Trustees' Annual Report

The Board of Trustees presents its report and the audited financial statements for the year ended 31 December 1999.

Objects and Organisation of the Charity

The principal activity of the charity has continued to be the worldwide provision of reproductive healthcare services. There have been no material changes in policy in the past 12 months.

Marie Stopes International's mission remains to enable people to have *children by choice not chance*. The charity's goal remains the prevention of unwanted births. These are achieved through:

- A clear focus on family planning while undertaking a broad spectrum of reproductive health activities within the remit of the International Conference on Population and Development.
- A customer led, rather than provider driven, approach which ensures a choice of high quality family planning and reproductive health services, through comprehensive information, advice and delivery mechanisms that are tailored to local needs.
- A unique commitment to sustainable programmes through the transfer of enduring management skills and technology to partners and the development of a diverse funding base, including cost recovery mechanisms.

Marie Stopes International operates by way of two divisions. The UK clinic division is responsible for establishing and managing family planning clinics, nursing homes and referral centres in the UK. The overseas programmes division is responsible for establishing, monitoring and providing technical assistance to overseas programmes.

Family planning and reproductive health projects overseas are implemented by an independent non-governmental organisation in each of the countries in which Marie Stopes International works. These organisations work together with Marie Stopes International and each other to create an informal global partnership. A full list of the organisations that receive funding from Marie Stopes International is available from the charity's registered office.

Marie Stopes International's success depends in a large measure on the optimum involvement of people at all levels and specific policies are followed to this end. All aspects of the employment of people or the engagement of professional services are undertaken regardless of any individual's colour, ethnic or national origins, religion, sex, marital status, sexual orientation, age or disability.

Constitution of the Charity

Marie Stopes International is a registered charity and is constituted as a company, limited by guarantee. Its objects and powers and other constitutional matters are set out in its Memorandum and Articles of Association. The Memorandum and Articles of Association do not contain any onerous restrictions concerning the way in which the company can operate. As a company Marie Stopes International has a general investment power.

Trustees are subject to retirement by rotation. New appointments and re-appointments are made by members of the Board at Annual General Meetings.

Trustees and their Statutory Responsibilities

The Trustees serving at 31 December 1999 are noted on page 1. None of the Trustees received any reimbursement of expenses during the year (1998: None).

Company and charity law requires the Board, as Trustees and Directors, to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and the results for that period. In preparing those financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any departures disclosed and explained in the financial statements:
- prepare the financial statements on the going concern basis unless it is inappropriate to assume that the charity will be able to continue to meet its objectives.

The Trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charity and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Results and Review of Activities

The net increase in funds for the financial year was £4,592,000 (1998: £1,955,000). The Trustees are pleased with the results for the year under review and they anticipate further growth in service delivery and improvements in cost recovery in the future. Marie Stopes International measures the impact of its activities through a statistical measure, couple years of protection, the international yardstick for assessing the impact of any method of family planning. One couple year of protection will provide one couple with contraceptive cover for one year.

Couple years of protection (CYPs) provided by Marie Stopes International's UK clinics division fell by 7% to 176,000 in 1999, compared with 190,000 in 1998. Couple years of protection provided by Marie Stopes International's overseas partners rose by 19% to 3,173,000 in 1999, compared with 2,676,000 in 1998.

UK Developments & Results

Growth of both activity and income has continued throughout 1999 with income increasing from £12,840,000 to £14,984,000, an increase of 17%.

Development of purpose built day centres has continued with the successful opening of a new centre in Bristol and research for potential sites in two further locations, at least one of which will open in 2000. While overall demand for termination of pregnancy services decreased nationally by 2.5% (OPCS data, quarters One to Three), the numbers of customers served by Marie Stopes International UK Clinics increased by 6.5%, reflecting the increased availability of services nationally.

A small decrease in customers for vasectomy reflects changes to primary care contracting arrangements with the introduction of Primary Care Groups. Increased computerisation of systems, including the development of 'on-line' booking will continue into 2000 leading to increased efficiency and customer service.

Delays in the development of software for the establishment of a centralised call centre impacted severely on our cost structure and contributed in part to a significant increase in overhead costs. A gradual implementation programme for the call centre — Marie Stopes One Call — was undertaken in the latter part of the year to become fully operational in early 2000.

Changes to the UK regulations governing abortion provision came into effect in October 1999, relaxing some of the more onerous requirements relating to service provision. As a result, centres can now become more efficient leading to an improved service to customers and financial savings. The full effects of these changes will be seen in the course of 2000.

