STRATEGIC REPORT

YEAR ENDED 31 DECEMBER 2018

The directors present their strategic report for the company for the year ended 31 December 2018.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activity of the company during the year was to market and distribute recorded music and videos.

The result of the company for the year ended 31 December 2018 and its position as at that date are set out in the statement of comprehensive income, statement of financial position and statement of changes in equity on pages 9, 10 and 11 respectively. The result and position of the company were in line with directors' expectations.

RESULTS AND DIVIDENDS

The company's loss for the financial year was £6,492,000 (2017 - loss £16,100,000). The retained loss for the year has been transferred to reserves. The directors do not recommend a dividend payment for the year ended 31 December 2018 (2017 - £Nil).

KEY PERFORMANCE INDICATORS

The company uses a variety of performance indicators to review historical performance and plan for the future. The key indicators are turnover, gross profit margin, and net assets, as described below.

Turnover

Turnover levels increased to £388,241,000 in 2018, compared to £344,326,000 in the previous year. This growth was driven by increased demand for streaming services, as well as the timing of new releases. The directors consider that the outlook for future years is positive as the expectation is for continued growth in demand for streaming services.

Gross profit margin

The company's gross profit margin increased from 31.0% to 32.0% this year. This was the result of both product mix and strong cost controls maintained by the company.

Net assets

The company's net asset position at 31 December 2018 remains strong at £61,668,000 (2017 - £69,903,000). The reduction on the prior year was driven by the overall loss for the financial year. The loss was a result of interest payable to other group undertakings.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The company uses a variety of financial instruments including cash, equity and other instruments such as artist advances, trade receivables and trade payables that arise directly from its operations.

The directors are of the view that the main risks arising from the company's financial instruments are exchange rate risk, interest rate risk, liquidity risk and credit risk, as summarised below:

Exchange rate risk

Exchange rate fluctuation presents a risk because some sales are priced in overseas currencies, and certain balances are denominated in currencies other than Sterling. The directors do not consider that the potential downside is significant enough to require hedging but continue to monitor the potential risk.

Interest rate risk

The company does not have any significant external borrowings and as such the directors consider the related interest rate risk to be minimal. The interest rate risk related to the company's defined benefit pension scheme is also considered to be minimal following an insured buy-in process completed in 2017.

Liquidity risk

The company manages its financial risk by ensuring liquidity is sufficient to meet future needs, and that sufficient funding is in place before any new commitments are entered into. The cash position and cash flow forecasts are monitored by management on a regular basis.

Credit risk

The principal credit risk arises from trade debtors. Management approve credit terms for all new customers, and regularly review the credit position of existing accounts.

STRATEGIC REPORT (continued)

YEAR ENDED 31 DECEMBER 2018

GOING CONCERN

The company is currently loss making, due to the rate of interest payable on amounts owed to group undertakings, which exceeds the rate of interest receivable on amounts due from group undertakings. However, in the current year the company made an operating profit of £21,342,000, and as at 31 December 2018 has net current assets of £21,939,000. Based on these factors, and after making enquiries, the directors have a reasonable expectation that the company has adequate resources available to it to continue in operational existence for the foreseeable future, and for at least 12 months from the date the financial statements are authorised for issue. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

PRINCIPAL RISKS AND UNCERTAINTIES

The company is faced with similar risks and uncertainties as other companies operating in the recorded music business, broadly:

- competition from major and independent record companies that market and distribute recorded music and video;
- competition from alternative entertainment products;
- price pressure from the increased presence of supermarkets in the music market and their threat to the survival of independent music retailers;
- the threat of a devalued product due to piracy and the illegal use of music;
- uncertainty as to whether the growth in the subscription services market will continue in the longer term; and
- interest rate fluctuations.

All risks and uncertainties are regularly monitored by the directors, including the following:

Brexit

Following the referendum held on 23rd June 2016 the United Kingdom is expected to leave the European Union ("Brexit").

The directors of the company are assessing the possible impact that this may have on its operations, including but not limited to:

- logistical challenges of potential delays at UK ports;
- new VAT and customs rules that may apply to trade with the EU; and
- changes in freight and duty charges for moving goods to and from the EU.

