DIRECTORS' REPORT

for the year ended 31 December 2008

The directors present their annual report and the audited financial statements for the year ended 31 December 2008.

1. Principal activities

The principal activities for the company for the year was that of a holding and intercompany funding company.

2. Business review

The results for the company show a loss before taxation of £83.7m (2007 loss: £27.6m) and turnover of £125.1m (2007: £119.4m). The company has net assets of £315.3m (2007: £381.4m).

Total income from continuing activities increased by £4.9m, This increase is due to an increase in intercompany interest receivable of £7.8m as a result of new loans to the recently acquired Bupa US Holdings II Inc of £329m and Bupa Financial Securities (1992) Ltd of £298m and an increase in the loan to Bupa Finance plc of £266m. An increase of £1m in investment management fees arose as a result of an increase of funds managed for Bupa Insurance Ltd and the addition of funds managed from the newly acquired MBF, an Australian insurance company. Other income decreased by £0.8m as a result of less cash held. Dividends received from Group companies decreased by £3.2m.

Intercompany interest receivable and payable were impacted by LIBOR rates being lower in the marketplace in 2008 from an average of 5.8% for the first ten months of the year to just over 2.77% in December 2008 (average of 6.2% in 2007).

Interest payable increased by £61.0m. This increase is driven by an increase in Group interest payable of £44.1m as a result of a 35.5% increase in loans with Bupa Finance plc of £623m, Bupa IT Services Ltd of £44m, Bupa Europe Finance Ltd of £42m and Bupa Malta Investments No. 2 Ltd of £44.7m and a foreign exchange loss of £2.5m on intercompany loans, where a gain of £13.7m was recorded in 2007.

During the year, the company wrote down the value of property by £0.7m. This write down occurred due to changes in the market conditions and valuations.

During 2008 world economic market conditions changed dramatically due to the credit crunch and the subsequent turmoil in the major global economies. The relative weakness of Sterling compared to the other currencies, principally the Euro, Australian Dollar and the US Dollar, has led to large losses from foreign exchange loans during 2008.

The external commercial environment is expected to remain competitive in 2009. The company's management and its strategy are subject to a number of uncertainties and risks. These risks and uncertainties include interest rate and foreign exchange rate fluctuations driven by the external investment market and the uncertainty of timing of cash generation within the other Group companies. Management believes that these risks and uncertainties are managed effectively and are reviewed on a regular basis, in line with Group policies.

Details of Bupa Group's business risks and risk management processes are set out in the parent company's annual report.

The Company is managed on a divisional basis as part of the Group's operations. The Directors do not therefore consider the use of KPIs to be appropriate or necessary to provide an understanding of the development, performance or position of the company.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE DIRECTORS' REPORT AND THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

We also report to you whether in our opinion the information given in the Directors' Report is consistent with the financial statements.

In addition, we report to you if, in our opinion, the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and other transactions is not disclosed.

We read the Directors' Report and consider the implications for our report if we become aware of any apparent misstatements within it.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2008

1. STATEMENT OF ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements, except where noted below.

(a) Basis of preparation

The financial statements have been prepared in accordance with applicable UK accounting standards and under historical cost accounting rules, modified to include the revaluation of properties. In view of the letter of support from Bupa Finance plc, which undertakes to provide such support as is necessary to enable the company to meet its liabilities as they fall due, the financial statements are also prepared on a going concern basis.

The Company is exempt by virtue of s228 of the Companies Act 1985 from the requirement to produce group financial statements. These financial statements present information about the Company as an individual undertaking and not about its group.

Under FRS 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

As the Company is a wholly owned subsidiary of the British United Provident Association Limited ("Bupa"), the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group. The consolidated financial statements of Bupa, within which this Company is included, can be obtained from the address given in note 2.

(b) Investments

Investments in subsidiary undertakings are carried at cost less provisions for diminution in value. Dividends on equity investments are accounted for on a receivable basis; other investment income is accounted for on an accrual basis. Short term deposits and listed investments are included at cost.

(c) Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transacation. Monetary assets and liabilities denominated in foreign currencies are translated using the contracted rate or the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2008 - continued

1. STATEMENT OF ACCOUNTING POLICIES - continued

(d) Fixed assets and depreciation

Long leasehold land and buildings, which are all occupied by the group for its own use, are stated at current value. Interim valuations of property are made at least every three years. Full valuations are completed at least every five years. Depreciation is provided to write-off the cost or valuation less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Leasehold land and buildings

- term of the lease less one year

Unrealised gains/losses on revaluation are taken to revaluation reserves in accordance with FRS 15.

(e) Taxation including deferred taxation

The charge for taxation is based on the result for the year and takes into account deferred tax.

Deferred tax is provided in full on all timing differences that have originated, but not reversed, at the balance sheet date which result in an obligation to pay more, or a right to pay less or to receive more, tax with the following exceptions:

- (i) Provision is made for tax on gains arising from the revaluation of property to its market value, the fair value adjustment of fixed assets, or gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned and without it being possible to claim rollover relief. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.
- (ii) Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable.
- (iii) Deferred tax assets are recognised only to the extent that it is considered more likely than not that there will be suitable taxable profits from which the underlying timing differences can deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on current tax rates and laws.

Trading losses surrendered to other group subsidiary undertakings are made on a full payment basis.

1. STATEMENT OF ACCOUNTING POLICIES - continued

(f) Dividends on shares presented within shareholders' funds

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

2. IMMEDIATE AND ULTIMATE PARENT UNDERTAKINGS

The immediate parent undertaking of the company and the smallest group into which these financial statements are consolidated is that headed by Bupa Finance Plc, a company registered in England and Wales.