Overseas Developments & Results

1999 saw continued growth in activity and substantial growth in programme funding from a number of sources. Total grants received grew from £9,798,000 in 1998 to £17,341,000, an increase of 77%.

This growth reflects increased income from the majority of funding sources including the Department for International Development, European Union and United Nations. A small decrease in restricted grants from UK trusts and foundations was partially offset by a small increase in unrestricted funds from similar sources.

Development and diversification of the donor base has continued, showing a reduction in the proportion of funding received from our two major funders — the Department for International Development and European Union — from 43% to 41% of total restricted funds.

Major growth in funding was realised from North American trusts and foundations, primarily the David and Lucille Packard Foundation, who have this year become our second largest donor of restricted funds. Specifically they have funded programmes in the Philippines, Mexico and Pakistan while a further proposal for Ethiopia is under consideration.

Although there was little programme development in new countries in the course of 1999, significant growth was seen in a number of existing programmes. Clinic programmes in Sierra Leone, Yemen, Cambodia, Mongolia, Myanmar and Albania all increased client visits by over 100%, while Cambodia, Bolivia, Honduras, Peru and Albania all increased CYP numbers by over 100%. Across the partnership, CYP's increased to over 3.3 million, an increase of 16%.

In Marie Stopes International's London Support Office, investment has been made in the development of in-house technical teams. Two additional clinical specialists have been recruited to provide support to partners in clinical standards and quality of care while a Monitoring and Evaluation specialist will devise tools to assist both Marie Stopes International and partner teams in assessing the effectiveness and impact of project activities against objectives.

A Global Workshop for all partners was held in Brighton, England in April 1999 to launch the Marie Stopes International Partnership Manual. This document sets out the business principles of Marie Stopes International together with clinical and service delivery standards. The Partnership Manual seeks to distil best practice examples of partner organisations and set standards applicable to all. Later in the year assessment of partner organisations against these standards began and the process is on course for completion during 2000.

Subsidiary Undertakings

Options Consultancy Services Limited enjoyed an excellent first half to the year with increases in turnover, gross profit and net profit against the same period in 1998. However, following the mid-year cessation of the Resource Centre contract with Department for International Development, there was a temporary downturn in business. The company ended the year with an increased turnover compared with 1998 but with a slightly lower gross profit and a very small profit after taxation for the year. This was due not only to a decrease in income but to a very considerable planned investment in marketing in order to develop new opportunities. It is confidently anticipated that this will lead to new and diversified business and an increased profit in 2000.

On 1 April 1999, Marie Stopes International acquired the entire share capital of Shawline Developments Limited, parent of two Austrian companies – Ordinations Management Service GmbH (OMS) and Ambulatorium am Fleischmarkt Betriebs GmbH. Through the merger of OMS with Ambulatorium am Fleischmarkt Betriebs GmbH a single company was formed that is now trading successfully under the latter name.

As a subsidiary of Marie Stopes International, Ambulatorium am Fleischmarkt Betriebs GmbH adds a new dimension to our European activities. A single clinic with projected customer visits of over 6,000 per annum and a post tax profit of £125,000 generated in the first nine months of trading, it is confidently predicted that the clinic will contribute significantly to the discretionary funds available to support overseas development.

Financial Position & Reserves

At 31 December 1999 the Marie Stopes International Group's total funds amounted to £17,709,000, including funds restricted for overseas projects of £6,538,000.

Unrestricted funds of £762,000 have been set aside to cover Marie Stopes International's future contributions due to existing co-financed projects.

A further £3,271,000 of the unrestricted funds at the year end is a revaluation reserve, representing the difference between the written down value of freehold properties and the most recent professional valuations of such properties.

The remaining funds of £7,138,000 at the year-end are unrestricted general funds. These are available to cover any deficit on the restricted funds for any particular project. See note 1k of these accounts for Marie Stopes International's reserves policy.

Fixed Assets

The cost of investment in implementing a call handling service for all UK customer services is included in the additions to computer equipment of £992,000.

Investment in alterations to freehold properties continued in the year, giving rise to additions to fixed assets of £503,000. The expenditure primarily represents the ongoing redesign and refurbishment of centres to maintain a high quality environment for our customers.

Details of movements in fixed assets during the year are given in note 9 to the financial statements.

Auditors

In accordance with the Companies Act 1985, a resolution to reappoint Chantrey Vellacott DFK as auditors to Marie Stopes International will be put to the Annual General Meeting.