This assessment will continue until the terms of the United Kingdom's departure are known. However, the directors do not consider Brexit to represent a significant risk to the company's operations.

Climate change

At this stage the directors do not consider that the effects of climate change pose a significant risk to the company's operations.

FUTURE DEVELOPMENTS

Notwithstanding the risks and uncertainties outlined above, the directors do not anticipate any significant change in the activities and results of the company in the foreseeable future.

By order of the board

DRJ Sharpe Director

Date: 17 May 2019

DIRECTORS' REPORT

YEAR ENDED 31 DECEMBER 2018

The directors present their report, together with the financial statements and the auditor's report of the company for the year ended 31 December 2018.

The directors have included the following matters within the strategic report, otherwise required to be disclosed in the directors' report, as they are considered to be of strategic importance to the company.

- · Financial risk management objectives and policies; and
- Future developments.

DIRECTORS

The directors who served the company during the year and subsequently were as follows:

DS Joseph AM Barker DRJ Sharpe

DIRECTORS' QUALIFYING THIRD PARTY INDEMNITY PROVISIONS

A qualifying third party indemnity provision remains in force as at the date of approving the directors' report, subject to the provisions of section 236 of the Companies Act 2006. Vivendi SA, headed by Bolloré Group, the ultimate parent undertaking, maintains a Directors & Officers Liability Programme which indemnifies directors' personal liabilities resulting from alleged wrongful acts committed in the line of their employment.

POLICY ON THE PAYMENT OF CREDITORS

It is the company's policy that payments to suppliers are made in accordance with those terms and conditions agreed between the company and its suppliers, provided that all trading terms and conditions have been complied with.

DONATIONS

During the year the company made the following contributions:

	2018 £	2017 £
Charitable donations	320,662	380,278

DIRECTORS' REPORT (continued)

YEAR ENDED 31 DECEMBER 2018

DIRECTORS' RESPONSIBILITIES STATEMENT

The directors are responsible for preparing the annual report and financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will
 continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

AUDITOR

In so far as each of the directors at the date of approving this report are aware:

- there is no relevant audit information of which the company's auditor is unaware; and
- each director has taken all steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Pursuant to Section 487 of the Companies Act 2006, Deloitte LLP will be deemed to be reappointed and will therefore continue in office.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UNIVERSAL MUSIC OPERATIONS LIMITED

YEAR ENDED 31 DECEMBER 2018

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

In our opinion the financial statements of Universal Music Operations Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and
- have been prepared in accordance with requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the statement of comprehensive income;
- the statement of financial position;
- the statement of changes in equity; and
- the related notes 1 to 26.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UNIVERSAL MUSIC OPERATIONS LIMITED (continued)

YEAR ENDED 31 DECEMBER 2018

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UNIVERSAL MUSIC OPERATIONS LIMITED (continued)

YEAR ENDED 31 DECEMBER 2018

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

We have nothing to report in respect cf these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters which we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2018

1. GENERAL INFORMATION

Universal Music Operations Limited is a private company limited by shares and incorporated in the UK under the Companies Act 2006 registered in England and Wales. The registered office is 4 Pancras Square, London, N1C 4AG.

The principal activities of the company and the nature of its operations are set out in the strategic report on pages 2 and 3.

2. STATEMENT OF COMPLIANCE

The company's financial statements have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3. ACCOUNTING POLICIES

Basis of preparation of financial statements

These financial statements have been prepared on a going concern basis, under the historical cost convention. The financial statements are prepared in sterling, which is the functional currency of the company, and have been rounded to the nearest £'000.

FRS 102 - Qualifying exemptions

The company meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by FRS 102:

- from preparing a statement of cash flows and related notes;
- from preparing a reconciliation of the number of shares outstanding from the beginning to the end of the financial year;
- from disclosing related party transactions with wholly owned group undertakings;
- from disclosing key management personnel compensation; and
- from certain financial instrument disclosures required by FRS 102.11 Basic Financial Instruments and FRS 102.12 Other Financial Instruments.

