Director's Report

The director present his annual report, together with the audited Financial Statements of Kaupthing Group UK Limited (the "Company"), for the year ended 31 December 2012

PRINCIPAL ACTIVITY

The Company is an investment holding company

BUSINESS REVIEW

The principal risks and uncertainties affecting an investment holding company are that the value of its investments may be adversely affected by a variety of factors. An event occurred when the Company's principal subsidiary, Kaupthing Singer & Friedlander Limited, was put into administration on 8 October 2008 following a prolonged period of turbulence in the banking sector. Not only has this significantly affected the value of the Company's investments (the effect on the balance sheet is shown in Note 7 to the Financial Statements), but it has also affected the Company's liquidity as most of the Company's cash, as well as the cash of its other subsidiaries, was held in accounts with Kaupthing Singer & Friedlander Limited.

The administrators of Kaupthing Singer & Friedlander Limited have indicated in their progress report to 7 April 2013 there should be a minimum recovery of 84p in the £1 although the final amount could be higher or lower. For the purposes of these Financial Statements, the directors have applied a 84% recovery of cash held on deposit with Kaupthing Singer & Friedlander Limited. Given that the director does not believe that the Company will have significant imminent liabilities, the director believes that the Company will remain a going concern for the 12 months from the date of this report.

The Company's immediate parent undertaking is Kaupthing Holdings UK Limited, a company incorporated and registered in England and Wales. The Company's ultimate parent undertaking is Kaupthing hf', a company incorporated and registered in Iceland.

The Financial Statements are prepared on a going concern basis. The director does not believe that the Company will have significant imminent liabilities and the Company will remain a going concern for the 12 months from the date of signing these Financial Statements. In this regard, the director believes that a portion of the cash of the Company which was deposited will be recovered in the administration of Kaupthing Singer & Friedlander Limited. 2 2 Significant accounting judgements and estimates

The preparation of the Financial Statements in conformity with IFRS requires management to make judgements, estimates and assumptions. These judgements, estimates and assumptions affect the reported amounts of assets and liabilities as well as income and expenses in the Financial Statements presented. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates

The estimates and assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimation is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

2 3 Change in accounting policies

The accounting policies adopted are consistent with those used in the previous financial year

Notes to Financial Statements (continued)

Note 2 Accounting policies (continued)

2 4 Summary of significant accounting policies

(1) Income

a) Interest income

Interest income is recognised in the Statement of Comprehensive Income as it accrues, taking into account the effective yield of the asset or an applicable floating rate

(2) Income tax

Income tax comprises current and deferred tax. Income tax is recognised in the Statement of Comprehensive Income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years

Deferred tax

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority

(3) Investment in subsidiaries

The Company's investment in its subsidiaries is stated at the director's valuation. At the balance sheet date an impairment review was undertaken as the recoverable amount was less than its carrying value.

(4) Cash and cash equivalents

Cash and cash equivalents in the Statement of Cash Flows consist of cash and demand deposits with other credit institutions

Notes to Financial Statements (continued)

Note 2 Accounting policies (continued)

(5) New and revised IFRS

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2013, and have not been applied in preparing these Financial Statements

However none of these is expected to have a significant effect on the Financial Statements of the Company
