of the Exchequer announced an increase in the UK corporation tax rate from 19% to 25%, which is due to be effective from 1 April 2023. This change was enacted at the balance sheet date, and the Group has remeasured UK deferred tax balances accordingly and recognised a tax credit of £23.8 million in current period tax expense.

TAX RISK MANAGEMENT

We look to maintain open and transparent relationships with the tax authorities in the jurisdictions in which we operate and relevant government representatives. We maintain active engagement with a wide range of international companies and business organisations with similar issues. We engage advisors and legal counsel to obtain opinions on tax legislation and principles. We have a Tax Risk Management Strategy in place which sets out the controls established and our assessment procedures for decision making and how we monitor tax risk. We monitor proposed changes in taxation legislation and ensure these are taken into account when we consider our future business plans. Our Directors are informed by management of any significant tax law changes, the nature and status of any significant ongoing tax audits, and other developments that could materially affect the Group's tax position.

9. ORDINARY DIVIDENDS

No dividends were paid or declared in the periods presented for WPP Jubilee Limited.

Eurobonds The Group has in issue €750 million of 3.0% bonds due November 2023, €500 million of 1.375% bonds due March 2025, €750 million of 2.25% bonds due September 2026, €750 million of 2.375% bonds due May 2027, €600 million of 1.625% bonds due March 2030, and €250 million of Floating Rate Notes carrying a coupon of 3m EURIBOR +0.45% due March 2022.

Sterling bonds The Group has in issue £250 million of 3.750% bonds due May 2032 and £400 million of 2.875% bonds due September 2046.

Revolving Credit Facility The Group has a five-year Revolving Credit Facility of \$2.5 billion due March 2026, signed in November 2021. The Group's borrowings under these facilities, which are drawn down predominantly in pounds sterling, averaged nil in 2021 (2020: nil).

In May 2021, the Group's subsidiary, WPP AUNZ, repaid in full its A\$150 million Revolving Credit Facility due August 2021, and its A\$270 million Revolving Credit Facility due August 2023. The Group's borrowings under the Australian dollar facilities, which were drawn down in Australian dollars and New Zealand dollars, averaged the equivalent of A\$52 million in 2021 (2020: A\$151 million).

The Group had available undrawn committed credit facilities of £1,847.5 million at 31 December 2021 (2020: £2,023.2 million).

Borrowings under the \$2.5 billion Revolving Credit Facility are governed by certain financial covenants based on the results and financial position of the Group.

The \$2.5 billion Revolving Credit Facility, due March 2026, includes terms which require the consent of the majority of the lenders if a proposed merger or consolidation of the Company would alter its legal personality or identity.

COMMERCIAL PAPER PROGRAMMES

The Group operates commercial paper programmes using its Revolving Credit Facility as a backstop. The average US commercial paper outstanding in 2021 was nil (2020: \$2 million). The average Euro commercial paper outstanding in 2021 was nil (2020: nil) inclusive of the effect of currency swaps. There was no US or Euro commercial paper outstanding at 31 December 2021.

Note

¹ Bank overdrafts are included in cash and cash equivalents because they form an integral part of the Group's cash management

The Group considers that the carrying amount of cash and cash equivalents approximates their fair value.

12. ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

In July 2019, the Group announced the proposed sale of its Kantar business to Bain Capital. On 5 December 2019 the first stage of the transaction completed, consisting of approximately 90% of the Kantar group, with consideration of £2,140.2 million after tax and disposal costs. The sale involved the Group disposing of the Kantar business and holding 40% equity stakes post-transaction which are treated as associates. This generated a pre-tax gain of £73.8 million, tax charge of £157.4 million and goodwill impairment of £94.5 million for the Group. In 2020, the remaining stages of the transaction completed with total consideration of £236.1 million after tax and disposal costs. This generated a pre-tax gain of £10.0 million and a tax charge of £1.9 million.

Under IFRS 5 Non-current Assets Held for Sale and Discontinued Operations where certain conditions are met, an asset or disposal group that has been put up for sale should be recognised as "held for sale". The criterion was met on 9 July 2019, following Board approval of the disposal of Kantar to Bain Capital, representing the date at which the appropriate level of management was committed to a plan to sell the disposal group. The Kantar disposal group therefore became held for sale on this date.

The Kantar group is classified as a discontinued operation in 2019 and 2020 under IFRS 5, as it forms a separate major line of business and there was a single co-ordinated plan to dispose of it.

Results of the discontinued operations, which have been included in profit for the year, were as follows:

	2020 £m	2019 £m
Revenue	107.4	2,387.5
Costs of services	(92.3)	(1,951.5)
Gross profit	15.1	436.0

Attributable to		
Equity holders of the parent	6.5	(3.8)
Non-controlling interests ²	9.9	14.6
	16.4	10.8

Notes

¹ In 2019, goodwill impairment of £94.5 million arose from the assessment of fair value less costs to sell under IFRS 5.

² In 2020, non-controlling interests includes £9.3 million recognised on the disposal of Kantar within WPP Stargroup, a 56% owned subsidiary of the Group.

For the year ended 31 December 2020, the Kantar group contributed £30.8 million (2019: £322.9 million) to the Group's net operating cash flows, paid £0.9 million (2019: £53.2 million) in respect of investing activities and paid £0.7 million (2019: £27.2 million) in respect of financing activities.

12. ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS (CONTINUED)

The gain on sale of discontinued operations disposed by 31 December 2020 is calculated as follows:

	2020 £m	2019 £m

Total consideration received	238.0	2,529.3
Loss on sale before exchange adjustments	(10.6)	(210.2)
Exchange adjustments recycled to the income statement	20.6	284.0
Gain on sale of discontinued operation	10.0	73.8

Notes

1. Re-investment in equity stake represents the value of the Group's 40% stake in the new Kantar group as part of the disposal.

2. Deferred consideration in 2019 is made up of £79.6 million expected to be received in future periods on the satisfaction of certain conditions and the deferral of £/5.0 million consideration against services the Group will supply to Kantar on favourable terms in the future. The conditions expected to be met in the future include the settlement of ongoing legal cases, realisation of the value of certain investments and the utilisation of certain tax losses and allowances. There was uncertainty at the date of disposal in regard to the ultimate resolution of these terms and estimates of amounts due to be received were required to be made, there were no individually material estimates. Future services provided by the Group to Kantar arose through the negotiation of Transition Service Arrangements, as is customary for a disposal of this magnitude. The Group will support Kantar for a period of up to four years, primarily in the area of IT, on terms which are favourable to the disposal group. As such, an element of consideration has been deferred and will be recognised as the services are provided.

14. INTANGIBLE ASSETS (CONTINUED)

Cash-generating units (CGUs) with significant goodwill and brands with an indefinite useful life as at 31 December are:

	Goodwill		Brands with an indefinite useful life	
	2021 £m	2020 £m	2021 £m	2020 £m

Other goodwill represents goodwill on a large number of CGUs, none of which is individually significant in comparison to the total carrying value of goodwill. Separately identifiable brands with an indefinite useful life are carried at historical cost in accordance with the Group's accounting policy for intangible assets. The carrying values of the other brands with an indefinite useful life are not individually significant in comparison with the total carrying value of brands with an indefinite useful life.

Acquired intangible assets at net book value at 31 December 2021 include brand names of £137.4 million (2020: £172.8 million), customer-related intangibles of £110.4 million (2020: £67.1 million), and other assets (including proprietary tools) of £25.6 million (2020: £0.6 million).

The total amortisation and impairment of acquired intangible assets of £97.8 million (2020: £89.1 million) includes an impairment charge in the year of £47.9 million (2020: £21.6 million) in regards to certain brand names that are no longer in use, including £43.8 million for brands with an indefinite useful life. £45.1 million of the impairment charge relates to the Global Integrated Agencies segment, and £2.8 million relates to the Specialist Agencies segment. In addition, the total amortisation and impairment of acquired intangible assets includes £0.5 million (2020: £0.6 million) in relation to associates.