This information is included in the consolidated financial statements of the company's parent undertaking, Vivendi SA, copies of which can be obtained from 42 Avenue de Friedland, 75380 Paris, Cedex 08, France.

Other qualifying exemptions

As the ultimate parent undertaking prepares publicly available consolidated financial statements and is incorporated within the European Union, the company has taken advantage of the exemption under section 400 of the Companies Act 2006 from preparing consolidated financial statements. As such, these financial statements give information about the company as an individual undertaking and not about its group.

Going concern

The Company's business activities, together with the factors likely to affect future developments, its financial exposures and its risk exposures, are described in the strategic report. The company is currently loss making, due to the rate of interest payable on amounts owed to group undertakings, which exceeds the rate of interest receivable on amounts due from group undertakings. However, in the current year the company made an operating profit of £21,342,000, and as at 31 December 2018 has net current assets of £21,939,000. Based on these factors, and after making enquiries, the directors have a reasonable expectation that the company has adequate resources available to it to continue in operational existence for the foreseeable future, and for at least 12 months from the date the financial statements are authorised for issue. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

3. ACCOUNTING POLICIES (continued)

Turnover

Turnover comprises the value of sales of physical goods, digital products, royalty income and services rendered during the year. It is stated net of VAT, discounts and returns.

Turnover from sales of goods is recognised when products are despatched, at which point the significant risks and rewards are considered to be transferred to the customer. Turnover relating to digital products and royalty income is recognised when the products are sold, or if it cannot be reliably estimated, on a receipts basis. Turnover relating to services rendered is recognised once the services have been performed. Royalties payable are charged against the relevant income of the same period.

Income from participating interest

Income from participating interest is recognised when distributions are received.

Property, plant and equipment

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Leasehold Improvements

over the life of the lease

Plant & Machinery

2% - 25% straight line

Assets under construction are not depreciated until construction is completed and the asset is ready for use.

The carrying values of tangible fixed assets are reviewed for impairment in periods if events or changes in circumstances indicate the carrying value may not be recoverable.

Financial instruments

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

3. ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when, there exists a legally enforceable right to set off the recognised amounts and the company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the following conditions of being 'basic' financial instruments as defined in paragraph 11.9 of FRS 102 are subsequently measured at amortised cost using the effective interest method.

Debt instruments that have no stated interest rate (and do not constitute financing transaction) and are classified as payable or receivable within one year are initially measured at an undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Investments

Investments in subsidiaries are carried at cost less impairment.

Equity instruments

Equity instruments issued by the company are recorded at the fair value of cash or other resources received or receivable, net of direct issue costs.

Advances

Advances to unproven artists, where no discernible track record of activity is evidenced, are expensed. Advances to proven artists are written down to the estimated amount that will be recoverable from future royalty payments to the artist. Net advances are classified as falling due within one year, although elements may not be recovered until more than one year.

Fair value measurement

The best evidence of fair value is a quoted price for an identical asset in an active market. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the market is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is estimated by using a valuation technique.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

3. ACCOUNTING POLICIES (continued)

Inventories

Inventories are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Net realisable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal.

Impairment (excluding inventories and deferred tax assets)

Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss as described below.

Non-financial assets

An asset is impaired where there is objective evidence that, as a result of one or more events that occurred after initial recognition, the estimated recoverable value of the asset has been reduced. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

Where indicators exist for a decrease in impairment loss previously recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Financial assets

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

3. ACCOUNTING POLICIES (continued)

Employee benefits

Pension costs and other post-retirement benefits

The company participates in a pension scheme in the UK, ultimately operated by Vivendi SA; the Universal Music Group Pension Scheme ("UMGPS" or "the Scheme"). The Scheme is a mixed defined benefit and defined contribution Scheme and operates on a pre-funded basis.

In respect of employees of the company, contributions to the defined benefit section are charged to the statement of comprehensive income as they become payable in accordance with the rules of the Scheme. The defined benefit section of the Scheme closed to future accrual from 31 March 2011.