By order of the Board

Dr TRL Black Secretary

Date: 20 June 2000

Marie Stopes International Group

Auditors Report to the Members of the Marie Stopes International Group

We have audited the financial statements set out on pages 6 to 27 which have been prepared under the historical cost convention as modified by the revaluation of freehold properties and the accounting policies set out on pages 11 to 12.

Respective responsibilities of Trustees and auditors

As described on page 2, the charity's Trustees (who also act as directors of Marie Stopes International for the purposes of company law) are responsible for the preparation of financial statements. It is our responsibility to form an independent opinion, based on our audit, on those statements and to report to you.

Basis of opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practises Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Trustees in the preparation of the financial statements, and of whether the accounting policies are appropriate to the charity's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

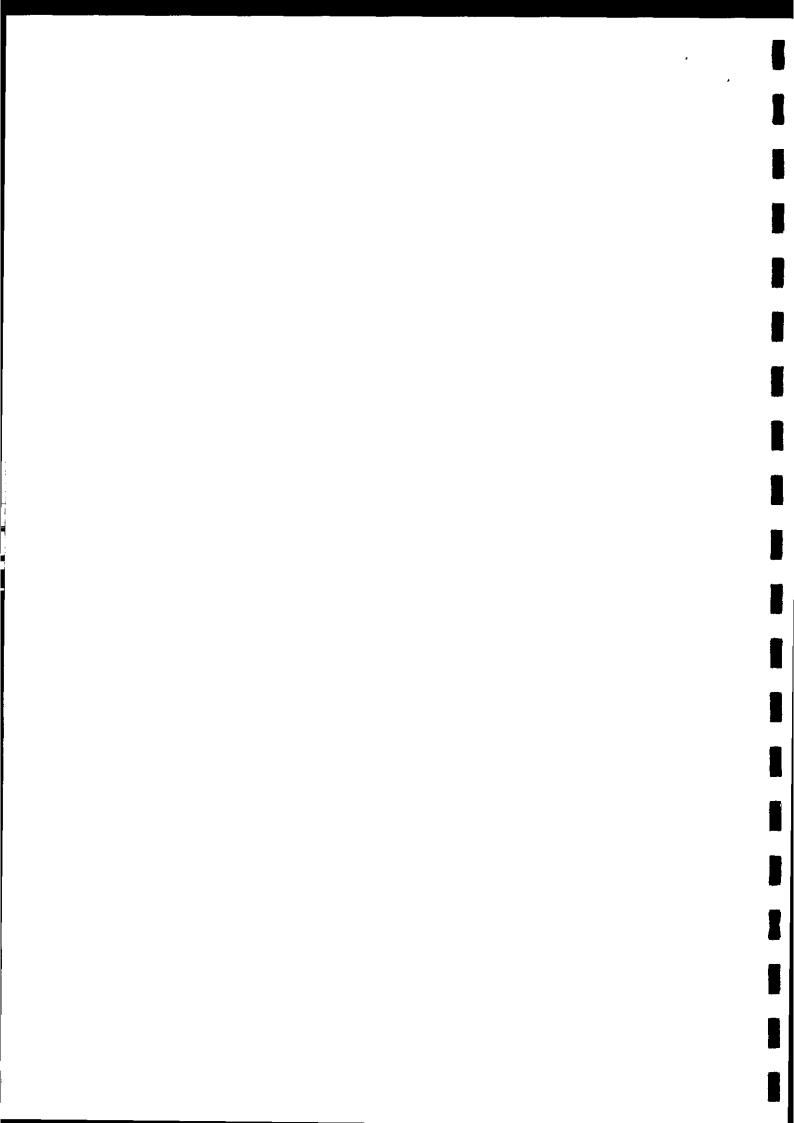

Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the charitable company and its subsidiary undertakings as at 31 December 1999 and of its incoming resources and application of resources, including its income and expenditure, in the year then ended, and have been properly prepared in accordance with the Companies Act 1985.

1 Accounting Policies

The financial statements have been prepared under the historical cost convention as modified by the revaluation of freehold properties and in accordance with Statement of Recommended Practice Accounting by Charities and applicable Accounting Standards.