In accordance with the Group's accounting policy, the carrying values of goodwill and intangible assets with indefinite useful lives are reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment review is undertaken annually on 30 September. A goodwill impairment charge of £1.8 million relating to Specialist Agencies was recognised during the year due to a number of under-performing businesses in the Group. In certain markets, the impact of local economic conditions and trading circumstances on these businesses was sufficiently severe to indicate impairment to the carrying value of goodwill.

Under IFRS, an impairment charge is required for both goodwill and other indefinite-lived assets when the carrying amount exceeds the "recoverable amount", defined as the higher of fair value less costs to sell and value in use. The review assessed whether the carrying value of goodwill and intangible assets with indefinite useful lives was supported by the value in use determined as the net present value of future cash flows.

Due to the significant number of CGUs, the impairment test was performed in two steps. In the first step, the recoverable amount was calculated for each CGU using the latest available forecasts for 2021 and/or 2022, nil growth rate thereafter (2020: nil) and a conservative pre-tax discount rate of 13.5% (2020: 13.5%). The pre-tax discount rate of 13.5% was above the rate calculated for the global networks of 12.5% (2020: 12.5%). For smaller CGUs that operate primarily in a particular region subject to higher risk, the higher of 13.5% or 100 basis points above the regional discount rate was used in the first step.

The recoverable amount was then compared to the carrying amount, which includes goodwill, intangible assets and other assets. CGUs where the recoverable amount exceeded the carrying amount were not considered to be impaired. Those CGUs where the recoverable amount did not exceed the carrying amount were then further reviewed in the second step.

In the second step, these CGUs were retested for impairment using more refined assumptions. This included using a CGU specific pre-tax discount rate and management forecasts for a projection period of up to five years, followed by an assumed long-term growth rate of 2.0% (2020: 2.0%). If the recoverable amount using the more specific assumptions did not exceed the carrying value of a CGU, an impairment charge was recorded.

The long-term growth rate is derived from management's best estimate of the likely long-term trading performance with reference to external industry reports and other relevant market trends. As at 31 December 2021, we have assessed long-term industry trends based on recent historical data including the long-term impact of Covid-19 and assumed a long-term growth rate of 2.0% (2020: 2.0%). Management have made the judgement that the long-term growth rate does not exceed the long-term average growth rate for the industry.

The discount rate uses the capital asset pricing model (CAPM) to derive the cost of equity along with an estimated cost of debt that is weighted by an appropriate capital structure to derive an indication of a weighted average cost of capital. The cost of equity is calculated based on long-term government bond yield, an estimate of the required premium for investment in equity relative to government securities and further considers the volatility associated with peer public companies relative to the market. The cost of debt reflects an estimated market yield for long-term debt financing after taking into account the credit profile of public peer companies in the industry. The capital structure used to weight the cost of equity and cost of debt has been derived from the observed capital structure of public peer companies.

The pre-tax discount rate applied to the cash flow projections for the CGUs that operate globally was 12.5%. We developed a global discount rate that takes into account the diverse nature of the operations, as these CGUs operate with a diverse range of clients in a range of industries throughout the world, hence are subject to similar levels of market risks. The pre-tax discount rates applied to the CGUs that have more regional specific operations ranged from 11.3% to 18.4%.

Our approach in determining the recoverable amount utilises a discounted cash flow methodology, which necessarily involves making numerous estimates and assumptions regarding revenue less pass-through costs growth, operating margins, appropriate discount rates and working capital requirements. The key assumptions used for estimating cash flow projections in the Group's impairment testing are those relating to revenue less pass-through costs growth and operating margins. The key assumptions take account of the business's expectations for the projection period. These expectations consider the macroeconomic environment, industry and market conditions, the CGU's historical performance and any other circumstances particular to the unit, such as business strategy and client mix.

14. INTANGIBLE ASSETS (CONTINUED)

These estimates will likely differ from future actual results of operations and cash flows, and it is possible that these differences could be material. In addition, judgements are applied in determining the level of CGU identified for impairment testing and the criteria used to determine which assets should be aggregated. A difference in testing levels could affect whether an impairment is recorded and the extent of impairment loss. Changes in our business activities or structure may also result in additional changes to the level of testing in future periods. Further, future events could cause the Group to conclude that impairment indicators exist and that the asset values associated with a given operation have become impaired.

As part of the overall effort to simplify operations and provide clients with integrated offerings, certain operations have been realigned between the various networks. These realignments have been reflected in the CGUs being tested. This includes the combination of AKQA and Grey, bringing Geometry and GTB into VMLY&R, and moving International Healthcare into VMLY&R and Ogilvy.

Historically our impairment losses have resulted from a specific event, condition or circumstance in one or more of our companies, such as the impact of Covid-19 or the loss of a significant client. As a result, changes in the assumptions used in our impairment model have generally not had a significant effect on the impairment charges recognised. Given the significant recoveries achieved by CGUs in 2021, a reasonably possible change in assumptions would not lead to a significant impairment. The carrying value of goodwill and other intangible assets will continue to be reviewed at least annually for impairment and adjusted down to the recoverable amount if required.

IMPAIRMENTS IN 2020

In 2020, £2,822.9 million of impairment charges were incurred. The impairments related to historical acquisitions whose carrying values were reassessed in light of the impact of Covid-19. The impairments were driven by a combination of higher discount rates used to value future cash flows, a lower profit base in 2020 and lower industry growth rates. By operating sector, £2,355.1 million of the impairment charge related to Global Integrated Agencies, £161.5 million related to Public Relations and £306.3 million related to Specialist Agencies. This reflects the changes to segments described in Note 2 - Segment Information.

As noted above, the impairment review is undertaken annually on 30 September. Given the Covid-19 pandemic, impairment indicators such as a decline in revenue less pass-through costs forecasts, and downturns in the global economy and the advertising industry were identified in the first half of 2020. As such, the Group also performed an impairment test over goodwill and intangible assets with indefinite useful lives as at 30 June 2020. Given the continued impact of Covid-19, an additional impairment test was performed as of 31 December 2020.

In developing the cash flows for the 2020 impairment tests, we considered the impact of the Covid-19 pandemic to our businesses and adjusted projected revenue less pass-through costs and operating margins in 2020 and/or 2021 accordingly. For the remaining years in the projection period, we assessed when the cash flows would recover to 2019 levels as representative of pre-Covid-19 revenue less pass-through costs and operating margins. For many of our CGUs, recovery to 2019 levels by 2023 was estimated with some CGUs using alternative recovery profiles as considered appropriate.

The pre-tax discount rate applied to the cash flow projections for the CGUs that operate globally was 12.5%. The pre-tax discount rates applied to the CGUs that have more regional specific operations ranged from 10.8% to 18.6% for the 30 June 2020 test, 11.3% to 14.4% for the 30 September 2020 test, and 11.2% to 13.6% for the 31 December 2020 test.

As part of the overall effort to simplify operations and become more client-centric, certain operations were realigned between the various networks. These realignments were reflected in the CGUs being tested. The most significant of these for the 30 June 2020 test included the treatment of Landor and Fitch as a single CGU given the collaboration of the two brands from both a management and client perspective; the shift of certain European operations into VMLY&R; and the transfer of certain Asian operations from VMLY&R to Ogilvy in order to improve the operational synergies and offer in the respective regions.

Subsequent realignments to improve the operational synergies and regional offers were reflected in the September and December tests including the shift of certain Latin American and European operations between Wunderman Thompson, VMLY&R and GroupM; and the transfer of certain Asian operations to VMLY&R that previously operated independently from a network.

The transfers of carrying value between CGUs were determined on a relative value basis. These realignments did not have a significant impact on the impairment figures recognised. The CGUs with significant impairments of goodwill as at 31 December 2020 are set out in the below table with the recoverable amount determined as of the December 2020 test.

