BERENDSEN FLUID POWER LIMITED (Formerly Sacol Hydraulics Limited)

REPORT OF THE DIRECTORS

The Directors present their report and accounts of the company for the year ended 31st March. 1991.

PRINCIPAL ACTIVITY

The company's principal activity in the year under review was the design, manufacture, assembly and distribution of hydraulic equipment.

REVIEW OF BUSINESS

A summary of the results of the year's trading is given on page 4 of the accounts. On the 21st November 1990, under a reorganisation of the Sacol Group, the shares of the company were transferred to Switchfocus Limited.

On the 27th March 1991, Sophus Berendsen AS of Denmark acquired the share capital of Switchfocus Limited. On the 23rd December 1991. the shares of the company were transferred to S. Berendsen Limited.

On the 1st January 1992, the company changed its name to Berendsen Fluid Power Limited, and it acquired the assets and liabilities of Double D Hydraulics Limited and Angus & Crichton Sales Limited.

The Directors consider that the state of affairs of the company is satisfactory.

DIVIDENDS

The Directors recommend that no dividend be paid (1990 - £150,000) and that the loss of £80.974 be deducted from retained profits.

The following Directors held office during the period:-

- J. Ajslev (Appointed 27th March, 1991)
- O Balle (Appointed 27th March, 1991)
- D. Brown (Resigned 16th January, 1992)

Report of the auditors to the directors of Berendsen Fluid Power Limited pursuant to paragraph 8 of schedule 8 to the Companies Act 1985.

We have examined the abbreviated accounts on pages 4 to 12, together with the full accounts of Berendsen Fluid Power Limited for the year ended 31 March 1991. The scope of our work for the purpose of this report was limited to confirming that the company is entitled to the exemptions claimed in the directors' statement on page 5 and that the abbreviated accounts have been properly prepared from the full accounts.

In our opinion, the company is entitled under sections 246 and 247 of the Companies Act 1985 to the exemptions conferred by Part 11 of schedule 8 to that Act in respect of the year ended 31 March 1991, and the abbreviated accounts on pages 4 to 12 have been properly prepared in accordance with that schedule.

On 13 March 1992 we reported, as auditors of Berendsen Fluid Power Limited, to the members on the full accounts prepared under section 226 of the Companies Act 1985 for the year ended 31 March 1991, and our audit report was as follows:

"We have audited the accounts on pages 4 to 12 in accordance with Auditing Standards, except that the scope of our work was limited by the matters referred to below.

We were not appointed auditors of the company until Narch 1991 and in consequence did not report on the accounts for the year ended 31 March 1990. At 31 March 1991, the company established a provision for slow moving and obsolete stock of £124,225. There were no satisfactory audit procedures that we could adopt to ascertain to what extent the amount provided should have been dealt with in prior years. Any part of this provision that should have been so dealt with would have reduced the profit of prior years and also reduced the loss for the year ended 31 March 1991 by a like amount.

The company did not carry out a physical count of stock at 31 March 1990 and there were no practicable alternative auditing procedures that we could apply to confirm quantities. Accordingly, we have been unable to obtain all the information and explanations considered necessary to satisfy ourselves as to the existence of stock valued at £570,546 at 31 March 1990. Any adjustment to this figure would affect the loss for the year ended 31 March 1991.

In our opinion the accounts give a true and fair view of the state of the company's affairs at 31 March 1991 but, because of the possible material effect of the matters referred to above, we are unable to form an opinion as to whether the accounts give a true and fair view of the loss and source and application of funds for the year then ended. In all other respects, in our opinion, the accounts have been properly prepared in accordance with the Companies Act 1985."

BERENDSEN FLUID POWER LIMITED (Formerly Sacol Hydraulics Limited) NOTES TO THE ACCOUNTS FOR THE YEAR ENDED 31ST MARCH, 1991

1. ACCOUNTING POLICIES

Basis of Accounting:

The accounts have been prepared under the historical cost convention and have been prepared in accordance with applicable accounting standards.

Tangible Fixed Assets:

Depreciation is provided by reducing the written down values at the following annual rates which are relative to their estimated useful lives:

Plant and machinery 15% on written down values Motor vehicles 25% on written down values Office equipment 15% on written down values

except for the undermentioned assets which are charged on the straight line basis over the periods stated:

Short term leasehold properties Over remaining period of lease Specialised equipment 5 years

Leases:

Where the company enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a "Finance Lease". The asset is recorded in the Balance Sheet as a Tangible Fixed Asset and is depreciated over its estimated useful life or the term of the lease, whichever is shorter. Future instalments under such leases, net of finance charges, are included with creditors. Rentals payable are apportioned between the finance element, which is charged to the Profit and Loss Account, and the capital element which reduces the outstanding orligation for future instalments.

All other leases are accounted for as 'Operating Leases', and the rental charges are charged to the Profit and Loss Account on a straight line basis over the life of a lease.

Stocks:

Stock and work in progress is valued on an average cost pasis after making due allowance for obsolate and slow moving items.

The cost of products manufactured by the iombany consists of direct materials and labour costs. (Off is calculated using the first-in first-out method.

Deferred Taxation:

The commany provides at current rates of tax for taxation deferred in respect of all material timing differences, except to the extent that, in the opinion of the Directors, there is reasonable probability that the liability will not arise in the foreseeable future.