With effect from 1 April 2011 defined contribution accrual is under a contract-based Group Personal Pension ("GPP") arrangement operated by Standard Life. In respect of employees of the company, contributions to the GPP are charged to the statement of comprehensive income as they become payable.

FRS 102 requires that the Scheme's underlying assets and liabilities can be allocated to the entities sponsoring the Scheme. This allocation could not be done on a consistent and reasonable basis for Universal Music Operations Limited alone.

Provisions

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Leases

The company as lessee

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

Interest receivable and Interest payable

Interest receivable and similar income include interest receivable on funds invested.

Interest payable and similar charges include interest payable, finance charges and unwinding of the discount on provisions that are recognised through profit or loss in the statement of comprehensive income.

Interest receivable and interest payable are recognised in the statement of comprehensive income as they accrue.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

3. ACCOUNTING POLICIES (continued)

Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised through profit or loss in the statement of comprehensive income except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met; and differences relating to investments in subsidiaries, associated and joint ventures to the extent that it is not probable that they will reverse in the foreseeable future and the reporting entity is able to control the reversal of the timing difference. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the statement of financial position date. Deferred tax balances are not discounted.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Foreign currencies

Transactions in foreign currencies are translated to the company's functional currency at the foreign exchange rate ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction. Foreign exchange differences arising on translation are recognised through profit or loss in the statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

3. ACCOUNTING POLICIES (continued)

Critical accounting judgements and key sources of estimation uncertainty

The directors may make judgements in the application of the accounting policies above that have a significant impact on the amounts recognised, and may make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the company's accounting policies

The directors have concluded there are no critical judgements to disclose.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Artist royalty provisions

The company holds a provision for artist royalty audits as disclosed in note 19. The value of the provision is an estimate and the actual costs and timing of cash flows are dependent on future events. Any differences between expectations and the actual future liability are accounted for in the period when such determination is made.

Dilapidation provisions

The company holds a provision for dilapidations as disclosed in note 19. The value of the provision is an estimate and the actual costs and timing of cash flows are dependent on future events. Any differences between expectations and the actual future liability are accounted for in the period when such determination is made.

Defined benefit pension valuation

The company participates in a defined benefit pension scheme as disclosed in note 20. A pension valuation has been performed using specialist advice obtained from independent qualified actuaries. In performing these valuations, significant actuarial assumptions and judgments have been made to determine the defined benefit obligation, in particular with regard to discount rate, inflation and mortality.

Artist advance provisions

The company makes provisions against artist advances based on an assessment of the likelihood of recovering the balance through future artist royalties, which involves an element of estimation. The actual artist royalties may differ from these estimates.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

11. TAX ON LOSS (continued)

(b) Factors affecting tax credit

The tax assessed on the loss on ordinary activities for the year is lower than the standard rate of corporation tax in the UK of 19.00% (2017 - 19.25%).

Under the Finance (No. 2) Act 2015, the main rate of corporation tax was reduced from 20% to 19% effective from 1 April 2017. A further reduction to 17% from 1 April 2020 will apply by virtue of the Finance Act 2016 s46 which was enacted on 15 September 2016. Deferred tax assets and liabilities are measured at the rate expected to apply to the accounting period when the asset is realised or the liability is settled, based on the above rates.

	2018 £'000	2017 £'000
Loss before taxation	(8,758)	(20,564)
Loss at the standard rate of UK Corporation tax of 19.00% (2017 - 19.25%)	(1,664)	(3,959)

YEAR ENDED 31 DECEMBER 2018

19. PROVISIONS FOR LIABILITIES AND CHARGES

1	Artist Royalties Other Provisions		Total	
	£'000	£'000	£'000	
At 1 January 2018	19,999	6,903	26,902	
Movement arising during the year	31	5,751	5,782	
At 31 December 2018	20,030	12,654	32,684	

Provision is made against the outcome of artist royalty audits ongoing at the reporting date, and against additional artist royalty obligations anticipated by management at the reporting date, resulting from a past event likely to give rise to the transfer of economic benefit.

Until such time as a formal audit notification is received, the liability is not expected to crystallise within 12 months of the reporting date and is therefore classified as a non current provision.