		Recoverable amount 2020 £m	Goodwill impairment charge 2020 £m

The investments included above as "other investments" represent investments in equity securities that present the Group with opportunity for return through dividend income and trading gains. They have no fixed maturity or coupon rate. The fair values of the listed securities are based on quoted market prices. For unlisted securities, where market value is not available, the Group has estimated relevant fair values on the basis of information from outside sources.

The carrying values of the Group's associates and joint ventures are reviewed for impairment in accordance with the Group's accounting policies.

16. INTERESTS IN ASSOCIATES, JOINT VENTURES AND OTHER INVESTMENTS (CONTINUED)

The Group's principal associates and joint ventures at 31 December 2021 included:

	Country of incorporation	% owned
Advantage Smollan Ltd	UK	25.1
Barrows Design and Manufacturing (Pty) Limited	South Africa	35.0
Dat Viet VAC Media Corporation	Vietnam	30.0

Note

¹ Representing the Group's interest in Kantar in the Rest of World chain.

The market value of the Group's shares in its principal listed associate undertakings at 31 December 2021 was as follows: GIIR Inc: £21.7 million, and High Co SA: £32.2 million (2020: GIIR Inc: £19.0 million, and High Co SA: £32.8 million). The carrying value (including goodwill and other intangibles) of these equity interests in the Group's consolidated balance sheet at 31 December 2021 was as follows: GIIR Inc: £40.0 million, and High Co SA: £37.7 million (2020: GIIR Inc: £41.2 million, and High Co SA: £38.9 million).

Where the market value of the Group's listed associates is less than the carrying value, an impairment review is performed utilising the discounted cash flow methodology discussed in note 14, which represents the value in use.

The Group's investments in its principal associate undertakings are represented by ordinary shares.

AGGREGATE INFORMATION OF ASSOCIATES THAT ARE NOT INDIVIDUALLY MATERIAL

The following table presents a summary of the aggregate financial performance of the Group's associate undertakings and joint ventures.

	2021 £m	2020 £m
Continuing operations		
Share of results of associate undertakings (note 4)	23.8	(136.0)
Share of other comprehensive income/(loss) of associate undertakings	13.5	(61.5)
Share of total comprehensive income/(loss) of associate undertakings	37.3	(197.5)

The application of equity accounting is ordinarily discontinued when the investment is reduced to zero and additional losses are not provided for unless the Group has guaranteed obligations of the investee or is otherwise committed to provide further financial support for the investee.

In the year ended 31 December 2020, share of losses of £62.9 million were not recognised in relation to Imagina, an associate in Spain, as the investment was reduced to zero. As at 31 December 2021, the cumulative share of unrecognised losses relating to Imagina is £23.0 million.

At 31 December 2021, capital commitments contracted, but not provided for, in respect of interests in associates and other investments were £5.4 million (2020: £7.5 million).

17. DEFERRED TAX

The Group's deferred tax assets and liabilities are measured at the end of each period in accordance with IAS 12 Income Taxes. The recognition of deferred tax assets is determined by reference to the Group's estimate of recoverability, using models where appropriate to forecast future taxable profits.

Deferred tax assets have only been recognised for territories where the Group considers that it is probable that all or a portion of the deferred tax assets will be realised. The main factors that we consider include:

- the future earnings potential determined through the use of internal forecasts;
- the cumulative losses in recent years;
- the various jurisdictions in which the potential deferred tax assets arise;
- the history of losses carried forward and other tax assets expiring;
- the timing of future reversal of taxable temporary differences;
- the expiry period associated with the deferred tax assets; and
- the nature of the income that can be used to realise the deferred tax asset.

If it is probable that some portion of these assets will not be realised, no asset is recognised in relation to that portion.

If market conditions improve and future results of operations exceed our current expectations, our existing recognised deferred tax assets may be adjusted, resulting in future tax benefits. Alternatively, if market conditions deteriorate further or future results of operations are less than expected, future assessments may result in a determination that some or all of the deferred tax assets are not realisable. As a result, all or a portion of the deferred tax assets may need to be reversed.

17. DEFERRED TAX (CONTINUED)

Certain deferred tax assets and liabilities have been offset as they relate to the same tax group. The following is the analysis of the deferred tax balances for financial reporting purposes:

	Gross 2021 £m	Offset 2021 £m	As reported 2021 £m	Gross 2020 £m	Offset 2020 £m	As reported 2020 £m

Other temporary differences comprise a number of items including tax deductible goodwill, none of which is individually significant to the Group's consolidated balance sheet. At 31 December 2021 the balance related to temporary differences in relation to revenue adjustments, tax deductible goodwill, fair value adjustments and other temporary differences.

In addition the Group has recognised the following gross deferred tax liabilities and movements thereon in 2021 and 2020:

	Brands and other intangibles £m	Associate earnings £m	Goodwill £m	Financial instruments £m	Other temporary differences £m	Total £m
1 January 2020	352.3	76.5	135.4	36.9	21.7	622.8

31 December 2021	325.1	36.8	133.2	-	40.9	536.0

At the balance sheet date, the Group has gross tax losses and other temporary differences of £6,914.6 million (2020: £6,848.4 million) available for offset against future profits. Deferred tax assets have been recognised in respect of the tax benefit of £2,259.2 million (2020: £2,041.3 million) of such tax losses and other temporary differences. No deferred tax asset has been recognised in respect of the remaining £4,655.4 million (2020: £4,807.1 million) of losses and other temporary differences as the Group considers that there will not be enough taxable profits in the entities concerned such that any additional asset could be considered recoverable. Included in the total unrecognised temporary differences are losses of £65.4 million (2020: £65.4 million) that will expire within one to ten years, and £4,410.5 million (2020: £4,548.1 million) of losses that may be carried forward indefinitely.

At the balance sheet date, the aggregate amount of the temporary differences in relation to the investment in subsidiaries for which deferred tax liabilities have not been recognised was £1,385.3 million (2020: £1,655.3 million). No liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and the Group considers that it is probable that such differences will not reverse in the foreseeable future.

18. TRADE AND OTHER RECEIVABLES

The following are included in trade and other receivables:

	2021 £m	2020 £m
Amounts falling due within one year

18. TRADE AND OTHER RECEIVABLES (CONTINUED)

The Group has applied the practical expedient permitted by IFRS 15 to not disclose the transaction price allocated to performance obligations unsatisfied (or partially unsatisfied) as of the end of the reporting period as contracts typically have an original expected duration of a year or less.

At end of year	70.5	112.5

The loss allowance is equivalent to 1.1% (2020: 1.7%) of gross trade accounts receivables.

Impairment losses on work in progress, accrued income and other debtors were immaterial for the years presented.

The Group considers that the carrying amount of trade and other receivables approximates their fair value.

EXPECTED CREDIT LOSSES

The Group has applied the simplified approach to measuring expected credit losses, as permitted by IFRS 9 Financial Instruments. This has been applied to trade receivables, contract assets and lease receivables. Under this approach, the Group utilises a provision matrix based on the age of the trade receivables and historical loss rates to determine the expected credit losses. The Group also considers forward-looking information. Therefore, the Group does not track changes in credit risk over the life of a financial asset, but recognises a loss allowance based on the financial asset's lifetime expected credit loss. For all other assets, the general approach has been applied and a loss allowance for 12-month expected credit losses is recognised.

Under IFRS 9, the expected credit losses are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Given the short-term nature of the Group's trade receivables, work in progress and accrued income, which are mainly due from large national or multinational companies, the Group's assessment of expected credit losses includes provisions for specific clients and receivables where the contractual cash flow is deemed at risk. Additional provisions are made based on the assessment of recoverability of aged receivables over one year where sufficient evidence of recoverability is not evident.

As a result of the ongoing Covid-19 pandemic, the Group also performed a detailed review of trade receivables, work in progress and accrued income aged less than one year, taking into account the level of credit insurance the Group has along with internal and external data including historical and forward-looking information. This review focused on significant individual clients along with the industry and country in which the clients operate where there is continued risk due to the pandemic.

