Report of the Director for the Period 30 January 2011 to 28 January 2012

The director presents his report with the financial statements of the company for the period 30 January 2011 to 28 January 2012

PRINCIPAL ACTIVITY

The principal activity of the company in the period under review was that of a holding company

REVIEW OF BUSINESS

We aim to present a balanced review of the development and performance of our business during the period and its position at the period end. Our review is consistent with the size and non-complex nature of our business

The company does not trade but receives income from a variety of sources, such as rental income and bank interest Dividends are also received from one of the subsidiary companies

We consider that our key financial performance indicators are those that communicate the financial performance and strength of the company as a whole, these being rental and investment income

Income excluding inter group dividends increased from £281,731 in 2011 to £368,862 in 2012. This is due to increases in both rents and investment income received

The company now holds assets as cash, investments and property. The future income of the company is subject not only to outside factors such as market conditions but also to the success of the two subsidiaries, from whom dividends can be received. Plans for the future development of those businesses may be subject to unforeseen future events outside of our control.

DIVIDENDS

No dividends will be distributed for the period ended 28 January 2012

DIRECTOR

Mr F Bird held office during the whole of the period from 30 January 2011 to the date of this report
