Financial assets

Financial assets are assessed for indicators of impairment at each Balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty
- default in interest or principal payments
- it becoming probable that the borrower will enter bankruptcy

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account.