19. TRADE AND OTHER PAYABLES: AMOUNTS FALLING DUE WITHIN ONE YEAR

The following are included in trade and other payables falling due within one year:

	2021 £m	2020 £m
Trade payables	10,596.9	10,206.5
Deferred income	1,334.0	1,153.7

Amounts due to parent company	550.3	1,997.3
Other creditors and accruals	2,983.4	2,453.4
	15,615.0	15,879.8

The Group considers that the carrying amount of trade and other payables approximates their fair value.

20. TRADE AND OTHER PAYABLES: AMOUNTS FALLING DUE AFTER MORE THAN ONE YEAR

The following are included in trade and other payables falling due after more than one year:

	2021 £m	2020 £m
Payments due to vendors (earnout agreements)	111.1	56.5
Liabilities in respect of put option agreements with vendors	333.1	101.4
Fair value of derivatives	47.2	11.2
Other creditors and accruals	128.5	144.4
	619.9	313.5

The Group considers that the carrying amount of trade and other payables approximates their fair value.

The following table sets out payments due to vendors, comprising contingent consideration and the Directors' best estimates of future earnout-related obligations:

	2021 £m	2020 £m
Within one year	85.6	57.8
Between one and two years	24.0	17.2

Bank overdrafts	342.3	7,845.6
Corporate bonds and bank loans	224.9	57.2
	567.2	7,902.8

The Group considers that the carrying amount of bank overdrafts approximates their fair value.

Amounts falling due after more than one year:

	2021 £m	2020 £m
Corporate bonds and bank loans	4,216.8	4,975.5

The Group estimates that the fair value of corporate bonds is £4,790.3 million at 31 December 2021 (2020: £5,509.1 million). The fair values of the corporate bonds are based on quoted market prices.

The Group considers that the carrying amount of bank loans of £14.7 million (2020: £57.2 million) approximates their fair value.

21. BANK OVERDRAFTS, BONDS AND BANK LOANS (CONTINUED)

The corporate bonds, bank loans and overdrafts included within liabilities fall due for repayment as follows:

	2021 £m	2020 £m
Within one year	567.2	7,902.8
Between one and two years	629.2	590.9
Between two and three years	550.4	669.4

Exchange adjustments	(0.8)	1.2	0.4
31 December 2021	70.6	197.9	268.5

Note

¹ Acquisitions include £7.3 million (2020: £0.4 million) of provisions arising from revisions to fair value adjustments related to the acquisition of subsidiary undertakings that had been determined provisionally at the immediately preceding balance sheet date, as permitted by IFRS 3 Business Combinations.

The Company and various of its subsidiaries are, from time to time, parties to legal proceedings and claims which arise in the ordinary course of business. The Directors do not anticipate that the outcome of these proceedings and claims will have a material adverse effect on the Group's financial position or on the results of its operations.

The utilisation of "Other" provisions during the year is primarily driven by litigation settlements.

23. SHARE-BASED PAYMENTS

Charges for share-based incentive plans were as follows:

	2021 £m	2020 £m
Continuing operations		
Share-based payments	99.6	74.4

Share-based payments comprise charges for stock options and restricted stock awards to employees of the Group. All share-based payments are over the share capital of WPP plc.

As of 31 December 2021, there was £203.4 million (2020: £134.9 million) of total unrecognised compensation cost related to the Group's restricted stock plans. That cost is expected to be recognised over an average period of one to two years.

Further information on stock options is provided in note 27.

RESTRICTED STOCK PLANS

The Group operates a number of equity-settled share incentive schemes, in most cases satisfied by the delivery of stock from one of the Group's ESOP Trusts. The most significant current schemes are as follows:

EXECUTIVE PERFORMANCE SHARE PLAN (EPSP)

This scheme is intended to reward and incentivise the most senior executives of the Group. The performance period is three or five complete financial years, commencing with the financial year in which the award is granted. The vest date will usually be in the March following the end of the performance period. Vesting is

23. SHARE-BASED PAYMENTS (CONTINUED)

conditional on continued employment throughout the vesting period.

The 2020 and 2021 EPSP awards are subject to three equally weighted performance conditions: three-year average Return on Invested Capital (ROIC), cumulative Adjusted Free Cash Flow (AFCF), and relative Total Shareholder Return (TSR). Achieving the threshold performance requirement will result in a vesting opportunity of 20% for that element. The vesting opportunity will increase on a straight-line basis to 100% of the award for maximum performance. The Compensation Committee has an overriding discretion to determine the extent to which the award will vest.

The 2019 EPSP awards are subject to a relative TSR performance condition, with a ROIC underpin. TSR performance will be compared to companies representing the most relevant, listed global competitors, with performance below median resulting in zero vesting. Performance between median and upper decile provides for a vesting opportunity of between 15% and 100%. The awards will vest subject to a ROIC underpin of an average of 7.5% over the performance period. The Compensation Committee has an overriding discretion to determine the extent to which the award will vest.

For EPSP awards granted between 2014 and 2018 there are three performance criteria, each constituting one-third of the vesting value, and each measured over the performance period:

- (i) TSR against a comparator group of companies. Threshold performance (equating to ranking in the 50th percentile of the comparator group) will result in 20% vesting of the part of the award dependent on TSR. The maximum vest of 100% will arise if performance ranks in the 90th percentile, with a sliding scale of vesting for performance between threshold and maximum.
- (ii) Headline diluted earnings per share. Threshold performance (7% compound annual growth) will again result in a 20% vest. Maximum performance of 14% compound annual growth will give rise to a 100% vest, with a sliding vesting scale for performance between threshold and maximum.
- (iii) Return on equity (ROE). Average annual ROE defined as headline diluted EPS divided by the balance sheet value per share of shareholders' equity. Threshold performance ranges between 10-14% average annual ROE and maximum performance ranges between 14-18%. Threshold again gives rise to a 20% vest, 100% for maximum, with a sliding scale in between.

PERFORMANCE SHARE AWARDS (PSA)

Conditional stock awards made under the PSA are dependent upon annual performance targets, typically based on one or more of: operating profit, profit before taxation and operating margin. Grants are made in the year following the year of performance measurement, and vest two years after grant date provided the individual concerned is continually employed by the Group throughout this time.

LEADERS, PARTNERS AND HIGH POTENTIAL GROUP

The WPP Leader programme makes conditional stock awards to around 1,800 of our key executives. Awards vest three years after grant, provided the participant is still employed within the Group.

VALUATION METHODOLOGY

For all of these schemes, the valuation methodology is based upon fair value on grant date, which is determined by the market price on that date or the application of a Black-Scholes model, depending upon the characteristics of the scheme concerned. The assumptions underlying the Black-Scholes model are detailed in note 27, including details of assumed dividend yields. Market price on any given day is obtained from external, publicly available sources.

MARKET/NON-MARKET CONDITIONS

Most share-based plans are subject to non-market performance conditions, such as margin or growth targets, as well as continued employment. EPSP is subject to a number of performance conditions, including TSR, a market-based condition.

For schemes without market-based performance conditions, the valuation methodology above is applied and, at each year-end, the relevant charge for each grant is revised, if appropriate, to take account of any changes in estimate of the likely number of shares expected to vest.

For schemes with market-based performance conditions, the probability of satisfying these conditions is assessed at grant date through a statistical model (such as the Monte Carlo model) and applied to the fair value. This initial valuation remains fixed throughout the life of the relevant plan, irrespective of the actual outcome in terms of performance. Where a lapse occurs due to cessation of employment, the cumulative charge taken to date is reversed.

Leaders, Partners and High Potential Group	831p	990p	853p	709p	922p

The total fair value of shares vested for all the Group's restricted stock plans during the year ended 31 December 2021 was £64.1 million (2020: £71.6 million).