The principal accounting policies adopted are as follows:

a) Basis of consolidation

The operating results of subsidiary undertakings have been fully consolidated in the Income and Expenditure Account.

b) Income

Income comprises the gross amounts receivable from customers for reproductive healthcare and consultancy services and receipts of grants and donations.

c) Foreign currencies

Transactions denominated in foreign currencies are recorded at the rate of exchange ruling at the dates of transactions. Monetary assets and liabilities in foreign currencies are translated into sterling at the exchange rate ruling at the balance sheet date and exchange differences are included in the Income and Expenditure Account.

d) Pension costs

The charity operates a defined contribution scheme. The assets of the scheme are held separately from those of the charity in an independently administered fund managed by the Standard Life Assurance Company.

e) Operating leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the Income and Expenditure Account as incurred.

f) Allocation of costs

Costs incurred by the Group are allocated across the various types of expenditure as follows:

Disbursements for overseas programmes - Costs relating directly to overseas programmes, eg transfers of funds, purchase of supplies.

Overseas programmes support costs - Costs relating to the development, monitoring and support of overseas programmes, eg programme teams' salaries, office costs allocated on the basis of space used.

Reproductive healthcare services delivery costs - Costs relating directly to service provision, eg clinic running costs and salaries.

Fundraising and publicity - Costs relating to donor and media relations and advertising, eg production of publications, visits to donors, office costs allocated on the basis of space used.

1 Accounting Policies (continued)

Management and administration of the charity - Costs relating to the charity's head office which cannot be directly identified as applicable to one of the other categories, eg finance costs, office costs allocated on the basis of space used.

g) Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation has been provided at rates calculated to write off the cost or valuation of fixed assets less their estimated residual value, on a straight line basis over their useful economic lives as follows:

Freehold properties

Over estimated useful life but none in the year of revaluation

Leasehold properties

Over period of the lease

Furniture, fixtures, fittings and

20% to 50% per annum

office equipment
Medical equipment

20% to 50% per annum 25% to 50% per annum

Computer equipment

25% per annum

Motor vehicles

h) Stocks

Medical and drug stocks are considered to be of negligible value and as from 1st January 1999 all such costs incurred are treated as fully expended through the Income and Expenditure Account. Work in progress represents amounts invoiced in excess of costs yet to be incurred on behalf of customer at the year end.

i) Investments

Current asset investments are shown in the financial statements at market value. Any material increase or decrease in the value is included in the Income and Expenditure Account.

j) Goodwill

Goodwill is amortised over a period of five years.

k) Reserves

General reserves - It is the aim of the Trustees that the balance of funds retained in the general reserve will become sufficient to finance up to 6 months unfunded expenditure and loan repayments. This policy is reviewed on an annual basis and the adequacy of the policy judged in the light of all relevant information.

Contingency reserves - The contingency reserves represent provisions made by the charity equal to the charity's outstanding commitment to co-financed projects.

Revaluation reserves - The revaluation reserves represent the difference between the written down value of freehold properties and professional valuations of such properties calculated at the time of the professional valuation.

Specific reserves - The specific reserves represent funds made available to the charity to be expended in accordance with the wishes of the donor. Transfers are made from restricted funds to unrestricted funds equal to amounts specified by donors as available from project funds to contribute towards the running costs of the charity.

20 Taxation

Marie Stopes International has no liability to UK corporation tax as the company is a charity registered in England and takes advantage of the tax exemption available to charities. The liability to taxation shown in these financial statements relates to tax due on profits of the subsidiary undertakings in the United Kingdom and Austria.

21 Financial commitments

a) Capital commitments

Capital commitments as at 31 December 1999 amounted to £229,000 (1998: £129,000)

b) Operating lease commitments

As at 31 December 1999 commitments for the following year under operating leases for land and buildings were as follows:

	Group £'000	Charity £'000
Expiring:		
Within one year	30	30
Between one & two years	11	11
In five years or more	104	104
	145	145

22 Contingent Liabilities

At 31 December 1999 the liability of the charity to co-financed projects was £763,000 (1998: £967,000). The charity has also given advance payment guarantees of £256,000 (1998:£256,000) to the Department for International Development in respect of projects in Malawi; US\$350,000 (1998:US\$350,000) to the Ministry of Health (Uganda) in respect of projects in Uganda and DM 350,000 (1998:DM 350,000) to Kreditanstalt fur Wiederaufbau for projects in Albania.

23 Transactions involving Trustees and Company Secretary

The charity receives an annual donation of US\$555,000 from DKT International, a company incorporated in the USA in which Mr PD Harvey (Trustee) and Dr TRL Black (Secretary) are directors.

The charity is in receipt of a loan from DKT International as detailed in note 14 to the financial statements.

During the year the charity paid £91,300 (1998: £74,400) to Dr TRL Black (Secretary) for the provision of consultancy and surgical services. The charity also paid £12,288 (1998: £11,100) to Mrs J Black, wife of Dr TRL Black (Secretary) for the provision of secretarial and administrative services.
