REPORT OF THE DIRECTORS FOR THE YEAR ENDED 31st DECEMBER 1992

The directors present herewith the audited financial statements for the year ended 31st December 1992.

Review of activities

The results for the year are shown in the profit and loss account on Page 4.

The company's main activity is unchanged since last year and is principally that of the retention of properties for letting.

Both the level of business and the year end financial position were satisfactory, and the directors expect that the present level of activity will be sustained for the foreseeable future.

Dividends

An interim dividend of £3,000,000 was paid and the directors recommend that no further dividend be paid and that the retained loss of £4,984,506 be deducted from revenue reserves.

DENCORA SECURITIES LIMITED

REPORT OF THE DIRECTORS (continued)

Directors and their interests

The directors named above held office throughout the year.

The interests of Mr. R.C. Youngs, Mr. C.R. Holmes and Mr. C.H. Bradley-Watson are shown in the accounts of the holding company.

Changes in fixed assets

Changes in fixed assets during the year are set out in note 9 to the accounts.

Valuation of property

The completed properties were valued at 31st December 1992 by Drivers Jonas, Chartered Surveyors, on an open market basis in accordance with the Statement of Asset Valuation Practice published by the Royal Institution of Chartered Surveyors.

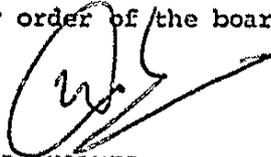

Auditor

A resolution to reappoint Pannell Kerr Forster will be proposed at the Annual General Meeting.

Dencora House,
Beccles.

20th April 1993

AUDITOR'S REPORT

TO THE MEMBERS OF DENCORA SECURITIES LIMITED

We have audited the financial statements on pages 4 to 14 in accordance with Auditing Standards.

In our opinion the financial statements give a true and fair view of the state of the company's affairs at 31st December 1992 and of its loss for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

C.R. HOLMES)
) Directors
 R.C. YOUNGS)

These accounts were approved by the board of directors on 20th April 1993.

DENCORA SECURITIES LIMITEDNOTES TO THE ACCOUNTS - 31st DECEMBER 19921. Principal accounting policies

The accounts are prepared under the historical cost convention modified to include the revaluation of properties held as fixed assets and comply with applicable accounting standards.

(a) Turnover

Turnover, which excludes value added tax, represents work done at invoice value.

(b) Classification of properties

Investment properties are classified as fixed assets. Development properties and properties held for resale are classified as current assets and included in stocks and work in progress. Properties are so classified according to the intention of the directors.

(c) Investment properties

(i) Completed properties are carried at open market value. External valuations will be obtained every year.

(ii) For the purpose of accounting for interest and outgoings, properties are considered to be under construction until a date approximately 6 months after practical completion or, in the case of investment properties, when the property is substantially let if earlier.

(iii) Investment properties under construction are carried on the following bases:

(A) Where letting agreements for not less than 90% of the building have been entered into by the year end, and the basic structure of the building in its existing state can be sold without the need to carry out further work, the properties are carried at open market value less estimates of costs to complete.

(B) In other cases, the properties are carried at cost, less provision in the event of a permanent diminution in value.

(iv) Surpluses and deficits on revaluation are taken to a non-distributable property revaluation reserve. If properties held as fixed assets are sold, the profit or loss, being the difference between sales proceeds and balance sheet value, is treated as an extraordinary item in the profit and loss account, and previously recognised surpluses are reclassified as distributable.

(v) No depreciation or amortisation is provided on investment properties except those held on leases having an unexpired term of less than 20 years.

Buildings for own use are depreciated - see (c) below.

DENCORA SECURITIES LIMITEDNOTES TO THE ACCOUNTS - 31st DECEMBER 1992 (continued)

(vi) Cost of properties is determined on the same basis as described in (g) below

(d) Acquisitions and disposals of properties

Acquisitions and disposals of properties are considered to have taken place where (even if legal completion has not taken place) there is a legally binding, unconditional and irrevocable contract provided that (in the case of disposals where development work is taking place) the properties are substantially complete.

(e) Depreciation

Depreciation on investment properties has been taken into consideration in the values at which these properties are stated in the accounts and therefore has not been charged in the profit and loss account. In the opinion of the directors this accounting policy, which complies with Statement of Standard Accounting Practice No. 10, results in the accounts giving a true and fair view.

Depreciation is provided on a straight line basis for fixed assets, other than freehold land, at rates calculated to write off the cost or valuation over the expected useful lives of the assets concerned. Principal annual rates are:-

Buildings for own use	2%
Plant, equipment and motor vehicles	20%

Charges for depreciation of buildings included in these accounts are based on their value at the beginning of the period.

(f) Deferred taxation

Deferred taxation is calculated on the liability method in respect of the excess of capital allowances over depreciation and in respect of other timing differences. Provision is made to the extent that it is probable that a liability will crystallise.

(g) Stocks and work in progress

(i) Development properties and properties held for resale are included in the accounts at the lower of cost and net realisable value. Cost of properties represents direct costs and a proportion of applicable overheads, and includes interest on any loans directly related to developments and the appropriate portion of interest on general development loans and any other property outgoings incurred (less income received) during the construction period.

(ii) Other stocks and work in progress are stated at the lower of cost (plus in the case of building work in progress on contracts lasting over one year, a proportion of the estimated total profit attributable to the work completed to date) and net realisable value. Cost of stocks and work in progress comprises materials,

DENCORA SECURITIES LIMITEDNOTES TO THE ACCOUNTS - 31st DECEMBER 1992 (continued)

direct labour costs and other costs chargeable direct to contracts and a proportion of applicable overheads. Progress payments received and receivable are deducted. In general, cost of stocks is determined on a first in first out basis and includes transport and handling costs. Net realisable value is the price at which the stocks and work in progress can be realised in the normal course of business less where appropriate the cost of conversion from their existing state to a finished condition. Provision is made for obsolete, slow moving and defective stocks and for all losses expected to arise on completion of contracts entered into at the balance sheet date.

(h) Operating leases

Leasing charges in respect of operating leases are recognised in the profit and loss account over the lives of the lease agreement as incurred.

	<u>1992</u>	<u>1991</u>