24. PROVISION FOR POST-EMPLOYMENT BENEFITS

Companies within the Group operate a large number of pension plans, the forms and benefits of which vary with conditions and practices in the countries concerned. The Group's pension costs are analysed as follows:

	2021 £m	2020 £m
Continuing operations		
Defined contribution plans	162.8	157.8
Defined benefit plans charge to operating profit	14.9	13.9
Pension costs (note 5)	177.7	171.7
Net interest expense on pension plans (note 7)	1.8	2.9
	179.5	174.6

DEFINED BENEFIT PLANS

The pension costs are assessed in accordance with the advice of local independent qualified actuaries. The latest full actuarial valuations for the various pension plans were carried out at various dates in the last three years. These valuations have been updated by the local actuaries to 31 December 2021.

The majority of plans provide final salary benefits, with plan benefits typically based either on mandatory plans under local legislation, termination indemnity benefits, or on the rules of WPP sponsored supplementary plans. The implications of IFRIC 14 have been allowed for where relevant, in particular with regard to the asset ceiling/irrecoverable surplus.

The Group's policy is to close existing defined benefit plans to new members. This has been implemented across a significant number of the pension plans.

Contributions to funded plans are determined in line with local conditions and practices. Contributions in respect of unfunded plans are paid as they fall due. The total contributions (for funded plans) and benefit payments (for unfunded plans) paid for 2021 amounted to £16.7 million (2020: £20.3 million). Employer contributions and benefit payments in 2022 are expected to be approximately £15 million.

(A) ASSUMPTIONS

There are a number of areas in pension accounting that involve estimates made by management based on advice of qualified advisors. These include establishing the discount rates, rates of increase in salaries and pensions in payment, inflation, and mortality assumptions. The main weighted average assumptions used for the actuarial valuations at 31 December are shown in the following table:

	2021 % pa	2020 % pa
UK		
Discount rate ¹	1.8	1.3
Rate of increase in pensions in payment	4.5	4.4
Inflation	3.2	2.8
North America		
Discount rate ¹	2.6	2.0
Rate of increase in salaries ²	n/a	3.0
Western Continental Europe		
Discount rate ¹	1.2	0.9
Rate of increase in salaries	2.3	2.2

Asia Pacific, Latin America, Africa & Middle East and Central & Eastern Europe		
Discount rate ¹	5.3	4.2
Rate of increase in salaries	5.6	5.2
Inflation	3.7	3.7

Notes

¹ Discount rates are based on high-quality corporate bond yields. In countries where there is no deep market in corporate bonds, the discount rate assumption has been set with regard to the yield on long-term government bonds.

² The salary assumptions are no longer applicable to the US as all plans were frozen. Active participants will not accrue additional benefits for future services under these plans.

For the Group's pension plans, the plans' assets are invested with the objective of being able to meet current and future benefit payment needs, while controlling balance sheet volatility and future contributions. Pension plan assets are invested with a number of investment managers, and assets are diversified among equities, bonds, insured annuities, property and cash or other liquid investments. The primary use of bonds as an investment class is to match the anticipated cash flows from the plans to pay pensions. The Group is invested in high-quality corporate and government bonds which share similar risk characteristics and are of equivalent currency and term to the plan liabilities. Various insurance policies have also been bought historically to provide a more exact match for the cash flows, including a match for the actual mortality of specific plan members. These insurance policies effectively provide protection against both investment fluctuations and longevity risks. The strategic target allocation varies among the individual plans.

Management considers the types of investment classes in which the pension plan assets are invested. The types of investment classes are determined by economic and market conditions and in consideration of specific asset class risk.

24. PROVISION FOR POST-EMPLOYMENT BENEFITS (CONTINUED)

Management periodically commissions detailed asset and liability studies performed by third-party professional investment advisors and actuaries that generate probability-adjusted expected future returns on those assets. These studies also project the estimated future pension payments and evaluate the efficiency of the allocation of the pension plan assets into various investment categories.

At 31 December 2021, the life expectancies underlying the value of the accrued liabilities for the main defined benefit pension plans operated by the Group were as follows:

Years life expectancy after age 65	All plans	North America	UK	Western Continental Europe	Other ¹
Current pensioners (at age 65) – male	22.3	21.8	23.5	20.9	13.3
Current pensioners (at age 65) – female	24.0	23.3	25.0	23.9	16.4
Future pensioners (current age 45) – male	24.1	23.2	25.5	23.1	13.3
Future pensioners (current age 45) – female	25.8	24.6	27.1	25.9	16.4

Note

¹ Includes Asia Pacific, Latin America, Africa & Middle East and Central & Eastern Europe

The life expectancies after age 65 at 31 December 2020 were 22.1 years and 23.6 years for male and female current pensioners (at age 65) respectively, and 23.7 years and 25.2 years for male and female future pensioners (current age 45), respectively.

In the determination of mortality assumptions, management uses the most up-to-date mortality tables available in each country.

The following table provides information on the weighted average duration of the defined benefit pension obligations and the distribution of the timing of benefit payments for the next ten years. The duration corresponds to the weighted average length of the underlying cash flows.

	All plans	North America	UK	Western Continental Europe	Other ¹

The following table presents a sensitivity analysis for each significant actuarial assumption showing how the defined benefit obligation would have been affected by changes in the relevant actuarial assumption that were reasonably possible at the balance sheet date. This sensitivity analysis applies to the defined benefit obligation only and not to the net defined benefit pension liability in its entirety, the measurement of which is driven by a number of factors including, in addition to the assumptions below, the fair value of plan assets.

The sensitivity analyses are based on a change in one assumption while holding all other assumptions constant so that interdependencies between the assumptions are excluded. The methodology applied is consistent with that used to determine the recognised defined benefit obligation. The sensitivity analysis for inflation is not shown as it is an underlying assumption to build the pension and salary increase assumptions. Changing the inflation assumption on its own without changing the salary or pension assumptions will not result in a significant change in pension liabilities.

25. RISK MANAGEMENT POLICIES

FOREIGN CURRENCY RISK

The Group's results in pounds sterling are subject to fluctuation as a result of exchange rate movements. The Group does not hedge this translation exposure to its earnings but does partially hedge the currency element of its net assets using foreign currency borrowings, cross-currency swaps and forward foreign exchange contracts.

The Group effects these currency net asset hedges by borrowing in the same currencies as the operating (or "functional") currencies of its main operating units. The majority of the Group's debt is therefore denominated in US dollars, pounds sterling and euros. The Group's borrowings at 31 December 2021 were primarily made up of \$1,667 million, £1,094 million and €2,600 million (2020: \$2,167 million, £1,094 million and €2,600 million). The Group's average gross debt during the course of 2021 was \$1,934 million, £1,094 million and €2,600 million (2020: \$2,311 million, £999 million and €2,409 million).

The Group's operations conduct the majority of their activities in their own local currency and consequently the Group has no significant transactional foreign exchange exposures arising from its operations. Any significant cross-border trading exposures are hedged by the use of forward foreign-exchange contracts. No speculative foreign exchange trading is undertaken.

25. RISK MANAGEMENT POLICIES (CONTINUED)

INTEREST RATE RISK

The Group is exposed to interest rate risk on both interest-bearing assets and interest-bearing liabilities. The Group has a policy of actively managing its interest rate risk exposure while recognising that fixing rates on all its debt eliminates the possibility of benefiting from rate reductions and, similarly, having all its debt at floating rates unduly exposes the Group to increases in rates.

Including the effect of interest rate and cross-currency swaps, 100% of the year-end US dollar debt is at fixed rates averaging 4.18% for an average period of 72 months; 100% of the sterling debt is at a fixed rate of 2.97% for an average period of 155 months; 90.4% of the euro debt is at fixed rates averaging 2.04% for an average period of 69 months; and 9.6% of the euro debt is at floating rates averaging 0% for an average of 3 months.