Other provisions includes property dilapidations, restructuring provisions and other employee related provisions. At present, the timing of when these liabilities will crystallise is not certain.

20. PENSIONS AND OTHER POST RETIREMENT BENEFITS

Vivendi SA operates the UMGPS, formerly known as the Vivendi Universal Pension Scheme, in the United Kingdom. It is designed to provide retirement benefits for certain employees. This is the most significant scheme operated by Vivendi SA in the UK and the principal company of the Scheme is Universal Music Operations Limited. The Scheme is independent of the group and is trustee administered. The Scheme has been approved by HM Revenue & Customs for taxation purposes.

The Scheme is a mixed defined benefit and defined contribution scheme.

Prior to 13 November 2008, each defined benefit member of the Scheme was subject to one of two different benefit structures. Members with a Universal benefit structure consisted of current and former Universal Music employees and former Vivendi Universal Entertainment ("VUE") employees. Members with a Seagram Wines and Spirits Group ("SWSG") benefit structure consisted of former SWSG employees. The underlying assets and liabilities of the Scheme allocated to the Universal Music members were accounted for within Universal Music Operations Limited and the underlying assets and liabilities of the Scheme allocated to the SWSG and VUE members were accounted for within Centenary Holdings Limited ("CHL"). Both companies are fellow group undertakings.

On 13 November 2008 the pensioner members of the Scheme transferred to the Vivendi 2008 Pensioners' Scheme ("VPS"), which is accounted for in its entirety within CHL. The underlying liabilities allocated to these members and related assets were transferred at the same point in time and the transfer was accounted for as a settlement within UMGPS. Consequently, from 13 November 2008, the company no longer holds any liability in respect of the transferring pensioner members.

Following the transfer of pensioner members the underlying assets and liabilities of the Scheme allocated to the Universal Music members at 13 November 2008 remain accounted for within Universal Music Operations Limited.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018

20. PENSIONS AND OTHER POST RETIREMENT BENEFITS (continued)

FRS 102 requires that a pension scheme's underlying assets and liabilities can be allocated to the entities sponsoring the scheme. This allocation could not be done on a consistent and reasonable basis for Universal Music Operations Limited alone.

Formal actuarial valuations are carried out on at least a triennial basis and updated at each reporting year end. A full formal actuarial valuation was carried out as at 5 April 2015 by Mercer Limited as independent, professionally qualified actuaries to the Scheme.

The Scheme completed two significant exercises during 2017:

- An enhanced transfer value exercise that reduced the assets and liabilities with the difference being recognised in the pensions charge for 2017.
- An insured buy-in whereby the majority of the liabilities for remaining members were fully secured. This resulted in an
 asset loss equal to the excess of the purchase price over the liability measured on the accounting basis which was
 recognised in the charge to other comprehensive income in 2017.

During 2018 further GMP equalisation and reconciliation exercises related to the insured buy-in were completed, which resulted in further experience adjustments recognised in other comprehensive income.

The results of the 5 April 2015 valuation have been updated to 31 December 2018 for FRS 102 purposes. The valuation update showed that the deficit remained at £2,000,000, with the market value of the assets being £111,000,000 and the liabilities £113,000,000.

The company's total contributions amounted to £3,000,000 for the year ended 31 December 2018 (2017 - £8,100,000).

Movements in the present value of defined benefit obligation:

Expected total benefit payments:

Year 1	Year 2	Year 3	Year 4	Year 5	Next 5 years
£'000	£'000	£'000	£'000	£'000	£'000
2,500	2,600	2,700	2,800	2,900	15,900

With effect from 31 March 2011, the defined benefit section of the scheme closed to future accrual. Past service benefits remain linked to the final salary for active members of the scheme who accrued defined benefits up to or after 1 October 2005. The participating employers to the scheme agreed to contribute a minimum amount per annum, plus the cost of administration expenses and death in service insurance premiums. The company's share of this amounted to £3,000,000 in 2018 (2017 - £8,100,000). The company expects to contribute £300,000 in 2019.

NOTES TO THE FINANCIAL STATEMENTS (continued)

YEAR ENDED 31 DECEMBER 2018