GOING CONCERN AND LIQUIDITY RISK

In considering going concern and liquidity risk, the Directors have reviewed the Group's future cash requirements and earnings projections. The Directors believe these forecasts have been prepared on a prudent basis and have also considered the impact of a range of potential changes to trading performance. The impact of the Russian invasion of Ukraine and sanctions response from governments has been considered. The Company modelled a range of revenue less pass-through costs compared with the year ended 31 December 2021 and a number of mitigating cost actions that are available to the Company. Considering the Group's bank covenant and liquidity headroom and cost mitigation actions which could be implemented, the Company and the Group would be able to operate with appropriate liquidity and within its banking covenants and be able to meet its liabilities as they fall due with a decline in revenue less pass-through costs up to 30% in 2022. The likelihood of such a decline is considered remote as compared to Company expectations and external benchmarks, including previously witnessed declines in times of economic stress or external forces such as the pandemic. The modelling in this extreme scenario includes cost mitigations of 70% of the decline in net sales and the suspension of the share buyback programme and dividend. Further measures that were not included in the modelling, should the Company face such an extreme scenario, include the reduction of capital expenditure and acquisitions. Therefore, the Directors have concluded that the Group will be able to operate within its current facilities and comply with its banking covenants for the foreseeable future and therefore believe it is appropriate to prepare the financial statements of the Group on a going concern basis and that there are no material uncertainties which give rise to a significant going concern risk.

At 31 December 2021, the Group has access to £6.3 billion of committed facilities with maturity dates spread over the years 2022 to 2046 as illustrated below:

		2022 £m	2023 £m	2024 £m	2025 £m	2026+ £m

Net cash at 31 December 2021	(3,540.6)					
Other adjustments	(20.5)					
Adjusted net debt at 31 December 2021	901.1					

Given the strong cash generation of the business, its debt maturity profile and available facilities, the Directors believe the Group has sufficient liquidity to match its requirements for the foreseeable future.

TREASURY ACTIVITIES

Treasury activity is managed centrally from London, New York and Hong Kong, and is principally concerned with the monitoring of working capital, managing external and internal funding requirements and the monitoring and management of financial market risks, in particular interest rate and foreign exchange exposures.

The treasury operation is not a profit centre and its activities are carried out in accordance with policies approved by the Board of Directors and subject to regular review and audit.

The Group manages liquidity risk by ensuring continuity and flexibility of funding even in difficult market conditions. Undrawn committed borrowing facilities are maintained in excess of peak net borrowing levels and debt maturities are closely monitored. Targets for average adjusted net debt are set on an annual basis and, to assist in meeting this, working capital targets are set for all the Group's major operations.

CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debt, which includes the borrowings disclosed in note 10, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in the consolidated statement of changes in equity and in notes 27 and 28.

25. RISK MANAGEMENT POLICIES (CONTINUED)

CREDIT RISK

The Group's principal financial assets are cash and short-term deposits, trade and other receivables and investments, the carrying values of which represent the Group's maximum exposure to credit risk in relation to financial assets, as shown in note 26.

The Group's credit risk is primarily attributable to its trade receivables. The majority of the Group's trade receivables are due from large national or multinational companies where the risk of default is considered low. The amounts presented in the consolidated balance sheet are net of loss allowances, estimated by the Group's management based on expected losses, prior experience and their assessment of the current economic environment. A relatively small number of clients make up a significant percentage of the Group's debtors, but no single client represents more than 5% of total trade receivables as at 31 December 2021 or 31 December 2020.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies or banks that have been financed by their government.

A relatively small number of clients contribute a significant percentage of the Group's consolidated revenues. The Group's clients generally are able to reduce advertising and marketing spending or cancel projects at any time for any reason. There can be no assurance that any of the Group's clients will continue to utilise the Group's services to the same extent, or at all, in the future. Clients can reduce their marketing spend, terminate contracts, or cancel projects on short notice. The loss of one or more of our largest clients, if not replaced by new accounts or an increase in business from existing clients, would adversely affect our financial condition.

SENSITIVITY ANALYSIS

The following sensitivity analysis addresses the effect of currency and interest rate risks on the Group's financial instruments. The analysis assumes that all hedges are highly effective.

CURRENCY RISK

A 10% weakening of sterling against the Group's major currencies would result in the following losses being recognised in the income statement, which would arise on the retranslation of foreign currency denominated borrowings and derivatives. A 10% strengthening of sterling would have an equal and opposite effect.

	2021 £m	2020 £m
US dollar	0.2	145.2
Euro	16.9	36.0

INTEREST RATE RISK

A one percentage point increase in market interest rates for all currencies in which the Group had cash and borrowings at 31 December 2021 would increase profit before tax by approximately £33.3 million (2020: £48.0 million). A one percentage point decrease in market interest rates would have an equal and opposite effect. This has been calculated by applying the interest rate change to the Group's variable rate cash and borrowings.

26. FINANCIAL INSTRUMENTS

CURRENCY DERIVATIVES

The Group utilises currency derivatives to hedge significant future transactions and cash flows and the exchange risk arising on translation of the Group's investments in foreign operations. The Group is a party to a variety of foreign currency derivatives in the management of its exchange rate exposures. The instruments purchased are primarily denominated in the currencies of the Group's principal markets. The Group designates foreign currency denominated debt as hedging instruments against the currency risk associated with the translation of its foreign operations.

The Group also designates certain cross currency swaps as hedging instruments in cash flow hedges to manage its exposure to foreign exchange movements on its borrowings. Contracts due in November 2023 have receipts of €500.0 million and payments of \$604.2 million. Contracts due in March 2025 have receipts of €500.0 million and payments of \$444.1 million.

At 31 December 2021, the fair value of the Group's currency derivatives is estimated to be a net liability of approximately £46.7 million (2020: £1.6 million). These amounts are based on market values of equivalent instruments at the balance sheet date, comprising £0.5 million (2020: £9.6 million) assets included in trade and other receivables and £47.2 million (2020: £11.2 million) liabilities included in trade and other payables. The amounts taken to and deferred in equity during the year for currency derivatives that are designated and effective hedges was a credit of £45.5 million (2020: £9.7 million) for net investment hedges and a debit of £38.0 million (2020: £5.9 million) for cash flow hedges.

Changes in the fair value relating to the ineffective portion of the currency derivatives that are designated hedges amounted to £2.5 million (2020: £nil) which is included within revaluation and retranslation of financial instruments in the income statement. At the balance sheet date, the total nominal amount of outstanding forward foreign exchange contracts not designated as hedges was £764.8 million (2020: £304.6 million). The Group estimates the fair value of these contracts to be a net liability of £3.9 million (2020: £1.6 million).

As at 31 December 2021, the Group had designated its \$93 million bond, \$750 million bond, \$220 million bond, and \$604 million leg of its cross currency swap, as the hedging instruments in a net investment hedge relationship. Possible sources of ineffectiveness include any impairments to the Group's net investment in US dollars. The hedges are documented and are assessed for effectiveness on an ongoing basis.

These arrangements are designed to address significant exchange exposure and are renewed on a revolving basis as required.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the fair value is observable:

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices);

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Note

¹ During the year, the Group merged Embassy Glueck Hering and Sard Verbrinnen & Co to form a leading global strategic communications firm. As a part of this transaction, certain management acquired shares in the Company and a put option was granted which allows the equity partners to require the Group to purchase these shares. This resulted in additions to liabilities in respect of put options in the year of £219.6 million.

The fair values of financial assets and liabilities are based on quoted market prices where available. Where the market value is not available, the Group has estimated relevant fair values on the basis of available information from outside sources. There have been no movements between level 3 and other levels.

PAYMENTS DUE TO VENDORS AND LIABILITIES IN RESPECT OF PUT OPTIONS

Future anticipated payments due to vendors in respect of contingent consideration (earnout agreements) are recorded at fair value, which is the present value of the expected cash outflows of the obligations. Liabilities in respect of put option agreements are initially recorded at the present value of the redemption amount in accordance with IAS 32 and subsequently measured at fair value in accordance with IFRS 9. Both types of obligations are dependent on the future financial performance of the entity and it is assumed that future profits are in line with Directors' estimates. The Directors derive their estimates from internal business plans together with financial due diligence performed in connection with the acquisition.

As of 31 December 2021, the potential undiscounted amount of future payments that could be required under the earnout agreements for acquisitions completed in the current year and for all earnout agreements ranges from £nil to £124 million (2020: £nil to £41 million) and £nil to £595 million (2020: £nil to £808 million), respectively. The decrease in the maximum potential undiscounted amount of future payments for all earnout agreements is due to earnout arrangements that have completed and payments made on active arrangements during the year, and exchange adjustments, partially offset by earnout arrangements related to new acquisitions.

At 31 December 2021, the weighted average growth rate in estimating future financial performance was 16.7% (2020: 14.8%), which reflects the prevalence of recent acquisitions in the faster growing markets and new media sectors. The weighted average of the risk-adjusted discount rate applied to these obligations at 31 December 2021 was 6.5% (2020: 4.0%).

A one percentage point increase or decrease in the growth rate in estimated future financial performance would increase or decrease the combined liabilities due to earnout agreements and put options by approximately £6.0 million (2020: £1.5 million) and £6.6 million (2020: £1.4 million), respectively.

A 0.5 percentage point increase or decrease in the risk adjusted discount rate would decrease or increase the combined liabilities by approximately £8.6 million (2020: £2.0 million) and £8.9 million (2020: £2.0 million), respectively. An increase in the liability would result in a loss in the revaluation of financial instruments, while a decrease would result in a gain.

OTHER INVESTMENTS

The fair value of other investments included in level 1 is based on quoted market prices. Other investments included in level 3 are unlisted securities, where market value is not readily available. The Group has estimated relevant fair values on the basis of information from outside sources using the most appropriate valuation technique, including all external funding rounds, revenue and EBITDA multiples, the share of fund net asset value and discounted cash flows. Certain investments are valued using revenue multiples. An increase or decrease in this multiple of 0.5 times revenue would result in an increase or decrease in the value of investments and a corresponding credit or charge to equity of £3.8 million. The sensitivity to changes in unobservable inputs is specific to each individual investment.

There are no individually material investments designated as fair value through other comprehensive income.

As at 31 December 2021 there was £10.2 million (2020: £7.2 million) of total unrecognised compensation costs related to share options. The cost is expected to be recognised over a weighted average period of 21 months (2020: 20 months).

Share options are satisfied out of newly issued shares.

The weighted average fair value of options granted in the year calculated using the Black-Scholes model was as follows:

	2021	2020
Fair value of UK options (shares)	220.0p	128.0p
Fair value of US options (ADRs)	\$14.89	\$8.95

Options are issued at an exercise price equal to market value on the date of grant.

The average share price of the Group for the year ended 31 December 2021 was £9.64 (2020: £6.96) and the average ADR price for the same period was \$66.44 (2020: \$44.56).

Expected volatility is sourced from external market data and represents the historical volatility in the Company's share price over a period equivalent to the expected option life.

Expected life is based on a review of historical exercise behaviour in the context of the contractual terms of the options, as described in more detail below.

TERMS OF SHARE OPTION PLANS

In 2015, the Group introduced the Share Option Plan 2015 to replace both the "all-employee" Worldwide Share Ownership Plan and the discretionary Executive Stock Option Plan. Two kinds of options over ordinary shares can be granted, both with a market value exercise price. Firstly, options can be granted to employees who have worked at a company owned by WPP plc for at least two years which are not subject to performance conditions. Secondly, options may be granted on a discretionary basis subject to the satisfaction of performance conditions.

The Worldwide Share Ownership Programme was open for participation to employees with at least two years' employment in the Group. It was not available to those participating in other share-based incentive programmes or to Executive Directors. The vesting period for each grant is three years and there are no performance conditions other than continued employment with the Group.

The Executive Stock Option Plan has historically been open for participation to WPP Group Leaders, Partners and High Potential Group. It is not currently offered to Parent Company Executive Directors. The vesting period is three years and performance conditions include achievement of various TSR (Total Shareholder Return) and EPS (Earnings Per Share) objectives, as well as continued employment. The terms of these stock options are such that if, after nine years and eight months, the performance conditions have not been met, the stock option will vest automatically.

The Group grants stock options with a life of ten years, including the vesting period.

Notes

¹ Prior year figures have been re-presented to separately disclose the hedging reserve included previously within the translation reserve.
² Other reserves and retained earnings have been restated for the impact of a tax restatement, as described in the accounting policies.

The equity reserve primarily relates to the recognition of liabilities in respect of put options agreements entered into by the Group as part of a business combination that allows non-controlling shareholders to sell their shares to the Group in the future.

28. OTHER RESERVES (CONTINUED)

The hedging reserve comprises the effective portion of the cumulative net change in fair value of cash flow hedges.

The translation reserve contains the accumulated gains/(losses) on currency translation of foreign operations arising on consolidation and fair value gains/(losses) on net investment hedges.

The translation reserve comprises:

	2021 £m	2020 £m
Balance relating to continuing net investment hedges	(2.3)	9.7
Balance relating to discontinued net investment hedges	(85.0)	(142.5)
Balance related to retranslation of foreign currency net investments	323.1	442.5
	235.8	309.7

29. ACQUISITIONS

The Group accounts for acquisitions in accordance with IFRS 3 Business Combinations. IFRS 3 requires the acquiree's identifiable assets, liabilities and contingent liabilities (other than non-current assets or disposal groups held for sale) to be recognised at fair value at acquisition date. In assessing fair value at acquisition date, management make their best estimate of the likely outcome where the fair value of an asset or liability may be contingent on a future event. In certain instances, the underlying transaction giving rise to an estimate may not be resolved until some years after the acquisition date. IFRS 3 requires the release to profit of any acquisition reserves which subsequently become excess in the same way as any excess costs over those provided at acquisition date are charged to profit. At each period end management assess provisions and other balances established in respect of acquisitions for their continued probability of occurrence and amend the relevant value accordingly through the consolidated income statement or as an adjustment to goodwill as appropriate under IFRS 3.

The Group acquired a number of subsidiaries in the year. The following table sets out the book values of the identifiable assets and liabilities acquired and their fair value to the Group. The fair value adjustments for certain acquisitions have been determined provisionally at the balance sheet date.

Cash			225.9
Equity instruments of subsidiary company			110.8
Payments due to vendors			78.0

Equity instruments of the subsidiary company relate to shares issued by FGH SVC Holdco Inc. and represent 16.5% ownership of this subsidiary company. WPP retains a 57.9% stake in FGH SVC Holdco Inc. following this transaction.

Increases in non-controlling interests in the period arising from the acquisition of subsidiaries are due to changes in ownership of existing subsidiaries and both increases in the non-controlling interests that arise on acquisition of a new subsidiary, as noted in the table above, along with the impact of share issuances in subsidiaries that contain non-controlling interests as a part of the overall acquisition arrangement, but occurring immediately prior to the acquisition of a new subsidiary.

Goodwill arising from acquisitions represents the value of synergies with our existing portfolio of businesses and skilled staff to deliver services to our clients. Goodwill that is expected to be deductible for tax purposes is £83.9 million.

Non-controlling interests in acquired companies are measured at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. There continues to be no subsidiaries with non-controlling interests that are individually material to the Group.

29. ACQUISITIONS (CONTINUED)

The contribution to revenue and operating profit of acquisitions completed in the year was not material. There were no material acquisitions completed between 31 December 2021 and the date the financial statements have been authorised for issue.

30. RELATED PARTY TRANSACTIONS

The Group enters into transactions with its associate undertakings. The Group has continuing transactions with Kantar, including sales, purchases, the provision of IT services, subleases and property related items.

In the year ended 31 December 2021, revenue of £117.2 million (2020: £90.6 million) was reported in relation to Compas, an associate in the USA. All other transactions in the years presented were immaterial.

The Group invested a further £92.9 million in Kantar in 2021 to fund its 40% share of the Numerator acquisition.

The following amounts were outstanding at 31 December:

	2021 £m	2020 £m
Amounts owed by related parties		
Kantar	30.3	39.0
Other	45.7	27.9

NOTES TO THE COMPANY FINANCIAL STATEMENTS

32. ACCOUNTING POLICIES

The principal accounting policies of WPP Jubilee Limited (the Company) are summarised below. These accounting policies have all been applied consistently throughout the year and preceding year.

(A) BASIS OF ACCOUNTING

The financial statements of WPP Jubilee Limited have been prepared under the historical cost convention in accordance with UK accounting standards and the Companies Act 2006. The company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council.

The financial statements of WPP Jubilee Limited have been prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework. As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to share-based payment, financial instruments, capital management, presentation of a cash-flow statement and certain related party transactions.

Where required, equivalent disclosures are given in the consolidated financial statements. The financial statements are prepared on a going concern basis, further details of which are in the Directors' report on pages 4 to 5.

(B) TRANSLATION OF FOREIGN CURRENCY

Foreign currency transactions arising from operating activities are translated from local currency into pounds sterling at the exchange rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the period end are translated at the period-end exchange rate. Foreign currency gains or losses are credited or charged to the profit and loss account as they arise.

(C) INVESTMENTS

Investments in subsidiaries are stated at cost less provision for impairment.

(D) OTHER ASSETS AND LIABILITIES

Unless otherwise indicated all assets and liabilities are stated at nominal value.

(E) TAXATION

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are recognised for all taxable temporary differences unless specifically excepted by IAS 12 Income Taxes. Deferred tax is charged or credited in the consolidated income statement, except when it relates to items charged or credited to other comprehensive income or directly to equity, in which case the deferred tax is also dealt with in other comprehensive income or equity. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or other assets and liabilities (other than in a business combination) in a transaction that affects neither the tax profit nor the accounting profit.

(F) EXPECTED CREDIT LOSSES

Amounts owed by subsidiaries are recorded at amortised cost and are reduced by expected credit losses. The general approach has been applied and a loss allowance for 12-month expected credit losses is recognised. Under IFRS 9 Financial Instruments, the expected credit losses are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

(G) RESTATEMENT

The Company financial statements for the year ended 31 December 2019 included an error relating to the foreign currency movement calculation on intercompany balances between WPP Jubilee Limited and another group company. The impact of this error was the recognition of a £34.2 million foreign exchange gain within operating income in the Company profit and loss account with a corresponding decrease in amounts owed to group companies within 'Creditors: amounts falling due within one year' on the Company balance sheet. This has been corrected in the financial statements for the year ended 31 December 2021 by adjusting the opening profit and loss reserve as at 1 January 2020 to eliminate the previously recognised foreign exchange gain from the prior year profit and loss reserves (resulting in a decrease of £34.2m to the reserves as at 1 January 2020 and a corresponding increase in amounts owed to group companies within 'Creditors: amounts falling due within one year' in the Company balance sheet as at 31 December 2020).

33. OPERATING COSTS

Included within operating costs is:

	2021 £m	2020 £m
Net foreign exchange gains/(losses)	11.3	(188.4)
Gain on sale of investments	106.9	-
Other operating income	7.0	-
	125.2	(188.4)

34. INTEREST RECEIVABLE AND SIMILAR INCOME

	2021 £m	2020 £m
Interest receivable from subsidiary undertakings	52.4	34.5
Bank and other interest receivable	0.1	0.3
	52.5	34.8

Bank and other interest payable	5.4	8.6
Interest payable to subsidiary undertakings	190.8	200.7
	196.2	209.3

36. TAXATION ON LOSS ON ORDINARY ACTIVITIES

The tax assessed for the year differs from that resulting from applying the rate of corporation tax in the UK of 19% (2020: 19%). The differences are explained below:

	2021 £m	2020 £m
Profit/(loss) on ordinary activities before tax	4,122.9	(1,030.4)
Tax at the rate of 19.0% thereon	(783.4)	195.8
Factors affecting tax charge for the year:		
Expenses not deductible	(174.0)	(507.8)
Group relief for nil consideration	(33.0)	(54.1)
Income not taxable	987.1	345.2
Impact of corporate interest restriction	3.3	20.9
Irrecoverable withholding tax	(0.2)	0.6
Tax (charge)/credit for the year	(0.2)	0.6

In the UK Budget on 3 March 2021, the Chancellor of the Exchequer announced an increase in the UK corporation tax rate from 19% to 25%, which is due to be effective from 1 April 2023. The change was enacted at the balance sheet date, and the Group has remeasured UK deferred tax balances accordingly.

At the balance sheet date, no deferred tax asset has been recognised on tax losses of £51.4 million. These losses have no expiry date and may be carried forward indefinitely.

37. FIXED ASSET INVESTMENTS

The following are included in the net book value of fixed asset investments:

	Subsidiary undertakings £m
Net book value	
1 January 2020	24,219.8
Additions	14,171.2
Disposals	(3,056.1)
Impairment	(2,484.3)
31 December 2020	32,850.6
Additions	3,271.0
Disposals	(2,116.1)
Impairment	(915.8)
31 December 2021	33,089.7

In accordance with the company's accounting policy, the company annually tests the carrying value of investments for impairment. The 2021 impairment review was undertaken as at 31 December 2021. The review assessed whether the carrying value of investments was supported by the net present value of future cash flows derived from the assets. An annual growth rate of 2.0% and a post-tax discount rate of 9.5% has been assumed.

WPP Jubilee Limited has guaranteed the liabilities of the subsidiaries listed below under section 479A and C of the Companies Act 2006 (as amended). As such, these subsidiaries will take advantage of the audit exemption set out within section 479A for the year ended 31 December 2021.

37. FIXED ASSET INVESTMENTS (CONTINUED)

The following significant additions and disposals occurred in the year:

On 31 March 2021, the Company disposed of its 104,045,701 of its ordinary shares in WPP Sphinx Limited to a fellow Group company, WPP UK Germany Holdings, for consideration equal to the market value of the shares of €1,531,595,978.

On 15 July 2021, the Company acquired an additional 1,000,000,000 ordinary shares of a nominal value of £0.0002 each in WPP 2005 Limited, a fellow Group company, in exchange for WPP 2005 Limited transferring its loan payable to WPP Finance 2010 of \$600,000,000 and accrued interest of \$8,299,333.

On 13 October 2021, WPP UK Torre issued 43,500,000,000 ordinary shares at a nominal value of USD0.001 per share to the Company at market value of \$787,335,222, creating share capital of \$43,500,000 and share premium of \$743,835,222 in WPP UK Torre.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WPP JUBILEE LIMITED

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

In our opinion:

- the financial statements of WPP Jubilee Limited (the 'parent company') and its subsidiaries (the 'group') give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2021 and of the group's profit for the year then ended;
- the group financial statements have been properly prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006 and International Financial Reporting Standards (IFRSs) as adopted by the European Union and IFRSs as issued by the International Accounting Standards Board (IASB);
- the parent company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the consolidated income statement and parent company profit and loss account;
- the consolidated statement of comprehensive income;
- the consolidated and parent company balance sheets;
- the consolidated and parent company statements of changes in equity;
- the consolidated cash flow statement;
- the group's accounting policies; and
- the related notes 1 to 44.

The financial reporting framework that has been applied in their preparation of the group financial statement is applicable law and international accounting standards in conformity with the requirements of the Companies Act 2006 and IFRSs as issued by the IASB. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

CONCLUSIONS RELATING TO GOING CONCERN

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and parent company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

OTHER INFORMATION

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

EXTENT TO WHICH THE AUDIT WAS CONSIDERED CAPABLE OF DETECTING IRREGULARITIES, INCLUDING FRAUD

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the group's industry and its control environment, and reviewed the group's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and internal audit about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory frameworks that the group operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the UK Companies Act, pensions legislation and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the group's ability to operate or to avoid a material penalty. These included the US Foreign Corrupt Practices Act and the UK Bribery Act.

We discussed among the audit engagement team including relevant internal specialists such as tax, valuations, pensions and IT regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management, internal audit and in-house and external legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance, reviewing internal audit reports, and reviewing correspondence with HMRC.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the group and of the parent company and their environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

USE OF OUR REPORT

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.
